## 50 YEARS OF EXPERIENCE IN GLOBAL SYSTEM SUPPLY!

---

AL-KOR, which started production with two machines in a single-story workshop in 1970, has been producing mold and serial parts for **51 years** with its quality-oriented approach to many sectors, especially the automotive and white goods sectors, in its state-of-the-art production facilities in Istanbul and Bursa. It is a manufacturing company.

We began our journey with the slogan “We design together with our customers, we produce for them” we serve our customers in different business lines such as engineering, mold design and production, and serial part design and production in lighting, electronics, mechatronics, plastic and metal product groups.

By presenting our 51 years of industry experience to our customers with high technology, we produce innovative and efficient products following fast-developing technology. We export to more than 40 countries by serving our global customers in domestic and international markets.

We serve with our experienced engineer staff for the needs of our customers in different sectors. We produce products with high added value by working in cooperation with our customers.

“Full system” of the global automotive industry
