1. [20170104756](#) DETECTION, PROTECTION AND TRANSPARENT ENCRYPTION/TOKENIZATION/MASKING/REDACTION/BLOCKING OF SENSITIVE DATA AND TRANSACTIONS IN WEB AND ENTERPRISE APPLICATIONS US - 13.04.2017

Int.Class [H04L 29/06](#) Appl.No 15292177 Applicant Secupi Security Solutions Ltd Inventor Alon ROSENTHAL

A plurality of users connect to an application sending requests over a transport and receiving responses from an application that contain sensitive data. For each user request, the application runs one or more data requests and commands to various data sources or other information systems which return the sensitive data. The application then processes the data and returns is to the user as is or processed based on some business logic. The application includes a run-time environment—where the application logic is executed.

2. [20170091680](#) DISCOVERY OF SENSITIVE DATA LOCATION IN DATA SOURCES USING BUSINESS/ENTERPRISE APPLICATION DATA FLOWS US - 30.03.2017

Int.Class [G06Q 10/06](#) Appl.No 15279755 Applicant Secupi Security Solutions Ltd Inventor Alon Rosenthal

A plurality of users connect to an application sending requests over a transport and receiving responses from an application that contain sensitive data. For each user request, the application runs one or more data requests and commands to various data sources or other information systems which return the sensitive data. The application then processes the data and returns is to the user as is or processed based on some business logic. The application includes a run-time environment—where the application logic is executed.
