These financial statements were approved by the board of directors and authorised for issue on 3 March 2020 , and are signed on behalf of the board by:

F J Buron Fernandez

Director

Company registration number: 07927254

Audiense Limited

Notes to the Financial Statements

Year ended 31 December 2019

1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is 114-116 Curtain Road, London, England, EC2A 3AH and the nature of the company's operations and its principal activities are set out in the directors' report.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity.

Going concern

The directors have prepared a cashflow forecast covering a period extending beyond 12 months from the date of signing these financial statements. The forecasts contain certain assumptions about the performance of the business. These assumptions are the directors best estimates of the future development of the business, including consideration of cash reserves required to support the working capital and its new growth initiatives. Based on the facts noted above, the directors feel that the company is adequately funded at present and will continue to explore funding and investment opportunities to ensure that the company has adequate resources to continue its operations for the foreseeable future. For these reasons, the financial statements should be prepared on a going concern basis.

Consolidation

The company has taken advantage of the option not to prepare consolidated financial statements contained in Section 398 of the Companies Act 2006 on the basis that the company and its subsidiary undertakings comprise a small group.

Judgements and key sources of estimation uncertainty

No significant judgements have had to be made by the directors in preparing these financial statements .

Holiday pay accrual

A liability is recognised to the extent of any unused holiday pay entitlement which has been accrued at the balance sheet date and carried forward to future periods. This is measured at the undiscounted salary cost of the future holiday entitlement so accrued at the balance sheet date.

Revenue recognition

The turnover shown in the income statement represents amounts invoiced during the year for the provision of a SaaS platform to drive insights and engagement through Twitter, exclusive of Value Added Tax. Revenue is recognised based on the proportion of the service undertaken at the year end. The unrecognised balance is taken to deferred revenue. No disclosure has been given regarding the geographical split of the company's turnover since in the opinion of the directors such disclosure would be seriously prejudicial to the interests of the company.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax. Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign currencies

Foreign currency transactions are initially recorded in the functional currency, by applying the spot exchange rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate ruling at the reporting date, with any gains or losses being taken to the profit and loss account.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Equipment - 33% straight line

Investments

Fixed asset investments are initially recorded at cost, and subsequently stated at cost less any accumulated impairment losses.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided.

4. Employee numbers

The average number of persons employed by the company during the year amounted to 9 (2018: 11).

5. Tangible assets
