October 25, 2019

Dear Customers, Stakeholders and Port Partners:

Fiscal year 2019 was filled with several milestones for The Port of Virginia®: we safely handled a record-setting amount of container volume; we substantially completed the expansion of Virginia International Gateway (VIG) ahead of schedule and under budget; and we are well past the half-way point of the Norfolk International Terminals (NIT) expansion.

In addition to the progress we are making on our land-side projects, we are also moving forward on our *Wider, Deeper, Safer*® project, for which dredging is scheduled to start in fiscal year 2020. When the project is complete in 2024, the commercial shipping channels serving the Norfolk Harbor will be 55 feet deep and wide enough to safely accommodate two-way traffic of the biggest ships afloat. No other East Coast port will have this capability.

Led by Governor Ralph S. Northam, Transportation Secretary Shannon Valentine, the General Assembly and the Virginia Port Authority Board of Commissioners, we are entering an unparalleled era of expansion with a continuing focus on creating the East Coast's primary gateway for global trade as a catalyst for commerce in Virginia for decades to come.

When the NIT expansion is complete late next year, we will have created the capacity to process 1 million additional container units through this port annually – a 40% increase in overall capacity – and we will move those units more safely, swiftly and sustainably than ever before. In the process, we will have created one of the East Coast's most modern container terminal complexes capable of handling the largest ships in the Atlantic trade. Deep, unobstructed channels, modern terminals, a strong partnership with labor, a long-term plan for sustainable growth, a reputation as a progressive and growing port and the dedication of the port team are just some of the things that make this maritime asset so unique.

Here are some highlights from the 12 months that ended June 30, 2019:

July 2018

- The heavy-load vessel *Happy Buccaneer* arrives at NIT with the first group of six RMGs, which are the centerpieces of the \$445 million capacity expansion project underway at that terminal. The vessel's arrival signals the start of an 18-month cycle that will see the delivery of 60 new RMGs to NIT.

August 2018

- In his testimony before the United States Trade Representative (USTR) in Washington, D.C., Virginia Port Authority CEO and Executive Director, John F. Reinhart, says that the expansion of VIG could be slowed if additional tariffs are imposed on Chinese-made cranes; in 2017 the port ordered four ship-to-shore cranes that are part of the VIG capacity expansion project. The USTR takes the testimony of Reinhart and others under advisement and ultimately decides against any new tariffs.

September 2018

- Four new inbound truck gates are placed into service at VIG expanding capacity at the terminal's gate complex by 30 percent.

October 2018

- A new all-time mark for the amount of cargo handled in a month is set. More than 270,000 TEUs (twenty-foot equivalent units) were processed, besting the previous record set in 2017 by more than 5,000 units.
- The *Wider, Deeper, Safer*® project to deepen and widen the Norfolk Harbor's commercial shipping channels is given full federal authorization with approval of America's Water Infrastructure Act of 2018. The project's inclusion in the bill clears the path for The Port of Virginia to become the deepest and safest port on the U.S. East Coast.

November 2018

- Heavy construction on the second phase of the rail yard expansion at VIG begins, with the first phase having been completed on time and on budget. As part of VIG's expansion, the size of the terminal's on-dock, double-stack rail operation is being doubled to include nearly 20,000 feet of new track and four new cantilever rail-mounted gantry cranes.

December 2018

- The port celebrates the 10th anniversary of the Richmond Express barge service. The thrice-weekly barge service moved 31,500 containers in calendar year 2018, its best year on record.
- The port announces an investment of \$26 million for two projects at the Virginia Inland Port in Front Royal. The projects are designed to improve traffic flow and safety on a local road and expand the terminal's overall cargo handling capabilities.

January 2019

- Four new ship-to-shore (STS) cranes arrive in the Norfolk Harbor and make their way to VIG. The cranes are the largest in the Americas and are able to service container vessels, as large as any on the water today, for decades to come. The cranes are among the final pieces of hardware for the \$320 million VIG expansion project.

February 2019

- Following the successful completion of the U.S. Department of Agriculture's Southeast In-Transit Cold Treatment Pilot program, importers of perishables from South American countries can now move their cargo through The Port of Virginia. The approval coincides with the port's effort to expand its capacity to handle refrigerated (reefer) cargo.

March 2019

- The port marks the one-year anniversary of the successful launch of its trucker reservation system, or TRS, at NIT. The system allows the port to manage truck flow at the gates; it creates efficiency for terminal operations teams and for drivers; it provides greater visibility to cargo owners; and it is a planning tool for those moving cargo by truck.
- Twelve new container stacks at Norfolk International Terminals (NIT) begin operating as the project to reconfigure and expand the terminal's south container stack-yard moves forward according to schedule.

April 2019

- ARREFF Terminals, a subsidiary of Fornazor International Inc., and the port enter into a long-term agreement that allows ARREFF to develop a transload facility at NIT for agricultural commodities. The facility will be served by rail and when finished will more than triple the number of containers the company moves through the port.

May 2019

- Phase II of the rail yard at VIG is complete and signals the end of more than two-and-a-half years of heavy construction at the terminal.
- John F. Reinhart, the VPA’s CEO and executive director, is inducted into the International Maritime Hall of Fame. The International Maritime Hall of Fame recognizes maritime visionaries, who through excellence in their company, organization, or services, best exemplify the qualities of futuristic thinking that will guide the maritime industry in the 21st Century.

June 2019

- The Port of Virginia becomes the first U.S. port to join SEALNG, a multi-sector industry coalition, created to accelerate the widespread adoption of liquefied natural gas (LNG) as a marine fuel. The coalition unites key players from across the LNG marine value chain to address the barriers to the adoption of LNG.

The Port of Virginia remains in an enviable position.

Our natural assets include deep shipping channels that are easy to maintain; we are 18 miles from the open water of the Atlantic Ocean; we are situated within a day’s drive of two-thirds of the nation’s population; and we have room to develop a fourth, state-owned, deep-water marine terminal. From a manmade perspective, we have the versatility to handle anything from automobiles to coffee to military cargo to grain. We have double-stack, on-dock rail service provided by the East’s two Class I railroads, Norfolk Southern and CSX, which gives us reach into many important Midwestern population and manufacturing centers.

We are more than half-way through our capacity optimization project and are capitalizing on what we have completed to date. There have been challenges along the way and we addressed them head-on while being guided by our values. Our growth, our expanding reputation, increasing capabilities and long-term view have industry taking note. We have a clear path forward and are building the future today: We are the Stewards of Tomorrow.

Sincerely Yours,

John F. Reinhart
CEO and Executive Director

October 25, 2019

Board of Commissioners
Virginia Port Authority
600 World Trade Center
Norfolk, VA 23510

Dear Commissioners:

The Comprehensive Annual Financial Report (CAFR) of the Virginia Port Authority (“VPA” or “the Authority”) for the fiscal year ended June 30, 2019, as required by §62.1-139 of the *Code of Virginia* for submission to the Governor and General Assembly on or before November 1 of each year, is hereby submitted.

Responsibility for both the accuracy of the data and the completeness and fairness of presentation, including all disclosures, rests with the Authority. To the best of our knowledge and belief, the enclosed data is accurate in all material respects, and is reported in a manner designed to present fairly the financial position and results of operations of the Authority taken as a whole. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities and operations have been included.

Management is also responsible for establishing and maintaining internal controls over its operations. Internal controls are designed to provide a reasonable, though not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that financial transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Management strongly believes that the inherent financial accounting controls coupled with the independent financial audit performed by the Authority's independent financial auditors, the Auditors at PBMares, LLP, as well as numerous other audit functions, adequately safeguard assets and provide reasonable assurance of properly recorded financial transactions.

The Auditors at PBMares, LLP have issued an unmodified opinion on the Authority's financial statements as of and for the year ended June 30, 2019. The independent auditor's report is located at the beginning of the financial section of this report.

Management's discussion and analysis (MD&A) can be found at the beginning of the financial section, after the audit opinion, and provides a narrative introduction, overview and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Profile of the Virginia Port Authority

The Virginia Port Authority was established in 1952, as a political subdivision of the Commonwealth of Virginia, for the purpose of performing any act or function which may be useful in developing, improving, or increasing the commerce of the ports of the Commonwealth. The Authority, over the years, has acquired and unified certain port facilities for the benefit of the Commonwealth. The Authority owns and is responsible for the operations and security of three marine terminals: Norfolk International Terminals (NIT), Portsmouth Marine Terminal (PMT), and Newport News Marine Terminal (NNMT), and an inland intermodal facility, the Virginia Inland Port (VIP) located in Front Royal, Virginia. In addition, the Authority has a capital lease for the use and operation of the Virginia International Gateway Terminal (VIG) and an operating lease for the Richmond Marine Terminal (RMT). These facilities primarily handle import and export containerized, break-bulk, and ro-ro cargoes.

The Authority is overseen by a 13 member Board of Commissioners - the State Treasurer, the Chief Executive Officer of the Virginia Economic Development Partnership, and 11 citizens appointed by the Governor. The Board of Commissioners, the VPA CEO and Executive Director and his team, and the management of our component unit Virginia International Terminals, LLC (VIT) work to promote, develop, and increase commerce at the ports of Virginia, and other port related industries in the Commonwealth.

VIT was established in 1981 and in 1982 began to operate the facilities controlled by the Authority. VIT operates the facilities pursuant to its Operating Agreement. Effective August 17, 2013, VIT was converted from a nonprofit, non-stock corporation to a single-member limited liability company with VPA as its sole member. VIT's financial information is presented in the Authority's financial statements as a blended component unit. As a component unit, VIT is a legally separate organization that serves or benefits those outside of the Authority, but for which the Authority, as the primary institution, is financially accountable or closely related. The financial statements of VIT were audited separately. The VIT budget is prepared annually and approved by the VPA Board of Commissioners prior to July 1 of each fiscal year. More detailed information can be found in the footnotes to the financial statements.

The Authority is included in the Commonwealth of Virginia's budget. Authority staff prepare and submit budget requests for each upcoming biennium to the Department of Planning and Budget (DPB) and the Governor, based on expected revenues and expenditures. The Governor submits the recommended budget for the Commonwealth to the General Assembly which enacts appropriations for each year of a biennium for operating and capital expenditures. The resulting Appropriation Act provides summary expenditure limitations. The appropriations are effective on July 1 of each year. The Authority's Board of Commissioners gives final approval of the detailed budget prior to July 1 based on the appropriations.

Finance and Risk Management

Enterprise funds are used to account for proprietary operations, similar to private business operations where the operating costs are funded through user charges. The Virginia Port Authority has one such enterprise fund to which all accounts are organized and accounted for as a single reporting entity. The Authority's primary source of funding for its operations is through the net revenues generated from terminal operations and subsequently transferred from VIT. Capital improvements are primarily funded through long-term debt and allocations of certain revenues collected by the Commonwealth.

Interest rates remain at favorably low levels and continue to allow opportunities for the restructure of some of our debt through refunding, saving millions of dollars over the lives of the debt. The Authority is working to provide the most benefit to our citizens and customers at the least cost, and will continuously explore cost saving opportunities.

Certain statistical information included in the Comprehensive Annual Financial Report (CAFR) was not obtained from the financial records of the Authority but is presented for the CAFR user's information and understanding of the Authority and the environment in which the Authority operates.

The Virginia Port Authority, together with its component unit (VIT), maintains a comprehensive risk management program, the purpose of which is the maximum protection of the assets, customers and employees of the Authority, and the reduction of the cost of risk through an innovative and professional risk management program. It is the intent of the Authority that it be protected against accidental loss or losses that would significantly affect Authority personnel, property or the ability of the organization to continue to fulfill its responsibilities. VIT maintains property and liability insurance on all terminal equipment and facilities. The Authority maintains property and liability insurance on non-terminal assets owned by the Authority. The Authority also maintains general liability, fiduciary liability, workers' compensation insurance and umbrella policies.

Virginia Port Authority and the Economy

The Port's success has generated significant economic spin-off benefits to the Commonwealth. Annually, port-related business and activity directly and indirectly contribute to Virginia's economy and account for more than 374,000 jobs, approximately 9.4% of the state's resident workforce. The positive effects of our evolution reverberate throughout Virginia. In FY2019, the port helped drive businesses to invest \$2.0 billion resulting in the development of nearly three million square feet of space that can generate more than 2,800 new jobs for Virginians. Our expansion enables these trends to continue. Since its opening, the Virginia Inland Port, located in Front Royal Virginia, has stimulated the attraction of some more than 40 port-related projects near the Inland Port providing a total investment of \$950 million with over 8 million square feet of space together with employee levels of over 8,000 workers. In FY19, Richmond Marine Terminal saw an increase in volume of 21.2% driven by new investment from Bissell, Brother International, and Amazon. Household names like Wal-Mart, Target, Ace Hardware, Lumber Liquidators, and Keurig Green Mountain have all set up distribution/manufacturing facilities in the Commonwealth in large measure due to the presence of a world class port facility and structure.

Long-Term Financial Planning

Over the next fifteen years, containerized cargo volume is expected to increase by over 60%, far exceeding the current capacity. The Port of Virginia has unique opportunities to meet this demand with the expansion of the VIG terminal, densification of NIT, and the proposed development of a new container terminal on the eastward side of Craney Island. The Hampton Roads region is also mobilizing around the opportunity to develop 20-60 million square feet of supporting manufacturing and distribution center space. The depth of our harbor, having the ability to accommodate the "post-Panamax" vessels and deep-loaded container ships, makes The Port of Virginia a viable option for the changing flow of global freight traffic. Virginia is in the position to become a primary international gateway for the East Coast.

The Port of Virginia organization is unique in the industry and has a proven track record for success. For over 30 years, this structure resulted in phenomenal growth, benefiting not only Virginians but also the entire U.S. The Authority continues to re-engineer operations to better serve our customers while being a catalyst to economic expansion within the Commonwealth. We have been charged to develop The Port of Virginia into the primary gateway for international cargo transported through the Mid-Atlantic and Mid-West regions of the United States.

Major Initiatives

In fiscal year 2017, VPA successfully negotiated an extension of the Virginia International Gateway (VIG) lease to secure the terminal through 2065. The capital lease deal included \$320 million in private funding for expansion of the terminal to virtually double existing capacity. Just after the end of fiscal year 2019 the VIG expansion project was completed, on time and under budget. In parallel to the VIG lease deal, the Governor, Secretary of Transportation, and General Assembly with great foresight recognized the ability of the Port of Virginia to drive economic expansion in the Commonwealth and approved \$350 million in funding to assist in expanding the southern area of Norfolk International Terminals (NIT), the largest terminal in the Port. As fiscal year 2019 drew to a close, 12 of the 30 stacks contemplated in the NIT expansion project were in operation. The project was equally on time and under budget. When these two projects are completed in 2020 the Port will increase container handling capacity by a much needed one million containers, at just the right time as container volume has sustained 5% growth annually during this decade.

In June, 2018 the Governor and both legislative chambers approved a \$350 million investment in the Port's *Wider, Deeper, Safer*® effort. This project will deepen the Port's channels to 55 feet deep and widen the channels to allow two way traffic. The project will be executed in two phases, with a 2024 targeted completion date. Initial dredging efforts are planned to begin in fiscal year 2020.

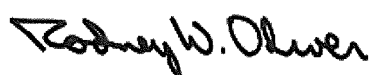

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Virginia Port Authority for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017, which was the twelfth consecutive year that the Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. Our submission of the CAFR for the fiscal year ended June 30, 2018 is currently in the process of evaluation, and we intend to submit our CAFR for the fiscal year ended June 30, 2019 to the GFOA to determine its eligibility for continued certification. We believe that both the fiscal year 2018 and 2019 reports continue to meet the Certificate of Achievement Program's requirements.

Preparation of the CAFR, as always, represents the combined effort of the entire Finance Division of the Virginia Port Authority and auditors at PBMares, LLP. Finally, we express our deepest appreciation to the members of the Virginia Port Authority Board of Commissioners for their continued guidance, support and leadership towards ensuring the fiscal integrity of the Virginia Port Authority.

Respectfully Submitted,

Rodney W. Oliver

The Board of Commissioners
Virginia Port Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Virginia Port Authority (the Authority), a component unit of the Commonwealth of Virginia, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards and specifications require we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Authority, as of June 30, 2019, and the respective changes in financial position and cash flows, thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the Management's Discussion and Analysis and the required supplementary information on pages 14-23 and 68-72, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying schedules listed in the table of contents as introductory section, statistical section, and compliance section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory, statistical, and compliance sections, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 25, 2019 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

PBMares, LLP

Harrisonburg, Virginia
October 25, 2019

VIRGINIA PORT AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
YEAR ENDED JUNE 30, 2019

(Unaudited)

Our discussion and analysis of the Virginia Port Authority's ("VPA" or "the Authority") financial performance provides an overview of VPA's financial activities as of and for the Fiscal Year ended June 30, 2019 (FY2019), with selected comparative information for the Fiscal Year ended June 30, 2018 (FY2018). It should be read in conjunction with the Authority's accompanying financial statements and the notes to financial statements. Virginia International Terminals, LLC (VIT) is presented in the Authority's financial statements as a blended component unit to emphasize that it serves or benefits those outside of the Authority, but the unit is, in substance, part of the primary government's operations even though it is a separate legal entity. This discussion focuses on the blended presentation of VPA with VIT, and to the extent relevant, the results of VIT will include references accordingly.

ABOUT THE AUTHORITY

The Virginia Port Authority was established in 1952 as a political subdivision of the Commonwealth of Virginia for the purpose of stimulating commerce within the Commonwealth, through the promotion of the shipment of goods and cargoes through the ports, improvement of the navigable tidal waters within the Commonwealth, and in general engaging in any activity within the scope of its mission which may be useful in developing, improving, or increasing commerce of the ports of the Commonwealth. The Authority owns and is responsible for the operations and security of three marine terminals: Norfolk International Terminals (NIT), Portsmouth Marine Terminal (PMT), and Newport News Marine Terminal (NNMT), and an inland intermodal facility, the Virginia Inland Port (VIP) located in Front Royal, Virginia. The Authority is also responsible for the operations and security of two leased marine terminals: Virginia International Gateway (VIG), located in Portsmouth, Virginia and Richmond Marine Terminal (RMT), located in Richmond, Virginia on the James River. These facilities primarily handle import and export containerized, break-bulk and ro-ro cargoes. VIT operates each facility.

A Board of Commissioners governs the Authority. The Board is composed of the State Treasurer, the Chief Executive Officer of the Virginia Economic Development Partnership, and 11 members appointed by the Governor. While the Commissioners remain on the Board at the continuing discretion of the Governor, they serve staggered five-year terms. Commissioners may serve a maximum of two consecutive terms.

FINANCIAL HIGHLIGHTS

- Net position for VPA at June 30, 2019 increased by \$89.4 million compared to an increase of \$19.3 million during Fiscal Year 2018.
- Operating income for VPA increased from \$46.8 million to \$61.0 million, marking the fifth consecutive year that VPA has reflected an operating profit.
- Volume of 1.7 million containers moved through the terminal properties owned or leased by VPA during Fiscal Year 2019, surpassing the previous year's record volume by 3.0%.
- Liquidity remained strong, with net working capital of \$275.6 million and a current ratio (current assets divided by current liabilities) of 4.1, incremental improvement over 3.5 at June 30, 2018.

OVERVIEW OF THE FINANCIAL STATEMENTS

Governmental accounting policy, practice and procedures fall under the auspices of the Governmental Accounting Standards Board (GASB). The Authority's financial transactions and subsequent statements are prepared according to the GASB Statement 34 reporting model, as mandated by GASB. The purpose of the GASB 34 reporting model is to consolidate two basic forms of governmental accounting, governmental operations (such as municipalities) and proprietary operations (those entities such as the Authority which generate their own revenues and, therefore, more closely resemble a private business), into statements that give the reader a clearer picture of the financial position of the government as a whole. The Authority is considered a proprietary form of government and its specific financial transactions are recorded in a single Enterprise Fund.

As stated above, the Authority operates as a single Enterprise Fund with one blended component unit, Virginia International Terminals, LLC (VIT). The financial statements are prepared on the accrual basis of accounting, therefore revenues are recognized when earned and expenses are recognized when incurred. Capital assets are capitalized and depreciated over the useful lives of the respective assets (except for land, which is not depreciated, and construction in process until the related asset is placed in service). Please refer to Note 1 in the accompanying notes to financial statements for a summary of the Authority's significant accounting policies. Following this MD&A are the basic financial statements, notes to financial statements and required supplementary information of the Authority, along with its blended component unit - VIT. These statements, notes and statistical information, along with the MD&A are designed to provide readers with a more complete understanding of the Authority's finances as a governmental unit and on a consolidated basis.

The financial section of this annual report consists of four parts: MD&A, the basic financial statements, the notes to financial statements, and required supplementary information. The report includes the following three basic financial statements: the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows.

Statement of Net Position

The Statement of Net Position presents the financial position of the Authority at the end of the fiscal year. The statement includes all assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the Authority. Net position, the difference between total assets and deferred outflows of resources, and total liabilities and deferred inflows of resources, is one indicator of the current fiscal health of the organization and the Authority's financial position over time.

A condensed summary of the Authority's assets and deferred outflows of resources, liabilities and deferred inflows of resources, and net position at June 30, 2019 and 2018, respectively, follows:

| Net Position | | | |
|--|-----------------|-----------------|-------------------------|
| (USD millions) | | | |
| | 2019 | 2018 | Increase/ (Decrease) |
| Assets: | | | |
| Current assets | \$ 365.9 | \$ 373.0 | \$ (7.1) |
| Capital assets, net | 3,152.7 | 3,076.9 | 75.8 |
| Other long-term assets | 81.2 | 71.3 | 9.9 |
| Total assets | 3,599.8 | 3,521.2 | 78.6 |
| Deferred outflows of resources | 37.9 | 38.7 | (0.8) |
| Total assets and deferred outflows of resources | 3,637.7 | 3,559.9 | 77.8 |
| Liabilities: | | | |
| Current liabilities | 90.3 | 106.6 | (16.3) |
| Noncurrent liabilities | 2,810.8 | 2,804.4 | 6.4 |
| Total liabilities | 2,901.1 | 2,911.0 | (9.9) |
| Deferred inflows of resources | 4.2 | 5.9 | (1.7) |
| Total liabilities and deferred inflows of resources | 2,905.3 | 2,916.9 | (11.6) |
| Net position: | | | |
| Net investment in capital assets | 374.2 | 311.4 | 62.8 |
| Restricted | 132.4 | 111.2 | 21.2 |
| Unrestricted | 225.8 | 220.4 | 5.4 |
| Total net position | \$ 732.4 | \$ 643.0 | \$ 89.4 |

ASSETS

Current Assets decreased slightly (approximately 1.9%) due principally to three distinct trends. One, \$26.2 million in Master Equipment Lease arrangement proceeds that were in cash at June 30, 2018 were expended in fiscal year 2019 to purchase container handling equipment. Additionally, as part of the Authority's investment program, the restructure of the investment portfolio resulted in the purchase of approximately \$10.3 million of additional securities that are now classified as non-current. Refer to note 2 of the notes to financial statements for further discussion and detail regarding the Authority's investments. These two events were offset by the positive operating cash flow generated by terminal operations and retained in the Authority's unrestricted cash reserves. Lastly, trade accounts receivable for VIT declined by \$8.2 million as a result of improved collection experience.

Capital assets (the cost of capital assets less accumulated depreciation and amortization) increased \$75.8 million year over year, predominantly due to the purchase of container handling equipment and construction of infrastructure underlying the expansion of the South NIT terminal. The NIT expansion project is expected to continue into fiscal year 2021. More detail regarding significant capital investments made during the year can be found further below in the MD&A.

Other long-term assets increased \$9.9 million year over year, principally as a result of the restructuring of the Authority's investment program. As part of this restructuring, investment securities were purchased with maturities greater than one year resulting in their classification as non-current. Refer to note 2 of the notes to financial statements for further discussion and detail regarding the Authority's investments.

The decrease to deferred outflows of resources was the result of \$2.3 million in amortization of deferred outflows resulting principally from the refunding of VPA's Port Facilities Revenue Bonds in November 2016. See Notes 6 and 7 in the notes to financial statements for additional discussion of bonds and other indebtedness. The reduction to bond-related deferred outflows was offset in part by an increase to deferred outflows of \$1.2 million resulting from contributions made to the VPA pension plan after the measurement date of June 30, 2018. See Note 9 in the notes to financial statements for additional discussion of pensions.

LIABILITIES

Current liabilities decreased by \$16.3 million, principally due to the timing of payments, as well as reductions in retainage associated with the wind-down of construction of the VIG terminal expansion. At June 30, 2018, both the VIG and NIT projects were underway and a significant volume of contract payables were accrued. As the VIG construction has wound down, the volume of payables has declined correspondingly, and much of the retainage has been liquidated.

Noncurrent liabilities at June 30, 2019 consist principally of \$2.3 billion in capital lease obligation associated with the lease of the VIG facility, and \$505.2 million in outstanding Revenue bonds backed either by Commonwealth Port Fund Revenues or Port Facilities Revenues. Additionally, the Authority is carrying \$26.5 million in debt related to the Master Equipment Lease Program arrangement (MELP) closed in June 2018. During Fiscal Year 2019, the Authority's debt service reduced noncurrent principal related to the Revenue Bonds and MELP by \$18.2 million. This decrease was mostly offset by \$16.2 million in negative principal amortization associated with the VIG capital lease obligation until contractual lease payments escalate to a level where principal amortization will begin (currently estimated to occur in calendar year 2030). See note 6 of the notes to the financial statements for further detail regarding the Authority's long-term indebtedness.

The net increase to noncurrent liabilities included the mostly offsetting activity related to the Authority's capital lease and long-term debt activity, however noncurrent liabilities additionally increased as the result of the Authority recording deferred grant revenue in the amount of \$8.2 million associated with funding received from a federal grant to assist with deepening the Elizabeth River channel to 55 feet.

NET POSITION

Net investment in capital assets represents the land, buildings, infrastructure, improvements, and equipment, etc., less the accumulated depreciation and amortization and outstanding liabilities related to those capital assets. This portion of net position increased principally as the result of continuing investment in the expansion of NIT in terms of container handling equipment and infrastructure as described above, and was offset in part by depreciation of capital assets and amortization of the capital lease asset. These capital assets are the industrial base for the provision of services to major steamship lines and their agents for movement of maritime cargo. For liquidity purposes it should be noted the resources required to repay the debt incurred to purchase and develop the capital assets must be provided annually from terminal operations (principally those of the blended component unit – VIT) and appropriation (Commonwealth Port Fund), since the capital assets themselves generally are not monetized to liquidate liabilities. During fiscal year 2019 this component of net position increased by \$62.8 million as a result of continuing investment in the expansion of NIT, offset in part by depreciation and amortization of in-service assets. Further detail of the Authority's capital assets can be referenced in Note 5 in the notes to the financial statements.

Net position - restricted represents resources, principally cash and investments, that are subject to external restrictions on how they can be used under bond resolutions and related covenants.

The remaining unrestricted net position may be used to fund the Authority's other ongoing obligations and initiatives. The favorable operating result, along with the accumulation of cash associated with terminal operating revenues, contributed to the increased Fiscal Year 2019 balance.

Statement of Revenues, Expenses, and Changes in Net Position

All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement measures the results of operations and can be used to determine whether the fiscal condition has improved or worsened during the year. A condensed summary of the Authority's revenues, expenses, and changes in net position for the fiscal years ended June 30, 2019 and 2018, follows:

Revenues, Expenses, and Changes in Net Position (USD Millions)

| | 2019 | 2018 | Increase/ (Decrease) |
|---|----------|----------|-------------------------|
| Operating revenues | \$ 567.6 | \$ 537.1 | \$ 30.5 |
| Operating expenses | 506.6 | 490.3 | 16.3 |
| Operating income | 61.0 | 46.8 | 14.2 |
| Non-operating revenues (expenses), net | (109.5) | (122.0) | 12.5 |
| Income (loss) before capital contributions and transfers | (48.5) | (75.2) | 26.7 |
| Capital contributions: | | | |
| Commonwealth Port Fund allocation | 43.1 | 41.1 | 2.0 |
| Capital transactions with other government agencies | 94.8 | 53.4 | 41.4 |
| Increase in net position | \$ 89.4 | \$ 19.3 | \$ 70.1 |

Approximately 97% of the Authority's operating revenues originate from terminal operating revenues earned by its blended component unit – VIT. Security surcharge fees levied by the Authority separate from the terminal operations of VIT account for the majority of the remainder, meaning that substantially all of the operating revenues of the Authority originate from the operation of the terminal properties. The remainder of operating revenues are principally attributable to operating grants from state and federal governments.

Fiscal Year 2019 operating revenues increased 5.7%, primarily due to the increase in container volume-related revenues, and higher chassis lease revenue from growth in the chassis fleet.

Operating expenses increased by 3.3%, driven by the increased volume and costs associated with the larger chassis fleet. VIT operating cost remained relatively flat, leveraging the benefits of automation being installed at the VIG terminal, while Hampton Roads Chassis Pool II, LLC (HRCP) operating cost increased approximately \$5.8 million, principally as a result of costs associated with the higher HRCP chassis fleet. VIT maintenance expense was \$4.2 million (5.0%) higher in the current year primarily due to volume as well as continued investments in capability through refurbishment activity. General and Administrative expense increased \$4.5 million or 7.5% from a combination of investments in staffing and cyber-security initiatives, as well as higher funding related to grants to local ports and accruals related to our OPEB liability. Depreciation and amortization increased \$2.7 million as a result of capital projects being placed in service during the course of the year.

Net non-operating revenues/expenses were \$12.5 million favorable to Fiscal Year 2018. Investment income increased by \$2.7 million as a result of implementing investment optimization strategies to leverage return on free cash reserves within the Authority’s investment guidelines. Non-operating grant revenue was also higher as a result of federal grants received for various initiatives including enhancement of port security, purchase of more ecological container handling equipment, support of harbor dredging, and various surface transportation initiatives.

Capital contributions from the Commonwealth Port Fund (CPF) – allocations appropriated from the Transportation Trust Fund - are generally restricted in purpose to enhancement/major maintenance of the Authority’s terminal facilities through direct reimbursement or service of debt supported by the CPF allocation. The increase of \$2.0 million over Fiscal Year 2018 is the result of timing regarding the collection of the supporting tax revenues and, while relatively stable in nature on a historical basis, is not controllable by the Authority.

Statement of Cash Flows

The Statement of Cash Flows provides information about the cash receipts and cash payments during the reporting period. The statement reports this activity in the context of operating, investing, and financing activities, and provides insight as to the major sources and uses of cash applicable to the fiscal year. A condensed summary of the Statement of Cash Flows for Fiscal Years 2019 and 2018, respectively, follows:

| Cash Flows | | | |
|---|-----------------|-----------------|-------------------------|
| (USD Millions) | | | |
| | 2019 | 2018 | Increase/ (Decrease) |
| Cash flows provided by operating activities | \$ 136.1 | \$ 131.4 | \$ 4.7 |
| Cash flows (used) provided by noncapital financing activities | (3.2) | 1.2 | (4.4) |
| Cash flows used in capital and related financing activities | (131.8) | (89.3) | (42.5) |
| Cash flows (used) provided by investing activities | (87.2) | 4.8 | (92.0) |
| Net (decrease) increase in cash and cash equivalents | (86.1) | 48.1 | (134.2) |
| Cash and cash equivalents: | | | |
| Beginning of year | 306.4 | 258.3 | 48.1 |
| End of year | <u>\$ 220.3</u> | <u>\$ 306.4</u> | <u>\$ (86.1)</u> |

Cash flow provided by operating activities improved by \$4.7 million over Fiscal Year 2018. The majority of the Authority’s operating cash flow is generated through the operations of VIT. Higher container volumes, improved collection experience, and implementation of efficiency measures associated with the terminal expansion projects resulted in positive revenue to expense leverage compared to the prior year.

Cash used by non-capital financing activities declined year over year principally as a result of expenditures to facilitate the approval to increase the depth of the port’s harbor channels to 55 feet.

Cash used in capital and related financing activities was \$42.5 million higher than Fiscal Year 2018.

In Fiscal Year 2018, VPA received proceeds from the closing of MELP funding in the amount of \$29.9 million for the purpose of purchasing automated stacking cranes and shuttle trucks for the NIT expansion. Of these proceeds, \$3.7 million were expended in Fiscal Year 2018 and the remaining \$26.3 million was expended in fiscal 2019, resulting in a reversal of cash flow between Fiscal Year 2018 and Fiscal Year 2019 of \$52.5 million.

Fiscal year 2019 saw the expansion of NIT gain full momentum with the substantial completion of 12 stacks in Phase I and the transition into Phases II and III of development, In addition to the expenditure of MELP proceeds referred to above, the Authority expended \$136.0 million toward capital projects, principally related to NIT. Comparable Fiscal Year 2018 capital expenditures were \$107.5 million. These were off set in large part by funding received mostly from the Commonwealth of Virginia to support the NIT development, \$101.4 million in Fiscal Year 2019 compared to \$47.5 million in Fiscal Year 2018.

Additional cash related to financing activity was consumed to fund higher debt service requirements. The third year of the VIG lease overlapped fiscal year 2019, which included the third annual increase to interim rent during the construction period, resulting in higher lease payments of \$14.0 million. Finally, debt service payments for the Authority's various revenue bonds outstanding were \$5.5 million higher related to scheduled debt service requirements.

In Fiscal Year 2019, the Authority used \$92.0 million more in cash related to investing activities. As previously mentioned, the Authority restructured its investment program to include a portion of longer term, higher yielding investments, which resulted in a significantly higher level of investment purchase activity.

During the Fiscal Years 2017 and 2018, the Authority spent a considerable amount of time and resources arranging for and executing its terminal expansion initiatives (VIG and NIT). During this time, the Authority's debt service requirements and structure were significantly altered, necessitating a more conservative investment posture involving its liquid assets. With the stabilization of these two projects, and improved prospects for near term cash flow, the Authority has begun to diversify its investment structure in favor of a higher portion of longer term, higher yielding investments in order to optimize the utilization of working capital. See the Statement of Cash Flows and Note 2 of the notes to the financial statements for more information about the Authority's investment activity and investments.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The investment in capital assets for the Authority at June 30, 2019, carried at historical cost less accumulated depreciation and amortization, primarily includes land, buildings, wharves, roads, drainage and lighting systems, and equipment.

During the year, VPA made significant investments in the following principal areas:

- VIG expansion - \$105.1 million - leased asset financed by the VIG lessors – the vast majority of this investment is funded by the lessor, and accordingly is recorded as part of the capital lease asset paid for by VPA through the monthly lease payments. Additional context regarding the structure of the lease financing can be found in Note 6 in the notes to financial statements.
- South NIT - \$127.3 million – financed in part by grant assistance from the Commonwealth of Virginia
- South Access Channel Dredging - \$10.5 million
- Implementation of new financial system - \$6.4 million
- RMG refurbishments at VIG - \$5.9 million
- Supplemental dredging at North NIT - \$2.5 million
- Paving improvements at RMT - \$1.9 million

Further discussion of capital asset activities can be found in Note 5 in the notes to financial statements. Additional information related to the leased asset can be found in Note 5 and Note 6 in the notes to the financial statements.

Debt and Installment Purchase Obligations

At June 30, 2019, the Authority had \$2.8 billion in outstanding bond, installment purchase, and capital lease obligations, excluding issuance premiums and deferred items. Of this amount, \$500.7 million is in the form of revenue bonds issued by the Authority with \$19.2 million of issuance premiums and \$2.2 billion in capitalized lease obligations related to the VIG lease. Also, there is \$30.5 million in master equipment lease financing and notes payable outstanding. In July 2019 (Fiscal Year 2020), the Authority closed on an additional \$22.0 million of master equipment lease financing to support the purchase of additional container handling equipment at NIT, as disclosed in Note 14 in the notes to the financial statements.

Pursuant to Resolution 16-9, Port Facilities Revenue Refunding Bond Series' 2016A, 2016B and 2016C were issued in November 2016 for a combined par value of \$280.5 million to refund Series 2010, 2015A, 2015B and 2013 Port Facilities Revenue Refunding Bonds with a combined outstanding par value of \$245.5 million, as well as refund \$14.2 million in outstanding principal related to existing Master Equipment Lease financings. The 2016A, 2016B and 2016C Series are subordinate to the VIG lease (which is deemed a senior obligation in credit priority), are supported by terminal revenues and carry underlying ratings of A1 and A- from Moody's Investor Service, Inc. and Standard and Poor's Rating Services, respectively.

The Authority's bond covenants for Port Facilities Revenue Bonds require the net revenues available to pay debt service, as defined in Resolution 16-9, to cover 100% of current expenses. Also, the greater of aggregate net revenue and aggregate adjusted net revenue as defined in Resolution 16-9 will not be less than 110% and 125%, respectively, of the aggregate principal and interest requirements for the applicable bond year. Additionally, the sum of net revenue and capital expenditures will not be less than 100% of the sum of the aggregate principal and interest requirements for the applicable bond year. The debt service coverage tests based on the foregoing criteria were exceeded for fiscal year 2019. See the compliance section for further detail.

As security for the VIG lease and for outstanding Port Facilities Revenue Bonds, the Authority is required to apportion its monthly net revenue in order of priority to (1) satisfy minimum levels of operating cash, (2) set aside sufficient funds to pay the next VIG lease payment, (3) set aside sufficient funds to satisfy the next monthly debt service deposit, (4) replenish any required debt service reserves which have been drawn upon – no such drawings have occurred or are outstanding – and (5) contribute to supplemental residual reserves to be used for any lawful purpose. We anticipate that cash flows for the upcoming operating cycle will be sufficient to meet these requirements. From time to time, the Authority will utilize a portion of its supplemental residual reserves to fund in part or in whole capital expenditures, and to buffer timing differences in monthly cash flow that can occur from seasonal trends or significant expenditures.

Commonwealth Port Fund Revenue bonds issued in 2012, 2015 and 2018 are supported by the Authority's 4.2% allocation of the Commonwealth's Transportation Trust Fund. The bonds are also backed by a sum sufficient appropriation from the Commonwealth and carry underlying ratings of AA+ from Fitch Ratings, Inc., an AA+ rating from Standard and Poor's, and an Aa1 rating from Moody's Investor Services.

In July 2018, the Authority issued \$60.3 million in Commonwealth Port Fund Revenue Refunding Bonds, Series 2018 for the purpose of refunding its outstanding Commonwealth Port Fund Revenue Bonds, Series 2011. The Series 2018 bonds reduce the average yield on the debt from an average cost of approximately 4.66% to approximately 3.90%, and maintains the last maturity at July 1, 2036. The Authority will continue to evaluate opportunities to optimize its borrowing cost and where consider appropriate engage in debt issuances to that end.

More details on long-term debt can be found in Notes 6 and 7 in the notes to financial statements.

ECONOMIC AND OTHER FACTORS AND RECENT DEVELOPMENTS

Many of the Authority's capital projects, either directly, or indirectly through bond issues, are funded from the Commonwealth of Virginia's Transportation Trust Fund. The Authority receives 4.2% of Transportation Trust Fund collections, which are revenues generated primarily by state motor vehicle fuel and sales taxes. Trust Fund collections are subject to the economic conditions existing throughout the Commonwealth, and are not controlled by the Authority. Accordingly, while this funding source has proven to be historically stable and is expected to remain relatively so, it should be expected to vary from year to year.

The Authority leases the Richmond Marine Terminal (RMT) pursuant to a 40 year agreement that commenced on February 1, 2016, and concurrently also manages the operations of the James River Barge Line that transports containers between RMT and VIG, PMT and NIT. Effective November 1, 2016, VIT assumed operational responsibility for RMT. The Authority continues actively seeking grants to support funding of these ventures as well as other projects to increase security, or lessen the environmental impact of, related logistics activities.

During Fiscal Year 2018, the Authority continued its efforts to expand and modernize NIT with funding from a \$350 million grant program provided by the Commonwealth of Virginia. The investment is being used to reconfigure the South Terminal at NIT, including implementation of a rail-mounted gantry crane configuration which will increase cargo capacity by over 46%, increase throughput velocity and enhance yard safety at the terminal. The project is expected to enter service in phases, with the final phases planned to go live in Fiscal Year 2021.

Looking into Fiscal Year 2020, container movements and TEU's in Fiscal Year 2020 through September 2019 are 3.0% and 4.3% higher, respectively, than the comparable prior year period. The terminal facilities are heavily utilized and are expected to remain so into the near future. The port believes its expansion efforts are timely in that they will position Virginia as a premier gateway to the East coast and Midwest at a time when volumes are steadily increasing and larger ships will bring higher volumes per port call.

This document, including the attached letters and commentary, may contain discussion or statements that might be considered by a reader to be forward looking – that is, related to future, not past, events. Forward-looking statements by their nature contain degrees of uncertainty. Various risks and uncertainties, such as those included in the notes to the financial statements, may cause actual future results or actions to be materially different than those that may be indicated by any of our forward-looking statements. Such statements reflect opinions and indications as of the date of this report, and we are not obligating ourselves to revise or publicly release the results of any revision to such forward-looking statements in light of new information or future events.

CONTACTING THE AUTHORITY’S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, customers, investors and creditors with a general overview of the Authority’s finances and to show the Authority’s accountability for the money we receive. If you have any questions about this report or need additional financial information, contact the Authority’s Finance Division at 600 World Trade Center, Norfolk, VA 23510-1679.

The accompanying Notes to Financial Statements are an integral part of this statement.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 1. Summary of Significant Accounting Policies

A. Reporting Entity

The Virginia Port Authority (“the Authority” or “VPA”) was established in 1952, as a political subdivision of the Commonwealth of Virginia (the Commonwealth), for the purpose of performing any act or function which may be useful in developing, improving, or increasing the commerce of the ports of the Commonwealth. A Board of Commissioners composed of 13 members oversees the Authority. The Board consists of the State Treasurer, the Chief Executive Officer of the Virginia Economic Development Partnership, and 11 members appointed by the Governor, subject to confirmation by the General Assembly, who shall serve at the discretion of the Governor. The Authority's major activities are developing water transportation facilities; providing security services; maintaining ports, facilities, and services; providing public relations and domestic and international advertising; and developing Virginia's ports through cargo solicitation and promotion throughout the world.

Virginia International Terminals, Inc. was incorporated as a non-stock, nonprofit corporation on June 30, 1981, for the purpose of operating marine terminals controlled by the Authority through ownership, lease or other means. Effective August 17, 2013, Virginia International Terminals, Inc. converted from a nonprofit, non-stock corporation to a single-member limited liability company with VPA as the sole member. As a result, the Authority has determined that Virginia International Terminals, LLC (VIT) should be included in the Authority's financial statements as a blended component unit. A blended component unit is, in substance, part of the primary government's operations, even though it is a legally separate entity. As a blended component unit, VIT serves or benefits those outside the Authority, but the Authority, as the primary institution, is financially accountable for or closely related to VIT.

The Authority is a blended component unit of the Commonwealth of Virginia. A separate report is prepared for the Commonwealth of Virginia, which includes all agencies, boards, commissions, and authorities meeting the blended component unit definition. The Authority is an integral part of the reporting entity of the Commonwealth of Virginia; accordingly, all funds of the Authority are included in the financial statements of the Commonwealth as a part of the reporting entity.

B. Basis of Accounting

The activities of the Authority are accounted for as an enterprise fund. The enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

The Authority prepares its financial statements on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, which provides that revenues are recorded when earned and expenses are recorded when incurred. Grants are recognized as revenue as the applicable activity occurs and when all eligibility requirements imposed by the grantor have been met.

C. Use of Estimates

The Authority prepares its financial statements in conformity with accounting principles generally accepted in the United States of America, which requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

D. Cash and Cash Equivalents

The Authority considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. The Authority invests available cash balances in conformity with the guidelines of the Commonwealth of Virginia.

E. Investments

All investments of the Authority are reported at fair value.

F. Accounts Receivable

Accounts receivable principally represent amounts billed to customers for services. Management believes these amounts are fully collectible and no allowance has been recorded as of June 30, 2019 for the Authority. VIT utilizes the allowance method for doubtful accounts. Accounts receivable are shown net of the allowance for doubtful accounts of approximately \$5.6 million as of June 30, 2019 for VIT. The allowance for doubtful accounts is an amount management believes will be adequate to absorb losses on existing accounts receivable that may become uncollectible.

G. Inventories

The Authority purchases supplies on an as needed basis. Inventories of VIT consist of supplies and equipment parts and are reported using the average cost method. An inventory allowance has been established for parts identified as obsolete or to be disposed of within the next 12 months. The VIT allowance for inventory totaled approximately \$11 thousand at June 30, 2019.

H. Capital Assets

Capital assets are generally assets with an initial cost of \$5,000 or more and an estimated useful life in excess of two years. Capital assets are valued at historical cost or estimated historical cost if actual cost is not available. Capital assets are comprised of land, buildings, infrastructure, other improvements, equipment, and construction in progress. Infrastructure assets are considered capital assets that can be preserved for a significantly greater number of years than most capital assets. Examples include roads, wharves, dredging, lighting, and drainage systems.

Depreciation and amortization on capital assets is computed using the straight-line method over the estimated useful lives of the assets as follows:

| | |
|-----------------------------------|-------------------|
| Buildings | 3 - 41 years |
| Improvements other than buildings | 5 - 50 years |
| Infrastructure | 4 - 41 years |
| Equipment | 3 - 28 years |
| Capital lease assets | Life of the lease |

The cost for maintenance and repairs is charged to expense as incurred. When items are retired or otherwise disposed of, the related costs and accumulated depreciation/amortization are derecognized from the accounts and any resulting gain or loss on such disposition is reflected in non-operating revenues or expenses.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

H. Capital Assets (Continued)

Interest cost associated with the construction of the Authority's capital assets are capitalized and reflected as part of the cost of the asset. Interest cost incurred is charged to the assets under construction. Projects funded entirely by a specific borrowing receive the effective interest rate on that borrowing. Projects funded by multiple borrowings receive interest based on the weighted average interest rate of all Authority borrowings. No interest is capitalized on the portion of projects funded by grants. Interest capitalized for the fiscal year ended June 30, 2019 was \$1,598,657.

A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. If determined to be permanently impaired, capital assets are reported at the lower of carrying or fair value. Any insurance recoveries associated with events leading to an asset impairment are netted against impairment losses. The Authority did not maintain any impaired assets as of June 30, 2019.

I. Long-Term Obligations

Long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount with allowable refunding gains or losses recorded as deferred inflows and outflows of resources. Bond issuance costs are expensed as incurred with the exception of bond insurance costs which are reported as deferred outflows of resources and amortized over the term of the related debt.

J. Compensated Absences

Compensated absences represent the amounts of paid time off (PTO) and legacy leave earned by employees of the Authority, but not taken at June 30, 2019. On January 1, 2015, the Authority converted the employees' earned but not used compensated absence balances as of December 31, 2014 into a separate legacy leave bank. Legacy leave is available for use as paid time off until December 31, 2019. Balances remaining unused at January 1, 2020 will be reduced to the lesser of the remaining balance at January 1, 2020 or 160 hours. Legacy leave may be paid out upon termination based on an employee's December 31, 2014 wage rate times the then current balance or 160 hours, whichever is less.

Additionally, modifications to the current PTO policy require that any unused PTO in excess of 40 hours be forfeited at the end of each calendar year. Up to forty hours of earned but unused PTO at the end of a calendar year may be carried over into the next calendar year for use within the next six months. At June 30, all prior year earned but unused PTO balances will be forfeited. Balances are earned on a quarterly basis but available for use on January 1 each year. PTO used in excess of amounts actually earned at termination are to be repaid to the Authority.

VIT has an identical compensated absences policy. See Note 6 for further discussion.

K. Budgets and Budgetary Accounting

The Appropriations Act as enacted by the General Assembly of Virginia established the Authority's budget for the year ended June 30, 2019. No payments can be made out of the state treasury except in pursuance of appropriations made by law.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

L. Restricted Assets

Restricted assets are utilized in accordance with the restrictions placed upon the resources. When a cost is incurred, for which both restricted and unrestricted assets are available, management determines on an individual basis how resources are allocated.

M. Net Position

The Authority records net position that is subject to external restrictions based on individual agreements. The restrictions are established by the Authority's governing jurisdictions or other requirements. The restricted net position may include the Authority's future construction and amounts held for debt service payments.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until consumption. At June 30, 2019, the Authority had \$26,042,529 of deferred outflows of resources; \$3,953,649 were pension-related with the balance, \$22,088,880 being bond-related.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that period. At June 30, 2019, the Authority had \$1,598,444 of deferred inflows of resources; \$1,316,378 for the stand-alone pension plan, \$125,000 for the multiple-employer pension plan, and \$157,066 related to bonds.

Deferred Outflows/Inflows of Resources - Blended Component Unit - VIT

At June 30, 2019, VIT had \$11,840,509 of deferred outflows of resources, all but \$34,989 being pension-related, and \$2,564,206 of deferred inflows of resources, all but \$428,347 being pension-related.

O. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Authority's Retirement Plan and the additions to/deductions from the Authority's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For the stand-alone plan and the multiple-employer plan, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

P. Pension Liability

The Authority's stand-alone net pension liability was measured as of June 30, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2018 using updated actuarial assumptions, applied to all periods included in the measurement.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

Q. Basis of Presentation

Operating revenues and expenses generally result from providing services in connection with ongoing operations. The principal revenue for the Authority is funds collected from VIT in accordance with a payment agreement. The Authority also recognizes other operating revenue in the form of rents, license agreements, and charges for services (for example, security surcharges). Operating expenses include the cost of services, administrative expenses, rent applicable to operating leases and depreciation and amortization of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Certain prior year amounts, where presented, have been classified to conform to current year presentation.

R. Investment Income

Interest income, including net realized and unrealized gains or losses on investment transactions and investment expenses, is recorded as non-operating revenue.

S. Subsequent Events

In preparing these financial statements, the Authority has evaluated events and transactions for potential recognition or disclosure through October 25, 2019, the date the financial statements were available to be issued.

T. Recently Issued Accounting Pronouncements

At June 30, 2019, the Governmental Accounting Standards Board (GASB) had issued statements not yet implemented by the Authority. The statements which might impact the Authority are as follows:

GASB Statement No. 84, *Fiduciary Activities*, will improve the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Statement No. 84 will be effective for fiscal years beginning after December 15, 2018.

GASB Statement No. 87, *Leases*, will increase the usefulness of the Company's financial statements by requiring reporting of certain lease assets and liabilities and deferred inflows of resources for leases that previously were classified as operating leases. Statement No. 87 will be effective for fiscal years beginning after December 15, 2019.

GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, will (1) enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. Statement No. 89 will be effective for fiscal years beginning after December 15, 2019.

GASB Statement No. 91, *Conduit Debt Obligations*, will provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. Statement No. 91 will be effective for fiscal years beginning after December 15, 2020.

Management is evaluating the above referenced pronouncements and has yet to determine the impact on the Authority's financial statements.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 2. Cash, Cash Equivalents and Investments

As of June 30, 2019, the Treasurer of Virginia, pursuant to Section 2.2 1800, et seq., *Code of Virginia*, who is responsible for the collection, disbursement, custody, and investment of state funds, held \$57,691,345 in cash and cash equivalents for the Authority.

Certain deposits and investments are held by the Authority or are held by trustees for the Authority. These accounts are collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400, et seq., *Code of Virginia* (the Act), or covered by the Federal Deposit Insurance Corporation (FDIC). Under the Act, banks and savings institutions holding public deposits in excess of the FDIC insured amounts must pledge collateral to the Commonwealth of Virginia Treasury Board. At June 30, 2019, all Authority deposits were considered adequately collateralized and were not exposed to custodial credit risk.

Short-term investments generally represent deposits and securities with maturities of one year or less. Long-term investments generally represent securities with maturities of greater than one year.

The Authority is required to segregate liquid assets (cash and investments) that are restricted for various purposes. As of June 30, 2019, these assets aggregated \$140,364,363 with \$68,281,085 classified as current and \$72,083,278 classified as noncurrent based on the purpose for which the assets are restricted.

Current restricted assets consist of:

- \$26,909,675 in cash and investments related to bond debt service payments to be made July 1, 2019.
- \$7,613,799 in cash related to a capital lease payment to be made July 1, 2019.
- \$33,747,366 in cash designated for purposes consistent with appropriations made by the Commonwealth of Virginia, and
- \$10,245 in cash for miscellaneous purposes.

Noncurrent restricted assets consist of:

- \$47,929,027 in cash and investments reserved to secure debt service in future years as required by the Authority's bond covenants,
- \$ 24,154,251 in cash and investments for miscellaneous purposes.

Statutes authorize the investment of funds held by the Authority in obligations of the Commonwealth, federal government, other states or political subdivisions thereof, Virginia political subdivisions, the International Bank for Reconstruction and Development, the Asian Development Bank, and the African Development Bank. In addition, the Authority may invest in prime quality commercial paper rated prime 1 by Moody's Investment Service or A 1 by Standard and Poor's Incorporated, overnight term or open repurchase agreements, and money market funds comprised of investments which are not rated but are otherwise legal investments of the Authority.

VPA categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Investments held by the Treasurer of Virginia: Investments and cash equivalents held by the Treasurer of Virginia represent the Authority's allocated share of cash collateral received and reinvested and securities received for the State Treasury's securities lending program. Information related to the credit risk of these investments and the State Treasury's securities lending program is available on a statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report. The Commonwealth's policy is to record unrealized gains and losses in the General Fund in the Commonwealth's basic financial statements. When gains or losses are realized, the actual gains and losses are recorded by the affected agencies.

Custodial credit risk (deposits): This is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. The Authority's investment policy requires all deposits to be insured under FDIC or comply with the Act. At year end, none of the Authority's deposits were exposed to custodial credit risk.

Blended Component Unit – VIT

Deposits: Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) or collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"), Section 2.2-4400 et., seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered adequately collateralized.

Custodial credit risk (deposits): This is the risk that in the event of a bank failure, VIT's deposits may not be returned to it. VIT's investment policy requires all deposits to be insured under FDIC or comply with the Act. At year end, none of VIT's deposits were exposed to custodial credit risk.

Note 3. Concentration of Risk

Interest rate risk: The Authority follows the Commonwealth of Virginia's investment policy and generally holds all of its investments to maturity as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk: The Authority follows the Commonwealth of Virginia's credit quality limitations and places emphasis on securities of high credit quality and marketability. Policy details can be found in the General Account Investment Guidelines document at <http://www.trsvirginia.gov/Documents/Cash/GenAcctInvstPolicy.pdf>.

Concentration of credit risk: The Authority places no limit on the amount it may invest in any one issuer, as long as it is a permitted investment in accordance with State Treasury guidelines.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 3. Concentration of Risk (Continued)

The Authority's rated investments (not held by the Treasurer) as of June 30, 2019 were rated by Standard & Poor's and the ratings are presented below:

| | Authority's Rated Debt Investments' Values | | | |
|------------------------------------|---|----------------------|----------------------|---------------------|
| | Agency Ratings | | | |
| | A-1 | AA | A | Unrated |
| Negotiable Certificates of Deposit | \$ 16,320,266 | \$ 1,000,000 | \$ - | \$ - |
| Commercial Paper | 5,847,431 | - | - | - |
| Corporate Bonds and Notes | - | 9,013,762 | 21,301,534 | - |
| Supranational Bonds and Notes | - | - | 2,477,801 | - |
| U.S. Treasuries | - | 14,103,842 | - | - |
| Asset Backed Securities | 4,092,777 | - | - | 3,567,574 |
| Agency Mortgage Backed Securities | 3,684,751 | 10,081,665 | - | - |
| Total | \$ 29,945,225 | \$ 34,199,269 | \$ 23,779,335 | \$ 3,567,574 |

Blended Component Unit – VIT

Concentration of risk: Financial instruments that potentially subject VIT to credit risk consist of accounts receivable. VIT provides labor-intensive services to major shipping-lines that import and export products through the marine terminals that it operates. VIT can hold cargo shipped through the terminals as collateral for these receivables, in addition to other remedies for non-payment. Since VIT controls the movement of cargo through the terminals, it has ready access to the collateral.

For the year ended June 30, 2019, approximately 39% of total revenue was derived from three customers. Receivables outstanding at June 30, 2019 for this concentration totaled \$18,960,173.

A significant portion of VIT's labor is provided by contract with the International Longshoremen's Association. The current contract expires September 30, 2024.

Note 4. Due From Other Governments

* The capital asset components recorded pursuant to the Virginia International Gateway, Inc. (VIG) lease can be summarized as follows:

- VIG Phase I (existing facility) – the original operating facility consisting of buildings, rail infrastructure, stacks and wharf. The facility was in service at the commencement of the lease and, accordingly, is being amortized over the life of the lease.
- VIG Phase II (facility expansion) – the development of approximately 60 acres adjacent to Phase I which consists of the extension of the existing berth, a rail expansion, and additional container stacks and transfer facilities. The expansion has been managed by the Authority and funded by the lessor, and construction was substantially completed July 2019. Accordingly, the lease asset as recorded will be amortized over the remaining lease term when placed in service during fiscal year 2020.
- VIG ISC Phase II (expansion transfer assets) – A pool of assets, consisting principally of container handling and storage equipment, which is being acquired during (and funded through) the Phase II expansion development. These assets, with an estimated aggregate cost of \$55.7 million, are being delivered to the Authority via a bill of sale as acquired, and will be recorded in their applicable asset categories when placed into service to then be depreciated over their estimated useful lives.

Balance as of
June 30, 2019

Revenue Bonds

On January 25, 2012, Commonwealth Port Fund Revenue Refunding Bonds Series 2012 (Taxable), (the "Series 2012 Bonds"), dated the same, were issued in the principal amount of \$108,015,000. The bonds are payable in annual principal installments varying from \$6,835,000 to \$8,730,000 with semi-annual interest payments with rates ranging from 2.45% to 3.72% and the final installment due July 1, 2027. Proceeds of the Series 2012 Bonds have been used to (a) refund in full the outstanding principal amount of the Authority's Commonwealth Port Fund Revenue Bonds (2002 Resolution) (the "Series 2002") issued on July 23, 2002, and (b) pay all or a portion of the expenses incurred with respect to the issuance of the Series 2012 Bonds and the refunding of the Series 2002 Bonds. The Series 2012 Bonds are payable primarily from the Commonwealth Port Fund. \$ 69,230,000

On September 26, 2012, Commonwealth Port Fund Revenue Refunding Bonds, Series 2012B (Taxable), (the "Series 2012B Bonds") dated the same, were issued in the principal amount of \$45,230,000. The bonds are payable in annual principal installments varying from \$2,855,000 to \$3,630,000 with interest of 1.82% to 3.68% payable semiannually, the final installment due July 1, 2029. Proceeds of the Series 2012B Bonds have been used (a) to pay the costs of refunding all or a portion of the Series 2005A Bonds, and (b) to pay costs of issuance of the Series 2012B Bonds. The Series 2012B Bonds are payable primarily from the Commonwealth Port Fund. 34,840,000

On September 26, 2012, Commonwealth Port Fund Revenue Refunding Bonds, Series 2012C (Non-AMT), (the "Series 2012C Bonds") dated the same, were issued in the principal amount of \$4,795,000. The bonds are payable in principal amounts of \$780,000 and \$4,015,000, due July 1, 2029 and July 1, 2030, respectively. Semi-annual interest payments commenced July 1, 2013 with interest of 3.0% to 5.0%, the final installment due July 1, 2030. These bonds have a first optional redemption date of July 1, 2022. The proceeds of the Series 2012C Bonds have been used (a) to pay the costs of refunding all of the Series 2005B Bonds, and (b) to pay costs of issuance of the Series 2012C Bonds. The Series 2005B Bonds were issued on April 14, 2005. The Series 2012C Bonds are payable primarily from the Commonwealth Port Fund. 4,795,000

Revenue Bonds (Continued)

On June 23, 2015, Commonwealth Port Fund Revenue Bonds, Series 2015 (AMT), (the “Series 2015 CPF Bonds”) dated the same, were issued in the principal amount of \$58,680,000. The bonds are payable in annual principal installments between \$6,250,000 and \$7,050,000, beginning July 1, 2028 through July 1, 2031 and annual installments between \$7,420,000 and \$8,590,000 beginning July 1, 2037 with the final installment due July 1, 2040. Semi-annual interest payments commence January 1, 2016 with interest of 5.0% payable semiannually on January 1 and July 1. The Series 2015 CPF Bonds are payable primarily from the Commonwealth Port Fund. The proceeds of the Series 2015 CPF Bonds have been used to finance improvements to the Port Facilities at NIT, PMT, VIP and RMT.

\$ 58,680,000

On November 17, 2016, Port Facilities Revenue Refunding Bonds, Series 2016A (Taxable) (the “Series 2016A Bonds”) dated the same, were issued in the amount of \$143,965,000. The bonds are payable in annual principal installments varying from \$1,565,000 to \$10,300,000 with interest of 1.62% to 4.48% payable semiannually, the final installment due July 1, 2045. These bonds have a first redemption date of July 1, 2026 at 100% of the principal amount for Series 2016A bonds maturing on or after July 1, 2027. The proceeds of the Series 2016A Bonds have been used (a) to pay the costs of refunding a portion of the remaining Series 2010 and Series 2015 Bonds, and (b) to pay costs of issuance of the Series 2016A Bonds. The Series 2016A Bonds are payable from the net revenues of the Authority, and are subordinate in priority to the Amended and Restated Deed of Facilities Lease Agreement dated September 21, 2016, by and between Virginia International Gateway, Inc. and Virginia Port Authority (the VIG lease).

142,415,000

On November 17, 2016, Port Facilities Revenue Refunding Bonds, Series 2016B (AMT) (the “Series 2016B Bonds”) dated the same, were issued in the amount of \$99,230,000. The bonds are payable in annual principal installments varying from \$1,905,000 to \$6,450,000 with interest of 5.0% payable semiannually, the final installment due July 1, 2045. These bonds have a first redemption date of July 1, 2026 at 100% of the principal amount for Series 2016B bonds maturing on or after July 1, 2027. The proceeds of the Series 2016B Bonds have been used (a) to pay the costs of refunding a portion of the remaining Series 2010 Bonds and Series 2015 Bonds, and (b) to pay costs of issuance of the Series 2016B Bonds. The Series 2016B Bonds are payable from the net revenues of the Authority, and are subordinate to the VIG lease.

Note 6. Long-Term Debt (Continued)

Details of Long-Term Indebtedness (Continued)

| | Balance as of June 30, 2019 |
|---|--------------------------------|
| <u>Compensated Absences</u> | |
| VPA employees' attendance and leave regulations make provision for the granting of a specified number of days of leave each year. The amount of leave earned but not taken is recorded as a liability on the Statement of Net Position. At June 30, 2019 the amounts reflect all earned "paid time off" and compensatory leave not taken, and the management estimated most probable amount payable under the Authority's legacy leave and sick leave policies, upon termination. The Authority's legacy leave has been calculated using management's most probable estimate of the leave to be used through December 31, 2019, at which time the leave will be capped at the then current hours balance up to the maximum 160 hours payout at termination, at the December 31, 2014 salary rate. The compensated absence liability includes provision for related payroll taxes. | \$ 967,318 |
| Total long-term indebtedness | \$ 2,801,805,532 |

Annual Long-Term Debt Requirements

Summaries of future principal and interest maturities under long-term obligations as of June 30, 2019 are as follows:

Capital Lease Obligation – VIG Lease

On November 17, 2016, VPA formally commenced an amended and restated deed of facilities lease agreement for the Virginia International Gateway terminal in Portsmouth, Virginia (the VIG lease). The agreement provides for the extension of the termination date of the original lease from June 30, 2030 to December 31, 2065, as well as the expansion of the operable terminal capacity of the facility.

In addition to the extension of the lease term for the existing facility (Phase I), the lessors are financing the development of additional container handling capacity on approximately 60 acres adjacent to Phase I which is increasing the annual volume capacity from approximately 650 thousand movements to approximately 1.2 million (Phase II). Phase II development costs to be funded by the lessor are estimated at \$312 million, subject to a floor of \$288 million, and a cap of \$352 million with the ultimate cost to be recovered through the minimum lease payments paid by VPA. The ultimate value of the Phase II development costs being financed by the lessor will be settled during fiscal year 2020. The lease also provides for certain assets (consisting principally of container handling equipment) to be transferred to VPA via a bill of sale upon commencement, and other similar assets to be transferred to VPA via bill of sale as acquired during Phase II development (transferred assets). The transferred assets are required to be maintained as security for the lease obligation.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 6. Long-Term Debt (Continued)

Annual Long-Term Debt Requirements (Continued)

Capital Lease Obligation – VIG Lease (Continued)

The payment terms of the restated lease consist of an initial annual base rent of \$51.7 million, plus \$11 million of expansion rent during the first lease year, increasing to \$22 million of expansion rent during the second lease year, and finally \$33 million during the third lease year and thereafter (e.g. \$84.7 million of adjusted annual base rent from year three forward); the amount of additional rent will likely increase or decrease depending on the ultimate Phase II expansion cost funded. During the construction period, the restated lease also provides for an additional \$1 million annually of interim construction rent, and after years five and ten of the amended and restated lease, the total annual rent increases by an additional \$1 million at each interval.

All lease payments are subject to escalation based on changes in the Consumer Price Index for All Urban Consumers as published by the United States Bureau of Labor Statistics (CPI). Escalation is based on the CPI published as of May for each year to be effective as of the following July 1. Based on the CPI published for October 2016, the change in CPI assumed for calculation of the minimum lease payments was 1.6%. Capital lease assets in the amount of \$2.2 billion were recorded at lease inception, along with a lease liability in the same amount. A condition of the lease is that VIG will receive senior preference in relation to Port Facilities Revenue Bonds or other obligations entered into pursuant to Resolution 16-9.

Any increases or decreases in future lease payments that result from CPI different than that applied to the minimum lease payment calculation at the lease inception will be accounted for as contingent rentals and be recorded in the applicable lease year as realized.

| Year(s) Ending June 30, | Principal | Interest | Total |
|----------------------------|------------------------|------------------------|------------------------|
| 2020 | \$ (14,457,917) | \$ 103,656,514 | \$ 89,198,597 |
| 2021 | (14,200,233) | 104,318,008 | 90,117,775 |
| 2022 | (12,652,546) | 104,941,156 | 92,288,610 |
| 2023 | (11,354,745) | 105,490,281 | 94,135,536 |
| 2024 | (10,349,968) | 105,991,673 | 95,641,705 |
| 2025-2029 | (30,632,630) | 535,504,538 | 504,871,908 |
| 2030-2034 | 11,530,630 | 537,974,347 | 549,504,977 |
| 2035-3039 | 65,196,001 | 529,698,795 | 594,894,796 |
| 2040-2044 | 136,894,365 | 507,139,507 | 644,033,872 |
| 2045-2049 | 231,634,813 | 465,597,087 | 697,231,900 |
| 2050-2054 | 355,753,058 | 399,071,096 | 754,824,154 |
| 2055-2059 | 517,258,188 | 299,915,414 | 817,173,602 |
| 2060-2064 | 726,269,758 | 158,403,436 | 884,673,194 |
| 2065-2066 | 299,502,238 | 12,124,194 | 311,626,432 |
| Total capital lease | \$2,250,391,012 | \$3,969,826,046 | \$6,220,217,058 |

As a result of the difference between the scheduled minimum lease payments and the calculated periodic interest expense associated with the lease liability, the annual lease payments are not projected to exceed the annual calculated interest and therefore provide for a positive amortization (net reduction in outstanding principal) until fiscal year 2031.

VIRGINIA PORT AUTHORITY

A summary of indebtedness by type (including current portion) for the Authority follows:

| | Debt | Premium | Total Long-Term Debt |
|--------------------------------------|-------------------------|----------------------|----------------------------|
| Commonwealth port fund revenue bonds | \$ 227,890,000 | \$ 6,224,193 | \$ 234,114,193 |
| Port facilities revenue bonds | 272,830,000 | 12,951,325 | 285,781,325 |
| Installment purchases | 28,439,956 | - | 28,439,956 |
| Note payable - dredging | 2,111,728 | - | 2,111,728 |
| Capital lease obligation – VIG lease | 2,250,391,012 | - | 2,250,391,012 |
| | <u>\$ 2,781,662,696</u> | <u>\$ 19,175,518</u> | <u>2,800,838,214</u> |
| Compensated absences | | | 967,318 |
| | | | <u>\$ 2,801,805,532</u> |

The Series 2016A Bonds and 2016B Bonds are required to be collateralized with liquid funds sufficient to cover the highest year of debt service. As of June 30, 2019, \$5,384,339 and \$3,305,625, respectively, were maturities in cash and investments to satisfy these requirements.

Blended Component Unit – VIT

On January 1, 2015, VIT converted employees' earned but not used vacation and personal leave balances at December 31, 2014 into a new legacy leave bank. Legacy leave is available for use as paid time off until December 31, 2019. Balances in excess of 160 hours remaining unused at January 1, 2020 will be forfeited. Legacy leave may be paid out upon termination of an employee at the employee's December 31, 2014 wage rate times the lesser of their then current legacy leave balance or 160 hours. Additionally on January 1, 2015, VIT implemented a new paid time off (PTO) policy, providing compensated absences that can be used each calendar year. At the end of each calendar year, any earned but unused PTO in excess of 40 hours will be forfeited. Up to 40 hours of earned but unused PTO at the end of a calendar year may be carried forward for use within the next 6 months. At June 30, any remaining prior year earned but unused PTO will be forfeited. PTO is earned on a quarterly basis but available for use on January 1 of each year. Leave used over and above the earned amounts at termination are to be repaid to VIT. As of June 30, 2019, VIT has recorded a liability of \$1,431,239 for compensated absences.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 7. Defeasance of Debt

Refundings

On November 17, 2016, the Authority issued \$143,965,000 (par value) of Port Facilities Revenue Refunding Bonds, Series 2016A (Taxable) to advance refund \$57,085,000 in principal amount of the Authority's Port Facilities Revenue Bonds, Series 2010 issued in the original par amounts of \$68,630,000; to advance refund \$42,435,000 in principal amount of the Authority's Port Facilities Revenue Bonds, Series 2015C issued in the original par amounts of \$85,130,000, and to advance refund \$14,159,675 in principal and interest amounts of various equipment leases. The net proceeds from the issuance, along with other funds available from the Authority, were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the bonds are to be called. At June 30, 2019, \$96,783,644 of these defeased bonds were still outstanding.

On November 17, 2016, the Authority issued \$99,230,000 (par value) of Port Facilities Revenue Refunding Bonds, Series 2016B (AMT) to advance refund \$10,030,000 in principal amount of the Authority's Port Facilities Revenue Bonds, Series 2010 issued in the original par amounts of \$68,630,000; to advance refund \$42,695,000 in principal amount of the Authority's Port Facilities Revenue Bonds, Series 2015C issued in the original par amounts of \$85,130,000 and to advance refund \$55,925,000 in principal amount of the Authority's Port Facilities Revenue Bonds, Series 2015B issued in the original par amounts of \$56,755,000. The net proceeds from the issuance, along with other funds available from the Authority, were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the bonds are to be called. At June 30, 2019, \$99,500,000 of these defeased bonds were still outstanding.

On July 26, 2018, the Authority issued \$60,345,000 (par value) of Commonwealth Port Fund Revenue Refunding Bonds, Series 2018 to advance refund \$57,370,000 in principal amount of the Authority's Commonwealth Port Fund Revenue Bonds, Series 2011 (Non-AMT) issued in the original par amounts of \$57,370,000. The net proceeds from the issuance, along with other funds available from the Authority, were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the bonds are to be called. At June 30, 2019, \$57,370,000 of these defeased bonds were still outstanding.

The Series 2016A and 2016B refundings were undertaken as a condition of the VIG lease. The reacquisition price of \$298,235,744 netted against the book value of the refunded debt resulted in the recognition of a deferred outflow of resources of \$24,352,824. At June 30, 2019, \$18,750,745 remained as unamortized deferred outflows of resources. In addition, there are unamortized deferred outflows of resources related to the refundings of Series 2002, 2005A, and 2011 of \$2,738,193, \$329,104, and 270,838, respectively.

Note 8. Commitments and Contingencies

As of June 30, 2019, the Authority has commitments to construction contracts totaling \$534,447,379 of which \$434,669,966 has been incurred.

Payments for rent under an operating lease agreement amounted to \$831,476 for the year paid by VIT and recorded as a transfer to the Authority for space rental of offices at the World Trade Center.

Expenses for operating lease agreements amounted to \$185,000 in Fiscal Year 2019.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 8. Commitments and Contingencies (Continued)

Operating lease commitments in aggregate are as follows:

| Year Ending June 30, | Amount |
|----------------------|-----------------------------------|
| 2020 | \$ 185,000 |
| 2021 | 185,000 |
| 2022 | 185,000 |
| 2023 | 180,000 |
| 2024 | 180,000 |
| Thereafter | <u>5,670,000</u> |
| Total | <u><u>\$ 6,585,000</u></u> |

Blended Component Unit – VIT Leases

VIT leases administrative office space, equipment, and land. Each of the leases has different rates and renewal dates. Applicable lease commitments in the aggregate are as follows:

| Year Ending June 30, | Amount |
|----------------------|------------------------------------|
| 2020 | \$ 5,085,691 |
| 2021 | 2,997,273 |
| 2022 | 2,995,381 |
| 2023 | 2,688,388 |
| 2024 | 1,657,406 |
| Thereafter | <u>4,162,380</u> |
| Total | <u><u>\$ 19,586,519</u></u> |

Rental expense incurred under all operating leases other than chassis (including less than one year and cancellable) was \$3,016,823 for the year ended June 30, 2019. Rental expense incurred is net of rents paid on behalf of the VPA which were recorded as a transfer to the VPA totaling \$831,476 for the year ended June 30, 2019.

Hampton Roads Chassis Pool II, LLC (HRCP) is a wholly owned subsidiary of VIT that operates a chassis pool for rental to shipping lines and constituent motor carriers. HRCP leases chassis under various operating lease agreements. The agreements may be renewed or terminated at the end of each term. HRCP must maintain and repair chassis delivered to the pool. Rent expense under the operating leases totaled \$16,423,689 during the year ended June 30, 2019 and is included in operating expenses.

VIT has various rental and sub-lease agreements ranging from one to three years. Rental and sub-lease income received under these agreements totaled \$3,013,054 during the year ended June 30, 2019. Future payments to be received under these agreements are expected to be \$2,787,107 in 2020.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 8. Commitments and Contingencies (Continued)

Federal Grants

The Authority receives federal grant funding from the United States Department of Transportation, Maritime Administration to purchase equipment, support barge movements and to improve security around the ports of Virginia. In addition, the Authority has also been awarded grants from the Environmental Protection Agency, FEMA and other federal agencies. The grants are subject to review and audit under the "Uniform Guidance." Entitlement to these resources is conditional upon compliance with the terms and conditions of the agreements, including the expenditure of resources for allowable purposes. The Authority is required to comply with various federal regulations issued by the Office of Management and Budget.

Imposed Non-Exchange Transaction

The Authority, through a Joint Memorandum of Agreement, received \$1.9 million in fiscal year 2009 as a mitigation payment from Virginia Natural Gas to fund Army Corps of Engineers approved enhancements to Anchorage K for future dredging and navigation activities associated with the provision of a deeper anchorage area in the waters that are contiguous to the area known as Hampton Roads. These funds were deposited into an interest-bearing account. As of June 30, 2019, \$2,076,017 remains in the account.

Lawsuits and Claims

The Authority, from time to time, is a defendant in lawsuits generally incidental to its business. It is management's opinion that the financial position of the Authority will not be materially affected by the ultimate resolution of litigation pending or threatened at June 30, 2019.

Blended Component Unit – VIT

VIT is a defendant in various lawsuits generally incidental to its business. It is management's opinion that the financial position of VIT will not be materially affected by the ultimate resolution of litigation pending or threatened at June 30, 2019.

On April 7, 2014, VIT obtained a letter of credit available in the amount of \$1,001,300 for workers' compensation claims. It bears interest at prime and is set to expire on May 31, 2020. At June 30, 2019, there were no borrowings outstanding.

VIT is also contingently liable for legacy leave of \$1,431,239 at June 30, 2019 representing amounts employees could use during their period of employment. Legacy leave is available for use as paid time off until December 31, 2019. Balances in excess of 160 hours remaining and unused at January 1, 2020 will be forfeited.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 9. Pension Plans

Pensions

The Authority provides two defined benefit plans for its employees. Employees of record on July 1, 1997 had the option of electing to be covered as a State employee, and their benefits maintained under the Virginia Retirement System (VRS), or electing to be covered under a newly created pension plan (the VPA Defined Benefit Plan). The VPA Defined Benefit Plan covers all employees hired between July 1, 1997 and February 1, 2014. Employees hired after February 1, 2014 are eligible for a defined contribution plan only. On January 1, 2015, the plan was amended to add certain employees who transferred from VIT (referred to as “Legacy VIT Participants”) to the VPA. Those employees carry the same eligibility rules as referenced in the VIT plan section.

Employees of the Authority who elected to remain employees of the Commonwealth participate in a defined benefit pension plan administered by the VRS. For information on the VRS retirement plan, please see the VRS website at <https://employers.varetire.org/financial-reporting/vrs-guidlines-and-resources.html> for pension plan reporting information. The VRS also administers life insurance and health related plans for retired employees. Information relating to these plans is available at the statewide level only in the Commonwealth of Virginia's Comprehensive Annual Financial Report (CAFR). The Commonwealth, not the Authority, has overall responsibility for contributions to these plans. The Authority has elected not to disclose information related to the VRS Plan on the basis of its relative immateriality to VPA taken as a whole. The VRS Net Pension Liability recorded at June 30, 2019 is \$525,000 along with a deferred outflow of \$53,473 and a deferred inflow of \$125,000.

The VPA Defined Benefit Plan is a single employer, noncontributory defined benefit pension plan administered by the Authority. The plan provides retirement, disability, and death benefits to plan members and beneficiaries. Benefit provisions and obligations are established and may be amended by the Board of Commissioners of the Authority. The latest actuarial report on the VPA Defined Benefit Plan may be obtained by contacting the Finance Division of the Authority.

In January 2014, the Board of Commissioners voted to amend the VPA Defined Benefit Plan to freeze participation and to provide that no new participants shall be admitted or readmitted after January 28, 2014. The effect of those changes is included in the accompanying pension data.

VPA Defined Benefit Plan

A. General Eligibility Rules

Former employees and beneficiaries of VPA satisfy retirement eligibility if (1) they commence retirement benefits immediately upon termination and (2) under any one of the following conditions:

| | General | Police |
|--------------------|---------|--------|
| Normal Retirement: | | |
| (a) Age | 65 | 60 |
| Early Retirement: | | |
| (a) Age | 50 | 50 |
| (b) Service | 10 | 5 |
| Early Retirement: | | |
| (a) Age | 55 | N/A |
| (b) Service | 5 | N/A |
| Disability: | | |
| (a) Service | 5 | 5 |

Effective date: August 1, 1998; latest amendment effective July 1, 2018.

Eligibility: Generally, each employee hired prior to January 28, 2014 is eligible to enter the plan on his or her date of employment. Employees hired prior to August 1, 1998 who elected continued coverage under the VRS are not eligible to participate in this plan.

Normal retirement age: Age 65; for sworn employees, normal retirement age is 60.

Normal retirement benefit: An employee's normal retirement benefit equals 1.7% of final average compensation multiplied by credited service.

Accrued retirement benefit: The accrued retirement benefit is determined in the same manner as the normal retirement benefit with final average compensation and credited service as of the date of computation.

Unreduced early retirement date: The date an employee attains age 50 and completes 30 years of service. A sworn employee attains his or her unreduced early retirement date upon attaining age 50 and completing 25 years of service.

Reduced early retirement date: The date an employee attains age 55 and 5 years of service, or age 50 and 10 years of service. For sworn employees, the reduced early retirement date is age 50 and 5 years of service.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 9. Pension Plans (Continued)

VPA Defined Benefit Plan (Continued)

B. Summary of Principal Plan Provisions

Early retirement benefit: The benefit is the employee's accrued benefit payable at normal retirement age without reduction, or without reduction at age 50 if the employee has completed the number of years of credited service required for unreduced early retirement. Otherwise, if the employee retires at age 55 or later, the benefit is the accrued benefit reduced by .5% for each month up to 60 months and .4% for each month in excess of 60 months that his or her early retirement date precedes the earlier of normal retirement age or the date the employee would have reached his or her first unreduced early retirement date assuming employment had continued.

If the employee retires before age 55 and is not entitled to an unreduced benefit, the benefit is reduced to 55 by .5% for each month up to 60 months and .4% for each month in excess of 60 months that his or her early retirement date precedes the earlier of normal retirement age or the date the employee would have reached his or her first unreduced early retirement date assuming employment had continued, and is further reduced by .6% for each month by which the actual retirement date precedes age 55.

Disability retirement benefit: Total and permanent disability and five years of credited service are required for eligibility. Benefits are payable at the member's normal retirement date. The disability retirement benefit is calculated in the same manner as the normal retirement benefit assuming credited service and monthly compensation, as determined for the plan year immediately preceding date of disablement, and continues until the normal retirement date.

Late retirement benefit: Retirement after normal retirement date. A member's late retirement benefit is equal to the accrued retirement benefit with final average compensation and credited service as of his or her late retirement date.

Vesting: A participant's accrued benefit becomes vested after five years of credited service.

Form of benefit: Payable for life. 50% or 100% joint and last survivor options and a Social Security option are available on an actuarially equivalent basis.

Credited service: Credited service is based on years and completed months of employment.

Final average compensation: The highest average of monthly compensation determined over any consecutive 36 months preceding date of termination.

Pre-retirement death benefit: If an employee dies after becoming eligible for retirement and before retirement benefits have begun, the employee's beneficiary will receive a benefit payable for life. The amount of the benefit is the monthly benefit the deceased member would have received had the employee retired on the day before date of death and elected a 100% joint and last survivor option.

If a vested member who had not yet begun receiving retirement benefits dies prior to becoming eligible for retirement, his or her beneficiary is entitled to receive a benefit. The amount of the benefit is equal to 100% of the monthly benefit the member would have received if the member had terminated employment rather than died, survived to the earliest retirement age and died having elected a 100% joint and last survivor option.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 9. Pension Plans (Continued)

VPA Defined Benefit Plan (Continued)

B. Summary of Principal Plan Provisions (Continued)

Sworn supplement: Employees in sworn positions receive an enhancement to their accrued benefit equal to .3% of final average compensation for each year of credited service earned in a sworn position. Up to 5 years of credited service in a hazardous position with another employer may be recognized for purposes of this enhancement.

Employees who were hired prior to December 1, 2001 may elect to receive an alternative sworn supplement in lieu of the .3% enhancement described in the preceding paragraph. This alternative supplement provides, for employees in sworn positions who have completed 15 years of credited service, a supplemental benefit equal to \$13,128 per year, which is payable from retirement until Social Security normal retirement age. For purposes of satisfying the 15 years of credited service requirement, up to 5 years of credited service in a hazardous position with another governmental employer may be credited.

Integration with VRS benefits for sworn employees: Sworn employees who receive their basic retirement benefit from VRS and for whom VRS does not provide the normal retirement age, unreduced early retirement benefits and reduced early retirement benefits described for sworn employees under the VPA Defined Benefit Plan, will receive an additional benefit from the VPA Defined Benefit Plan. The amount of the additional benefit is equal to the (1) benefit determined using VPA credited service and the VPA Defined Benefit Plan normal retirement age, unreduced early retirement benefit and/or reduced early retirement, minus (2) the benefit to which the participant is entitled under VRS based on VPA credited service.

Contributions: As the plan sponsor for the VPA Defined Benefit Plan, the Authority sets a contribution amount annually based on recommendations provided by the plan's Actuary. The Authority elected to contribute \$1,515,194 in Fiscal Year 2019 for employees receiving the basic retirement benefit from the plan. The plan does not specify a minimum funding requirement.

The annual pension cost for the current year was actuarially determined as of June 30, 2018 using the Individual Entry Age Normal cost method. The actuarial value of plan assets was determined using fair value. The discount rate used in determining the actuarial liability was 7.0% and 3.5% was used for future annual compensation increases.

C. Schedules

Members covered by the benefit terms:

| | |
|--|-----|
| Inactive members or beneficiaries currently receiving benefits | 81 |
| Inactive members entitled to but not yet receiving benefits | 53 |
| Active eligible members | 106 |
| | 106 |
| | 240 |

D. Net Pension Liability

VPA's net pension liability at June 30, 2019 was actuarially measured as of July 1, 2018, and total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

| Net Pension Liability Under GASB Statement No. 68 | June 30, 2018 |
|---|---------------------|
| Total pension liability | \$ 24,849,953 |
| Plan fiduciary net position | 18,859,066 |
| Net pension liability | <u>\$ 5,990,887</u> |

Plan fiduciary net position as a percentage of the total pension liability 75.89%

E. Changes in Net Pension Liability

| | Increase (Decrease) | | |
|--|--------------------------------------|--|--|
| | Total Pension Liability (a) | Plan Fiduciary Net Position (b) | Net Pension Liability (a) - (b) |
| Balances at June 30, 2017 | \$ 22,141,737 | \$ 16,882,585 | \$ 5,259,152 |
| Changes for the year: | | | |
| Service cost | 611,654 | - | 611,654 |
| Interest | 1,564,406 | - | 1,564,406 |
| Differences between expected and actual experience | 1,409,871 | - | 1,409,871 |
| Net investment income | - | 1,492,568 | (1,492,568) |
| Contributions from employer | - | 1,323,815 | (1,323,815) |
| Benefit payments | (809,461) | (809,461) | - |
| Administrative expense | - | (30,441) | 30,441 |
| Changes of assumptions | (68,254) | - | (68,254) |

VPA Defined Benefit Plan (Continued)

F. Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the VPA Defined Benefit Plan, calculated using the discount rate of 7 percent, as well as what the VPA Defined Benefit Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6 percent) or 1-percentage-point higher (8 percent) than the current rate:

G. Discount Rate Sensitivity – Net Pension Liability at End of Period

| | 1% Decrease (6%) | Current Rate (7%) | 1% Increase (8%) |
|------------------------------|---------------------|----------------------|---------------------|
| Total pension liability | \$ 28,420,081 | \$ 24,849,953 | \$ 21,892,002 |
| Plan fiduciary net position | 18,859,066 | 18,859,066 | 18,859,066 |
| Net pension liability | \$ 9,561,015 | \$ 5,990,887 | \$ 3,032,936 |

H. Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2019, reported deferred outflows of resources and deferred inflows of resources related to pensions originated from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------------|-------------------------------------|
| Employer contributions made subsequent to measurement date | \$ 1,515,194 | \$ - |
| Difference between actual and expected experience | 1,395,754 | 502,851 |
| Assumption changes | 569,306 | 144,108 |
| Net difference between expected and actual earnings on pension plan investments | 419,922 | 669,419 |
| Total | \$ 3,900,176 | \$ 1,316,378 |

The \$1,515,194 reported as deferred outflows of resources resulting from employer contributions subsequent to measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending June 30, | Amount |
|----------------------|---------------------|
| 2020 | \$ 421,811 |
| 2021 | 170,418 |
| 2022 | 121,879 |
| 2023 | 209,553 |
| 2024 | 144,943 |
| | \$ 1,068,604 |

For the year ended June 30, 2019, VPA recognized a pension expense of \$1,284,070.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 9. Pension Plans (Continued)

VPA Defined Benefit Plan (Continued)

I. Long-Term Expected Rate of Return

The long-term expected rate of return on pension investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation for each major asset class is summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return* |
|-------------------------------------|----------------------|---|
| Fixed income | 42.8% | 2.7% |
| Domestic and international equities | 51.6% | 7.2% |
| Real estate | 2.9% | 7.4% |
| Other investments | 2.7% | 5.1% |
| | 100.0% | |

* This is an arithmetic nominal return. VPA uses this information as a data point and benchmarks their return assumptions against other comparable entities.

J. Deferred Compensation Plans

In addition to the defined benefit pension plans, the Authority maintains two deferred compensation plans and a matching savings plan under Internal Revenue Code Sections 457 and 401(a), respectively. Employees who maintain status under VRS are covered under a deferred compensation plan administered by VRS. Information relating to this plan is available at the statewide level only in the Commonwealth of Virginia's CAFR.

The VPA Deferred Compensation Plan covers all employees hired after July 1, 1997, and those employees electing coverage under the Authority's deferred compensation plan. The Matching Savings Plan covers substantially all employees. The Matching Savings Plan requires VPA to match contributions in an amount equal to 50% of the first 6% of the participant's base pay contributed to the plan for employees hired on or before January 28, 2014. VPA's total contribution to the Matching Savings Plan was \$117,791 for the year ended June 30, 2019.

On January 28, 2014, the Authority's Board adopted Resolution 14-2, Freezing Pension Plan to New Participants and Establishing Enhanced Defined Contribution Plan for New Employees, in order to move toward normalizing the retirement benefits between the Authority and VIT. Beginning April 1, 2014, employees hired after January 28, 2014 (Enhanced Participants), will be provided an employer contribution of 4% of compensation and are also eligible for a matching contribution of 50% of the first 4% of compensation contributed to the Deferred Compensation Plan. VPA's total contribution to the VPA Defined Contribution Plan for Enhanced Participants for the year ended June 30, 2019 was \$352,076 for the Defined Contribution and \$130,264 for the Enhanced Participant Employer Matching Contribution.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 9. Pension Plans (Continued)

VPA Defined Benefit Plan (Continued)

J. Deferred Compensation Plans (Continued)

Employees transferring to the Authority from VIT, as part of the Port of Virginia (POV) restructure or shared services agreement, that had been hired by VIT prior to July 1, 2012 and were active participants of VIT's pension plan at the time of the transfer, and are not eligible for the Enhanced Defined Contribution plan, are eligible for a matching contribution of 50% of the first 3% of compensation contributed to the Deferred Compensation Plan. VPA's total matching contribution to the VPA Defined Contribution Plan for VIT Plan Participants for the year ended June 30, 2019 was \$68,346.

The right to modify, alter, amend, or terminate the Authority's Deferred Compensation Plan and the Matching Savings Plan vests with the Board of Commissioners of the Authority.

Blended Component Unit – VIT

A. Plan Description

The Virginia International Terminals, LLC Pension Plan (VITPP) is a single employer, noncontributory defined benefit pension plan administered by VIT. VITPP provides retirement, disability, and death benefits to plan members and beneficiaries. Benefit provisions and obligations are established and may be amended by resolutions of the Board of Commissioners of the Virginia Port Authority. VITPP issues a stand-alone financial report. The most recent report is as of June 30, 2018 and is available upon request from VPA's administrative offices.

B. Benefits Provided

VITPP provides retirement, disability, and death benefits to plan members and beneficiaries. Normal retirement benefits are in the form of life annuities based on the normal retirement benefit, which is calculated as 1.4% x final average earnings x credited service PLUS 0.4% x final average excess earnings x credited service (max. 35 years). Final average earnings is the highest average of the employee's benefit earnings in sixty (60) consecutive months of credited service. Final average excess earnings is the excess, if any, of final average earnings over covered compensation. Covered compensation is equal to the 35-year average of the social security taxable base during an employee's working career. Entry into the VITPP was frozen as of June 30, 2012. Vesting is over seven years of service, ranging from 20% at two years of service, to 60% at five years of service and full vesting at seven years of service. Disability benefits are available to those with five years of credited service and eligibility for social security disability benefits is required. Benefits commence on an employee's normal retirement date and are computed using credited service as of the normal retirement date and final average earnings as of the disability retirement date. Pre-retirement death benefits are payable to the spouse of a vested employee who dies before retirement benefits have begun. The pre-retirement death benefit will be equal to the monthly amount the spouse would have received if the employee had terminated employment just before their death, serviced to the earliest date on which they could have retired, and died having elected a 50% joint and survivor benefit.

Employees covered by the benefit terms as of June 30, 2019:

| | |
|--|------------|
| Inactive employees or beneficiaries currently receiving benefits | 254 |
| Inactive employees entitled to but not yet receiving benefits | 161 |
| Active eligible employees | 241 |
| Total | 656 |

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 9. Pension Plans (Continued)

Blended Component Unit – VIT (Continued)

C. Contributions

The plan sponsor's funding policy is to contribute the amount to meet the minimum funding requirements of Internal Revenue Code Sections 412 and 430. From time to time, the plan sponsor, at its sole discretion, may contribute an amount above the minimum required contribution.

Members are not required to contribute to the plan. VIT makes an actuarially determined contribution to the plan for all covered employees. VIT's contributions to the pension plan were \$4,666,517 and \$2,427,553 for the years ended June 30, 2019 and 2018, respectively.

If the plan sponsor fails to pay the minimum required contribution by 8½ months after the end of the plan year, the plan sponsor will be required to pay a 10% excise tax under Internal Revenue Code Section 4971 on the amount of any unpaid minimum required contributions. This tax can increase to 100% if the unpaid minimum required contribution is not corrected in subsequent plan years.

D. PBGC Premiums

ERISA established the Pension Benefit Guaranty Corporation (PBGC), under the jurisdiction of the U.S. Department of Labor, to guarantee most vested retirement benefits and certain disability and survivor pensions.

Plans covered by the PBGC insurance program must file an annual premium filing each year with the PBGC via their online myPAA system within 9½ months after the beginning of the plan year. All plans must pay a basic premium based on the number of participants as of the end of the previous plan year, and plans with unfunded vested benefits must also pay an additional risk-related premium to the PBGC. The premium amount payable is \$381,700 calculated for a full fiscal year.

E. Net Pension Liability

VIT's net pension liability at June 30, 2019 was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

F. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits as determined by an independent actuary using end of year benefit information as of June 30, 2018 is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation measured at June 30, 2018 were (a) life expectancy of participants (the RP - Fully Generational Healthy Mortality Table Adjusted to 2006 with MP-2014 and projected with Scale MP-2018), (b) retirement age (age 65), (c) investment return (average rate of return of 7%), (d) taxable wage base (2.5%), and (e) salary scale assumption of 3.5%. The foregoing actuarial assumptions are based on the presumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 9. Pension Plans (Continued)

Blended Component Unit – VIT (Continued)

G. Asset Valuation Method

IRC Section 430(g) provides that plan assets be valued at either their fair market value on the valuation date or at the “average” value of assets on the valuation date. Under the average value, the value of plan assets is set equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets (including expected earnings) determined for one or more earlier determination dates (up to a 2-year limit). The resulting average value must be constrained so that it falls between 90% and 110% of the fair market value of plan assets on the valuation date. Contributions for a prior plan year that are made after the beginning of this plan year are adjusted for interest at the effective interest rate under IRC Section 430(h)(2).

H. Long-Term Expected Rate of Return

The long-term expected rate of return on pension investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation for each major asset class is summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return* |
|-------------------------------------|----------------------|---|
| Fixed income | 48.1% | 3.3% |
| Domestic and international equities | 42.0% | 7.2% |
| Real estate | 5.1% | 7.4% |
| Other investments | 4.8% | 5.1% |
| | 100.0% | |

* This is an arithmetic nominal return. VPA uses this information as a data point and benchmarks their return assumptions against other comparable entities.

Blended Component Unit – VIT (Continued)

L. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2019, VIT recognized a pension expense of \$3,155,991.

VIT reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources at June 30, 2019:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------------|-------------------------------------|
| Employer contributions made subsequent to measurement date | \$ 7,031,866 | \$ - |
| Difference between actual and expected experience | 900,507 | 104,820 |
| Assumption changes | 29,468 | 396,090 |
| Net difference between expected and actual earnings on pension plan investments | 3,843,679 | 1,634,949 |
| Total | \$ 11,805,520 | \$ 2,135,859 |

Deferred outflows of resources resulting from employer contributions subsequent to measurement date in the amount of \$7,031,866 will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred inflows and outflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Year Ending June 30,</u> | <u>Amount</u> |
|-----------------------------|---------------------|
| 2020 | \$ 1,676,895 |
| 2021 | 1,010,204 |
| 2022 | (296,703) |
| 2023 | 247,399 |
| | \$ 2,637,795 |

VIT sponsors noncontributory supplemental plans covering certain key employees. The accrued liability net of investments in the supplemental plans was \$108,136 as of June 30, 2019. There were no contributions to the plan for the year ended June 30, 2019.

In addition, VIT sponsors a deferred compensation plan and a matching savings plan under IRC Sections 457 and 401(a), respectively, which cover substantially all nonunion employees with 90 days or more of service. The matching savings plan requires VIT to match employee contributions in an amount equal to 50% of the first 3% of the participant's base pay contributed to the deferred compensation plan. VIT's total contribution to the matching savings plan was \$902,004 for the year ended June 30, 2019.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 10. Other Postemployment Benefits

Effective January 1, 2015, VPA ceased providing formal post-employment benefits to all employees except for two subsets of employees whose benefits were grandfathered: (1) 38 VPA employees who were transferred from VIT will, if they retire at age 62 or older with at least 30 years of service, receive a premium subsidy of \$500 per month until they reach age 65; and (2) 4 retired VPA employees are being allowed to remain in the VPA health and dental plans until age 65, but must pay the full actuarially determined premium to retain coverage. Based on an evaluation of these limited benefits by VPA's actuary, management has elected not to disclose information related to the OPEB liability on the basis of its relative immateriality to VPA taken as a whole. The OPEB liability recorded at June 30, 2019 is \$576,000.

Blended Component Unit – VIT

A. General Information about the OPEB Plan

Plan description: VIT provides non-pension post-retirement medical insurance benefits to individuals who are at least 62 years of age who retire with 30 years of service through a single employer defined benefit OPEB plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits provided: VIT provides medical and dental benefits for retirees. The benefit terms provide for the same coverage options as active employees for employee-only medical and dental plans with a maximum subsidy of \$500 per month until age 65. Coverage for a spouse may be continued at the employee's expense for 10 years, until the spouse's 65th birthday or until the spouse remarries, whichever is earlier.

B. Employees Covered by Benefit Terms

Employees covered by the benefit terms as of June 30, 2019:

| | |
|--|-----------|
| Inactive employees or beneficiaries currently receiving benefits | 9 |
| Active eligible employees | 79 |
| Total | 88 |

The OPEB plan is closed to new entrants.

C. Total OPEB Liability

VIT's total OPEB liability of \$910,998 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date.

D. Actuarial assumptions and other inputs

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| | | |
|-----------------------------|--|--|
| Salary increases | 3.5% | |
| Discount rate | 2.3% | |
| Healthcare Cost Trend Rates | 6.0% decreasing 0.5% per year to an ultimate rate of 5.0% for 2022 and later years | |

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 10. Other Postemployment Benefits (Continued)

Blended Component Unit – VIT (Continued)

D. Actuarial Assumptions and Other Inputs (Continued)

The discount rate was based on a 20 year AA Municipal Bond Rate.

Mortality rates were based on the RP-2014 Mortality Fully Generational using Projection Scale MP-2018. The census was also updated to reflect the current population.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actual experience study for the period.

E. Changes in the Total OPEB Liability

| | Total OPEB Liability |
|---|-------------------------|
| Balance at June 30, 2018 | \$ 1,331,083 |
| Changes for the year: | |
| Service cost | 21,975 |
| Interest | 39,897 |
| Differences between expected and actual experience | (428,448) |
| Changes of assumptions or other inputs | 34,989 |
| Benefit payments, including refunds of employee contributions | (88,498) |
| Net changes | (420,085) |
| Balance at June 30, 2019 | \$ 910,998 |

The entry age actuarial cost method is unchanged from the prior OPEB valuation. Under this method, the actuarial present value of the projected benefits of each individual included in an actuarial valuation is allocated on a level basis over the earnings of the individual between entry age and assumed exit age.

F. Sensitivity of the Total OPEB Liability to Changes in Discount Rate

The following presents the total OPEB liability of VIT, calculated using the discount rate of 2.3%, as well as what VIT's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.3%) or 1-percentage-point higher (3.3%) than the current discount rate:

G. Discount Rate Sensitivity – Total OPEB Liability at End of Period

| | 1% Decrease (1.3%) | Current Rate (2.3%) | 1% Increase (3.3%) |
|----------------------|-----------------------|------------------------|-----------------------|
| Total OPEB liability | \$ 963,378 | \$ 910,998 | \$ 860,517 |

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 10. Other Postemployment Benefits (Continued)

Blended Component Unit – VIT (Continued)

H. Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of VIT, as well as what VIT’s total OPEB liability would be if it were calculated using healthcare costs trend rates that are 1-percentage-point lower (5 percent decreasing to 4 percent) or 1-percentage-point higher (7 percent decreasing to 6 percent) than the current healthcare cost trend rates:

| | Healthcare Cost | | |
|----------------------|--------------------------|--------------------------|--------------------------|
| | 1% Decrease | Trend Rates | 1% Increase |
| | (5% decreasing to 4%) | (6% decreasing to 5%) | (7% decreasing to 6%) |
| Total OPEB liability | \$ 845,381 | \$ 910,998 | \$ 984,773 |

I. OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, VIT recognized OPEB expense of \$61,777. VIT also reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources at June 30, 2019:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------------|-------------------------------------|
| Differences between expected and actual experience | \$ - | \$ 428,347 |
| Changes of assumptions | 34,989 | - |
| Total | \$ 34,989 | \$ 428,347 |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending June 30, | Deferred Outflows of Resources | Deferred Inflows of Resources |
|----------------------|--------------------------------------|-------------------------------------|
| 2020 | \$ 5,727 | \$ (70,218) |
| 2021 | 5,727 | (70,218) |
| 2022 | 5,727 | (70,218) |
| 2023 | 5,727 | (70,218) |
| 2024 | 5,727 | (70,218) |
| Thereafter | 6,354 | (77,257) |
| | \$ 34,989 | \$ (428,347) |

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 11. Accrued Workers' Compensation Costs

Blended Component Unit – VIT

Included in accrued workers' compensation costs are a workers' compensation claims component and an accrued U.S. Department of Labor assessment component. The workers' compensation claims component consists of VIT's estimate of its continuing liability for injuries which occurred during periods of self-insurance. The balance at June 30, 2019 is classified as follows:

| | |
|--|---------------------------------|
| Workers' compensation claims, current | \$ 147,187 |
| Workers' compensation claims, noncurrent | <u>505,801</u> |
| Total | <u><u>\$ 652,988</u></u> |

The accrued U.S. Department of Labor assessment component is VIT's estimate of the present value of its future liability to the U.S. Department of Labor for participation in the U.S. Department of Labor's Second Injury Fund. The total liability has been discounted using a rate of 7.0% at June 30, 2019. The undiscounted liability totaled approximately \$2,377,000 at June 30, 2019. VIT expects to pay assessments annually through 2025. The balance at June 30, 2019 is classified as follows:

| | |
|---|-----------------------------------|
| Accrued U.S. Department of Labor assessment, current | \$ 630,689 |
| Accrued U.S. Department of Labor assessment, noncurrent | <u>1,268,227</u> |
| Total | <u><u>\$ 1,898,916</u></u> |

Note 12. Risk Management and Employee Health Care Plans

The Authority is exposed to various risks including, but not limited to, torts; theft; cybercrime; property damage (3rd and 1st party) or total loss to its assets; errors and omissions; non-performance of duty; work-related injuries to its employees; contractual disputes and labor strikes; and natural disasters. To assist the Authority in identifying, prioritizing and mitigating high risk exposures, the Authority has implemented an Enterprise Risk Management Program that is constantly monitoring high-level risks and mitigation strategies on a quarterly basis. In addition, the Authority maintains a robust insurance program which protects the Authority's assets, its commissioners, officers and employees against third party liability. To that end, the Authority maintains insurance policies covering general liability, property damage, cyber liability, law enforcement liability, Kidnap, Ransom and Extortion, international travel, automobile insurance; and Fiduciary liability insurance through Virginia Association of Counties Group Self-Insurance Risk Pool commonly referred to as "VACORP." In addition to its primary layer of insurance, the Authority maintains Excess liability insurance coverage. For the benefit of the Authority's employees, workers' compensation insurance and employers liability insurance, both state and federal, are provided by Signal Mutual and Arch Insurance, respectively. Health Insurance is provided to the Authority's employees by Anthem Blue Cross/Blue Shield on a cost-sharing basis.

Through its operating agreement, the Authority requires VIT to maintain property insurance coverage on all plant and equipment located on the terminals.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 12. Risk Management and Employee Health Care Plans (Continued)

The Authority maintains its own insurance coverage for health (for employees hired on or after July 1, 1997), property, auto, workers' compensation, and international liabilities, as well as an umbrella policy providing excess liability coverage over and above losses not covered in primary policies. The Authority is partially self-insured for employee health coverage. The Authority is responsible for actual claim costs up to \$125,000 per individual for calendar year 2018. The aggregate deductible for VIT and VPA combined claims in excess of the \$125,000 individual limit was \$6,358,209 for calendar year 2019.

Blended Component Unit – VIT

VIT participates in a workers' compensation insurance pool. VIT remains obligated under its former self-insured plan for future losses as a result of accidents that occurred prior to April 12, 1999. VIT is partially self-insured for those workers' compensation claims and maintains insurance coverage of \$5,000,000 per claim, but is obligated to pay the first \$1,000,000 of any individual's claims per incident.

VIT offers health/medical insurance to its employees, and bears some self-insurance risk for claims cost in excess of employee premiums/contributions received. Pursuant to a joint arrangement with the VPA, the entity carries stop loss insurance to mitigate exposure to significant claims. The stop loss policy is on a calendar year basis, with renewals effective each January 1. During the calendar years of 2018 and 2019, the individual claim cost limit (deductible) under the policy for VIT was \$125,000. The aggregate deductible for VIT and VPA combined claims in excess of the \$125,000 individual limit was \$6,358,209 for calendar year 2019 and \$9,507,239 for calendar year 2018.

Note 13. Related Parties

VIT makes lease payments on behalf of the VPA for various equipment and office space. Total payments on behalf of the VPA for these lease agreements were \$851,003 for the year ended June 30, 2019.

On August 8, 2014, an agreement for shared services was executed between VPA and VIT, in an effort to centralize the administrative functions of the Port of Virginia and reduce costs. Services shared include accounting and finance, purchasing, risk management, innovation, human resources, and any other cost pool which may be developed for which a shared services allocation may be appropriate. Costs are billed by VPA to each entity based on a budgeted allocation with true up to actual expenditures on a quarterly but no less than annual frequency. The shared services agreement became effective on January 1, 2015. For the year ended June 30, 2019, VIT's allocated services from VPA were \$16,362,859 and HRCP's were \$2,367,683.

From time to time, related parties will extend short-term cash advances. Net advances are identified in the Statement of Cash Flows in the capital and related financing activities section as advances (to) from related parties. No interest is earned or charged on any advances, none were made during fiscal year 2019, and at June 30, 2019 there were no related-party advances outstanding between any of the port entities.

For the year ended June 30, 2019, VIT and subsidiaries recorded \$156,859,006 as operating transfers payable to VPA pursuant to the Payment Agreement. The calculations are performed as of the end of the applicable month, and payment is made by the 20th of the subsequent month. VIT also collected and remitted to VPA \$10,906,902 in security surcharges from VPA customers for the year ended June 30, 2019.

VIRGINIA PORT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

Note 14. Subsequent Event

On July 15, 2019, a Master Equipment Lease Agreement between Banc of America Public Capital Corp, as Lessor, and Virginia Port Authority, as Lessee, was entered into for the lease purchase of terminal equipment totaling \$21,950,000. The payments associated with this agreement begin January 1, 2020 in the amount of \$882,587 and continue with semi-annual payments each July and January for a period of fifteen years at an interest rate of 2.524%. Final payment will be due July 1, 2034.

Notes to Schedule:

- (1) **Changes of benefit terms:** There have been no changes to the benefit terms since the prior actuarial valuation.
- (2) **Changes of assumptions:** Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The following is the discount rate used for the period presented:

| | |
|------|------|
| 2018 | 3.0% |
| 2019 | 2.3% |
- (3) This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, VIT will present information for those years for which information is available

STATISTICAL SECTION

VIRGINIA PORT AUTHORITY

STATISTICAL SECTION

(Unaudited)

The objective of the statistical section is to provide information about the economic conditions within which the Virginia Port Authority operates to enable the user to more fully understand what the information in the financial statements, notes and supplementary information says about the Authority's overall financial condition. Unlike most governmental agencies, the Virginia Port Authority has no taxing authority and relies predominately on funds generated through business services at the Ports. Their economic conditions are unlike a taxing locality, where population demographics directly affect revenue. The Authority is influenced by worldwide economic conditions as opposed to more localized conditions.

Financial Trends

These schedules and graphs contain trend data about how the financial performance and condition of the Authority has changed over time.

* at par value – does not include premiums or deferred amounts

¹ The above table considers debt in the context of borrowed funds to financial capital needs. Accordingly, the table excludes the amended and restated lease with Virginia International Gateway, Inc.

The Authority has no taxing authority and does not derive its revenues directly from the population of the Commonwealth. There is no direct relationship between the population of the Commonwealth, or its per capita income to the types of debt incurred by the Authority. The above ratio reflects debt as a percentage of combined operating revenues which fluctuate based on local, state, and world-wide economics.

THE PORT OF VIRGINIA®

THE PORT BY NUMBERS

50'/15.24M CHANNELS
and berths with
Congressional authorization
for 55' deep/16.76m channels

**NEARLY \$1.5 BILLION
OF INVESTMENT**
across our terminals and
channels between 2014-2024

**TWO CLASS I ON-DOCK
RAILROADS: NS & CSX**
VIG has doubled the existing
on-dock, double-stack rail
capacity and added four new,
highly efficient cranes.

**80% OF ALL TRUCK
MOVES IN 2019**
were done in under 60 minutes.

**CHICAGO RAIL TRANSIT
IN 47 HOURS**

**75% OF THE U.S.
POPULATION**
lives within a two-day drive.

18 NAUTICAL MILES
to open sea

**ASIA SERVICE OFFERINGS
FROM BOTH PANAMA
AND SUEZ CANAL**

**29 INTERNATIONAL
SHIPPING LINE SERVICES**
offer direct access to more than
89 foreign ports

The Port of Virginia™ and the ship-design logo are service marks owned and used by Virginia Port Authority, and are used by Virginia International Terminals, LLC under license.

THE PORT BY NUMBERS

MORE THAN 3,000 ACRES/1,214 HECTARES of land are available for development within close proximity

218 PORT-RELATED ECONOMIC DEVELOPMENT announcements between fiscal year 2014-2019

THE PORT IS A GRANTEE OF FOREIGN TRADE ZONE #20 which provides benefits to companies that locate in FTZs.

INTERCONTINENTAL COFFEE EXCHANGE (ICE) certified port with three roasters and several exchange-certified warehouses located within 25 miles of the port.

BARGE CAPACITY WITH 40-PLUG POWER UNIT
The Richmond Express Barge links the port's terminals in the Norfolk Harbor to Richmond Marine Terminal.

2,099 REEFER PLUG CAPACITY AT VIG & NIT
When the expansion is complete there will be over 1,000 plugs at each terminal-doubling our reefer capacity.

19,590 PORT RELATED JOBS created between 2014-2019

SEVEN OF THE TOP 10 LARGEST REFRIGERATED warehouses have facilities in Virginia.

\$6,594,702,950 INVESTED in Virginia by port-customers between 2014-2019

VIRGINIA PORT AUTHORITY SOURCE AND USE DATA Fiscal Year Ended June 30, 2019

| | | | | | |
|------------------------|------------------------------|-----|------------------------|------------------------------|-----|
| Operating revenues | \$ 173,243,334 | 52% | Operating expenses | \$ 112,246,515 | 47% |
| Non-operating revenues | <u>157,507,041</u> | 48% | Non-operating expenses | <u>127,872,536</u> | 53% |
| Total revenues | <u>\$ 330,750,375</u> | | Total expenses | <u>\$ 240,119,051</u> | |

The Virginia Port Authority has several revenue sources including operating revenues from component unit, other revenues (primarily security surcharges), and operating grants as operational sources. Capital transfers and non-operating revenues include Commonwealth Port Fund allocations, Capital Grants, Primary Government Transfers and Other State Agency transfers.

Of the operating revenues, \$157 million or 90.5% are operating transfers from the net cash flows of Virginia International Terminals. Their tariff rates are published at http://www.portofvirginia.com/tools/schedule_of_rates/. Currently 65.7% of all revenues are based on unit rate contracts which are proprietary, but lock shiplines and alliances into long-term contracts with our ports. The remaining revenues are billed at tariff rates or via specific quotes.

¹ Excludes the net book value of the amended and restated lease with Virginia International Gateway, Inc., which is recorded in the statement of net position as a capital lease.

VIRGINIA PORT AUTHORITY

OPERATING ASSETS

In conjunction with its mission to stimulate commerce through the ports of the Commonwealth, the Virginia Port Authority is responsible for the maintenance of and improvements to the Commonwealth's port facilities. Seventy-two percent (72%) of the Authority's assets are land and infrastructure such as wharfs, piers, container storage yard, etc. Container handling equipment is also a major operating asset at the port representing twenty-four percent (24%) of net assets. Container handling equipment consists primarily of cranes, straddle carriers, shuttle carriers and other freight handling equipment. The Authority's remaining asset classifications are buildings (3%) and improvements (1%).

This chart excludes Construction in Progress (\$312M) as these assets are not currently used in operations.

TAXES APPROPRIATED TO COMMONWEALTH PORT FUND

The General Assembly of the Commonwealth of Virginia (the “Commonwealth”) has appropriated the net additional revenues, from the tax and fee increases enacted pursuant to Chapters 11, 12 and 15 of the Acts of Assembly, 1986 Special Session, in each biennia, to the Commonwealth’s Transportation Trust Fund (the “Transportation Fund”) and directed the Commonwealth’s Transportation Board to allocate 4.2% thereof to the Commonwealth Port Fund (the “Port Fund”).

The following table sets forth the annual collections of the taxes that have been allocated to the Transportation Trust Fund beginning with the fiscal year ended June 30, 2010.

NET TRANSFERS TO THE COMMONWEALTH PORT FUND

The following table shows the allocation of Transportation Trust Fund revenue to the Port Fund, the interest credited to the Port Fund prior to its transfer to the Income Account under the Authority’s Commonwealth Port Fund Revenue Bond Resolution (the “Bond Resolution”) and the expenses charged thereto for the fiscal years 2010 through 2019. The net transfers to the Income Account (“Primary Income”) are pledged to the payment of bonds issued under the Bond Resolution.

| Fiscal Year | Allocation ⁽¹⁾ | (+) | Interest Earned ⁽²⁾ | (=) | Net Transfers |
|-------------|---------------------------|-----|--------------------------------|-----|---------------|
| 2010 | \$ 32,716,363 | | \$ 232,650 | | \$ 32,949,013 |

CARGO DATA

The Authority's ports handle a variety of general cargo. Bulk cargo, such as petroleum products, grain and coal, is not handled at the Port Facilities but is handled at facilities owned by railroads and other private operators. Set forth below are the major categories of general cargo handled by the Port Facilities based on the top five leading import and export commodities for the most recent calendar year.

Leading Exported and Imported General Cargo Commodities*
(Calendar Year)
(Short Tons)

| | 2014 | 2015 | 2016 | 2017 | 2018 |
|-----------------------|---------|---------|---------|-----------|-----------|
| Exports: | | | | | |
| Logs and lumber | 770,646 | 852,913 | 860,369 | 1,280,448 | 1,703,765 |
| Soybeans and products | 758,695 | 844,039 | 822,012 | 1,193,392 | 992,683 |
| Wood pulp | 864,696 | 758,466 | 905,411 | 869,404 | 761,463 |
| Paper and paperboard | 976,840 | 901,543 | 923,662 | 868,676 | 756,664 |
| Pet and animal feeds | 390,139 | 502,409 | 507,737 | 568,277 | 710,100 |
| Imports: | | | | | |
| Furniture | 551,034 | 583,881 | 725,538 | 852,501 | 910,630 |
| General cargo | - | - | - | - | 633,825 |
| Auto parts | 511,662 | 487,757 | 442,302 | 479,020 | 512,542 |
| Plastic products | 287,536 | 274,003 | 203,857 | 302,759 | 390,054 |
| Metal ware | 241,527 | 297,466 | 243,430 | 293,523 | 240,179 |

* This table includes both import and export data for all facilities that comprise the Port of Virginia, some of which are not owned or operated by the Authority. The Authority estimates that the VPA Facilities handle in excess of 95% of the general cargo transported through the Port of Virginia.

CARGO DATA

The Authority's ports handle a variety of general cargo. Bulk cargo, such as petroleum products, grain and coal, is not handled at the Port Facilities but is handled at facilities owned by railroads and other private operators. Set forth below are the major categories of general cargo handled by the Port Facilities based on the top five leading import and export commodities for the most recent calendar year.

Leading Exported and Imported General Cargo Commodities*
(Calendar Year)
(Short Tons)

| | 2014 | 2015 | 2016 | 2017 | 2018 |
|-----------------------|---------|---------|---------|-----------|-----------|
| Exports: | | | | | |
| Logs and lumber | 770,646 | 852,913 | 860,369 | 1,280,448 | 1,703,765 |
| Soybeans and products | 758,695 | 844,039 | 822,012 | 1,193,392 | 992,683 |
| Wood pulp | 864,696 | 758,466 | 905,411 | 869,404 | 761,463 |
| Paper and paperboard | 976,840 | 901,543 | 923,662 | 868,676 | 756,664 |
| Pet and animal feeds | 390,139 | 502,409 | 507,737 | 568,277 | 710,100 |
| Imports: | | | | | |
| Furniture | 551,034 | 583,881 | 725,538 | 852,501 | 910,630 |
| General cargo | - | - | - | - | 633,825 |
| Auto parts | 511,662 | 487,757 | 442,302 | 479,020 | 512,542 |
| Plastic products | 287,536 | 274,003 | 203,857 | 302,759 | 390,054 |
| Metal ware | 241,527 | 297,466 | 243,430 | 293,523 | 240,179 |

* This table includes both import and export data for all facilities that comprise the Port of Virginia, some of which are not owned or operated by the Authority. The Authority estimates that the VPA Facilities handle in excess of 95% of the general cargo transported through the Port of Virginia.
