ENTERPRISES

A Family of Companies. A World of Customers.™

The Plank Enterprises, Inc. Family of Companies

LPI, Inc. - Designer of Lift Systems

LDPI, Inc. - Manufacturer of Industrial Lighting

Pro~Cise, Inc. - Contract Manufacturing Services

Plank Enterprises, Inc. ...
global provider of specialized equipment
for commercial and industrial applications.

Plank Enterprises is a specialized manufacturing organization, with more than 25 years of service meeting the needs of a wide range of customers. Family-owned and operated from inception, Plank Enterprises offers stability and strong relationships, along with the ability to provide contract manufacturing services and unique equipment, designed for challenging applications. Plank's family of companies supply commercial and industrial customers around the world.

Commitment

Plank Enterprises is committed to meeting the specialized needs of customers in specific industrial and commercial niches, by providing top-quality manufacturing services and equipment designed to perform reliably in challenging applications and environments.

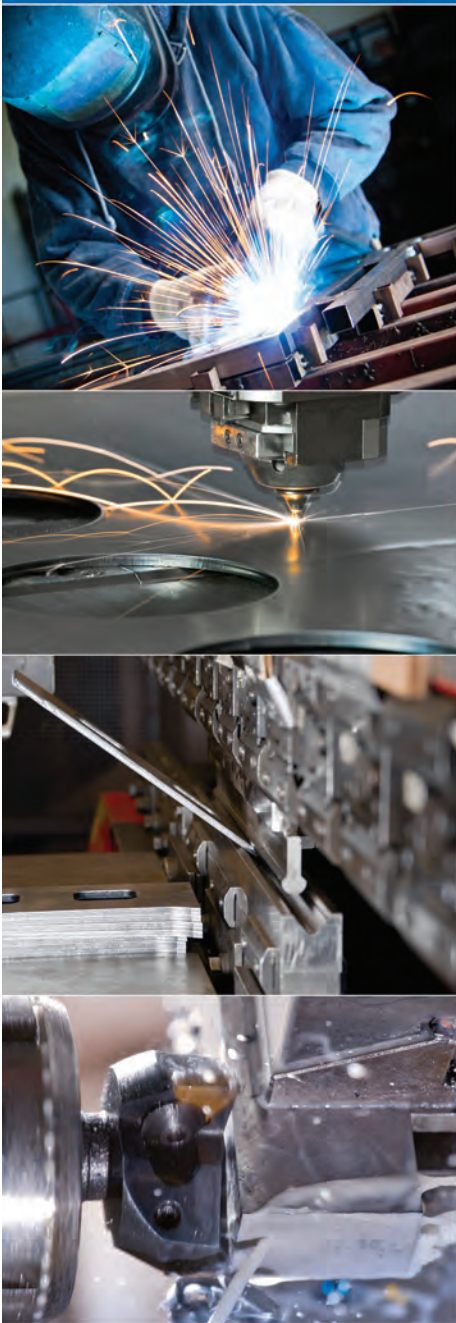

Goal

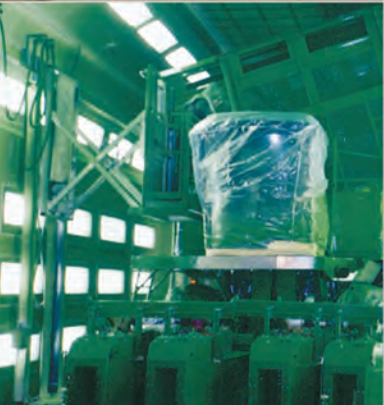

Plank Enterprises will be the supplier of choice for a wide range of manufacturing services as well as specialized commercial and industrial equipment and products for customers around the world.

The Plank family of quality products and services.

Plank Enterprises is parent to trusted and capable companies that supply an impressive array of specialized products. Below is a brief overview of the many solutions we're ready to provide.

- Custom-designed and standard raised work platforms
- Made-to-order personnel and equipment lifts
- Material-handling and transfer equipment
- Lighting systems for use in paint/powder booths, commercial, industrial, wet, marine, harsh, hazardous and clean-room applications
- Single source contract manufacturing services for complete turn key OEM components.

LPI, Inc. ...

lift systems taking workers, equipment and safety to higher levels.

LPI, Inc. is a custom manufacturer of personnel lifts, scissor lifts, fall-protection and work platforms for a variety of industrial applications and facility maintenance. LPI's in-house engineering team, working directly with your staff, can design custom equipment based on your needs and specifications. We operate on a grand scale when needed, producing lift platforms that rise to great heights, span considerable lengths and handle impressive weight loads.

- Multiaxis lifts for multidirectional movement and precise positioning
- Scissor lifts available with manual, steerable/drivable or track-guided positioning to provide economical access for most process operations
- Personnel lifts (manual and self-propelled) with operating heights to 12.5 m (41 feet)
- Custom conversions — LPI's relationships with a number of manufacturers allow us to customize and convert specific products to meet your unique needs

Power options include fully pneumatic, pneumatic/mechanical, pneumatic/hydraulic, electric/hydraulic, and electric/mechanical. Technical support, parts and supplies are all readily available for LPI lift systems.

Industries and applications served by LPI include:

- Agricultural machinery
- Aircraft/aviation
- Appliance manufacturing
- Assembly lines
- Automotive manufacturing & repair
- Building construction & repair
- Chemical & pharmaceutical manufacturing
- Clean rooms
- Construction equipment
- Defense equipment, military vehicles
- Electrical equipment, transformers, enclosures
- Fiber optic draw towers
- Machinery manufacturing
- Metal & metalworking
- Mining equipment
- Paint manufacturing
- Paint & powder booths
- Petroleum & gas
- Power plants
- Printing facilities
- Rail cars, locomotives, equipment
- Safety
- Ship building & repair
- Storage tank manufacturing
- Transit - maintenance facilities
- Travel trailer, coach
- Truck & bus body manufacturing
- Welding

Bright Ideas. Innovative Solutions.

precision fabrication and machining services

for manufacturing industries.

Pro-Cise, Inc. offers single-source contract manufacturing services for your complete turn-key OEM component needs. Our core competencies include engineering, fabrication, machining, finishing, and mechanical, electrical, pneumatic and hydraulic assembly. Pro-Cise uses ultra-modern CNC equipment coupled with state-of-the-art software to assist in delivering undeniable customer service to you. With a team of highly motivated professionals, 125,000 square feet of flexible manufacturing space plus our dedication to customer service, we offer cost-effective and quality driven results on time. With our focus on continuous improvement and supply chain management, we believe we can be the supplier of choice for all your contract manufacturing needs.

Industries served by Pro-Cise include:

- Electrical Distribution, Transformers, Enclosures
- Mining Equipment
- Rail Equipment and Cars
- Agricultural Machinery
- Food Processing Equipment
- Petroleum & Gas Equipment
- Construction Equipment
- Aviation Equipment
- Defense Equipment
