Goods and Services IC 009. US 021 023 026 036 038. G & S: Computer software for business management; Computer software for business process management; Computer software for professional services automation; Computer software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation, all via the Internet; Downloadable electronic content pertaining to Professional Services and Software as a Service, for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Computer programs for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Application software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Computer applications for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Software applications for mobile devices for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Computer software packages for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management; business process management and professional services automation; Computer systems; Computer software platforms for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Electronic databases in the field of project accounting, financial management, business management, business process management and professional services automation recorded on computer media; Data processing software; Computer software for data management; Computer software for document

management; Computer software for processing and analysing data; Table and chart representation software; Interactive computer software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Financial management software; Process controlling software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Computer operating system software in the field of professional services automation, project and portfolio management and resource management; Computer software development tools in the field of professional services automation, project and portfolio management and resource management; Software for online messaging in the field of professional services automation, project and portfolio management and resource management; Software for conducting general meetings; Computer software for time control; Computer software for calendar management; Virtual private network operating software in the field of professional services automation, project and portfolio management and resource management; Local area network operating software in the field of professional services automation, project and portfolio management and resource management; Wide area network operating software in the field of professional services automation, project and portfolio management and resource management; Computer software for application and database integration in the field of professional services automation, project and portfolio management and resource management; Interface software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Computer software designed to estimate resource requirements; Downloadable text, data, information, sound, music, images, videos, film and other media relating to data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Downloadable electronic publications in the nature of journals, magazines, newsletters and periodicals featuring information on data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation

IC 035. US 100 101 102. G & S: Business management; business administration; office functions; computerised business management; business process management; business management and organisation consulting; business management assistance; business management consultancy; business project management; computerised file management; database management; updating and maintaining data in computer databases; data search in computer files for others; compilation and systemisation of information into computer databases; preparation and provision of business reports; market reporting services; preparation and provision of economic reports; economic forecasting; economic forecasting in real-time; business diagnostic reports; management of business projects; analysis of business management systems; preparation and provision of computerised business management information; information and data compilation and analysis relating to business management; conducting market research; business analysis, research and information services; business data and statistical analysis; providing an online searchable database of text, data, image, audio, video, film, photographic, cinematographic and multimedia content for business information purposes; information, advisory and consultancy services relating to all the aforesaid services

IC 041. US 100 101 107. G & S: Education services, namely, providing mentoring, tutoring, classes, seminars and workshops in the field of data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Providing of training in the field of data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Online educational classes and training services in the field of data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Computer-based and computer-assisted educational classes, teaching and training in the field of data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Educational classes and training provided via cloud computing in the field of data management, document management, processing and analysing data, table and chart representation, financial management, conducting general

meetings, time control and calendar management, application and database integration and resource requirements analysis and forecasting, business management, business process management and professional services automation; Educational classes and training in the field of business services; Educational classes and training relating to computer software, databases and systems; Educational classes and training relating to business management and business administration; Arranging and conducting workshops, seminars and tutorials in the field of data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Non-downloadable electronic publications in the nature of journals, magazines, newsletters, periodicals and books in the field of data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Providing an online searchable database of text, data, image, audio, video, film, photographic, cinematographic and multimedia content for educational purposes in the field of data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, resource requirements analysis and forecasting, business management, business process management and professional services automation; Information, advisory and consultancy services relating to all the aforesaid services, in INT. CLASS 41

IC 042. US 100 101. G & S: Scientific and technological services, namely, scientific research, analysis and testing, in the field of computer software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Industrial analysis and research services in the field of computer software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Design and development of computer hardware and software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Computer programming; Installation, maintenance and repair of computer software; Computer consultancy services, namely, consultation concerning the maintenance and updating of computer software; Design and development of Software as a Service solutions; Leasing, renting and hiring of computer software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Software as a service for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Electronic data storage; Cloud computing featuring software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Providing a cloud based storage system; Data aggregation; Computer system design; Computer system analysis; Duplication of computer programs; Computer software consultancy; Updating computer software; Monitoring of computer data systems by remote access to ensure proper functioning, detect system failures, monitor and manage public and private cloud computing IT and application systems; Software engineering; Software installation; Software creation; Computer software integration; Software customisation services; Quality control relating to computer software; Technical data analysis services in the field of downloadable electronic content pertaining to Professional Services and Software as a Service; technical data analysis services in the field of computer software for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Computerised analysis of data; Providing non-downloadable computer programs for others via a global computer network for data management, document management, processing and analysing data, table and chart representation, financial management, online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Application Service Provider (ASP) services featuring computer software for data management, document management, processing and analysing data, table and chart representation, financial management,

online messaging, conducting general meetings, time control and calendar management, application and database integration, estimating and analysing resource requirements, business management, business process management and professional services automation; Application Service Provider (ASP) services featuring software for authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, displaying, storing and organizing text, graphics, images, and electronic publications; Multimedia and audio-visual software consultancy; Computer programming; Support and consultation services for developing computer and cloud based computer systems, databases and applications; Information relating to computer hardware or software provided on-line from a global computer network or the Internet, not including computer hardware maintenance information; Creating and maintaining web-sites; Hosting the web-sites of others; Computer consulting and support services for scanning information into computer discs; Creating indexes of online information, sites and other resources available on global computer networks for others; Conversion of data or documents from physical to electronic media; Recovery of computer data; Off-site data back up; Professional advisory services relating to computers, computer software, computer hardware and computer programming, not including computer hardware maintenance advisory information; Computerized data storage and retrieval services; Cloud-based data storage and retrieval services; Electronic storage of text, data, image, audio, video, film, photographic and cinematographic and multimedia content via a cloud-based network or a global computer network; Information, advisory and consultancy services relating to all the aforesaid, in INT. CLASS 42
