

Providing Customer Mechanical Construction for their Energy Projects

LET'S BUILD TOGETHER

Welcome to Tradesmen Enterprises

Tradesmen Enterprises is Western Canada's fastest growing General Contractor specializing in: facility and pipeline construction/module construction and assembly as well as maintenance. We are a General Contractor, who has the experience and expertise to facilitate and manage complete scopes of work such as Electrical & Instrumentation, Scaffolding & Insulation and Civil.

Tradesmen has been operating since 2006 servicing existing facilities and completing major projects throughout Western Canada.

In 2016, we expanded our capacity and completed the development of a brand new state of the art 50,000 sq. ft. fabrication facility at the same site as our 70 acre modular assembly yard located 5 km east of Grande Prairie along Highway #43 on the high load corridor.

[MISSION & VALUES](#)

[ABOUT US](#)

Industries Served

Tradesmen is a leading edge general mechanical contractor with the capability and expertise to undertake complex construction projects. We have successfully completed projects for both the traditional and alternative energy sectors and our solid construction "know how" makes us a key contractor for the various industries we serve.

OIL & GAS

Tradesmen is a key mechanical contractor for the oil & gas industry.

MINING / METALS

We've applied our expertise from the Oil & Gas industry to the Mining and Metals sector.

INFRASTRUCTURE / UTILITIES

Tradesmen's mechanical construction capability extends to the Infrastructure / Utilities industry.

PETROCHEMICAL

Tradesmen Enterprises provides a wide range of services for the Petrochemical industry.

RENEWABLE ENERGY

Tradesmen is pleased to offer our current expertise in Construction Management for the Renewable Energy Industry.

CAREERS

Work at Tradesmen Enterprises

Tradesmen Enterprises is Western Canada's largest growing contractor in Facility/Plant Construction, Fabrication, Module Assembly, Maintenance-Turn Arouns, Shutdowns and Pipeline Construction. We have been in operation since 2006 and are very proud of our people, safety culture and the quality of work completed on each and every project.

Our continued strong growth has led to a significant amount of work for Tradesmen going forward. We are looking to fill numerous positions with strong and skilled industrial construction workers from all different trades.

Tradesmen Supports the Apprenticeship program and indenture new workers into the trades.
