	PAT. NO.	Title
1	11,329,916	Device information method and apparatus for directing link-layer communication
2	11,329,912	Source-based routing
3	11,323,328	User information method and apparatus for directing link-layer communication
4	11,165,863	Network neighborhoods for establishing communication relationships between communication interfaces in an administrative domain
5	11,153,202	Service and topology exchange protocol
6	11,075,836	Reverse forwarding information base enforcement
7	11,075,824	In-line performance monitoring
8	11,070,465	Distribution of multicast information in a routing system
9	11,005,749	Multicast source and receiver access control
10	10,999,182	Routing using segment-based metrics
11	10,841,206	Flow modification including shared context
12	10,833,980	Router device using flow duplication
13	10,432,522	Network packet flow controller with extended session management
14	10,432,519	Packet redirecting router
15	10,425,511	Method and apparatus for managing routing disruptions in a computer network
16	10,298,616	Apparatus and method of securing network communications
17	10,277,506	Stateful load balancing in a stateless network
18	10,257,061	Detecting source network address translation in a communication system
19	10,205,651	Apparatus and method of selecting next hops for a session
20	10,200,264	Link status monitoring based on packet loss detection
21	10,091,247	Apparatus and method for using certificate data to route data
22	10,091,099	Session continuity in the presence of network address translation
23	10,033,843	Network device and method for processing a session using a packet signature
24	10,009,282	Self-protecting computer network router with queue resource manager
25	9,985,883	Name-based routing system and method
26	9,985,872	Router with bilateral TCP session monitoring
27	9,923,833	Network packet flow controller
28	9,871,748	Router with optimized statistical functionality

29 9,832,072 Self-configuring computer network router
30 9,762,485 Network packet flow controller with extended session management
31 9,736,184 Apparatus and method for using certificate data to route data
32 9,729,682 Network device and method for processing a session using a packet signature
33 9,729,439 Network packet flow controller
