## PRESERVICA LIMITED

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

#### 1. General information

Preservica Ltd is a private limited company, incorporated in the United Kingdom and registered in England and Wales. The registered office of the Company is 32 The Quadrant, Abingdon Science Park, Abingdon, Oxfordshire, OX14 3YS. The principal activity of the Group is the provision of software and related services.

#### 2. Accounting policies

##### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires Group management to exercise judgment in applying the Group's accounting policies (see note 3).

The Company has taken advantage of the exemption allowed under section 408 of the Companies Act 2006 and has not presented its own Statement of comprehensive income in these financial statements.

The following principal accounting policies have been applied:

##### 2.2 Basis of consolidation

The consolidated financial statements present the results of the Company and its own subsidiary ("the Group") as if they form a single entity. Intercompany transactions and balances between group companies are therefore eliminated in full.

The consolidated financial statements incorporate the results of business combinations using the purchase method. In the Balance sheet, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the Consolidated statement of comprehensive income from the date on which control is obtained. They are deconsolidated from the date control ceases.

In accordance with the transitional exemption available in FRS 102, the Group has chosen not to retrospectively apply the standard to business combinations that occurred before the date of transition to FRS 102, being 01 April 2015.

##### 2.3 Going concern

The Group's net liabilities at 31 March 2020 were £1,381,872 (2019: net assets £977,682) of which £2,775,568 was represented by cash reserves (2019: £4,265,553). As the Group is in a research and development phase it has recorded a loss for the year ended 31 March 2020 totalling £2,359,554 (2019: £1,912,606). During this stage of its lifecycle the Group is likely to remain in a net operating cash outflow position and, therefore, will require further investment.

The Directors have prepared budgets and forecasts assessing the required resources to continue in operational existence for the foreseeable future.

The Directors have considered the impact of the global Covid-19 pandemic on the ability of the Group to continue trading for the foreseeable future. This review has included considering the impact of the pandemic to the date of signing the financial statements and updating financial projections and performing rigorous stress testing on these projections in respect of the Group's plans for the future. Based on this review the Directors believe that the financial statements have been prepared appropriately on a going concern basis.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2020

2. Accounting policies (continued)

2.4 Foreign currency translation

**Functional and presentation currency**

The Group and Company's functional and presentational currency is GBP, rounded to the nearest pound.

**Transactions and balances**

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

On consolidation, the results of overseas operations are translated into Sterling at rates approximating to those ruling when the transactions took place. All assets and liabilities of overseas operations are translated at the rate ruling at the reporting date. Exchange differences arising on translating the opening net assets at opening rate and the results of overseas operations at actual rate are recognised in other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2020

2. Accounting policies (continued)

2.5 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

**Rendering of services**

Revenue from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the Group will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

Turnover on fixed price contracts is generally recognised as contract activity progresses so that for incomplete contracts it reflects the partial performance of the contractual obligations unless exception criteria apply. For such contracts the amount of turnover reflects the accruals of the right to consideration by reference to the value of the work performed. Turnover not billed to client is included in debtors as unbilled receivables.

Revenue from licence subscriptions fees, hosting and customer support is invoiced in advance and spread over the period to which the service relates. Revenue from perpetual licences is recognised when the licence is initiated.

Revenue from initial software set-up and from development work is recognised on completion of the the service.

Revenue for consultancy and professional services is recognised when the service is provided.

2.6 Operating leases: the Group as lessee

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the lease term, unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

2.7 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.8 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2020

2. Accounting policies (continued)

2.9 Pensions

**Defined contribution pension plan**

The Group operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity. Once the contributions have been paid the Group has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance sheet. The assets of the plan are held separately from the Group in independently administered funds.

2.10 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company and the Group operate and generate income.

The Group has made claims for Research and Development tax credits for qualifying activities in the UK. The claim for the year ended 31 March 2016 was not deemed sufficiently certain for recognition in the financial statements. The claim was received during the year ended 31 March 2018 and therefore has been recognised during that accounting period.

After 31 March 2016, the claims for Research and Development tax credits have been recognised on an accruals basis as they were deemed sufficiently certain.

2.11 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Leasehold improvement	-	10%	straight line
Fixtures and fittings	-	25%	straight line
Computer equipment	-	33%	straight line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2020

2. Accounting policies (continued)

2.12 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.13 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.14 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.15 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.16 Provisions for liabilities

Provisions are made where an event has taken place that gives the Group a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to profit or loss in the year that the Group becomes aware of the obligation, and are measured at the best estimate at the Balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance sheet.

2.17 Financial instruments

The Group only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

PRESERVICA LIMITED

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2020

3. Judgements in applying accounting policies and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimations means that actual outcomes could differ from those estimates.

The following judgements have had the most significant effect on amounts recognised in the financial statements.

**Dilapidation Provision**

Included in the accounts is a provision related to the cost of dilapidations in respect of the Company's office building. This represents management's best estimate at the balance sheet date of the costs required to meet this future obligation.

4. Employees

The average monthly number of employees, including directors, during the year was 54 (2019 - 50).

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2020

11. Provisions

Group

	Dilapidation provision £	Total £
At 1 April 2019	88,000	88,000
<b>At 31 March 2020</b>	<b>88,000</b>	<b>88,000</b>

Company

	Dilapidation provision £	Total £
At 1 April 2019	88,000	88,000
<b>At 31 March 2020</b>	<b>88,000</b>	<b>88,000</b>

The dilapidation provision relates to an estimate of costs for restoration, repair and redecoration of the Company's leased premises at the termination of the leases in accordance with the terms of the lease agreements.

12. Share based payments

The Group operates an EMI share option scheme. During the year options were granted to employees of the Group to purchase D Ordinary shares.

During the year ended 31 March 2020, 466,400 options were issued (2019: 2,430,000).

During the year ended 31 March 2020, no options were exercised (2019: 466,667 exercised at £0.0001 per share).

At the balance sheet date 2,429,733 share options were outstanding (2019: 1,963,333).

The options at the year end had an exercise price of £0.0001 per share.

No charge has been recognised in relation to share based payments (2019: £nil).

13. Pension commitments

The Group operates a defined contributions pension scheme. The assets of the scheme are held separately from those of the Group in an independently administered fund. The pension cost charge represents contributions payable by the Group to the fund and amounted to £193,747 (2019 - £266,847). Contributions totalling £nil (2019 - £nil) were payable to the fund at the balance sheet date.
