AN/"Intrado"

PAT. NO.	Title
1 11,257,572	Remote medical treatment application and operating platform
2 11,232,480	Preference-based advertising systems and methods
3 11,216,787	Meeting creation based on NLP analysis of contextual information associated with the meeting
4 11,216,257	Automated conference sessions generated to manage application development
5 11,212,387	Prompt list modification
6 11,189,376	Patient tracking and dynamic updating of patient profile
7 11,171,870	Communication failover and load balancing method
8 11,157,595	Technology enabled communications pathway between health care providers and patients
9 11,146,458	Software defined network for application development
10 11,138,630	Intelligent interactive voice response system for processing customer communications
11 11,025,773	Virtual communication service for mobile devices
12 10,999,438	Communication session scheduling queue
13 10,971,264	Patient tracking and dynamic updating of patient profile
14 10,945,115	Crisis management system and methods thereof
15 8,537,974	System and method for facilitating emergency calling from a remote terminal
16 8,009,808	System and method for maintaining a translations database to effect call control at a remote terminal
17 7,529,352	System and method to provide local service for all emergency services numbers and to provide language assistance for calls to such numbers
18 7,272,386	System and method for providing location and call back information for special number calls from phone sets serviced by a privately served network
19 7,251,312	Method and system for availing participants in a special number call event and others of information contained in a plurality of data stores
20 7,200,207	Communication network for providing emergency services
21 7,177,400	System and method for providing a map image supplemental to automatic location identification information
22 7,177,398	Bi-directional messaging for an emergency services network
23 7,177,397	Geographic routing of emergency service call center emergency calls
24 7,123,693	Method and apparatus for increasing the reliability of an emergency call communication
