Serving Diverse Markets

DEPENDABLE

A Proven Partner

Brandon Products Group - BPG, Inc.

BPG is a family-owned and operated specialty distributor with over 35 years of experience in mechanical and electro-mechanical component sourcing. We've built a solid reputation on knowing the products and markets we serve—and understanding our customer's unique needs and requirements. When it comes to sourcing components, we think there's no better partner ... and no smarter choice than BPG, Inc.

BPG offers unmatched depth of expertise in product specification know-how for vibration, shock, structure-borne noise, electronic switching and surface protection for a range of industries including commercial, industrial, electronics, heavy equipment, automotive, marine, aviation, aerospace and defense.

We make it our job to understand your application inside and out to ensure you get the right component solution every time. We help you get the parts you need, the answers you seek, and products that you can rely on to stay ahead of schedule and ahead of the competition. Our large stocked component inventory, same-day shipping and hassle-free customer service make it easy.

BPG's Quality Management System is certified to ISO 9001 : 2000 standards for sourcing and distribution of mechanical and electro-mechanical components in the U.S. and United Kingdom. We take great

pride in our business and in the products we offer, and strive continually to provide an unmatched level of service and support. You can count on BPG for all your component sourcing needs.

- ▶ Superior Customer Service
 - ▶ Competitive Pricing
 - ▶ OEM Design Expertise
-
- ▶ Large Stocked Inventory
 - ▶ Same Day Shipping
 - ▶ ISO Certified Supplier

TRUSTED SUPPLIER

what sets us apart

SHOCK & VIBRATIONS MOUNTS

Greene Rubber Company offers a 40-year proven track record in shock and vibration isolation and engineered molded rubber products. Greene uses the latest in finite element analysis, computer-aided design, proprietary dynamic analysis and integrated CAD/CAM systems.

AVIONIC HARDWARE

Hutchinson Aerospace & Industry provides a range of avionic hardware including ruggedized, self-locking front and rear retainers, bushings, hooks and bonding straps designed for avionic racking systems and demanding commercial, military, rotary and ground applications.

ELECTRONIC RELAYS

Bosch electronic relays are vital for various vehicle applications to close or separate electrical circuits. Bosch offers a comprehensive range of relays, including small and micro, standard and power designs. First-class Bosch quality guarantees durability and high reliability.

SURFACE PROTECTION

Bumper Specialties self-adhesive polyurethane bumpers are made of 100% polyurethane and offer a very aggressive adhesive. These products do not contain plasticizers, oils or fillers, and they will not mar, scratch, or stain any surface. Kiss-cut for peel and apply ease.

APPLICATIONS EXPERTS

BPG provides customers with over 35 years of specialty mechanical and electro-mechanical component sourcing and application engineering expertise. Count on us for all your mechanical and electro-mechanical requirements.

ISO CERTIFIED SUPPLIER

BPG is an ISO 9001 : 2000, ANAB accredited and UKAS quality management systems certified supplier. We offer trusted product support, hassle-free customer service and same-day shipping on all orders.
