ONEX CORPORATION

Who We Are and What We Do

Onex is an investor first and foremost, with \$6.6 billion of shareholder capital primarily invested in or committed to private equity and non-investment grade credit. We also manage \$17.3 billion for fund investors around the world, including public and private pension plans, sovereign wealth funds, banks, insurance companies and family offices, that have chosen to invest alongside us.

With an experienced management team, significant financial resources and no debt at the parent company, Onex is well-positioned to continue building shareholder value through its investing and asset management activities.

Private Equity Investing

Founded in 1984, Onex is one of the oldest and most successful private equity firms. We acquire and build high-quality businesses in partnership with talented management teams. Onex invests through its two private equity platforms: Onex Partners for larger transactions and ONCAP for middle-market transactions.

We are focused on three primary investment strategies: (i) cost reduction and operational restructurings; (ii) platforms for add-on acquisitions; and (iii) carve-outs of subsidiaries and mission-critical supply divisions from multinational corporations.

We have built more than 90 operating businesses, completing about 570 acquisitions with a total value of \$70 billion. Onex' private equity investing has generated a gross multiple of capital invested of 2.8 times since inception, resulting in a 28% gross IRR on realized, substantially realized and publicly traded investments.

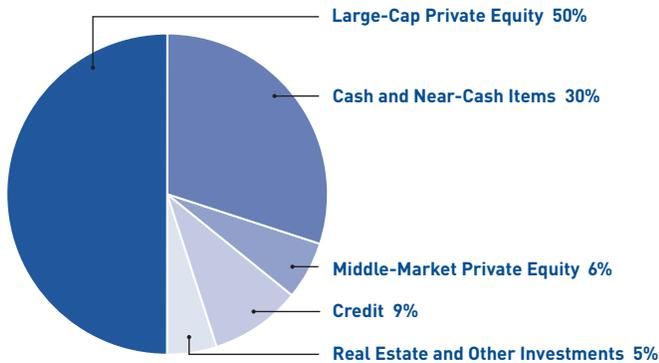

Credit Investing

Our credit platform invests primarily in non-investment grade debt and practises value-oriented investing, employing a bottom-up, fundamental and structural analysis of the underlying borrowers. We seek to generate strong risk-adjusted and absolute returns across market cycles.

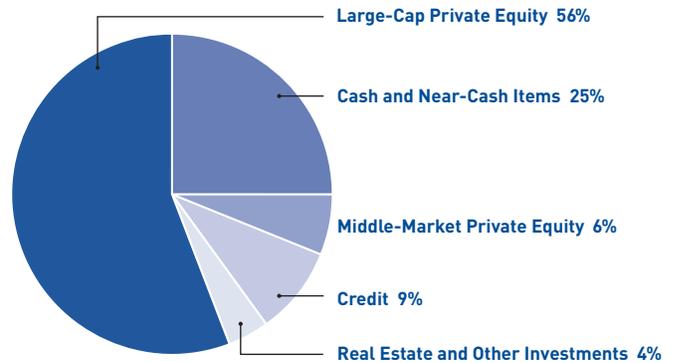

Onex Capital

At June 30, 2017, Onex' \$6.6 billion of capital was primarily invested in or committed to its private equity and credit platforms.

Onex' \$6.6 billion of Capital at June 30, 2017

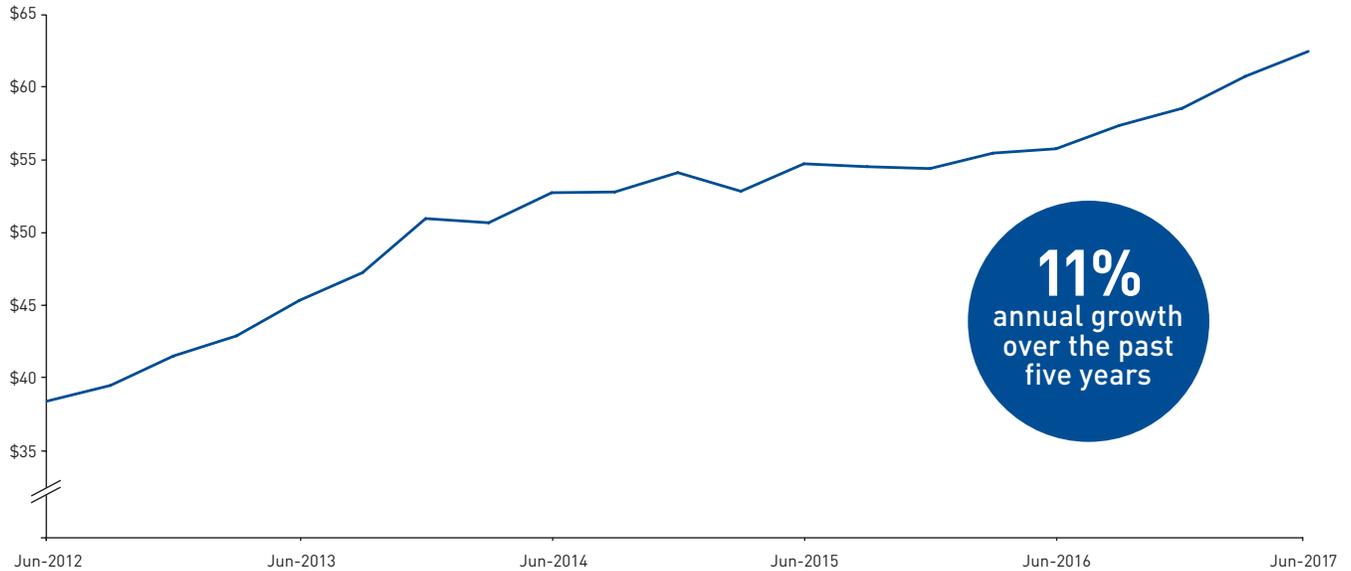

Onex' \$6.3 billion of Capital at December 31, 2016

The How We Are Invested schedule details Onex' \$6.6 billion of capital at June 30, 2017 (December 31, 2016 – \$6.3 billion).

For the six months ended June 30, 2017, Onex capital per share increased by 7% (3% in Canadian dollars) and our share price increased by 18% (14% in Canadian dollars). For the 12 months ended June 30, 2017, Onex capital per share increased by 12% (13% in Canadian dollars) and our share price increased by 31% (31% in Canadian dollars). Over the past five years, Onex capital per share has increased by 11% per year (16% per year in Canadian dollars).

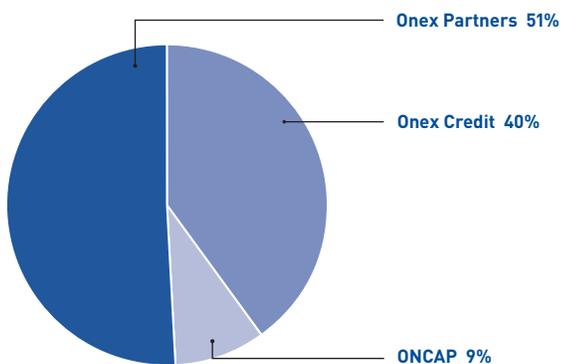

Onex Capital per Share (USD) (June 30, 2012 to June 30, 2017)

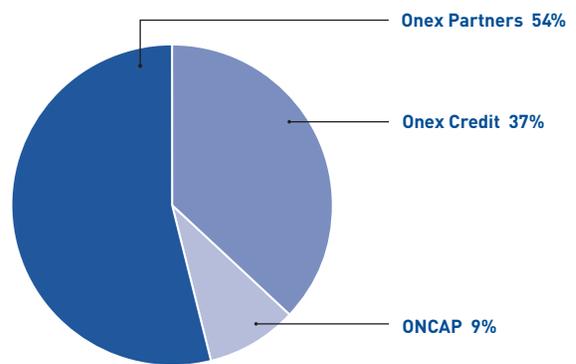

Fund Investor Capital

Onex manages \$17.3 billion of invested and committed capital on behalf of investors from around the world.

Onex' \$17.3 billion of Fund Investor Capital at June 30, 2017

Onex' \$18.0 billion of Fund Investor Capital at December 31, 2016

Fund investor capital includes capital managed on behalf of co-investors and the Onex management team.

Asset Management

Onex' management of fund investor capital provides two significant financial benefits: (i) a committed stream of annual management fees and (ii) the opportunity to share in fund investors' profits. Onex has run-rate management fees of \$150 million for the next 12 months, consisting of \$105 million from private equity and \$45 million from credit. During the 12 months ended June 30, 2017, combined management fees and carried interest received more than offset operating expenses.

For the 12 months ended June 30, 2017, fee-generating capital under management grew by 2%, to \$15.1 billion. The closing of ONCAP IV in November 2016 increased fee-generating capital under management for the 12 months ended June 30, 2017 by approximately \$600 million. Onex expects its fee-generating capital under management and management fees will be further enhanced when fees are generated from Onex Partners V. Over the past five years, fee-generating capital under management has increased by 13% per year.

HOW WE ARE INVESTED

All dollar amounts, unless otherwise noted, are in millions of U.S. dollars.

This How We Are Invested schedule details Onex' \$6.6 billion of capital and provides private company performance and public company ownership information. This schedule includes values for Onex' investments in controlled companies based on estimated fair values prepared by management. The presentation of controlled investments in this manner is a non-GAAP measure. This fair value summary may be used by investors to compare to fair values they may prepare for Onex and Onex' investments. While it provides a snapshot of Onex' assets, this schedule does not fully reflect the value of Onex' asset management business as it includes only an estimate of the unrealized carried interest due to Onex based on the current estimated fair values of the investments and allocates no value to future management company income. The presentation of Onex capital in this manner does not have a standardized meaning prescribed under International Financial Reporting Standards ("IFRS") and is therefore unlikely to be comparable to similar measures presented by other companies. Onex' unaudited interim consolidated financial statements prepared in accordance with IFRS for the six months ended June 30, 2017 are available on Onex' website, www.onex.com, and on the Canadian System for Electronic Document Analysis and Retrieval ("SEDAR") at www.sedar.com. Reconciliation to information contained in the unaudited interim consolidated financial statements has not been presented as it is impractical.

OUR BUSINESS, OUR OBJECTIVE AND OUR STRATEGIES

OUR BUSINESS: We invest and manage our own capital and that of investors from around the world, including public and private pension funds, sovereign wealth funds, banks, insurance companies and family offices. Onex has generated a Gross MOC of 2.8 times from its private equity activities since inception on realized, substantially realized and publicly traded investments. In our credit platform, we seek to generate strong risk-adjusted and absolute returns across market cycles.

Investment approach

Over more than three decades, we have developed a successful approach to investing. In our private equity platforms, we pursue businesses with world-class capabilities and strong free cash flow characteristics where we have identified an opportunity, in partnership with company management, to effect change and build market leaders. As an active owner, we are focused on execution rather than macro-economic or industry trends. Specifically, we focus on: (i) cost reduction and operational restructurings; (ii) platforms for add-on acquisitions; and (iii) carve-outs of subsidiaries and mission-critical supply divisions from multinational corporations.

Historically, we have been relatively conservative with the use of financial leverage, which has served Onex and its businesses well through many cycles. In addition, we typically acquire a control position, which allows us to drive important strategic decisions and effect change at our businesses. Onex does not get involved in the daily operating decisions of the businesses.

In our credit platform, we focus on non-investment grade debt. We practise value-oriented investing with bottom-up, fundamental and structural analysis. Stringent oversight of portfolio construction risk profile and liquidity management complements our approach to investment research. Our team maintains disciplined risk management, with a focus on capital preservation across all strategies.

Experienced team with significant depth

Onex is led by an Executive Committee comprised of the firm's founder and CEO, Gerry Schwartz, and four Senior Managing Directors. Collectively, these executives have more than 145 years of investing experience and have worked at Onex for an average of 26 years. Onex' stability results from its ownership culture, rigorous recruiting standards and highly collegial environment.

Onex' 89 investment professionals are each dedicated to a separate investment platform: Onex Partners (49), ONCAP (20) and Onex Credit (20). These investment teams are supported by approximately 80 professionals dedicated to Onex' corporate functions and its investment platforms.

Substantial financial resources available for future growth

Onex' policy is to maintain a financially strong parent company with funds available for new acquisitions and to support the growth of its businesses. Onex' financial strength comes from both its own capital as well as the committed capital from its limited partners. At June 30, 2017, Onex had substantial financial resources available to support its investing strategy with:

- approximately \$2.0 billion of cash and near-cash items and no debt at the parent company;
- \$1.3 billion of limited partner uncalled capital available for future Onex Partners IV investments;
- \$688 million of limited partner uncalled capital available for future ONCAP IV investments; and
- approximately \$190 million of limited partner uncalled capital available for future Onex Credit direct lending platform investments.

In May 2017, Onex completed the first closing of the first fund in the Onex Credit direct lending platform, reaching aggregate commitments of approximately \$290 million towards its \$500 million target. This closing included a \$100 million commitment from Onex and a meaningful commitment from Onex' management team.

In addition, in July 2017, Onex completed its first closing of Onex Partners V, reaching aggregate commitments of \$5.2 billion towards its \$6.5 billion target. Included in the close was Onex' \$2.0 billion commitment, Onex management's minimum 2% commitment and \$3.1 billion of third-party capital.

Strong alignment of interests

Critical to our success is the strong alignment of interests between Onex' shareholders, our limited partners and the Onex management team. In addition to Onex being the largest limited partner in each private equity fund and having meaningful investments in our credit platform, the Company's distinctive ownership culture requires the management team to have a significant ownership in Onex shares and to invest meaningfully in each operating business acquired. At June 30, 2017, the Onex management team:

- was the largest shareholder in Onex, with a combined holding of approximately 16.8 million shares, or 16% of outstanding shares, and 0.7 million DSUs;
- had a total cash investment in Onex' current operating businesses of approximately \$415 million; and
- had a total investment at market in credit strategies of approximately \$280 million.

As well, the Onex management team is required to reinvest 25% of all Onex Partners carried interest and MIP distributions in Onex shares until they individually own at least one million shares and must hold these shares until retirement.

OUR OBJECTIVE: Onex' business objective is to create long-term value for shareholders and to have that value reflected in our share price. Our strategies to deliver this value are concentrated on (i) acquiring and building industry-leading businesses and (ii) managing and growing fund investor capital in our private equity and credit platforms. We believe Onex has the investment philosophy, talent, financial resources and track record to continue to deliver on its objective. The discussion that follows outlines Onex' strategies and reviews how we performed relative to those strategies to date in 2017.

OUR STRATEGIES

Acquiring and building industry-leading businesses

The growth in Onex capital is driven by the success of our private equity investments. Our private equity investing strategy focuses on an active ownership approach to acquiring and building industry-leading businesses in partnership with talented management teams.

One of Onex' long-term goals is to grow its capital per share by 15% per year. As of June 30, 2017, Onex' capital per share was \$62.50 (C\$81.11) (December 31, 2016 – \$58.56 (C\$78.63)). The following table outlines the increase in Onex' capital per share and the return from Onex' private equity investments as of June 30, 2017.

	Six months ending June 30, 2017	Twelve months ending June 30, 2017	Five years ending June 30, 2017 ⁽¹⁾
Increase in value of Onex' private equity investments in U.S. dollars ⁽²⁾	16%	19%	23%
Increase in capital per share in U.S. dollars ⁽³⁾	7%	12%	11%
Increase in capital per share in Canadian dollars ⁽³⁾	3%	13%	16%

(1) Represents the annualized percentage increase.

(2) Adjusted for realizations and distributions.

(3) Includes the impact of cash, credit investments and other investments.

Acquiring businesses

In March 2017, the Onex Partners IV Group acquired Parkdean Resorts, a leading operator of caravan holiday parks in the United Kingdom, for £1.35 billion. The Onex Partners IV Group invested \$612 million (£500 million), comprised of \$417 million from Onex Partners IV and \$195 million as a co-investment from Onex and certain limited partners, for an initial 91% economic interest. Onex' share of the investment was \$166 million, comprised of \$123 million through Onex Partners IV and \$43 million as a co-investment, for an initial 25% economic interest.

Today, we have approximately \$2.0 billion of cash and near-cash items and \$5.2 billion of limited partner uncalled capital available to deploy for new investments. As we continue to evaluate investment opportunities, our focus remains on identifying investments that will deliver long-term growth for our shareholders and partners.

Building businesses

During the first half of 2017, six of our operating businesses completed eight follow-on acquisitions for total consideration of \$83 million. Our existing operating companies also collectively raised or refinanced a total of \$3.8 billion of debt, in part due to strong credit markets during the period. In addition, our existing businesses paid down debt totalling approximately \$840 million, including \$534 million with proceeds from the initial public offerings completed by Emerald Expositions and JELD-WEN.

In June 2017, BBAM completed the final closing of Incline Aviation Fund, an aircraft investment fund focused on investments in leased commercial jet aircraft. The aggregate capital committed to the fund at closing was \$881 million, which includes Onex' commitment of \$50 million.

Realizing on value

The table below presents the significant proceeds received to date in 2017 from realizations and cash distributions primarily from private equity activity.

Company	Fund	Transaction	Period	Total Amount (\$ millions)	Onex' Share ⁽¹⁾ (\$ millions)
USI	Onex Partners III	Sale of business	May '17	\$ 1,889	\$ 563
JELD-WEN	Onex Partners III	Initial and secondary public offerings	Jan '17 and May '17	606	175
Emerald Expositions	Onex Partners III	Initial public offering and dividend	Apr '17 and Jun '17	123	33
Jack's	Onex Partners IV	Distribution	Apr '17	81	23
BBAM	Onex Partners III	Distribution	Various	35	9
PURE Canadian Gaming	ONCAP II and III	Distribution	Jan '17	11	5
AIT	Onex Partners IV	Distribution	Various	2	— ⁽²⁾
Total				\$ 2,747	\$ 808

(1) Onex' share includes carried interest received by Onex and is reduced for amounts paid under the MIP and Onex' net payment of carried interest for ONCAP investments, if applicable.

(2) Onex' share of the AIT distribution was less than \$1 million.

In May 2017, the Onex Partners III Group sold its entire investment in USI for an enterprise value of \$4.3 billion. The Onex Partners III Group invested a total of \$610 million to acquire USI in December 2012 and has received net proceeds of \$2.1 billion, including a prior distribution. Onex' portion of the sale proceeds was \$563 million, including carried interest of \$65 million and after the reduction for amounts relating to the MIP. The investment in USI generated a Gross MOC of 3.4 times.

In January 2017, JELD-WEN completed an initial public offering of 28.75 million shares of its common stock (NYSE: JELD), including the exercise of the over-allotment option. The offering was priced at \$23.00 per share for gross proceeds of \$661 million. As part of the offering, JELD-WEN issued approximately 22.3 million treasury shares. The net proceeds from treasury shares were used to repay \$375 million of JELD-WEN's combined term loan with the balance for working capital and other general corporate purposes. The Onex Partners III Group sold approximately 6.5 million shares in the transaction for net proceeds of \$140 million. Onex' portion of the net proceeds was \$40 million, including \$6 million of carried interest.

In May 2017, JELD-WEN completed a secondary public offering of 16.1 million shares of its common stock, including the exercise of the over-allotment option. The offering was priced at \$30.75 per share for gross proceeds of \$495 million. The Onex Partners III Group sold approximately 15.7 million shares in the transaction for net proceeds of \$466 million. Onex' portion of the net proceeds was \$135 million, including \$20 million of carried interest.

The Onex Partners III Group continues to hold 47.1 million shares of JELD-WEN for a 45% economic and voting interest. Onex continues to hold 11.7 million shares for an 11% economic interest in JELD-WEN.

In April 2017, Emerald Expositions completed an initial public offering of approximately 17.8 million shares of its common stock (NYSE: EEX), including the exercise of the over-allotment option. The offering was priced at \$17.00 per share for gross proceeds of \$303 million. As part of the offering, Emerald Expositions issued approximately 10.3 million treasury shares. The net proceeds from the treasury shares were used to repay \$159 million of Emerald Expositions' term loan. The Onex Partners III Group sold approximately 7.5 million shares in the transaction for net proceeds of \$119 million. Onex' portion of the net proceeds was \$32 million, including \$3 million of carried interest. The Onex Partners III Group continues to hold approximately 53.8 million shares of Emerald Expositions for a 75% economic and voting interest. Onex continues to hold approximately 13.0 million shares for an 18% economic interest in Emerald Expositions.

In April 2017, Jack's amended its existing credit facility to increase the size of its term loan to \$275 million. The proceeds from the incremental borrowing, along with cash on hand, were used to fund a distribution of \$85 million to shareholders. The Onex Partners IV Group received \$81 million, of which Onex' share was \$23 million.

During 2017, BBAM distributed \$35 million to the Onex Partners III Group, of which Onex' share was \$9 million. The distributions were funded by the company's free cash flow.

In January 2017, PURE Canadian Gaming distributed C\$15 million to shareholders, which was primarily funded by the company's free cash flow generated during 2016. The ONCAP II and III Groups received C\$15 million (\$11 million), of which Onex' portion was C\$6 million (\$5 million).

In April 2017, Carestream Health entered into an agreement to sell its Dental Digital business for an enterprise value of approximately \$800 million. Net cash proceeds from the sale will be used to repay a portion of the company's term loan. The transaction is expected to close during the third quarter of 2017 and is subject to customary closing conditions and regulatory approvals.

Managing and growing fund investor capital

Onex' management of fund investor capital has grown significantly since 1999 when it raised its first ONCAP Fund for middle-market transactions. In 2003, the first Onex Partners Fund was raised for larger transactions. Over the years, Onex has raised \$15.6 billion of limited partner capital through nine Onex Partners and ONCAP Funds. In July 2017, Onex completed its first closing of Onex Partners V, raising \$5.2 billion of commitments towards its \$6.5 billion target. Included in the close was Onex' \$2.0 billion commitment, Onex management's minimum 2% commitment and \$3.1 billion of third-party capital.

In 2007, Onex acquired a 50% interest in an investment adviser focused on credit investing which, at that time, managed \$300 million. In January 2015, Onex acquired control of the investment adviser and now has a 100% ownership interest for accounting purposes.

In 2012, Onex began investing capital in Onex Credit's CLO platform to support its growth. In 2014, Onex Credit established a presence in London to focus on the placement of European CLOs and in May 2017 closed its first euro-denominated CLO. To date, Onex Credit has closed 14 CLOs, with offerings of securities and loans totaling approximately \$8.0 billion. At June 30, 2017, capital under management related to these CLOs was \$6.3 billion.

Today, our credit business manages non-investment grade debt through several investment strategies comprising event-driven, long/short, long-only, par, stressed and distressed opportunities, including two closed-end funds listed on the Toronto Stock Exchange (TSX: OCS-UN and OSL-UN), as well as its CLO platform. Since inception, Onex Credit has raised \$8.5 billion of fund investor capital through its various strategies and is focused on growing its other strategies through various product lines and distribution channels.

In May 2017, Onex completed the first closing of the first fund in the Onex Credit direct lending platform, reaching aggregate commitments of approximately \$290 million towards its \$500 million target. This closing included a \$100 million commitment from Onex and a meaningful commitment from Onex' management team. The Onex Credit direct lending platform will focus on providing credit to middle-market and larger private equity and corporate borrowers predominantly in the United States and, selectively, in Canada and Europe. The strategy invests the majority of its capital in senior secured loans of companies primarily in less cyclical and less capital-intensive industries, with a focus on capital preservation. This platform employs a buy-and-hold approach to investing, with a goal of owning a diversified pool of investments. The credit lending platform is a natural extension of Onex Credit's business and leverages the firm's infrastructure and knowledge of the loan market.

The management of fund investor capital provides two significant benefits to Onex: (i) the Company earns management fees on \$15.1 billion of fee-generating capital under management and (ii) Onex has the opportunity to share in the profits of its investors through carried interest and incentive fee participation. This enhances Onex' return from its investment activities. Onex earned a total of \$148 million in management fees during the 12 months ended June 30, 2017 (December 31, 2016 – \$135 million), and today has run-rate management fees of \$150 million for the next 12 months. Onex expects future management fees and carried interest will offset operating expenses.

Our private equity funds contribute \$105 million to the run-rate management fees for the next 12 months. Onex does not earn any management fees on the \$4.8 billion of capital it has invested or committed to its private equity funds.

Onex Credit contributes \$45 million to the run-rate management fees for the next 12 months, which includes \$3 million of management fees earned on Onex' capital invested in Onex Credit Funds.

At June 30, 2017, Onex' share of the unrealized carried interest on Onex Partners' operating businesses based on their fair values was \$155 million compared to \$197 million at December 31, 2016. The unrealized carried interest has decreased since December 31, 2016 due to \$94 million of carried interest realized from the sale of USI and the partial sales of Emerald Expositions and JELD-WEN, partially offset by a \$52 million increase due to net fair value increases of certain businesses during the first half of 2017. The actual amount of carried interest realized by Onex will depend on the ultimate performance of each fund.

At June 30, 2017, Onex managed \$17.3 billion of fund investor capital, in addition to \$6.6 billion of Onex capital.

(1) Invested amounts included in fund investor capital under management are presented at fair value.

(2) Uncalled commitments include capital available for future Onex-sponsored acquisitions, possible future funding of remaining businesses and future investments made by the Onex Credit direct lending platform. Includes committed amounts from the Onex management team and directors based on the assumption that all of the remaining limited partners' commitments are invested. Uncalled commitments at June 30, 2017 are reduced for management fees receivable of \$93 million (December 31, 2016 – \$48 million), which are included in Onex capital. Uncalled commitments at June 30, 2017 exclude commitments from the first closing of Onex Partners V.

(3) Capital under management for ONCAP II and III is in Canadian dollars and has been converted to U.S. dollars using the exchange rate on June 30, 2017 and December 31, 2016.

(4) Includes \$190 million of committed capital from the first closing of the first fund in the Onex Credit direct lending platform during the second quarter of 2017.

Growth in fund investor capital under management

The amount of fund investor capital under management will fluctuate as new capital is raised and existing investments are realized. One of Onex' long-term goals is to grow its fee-generating capital by 10% per year. For the 12 months ended June 30, 2017, fee-generating capital under management increased by 2% primarily due to our success in raising ONCAP IV and two CLOs, partially offset by the sale of USI, the partial sales of Emerald Expositions and JELD-WEN, and the redemption of CLO-3. Over the past five years, fee-generating capital under management has increased by 13% per year.

Performance

Private equity

The ability to raise new capital commitments is primarily dependent on the general fundraising environment and Onex' historical track record achieved with the investment and management of prior funds. The following table summarizes the performance of the Onex Partners and ONCAP Funds from inception through June 30, 2017.

Performance Returns ⁽¹⁾					
	Vintage	Gross IRR	Net IRR ⁽²⁾	Gross MOC	Net MOC ⁽²⁾

(1) Performance returns are a non-GAAP measure.

(2) Net IRR and Net MOC are presented for limited partners in the Onex Partners and ONCAP Funds and exclude the capital contributions and distributions attributable to Onex' commitment as a limited partner in each fund.

(3) Returns are calculated in Canadian dollars, the functional currency of these ONCAP Funds.

(4) ONCAP I was dissolved effective October 31, 2012 as all investments had been realized.

(5) Performance reflects the short operating period of ONCAP IV. Cash outflows occurred in December 2016 to fund the first investment made by ONCAP IV. The Gross IRR and Net IRR are not presented as they are not meaningful due to the short operating period of ONCAP IV.

Credit

As of June 30, 2017, Onex had a net investment of \$485 million in CLOs after dispositions and distributions, including \$121 million for three warehouse facilities.

Onex primarily invests in the equity tranches of CLOs. Market pricing for CLO equity is more volatile than the underlying leveraged loan market due to the leverage employed in a CLO and the relative illiquidity of CLO equity. CLO equity pricing may also be affected by changes in fixed income market sentiment and investors' general appetite for risk. All of Onex' CLOs remain outside their various coverage tests, and Onex received \$32 million of distributions from its CLO investments during the first six months of the year. Onex' investments in CLOs generated no income during the first half of 2017 after adjusting for the impact of distributions and the change in market values. Investments in our two substantially realized CLOs generated a Net IRR of approximately 15%. Onex remains a long-term investor in its CLO investments.

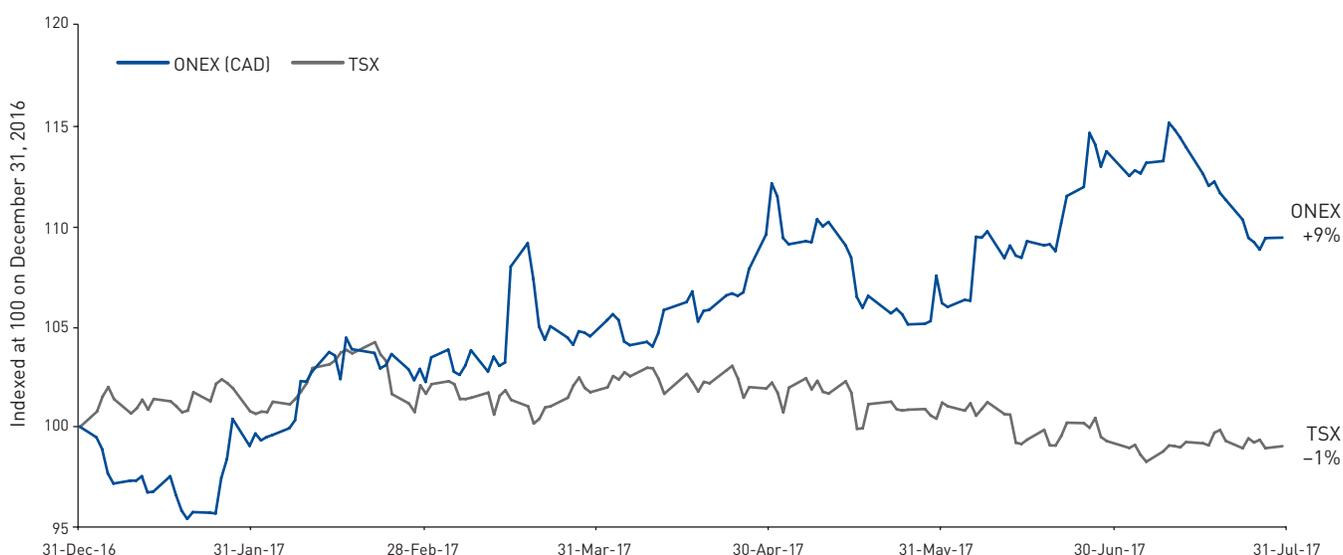

Share price

Our goal is to have the value of our investing and asset management activities reflected in our share price. These efforts are supported by a long-standing quarterly dividend and an active stock buyback program. In May 2017, Onex increased its quarterly dividend by 9% to C\$0.075 per SVS beginning in July 2017. This increase follows similar increases in the previous four years and reflects Onex' success and ongoing commitment to its shareholders. Year-to-date through July 31, 2017, \$16 million was returned to shareholders through dividends and Onex repurchased 886,005 SVS at a total cost of \$64 million (C\$84 million), or an average purchase price of \$71.88 (C\$95.35) per share.

At July 31, 2017, Onex' SVS closed at C\$99.91, a 9% increase from December 31, 2016. This compares to a 1% decrease in the S&P/TSX Composite Index ("TSX").

The chart below shows the performance of Onex' SVS during the first seven months of 2017 relative to the TSX.

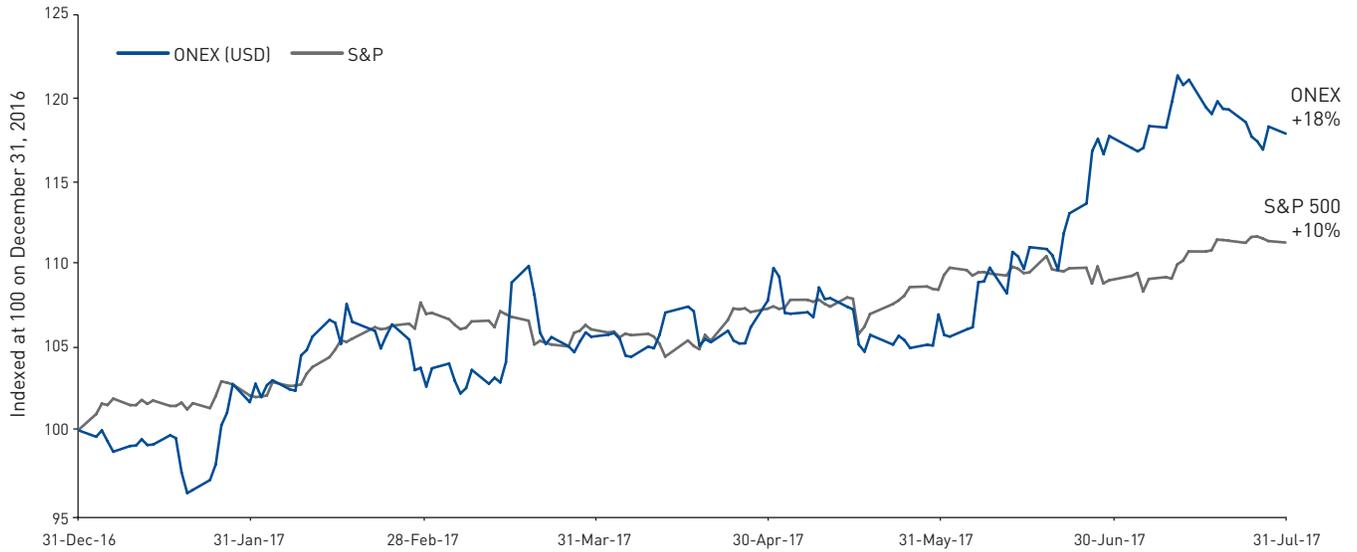

Onex Relative Performance (CAD) (December 31, 2016 to July 31, 2017)

As a substantial portion of Onex' investments are denominated in U.S. dollars, Onex' Canadian dollar share price will also be impacted by the change in the exchange rate between the U.S. dollar and Canadian dollar. During the seven months ended July 31, 2017, the value of Onex' SVS increased by 18% in U.S. dollars compared to a 10% increase in the Standard & Poor's 500 Index ("S&P 500").

The chart below shows the performance of Onex' SVS in U.S. dollars during the first seven months of 2017 relative to the S&P 500.

INDUSTRY SEGMENTS

At June 30, 2017, Onex had nine reportable industry segments. In March 2017, the Onex Partners IV Group completed the acquisition of Parkdean Resorts, the results of which have been presented in the other businesses industry segment. In May 2017, Onex completed the sale of USI. The results of USI up to the date of sale in May 2017, which were previously included in the insurance services segment, are presented in the other businesses segment as a discontinued operation. In addition, in May 2017, the Onex Partners III Group sold shares of JELD-WEN resulting in a loss of control by the Company, as described on page 25 of this interim MD&A. The results of operations of JELD-WEN up to the date of sale in May 2017, which were previously included in the building products segment, are presented in the other segment as a discontinued operation. Comparative disclosures have been restated to reflect these changes. A description of our operating businesses by industry segment, and the economic and voting ownerships of Onex, the parent company, and its limited partners in those businesses, is presented below and in the pages that follow. The information by segment is presented in the chronological order in which the operating segments became reportable. We manage our businesses and measure performance based on each operating business' individual results.

FINANCIAL REVIEW

This section discusses the significant changes in Onex' unaudited interim consolidated statements of earnings for the three and six months ended June 30, 2017 compared to those for the same periods ended June 30, 2016, the unaudited interim consolidated statements of cash flows for the six months ended June 30, 2017 compared to the same period of 2016, and compares Onex' financial condition at June 30, 2017 to that at December 31, 2016.

CONSOLIDATED OPERATING RESULTS

This section should be read in conjunction with Onex' unaudited interim consolidated statements of earnings for the three and six months ended June 30, 2017 and 2016, the corresponding notes thereto and the December 31, 2016 audited annual consolidated financial statements.

Variability of results

Onex' unaudited interim consolidated operating results may vary substantially from quarter to quarter and year to year for a number of reasons, including some of the following: the current economic environment; the impact of foreign exchange fluctuations; acquisitions or dispositions of businesses by Onex, the parent company; the change in value of stock-based compensation for both the parent company and its operating businesses; changes in the fair value of Onex' publicly traded operating businesses; changes in the fair value of Onex' privately held operating businesses; changes in the fair value of credit securities; changes in tax legislation or in the application of tax legislation; and activities at Onex' operating businesses. These activities may include the purchase or sale of businesses; fluctuations in customer demand, materials and employee-related costs; changes in the mix of products and services produced or delivered; changes in the financing of the business; changes in contract accounting estimates; impairments of goodwill, intangible assets or long-lived assets; litigation; decisions to restructure operations; and natural disasters. Given the diversity of Onex' operating businesses, the associated exposures, risks and contingencies may be many, varied and material.

Investments held by the CLOs, the Onex Credit direct lending platform and the Onex Credit Funds as well as debt issued by the CLOs and the Onex Credit direct lending platform are recorded at fair value, with changes in fair value recognized in the unaudited interim consolidated statements of earnings. Fair values are impacted by the leveraged loan market and credit risk (both own and

counterparty), which may vary substantially from quarter to quarter and year to year.

Significant transactions

Transactions in this section are presented in chronological order by private equity and credit.

Initial and secondary public offerings by JELD-WEN

In January 2017, JELD-WEN completed an initial public offering of 28.75 million shares of its common stock (NYSE: JELD), including the exercise of the over-allotment option. The offering was priced at \$23.00 per share for gross proceeds of \$661 million. As part of the offering, JELD-WEN issued approximately 22.3 million treasury shares. The net proceeds from treasury shares were used to repay \$375 million of JELD-WEN's combined term loan with the balance for working capital and other general corporate purposes. The Onex Partners III Group sold approximately 6.5 million shares in the transaction for net proceeds of \$140 million. Onex' portion of the net proceeds was \$40 million, including \$6 million of carried interest.

As a result of this transaction, the Onex Partners III Group's economic ownership was reduced to 60% and Onex' economic ownership was reduced to 15%. Since the sale of shares by the Onex Partners III Group did not result in a loss of control over JELD-WEN, the transaction was recorded as a transfer from equity holders of Onex Corporation to non-controlling interests in the unaudited interim consolidated financial statements, with the cash proceeds received in excess of the historical accounting carrying value of \$133 million being recorded directly to retained earnings.

The new shares issued by JELD-WEN in the initial public offering resulted in the dilution of the Company's ownership interest. As a result, the Company recorded a transfer from the non-controlling interests in the unaudited interim consolidated statements of equity. This reflects Onex' share of the increase in the book value of the net assets of JELD-WEN due to the issuance of additional common shares at a value above the Company's historical accounting carrying value of JELD-WEN.

In May 2017, JELD-WEN completed a secondary offering of 16.1 million shares of its common stock, including the exercise of the over-allotment option. The offering was priced at \$30.75 per share for gross proceeds of \$495 million. No treasury shares were issued as part of the offering. The Onex Partners III Group sold approximately 15.7 million shares in the transaction for net proceeds of \$466 million. Onex' portion of the net proceeds was \$135 million, including \$20 million of carried interest.

A gain of \$1.5 billion was recorded within discontinued operations during the second quarter based on the excess of the net proceeds and the interest retained at fair value over the historical accounting carrying value of the investment. The gain on the sale is entirely attributable to the equity holders of Onex Corporation, as the interests of the Limited Partners were recorded as a financial liability at fair value. The portion of the gain associated with recognizing the interest retained in JELD-WEN at fair value was \$1.1 billion. The portion of the gain associated with the shares sold in the secondary offering was \$378 million.

Amounts received on account of the carried interest related to these transactions totalled \$64 million. Onex was allocated 40% of the carried interest, with 60% allocated to management. Onex' share of the carried interest received was \$26 million and was included in the net proceeds to Onex. Management's share of the carried interest was \$38 million. No amounts were paid on account of the MIP for these transactions as the required realized investment return hurdle for Onex was not met on realizations to date.

The Onex Partners III Group continues to hold approximately 47.1 million shares of JELD-WEN's common stock for a 45% economic and voting interest. Onex continues to hold approximately 11.7 million shares for an 11% economic interest. The secondary offering resulted in a loss of control over JELD-WEN by the Company. The remaining interest held by the Company has been recorded as a long-term investment at fair value through earnings, with realized and unrealized gains and losses recognized in the unaudited interim consolidated statements of earnings. Non-controlling interests of the Company decreased by \$212 million as a result of no longer consolidating JELD-WEN.

The operations of JELD-WEN up to May 2017 have been presented as discontinued in the June 30, 2017 unaudited interim consolidated statements of earnings and cash flows and prior periods have been restated to report the results of JELD-WEN as discontinued on a comparative basis. JELD-WEN has been reclassified from the building products segment to the other segment.

Acquisition of Parkdean Resorts

In March 2017, the Onex Partners IV Group acquired Parkdean Resorts, a leading operator of caravan holiday parks in the United Kingdom, for £1.35 billion. The Onex Partners IV Group made an investment of \$612 million (£500 million), excluding the impact of foreign exchange hedges, comprised of \$417 million from Onex Partners IV and \$195 million as a co-investment from Onex and certain limited partners, for an initial economic interest of 91%. Onex' share of the investment was \$166 million, comprised of \$123 million through Onex Partners IV and \$43 million as a co-investment, for an initial economic interest of 25%. The investment in Parkdean Resorts consists of equity of \$520 million (£425 million) and a loan note of \$92 million (£75 million), of which Onex' share is \$141 million and \$25 million, respectively. The remainder of the purchase price was financed through a rollover of equity by management shareholders and with debt financing, without recourse to Onex Corporation. Parkdean Resorts is included within the other segment.

Distribution from Jack's

In April 2017, Jack's amended its existing credit facility to increase the size of its term loan to \$275 million. The proceeds from the incremental borrowing, along with cash on hand, were used to fund a distribution of \$85 million to shareholders. The share of the distribution for the Onex Partners IV Group was \$81 million, of which Onex' share was \$23 million.

Pending sale of Dental Digital business by Carestream Health

In April 2017, Carestream Health entered into an agreement to sell its Dental Digital business for an enterprise value of approximately \$800 million. Net cash proceeds from the sale will be used to repay a portion of the company's term loan. The transaction is expected to close in the third quarter of 2017 and is subject to customary closing conditions and regulatory approvals. At June 30, 2017, included in other current assets and other current liabilities of the interim consolidated balance sheet are assets held for sale totalling \$212 million and liabilities held for sale totalling \$102 million, respectively.

Initial public offering by Emerald Expositions

In April 2017, Emerald Expositions completed an initial public offering of approximately 17.8 million shares of its common stock (NYSE: EEX), including the exercise of the over-allotment option. The offering was priced at \$17.00 per share for gross proceeds of \$303 million. As part of the offering, Emerald Expositions issued approximately 10.3 million treasury shares. The net proceeds from the treasury shares were used to repay \$159 million of Emerald Expositions' term loan. The Onex Partners III Group sold approximately 7.5 million shares in the transaction for net proceeds of \$119 million. Onex' portion of the net proceeds was \$32 million, including \$3 million of carried interest.

Amounts received on account of the carried interest related to this transaction totalled \$7 million. Onex was allocated 40% of the carried interest, with 60% allocated to management. Onex' share of the carried interest received was \$3 million and was included in the net proceeds to Onex. Management's share of the carried interest was \$4 million. No amounts were paid on account of the MIP for this transaction as the required realized investment return hurdle for Onex was not met on this realization.

The Onex Partners III Group continues to hold approximately 53.8 million shares of Emerald Expositions' common stock for a 75% economic and voting interest. Onex continues to hold approximately 13.0 million shares for an 18% economic interest. Since the sale of shares by the Onex Partners III Group did not result in a loss of control over Emerald Expositions, the transaction was recorded as a transfer from equity holders of Onex Corporation to non-controlling interests holders in the unaudited interim consolidated financial statements, with the cash proceeds received in excess of the historical accounting carrying value of \$52 million being recorded directly to retained earnings.

The issuance of new shares by Emerald Expositions as part of the initial public offering resulted in the dilution of the Company's ownership interest in Emerald Expositions. The Company recorded a transfer from the non-controlling interests in the unaudited interim consolidated statements of equity. This reflects Onex' share of the increase in the book value of the net assets of Emerald Expositions due to the issuance of additional common shares at a value above the Company's historical accounting carrying value of Emerald Expositions.

Sale of USI

In May 2017, the Onex Partners III Group sold its entire investment in USI for an enterprise value of \$4.3 billion. The Onex Partners III Group received net proceeds of approximately \$1.9 billion. Onex' portion of the net proceeds was \$563 million, including carried interest of \$65 million and after the reduction for the amounts on account of the MIP.

The Onex Partners III Group invested a total of \$610 million to acquire USI in December 2012. The investment in USI generated a Gross MOC of 3.4 times, including a prior distribution.

The sale resulted in a gain of \$1.8 billion based on the excess of the proceeds over the historical accounting carrying value of the investment. The gain was entirely attributable to the equity holders of Onex Corporation, as the interests of the limited partners were recorded as a financial liability at fair value.

Amounts received on account of the carried interest related to this transaction totalled \$163 million. Onex was allocated 40% of the carried interest with 60% allocated to management. Onex' share of the carried interest received was \$65 million and was included in the net proceeds to Onex. Management's share of the carried interest was \$98 million. Amounts paid on account of the MIP totalled \$30 million for this transaction and have been deducted from the net proceeds to Onex.

The operations of USI up to the date of sale in May 2017 have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows and prior periods have been restated to report the results of USI as discontinued on a comparative basis. The operations of USI have been reclassified from the insurance services segment to the other segment. Non-controlling interests of the Company decreased by \$1 million as a result of no longer consolidating USI.

Distributions from operating businesses

During the six months ended June 30, 2017, the Company received distributions from certain operating businesses of \$138 million, of which \$41 million was Onex' portion. This includes the distribution from Jack's, as described on page 25 of this interim MD&A. Significant distributions received by Onex and its partners are described below.

In January 2017, PURE Canadian Gaming distributed C\$15 million to shareholders. The ONCAP II and III Group's portion of the distribution to shareholders was C\$15 million (\$11 million), of which Onex' portion was C\$6 million (\$5 million).

During the six months ended June 30, 2017, BBAM distributed \$35 million to the Onex Partners III Group, of which Onex' share was \$9 million. The distribution was funded by the company's free cash flow.

Onex Partners V

In July 2017, Onex completed the first closing for Onex Partners V, reaching aggregate commitments of \$5.2 billion, including Onex' commitment of \$2.0 billion, Onex management's minimum 2% commitment and \$3.1 billion of third-party capital.

Credit Strategies

i) Closing of CLO-13

In February 2017, Onex established a warehouse facility in connection with its thirteenth CLO denominated in U.S. dollars ("CLO-13"). Onex invested \$70 million in the warehouse facility and a financial institution provided borrowing capacity of up to \$450 million backed by the underlying collateral.

In July 2017, Onex closed CLO-13, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured and subordinated notes and preference shares in a private placement transaction for an aggregate principal amount of \$610 million.

On closing, Onex received \$70 million plus interest for the investment that supported the warehouse facility and invested \$40 million for 100% of the most subordinated capital of CLO-13. Reinvestment can be made in collateral by the CLO up to July 2022, or earlier, subject to certain provisions.

ii) Extension of CLO-4

In April 2017, Onex amended CLO-4, which extended the reinvestment period of the CLO by four years to April 2021 and increased the size by \$105 million to \$600 million. Onex invested an additional \$13 million in the most subordinated capital of CLO-4 on closing.

iii) Closing of EURO CLO-1

In May 2017, Onex closed EURO CLO-1, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured and subordinated notes in a private placement transaction for an aggregate principal amount of €361 million (\$393 million).

On closing, Onex received €55 million (\$60 million) plus interest for the investment that supported the warehouse facility and invested €38 million (\$42 million) for 100% of the most subordinated capital of the CLO. Reinvestment can be made in collateral by the CLO up to June 2021, or earlier, subject to certain provisions.

iv) Warehouse facility of CLO-14

In May 2017, Onex established a warehouse facility in connection with its fourteenth CLO denominated in U.S. dollars ("CLO-14"). Onex invested \$40 million to support the warehouse facility's total return swap and a financial institution provided borrowing capacity of up to \$160 million backed by the underlying collateral.

v) Onex Credit direct lending platform

In May 2017, Onex completed the first closing of the first fund in the Onex Credit direct lending platform ("OCLP-1"), reaching aggregate commitments of approximately \$290 million, including Onex' commitment of \$100 million. The duration of the commitment period for OCLP-1 will be up to three years from the date of final closing, subject to extensions for up to an additional two years.

vi) Redemption of CLO-3

In June 2017, the Company redeemed its third CLO denominated in U.S. dollars. CLO-3 was established in March 2013 and its reinvestment period ended in January 2017. Upon the redemption of CLO-3, all secured notes were repaid, including accrued interest, and the equity was settled for the residual proceeds in the CLO. Onex received \$8 million for its remaining investment in the equity of CLO-3. In aggregate, Onex received \$28 million of proceeds and distributions related to CLO-3 compared to its original investment of \$24 million. In addition, Onex expects to receive a final distribution of \$3 million during the second half of 2017.

At redemption, CLO-3 transferred \$13 million, \$109 million and \$48 million in assets for fair value consideration to CLO-4, CLO-13 and CLO-14, respectively. The fair values used for the transfer were reviewed by a third party.

vii) Warehouse facility of EURO CLO-2

In June 2017, Onex established a warehouse facility in connection with its second CLO denominated in euros ("EURO CLO-2"). Onex invested €10 million (\$11 million) to support the warehouse facility and a financial institution provided borrowing capacity of up to €40 million (\$46 million) backed by the underlying collateral.

viii) Distributions

During the six months ended June 30, 2017, Onex received \$32 million of distributions from its CLO investments.

REVIEW OF JUNE 30, 2017 UNAUDITED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The discussions that follow identify those material factors that affected Onex' operating segments and Onex' unaudited interim consolidated results for the three and six months ended June 30, 2017.

Discontinued operations for the three and six months ended June 30, 2017 represent the results of operations of JELD-WEN (up to May 2017) and USI (up to May 2017). Discontinued operations for the three and six months ended June 30, 2016 represent the results of operations of JELD-WEN, KraussMaffei (up to April 2016) and USI, and include a portion of the gain from the sale of Sitel Worldwide.

Electronics Manufacturing Services

Celestica reported revenues of \$1.6 billion for the three months ended June 30, 2017, up 5%, or \$72 million, compared to the same period in 2016. Revenue increased primarily due to demand strength from certain customer programs and new program growth, including from its Joint Design and Manufacturing offering, in the communications end market. Revenue from new programs in the enterprise end market was largely offset by softer demand in some legacy programs, and revenues from the advanced technology solutions end market decreased compared to the same period in 2016 as growth primarily from its semiconductor business and new customer programs was more than offset by decreases in solar panel revenue due to the exit from the solar panel manufacturing business.

Cost of sales for the second quarter of 2017 increased by 6%, or \$76 million, to \$1.4 billion. Gross profit decreased by 3% to \$127 million compared to the same period in 2016. Although revenues increased in the second quarter of 2017, gross profit was negatively impacted by unfavourable changes in overall program mix, as well as increased pricing pressures most significantly in the communications and enterprise end markets, partially offset by improved margin performance in the advanced technology solutions (comprised of its former diversified and consumer end markets) end market, in particular from the semiconductor business. In addition, operating losses and additional provisions were recorded related to the wind-down of the solar panel business.

For the six months ended June 30, 2017, revenues increased by 7%, or \$189 million, to \$3.0 billion and cost of sales increased by 7%, or \$181 million, to \$2.8 billion. The same factors that contributed to the increase in revenues and cost of sales for the second quarter of 2017 drove the increases for the first six months of 2017.

Healthcare Imaging

Carestream Health reported revenues of \$504 million during the second quarter of 2017, relatively flat with the same period in 2016. Excluding the \$8 million impact of unfavourable foreign exchange translation on Carestream Health's non-U.S. revenues, Carestream Health reported an increase in revenues of \$9 million. The increase in revenue was primarily driven by higher volumes in Medical Film and Dental, partially offset by lower volumes in Medical Digital.

Cost of sales was \$288 million during the second quarter of 2017, relatively unchanged from the same period in 2016. Higher commodity costs and volume growth in Contract Manufacturing were partially offset by favourable foreign exchange translation of \$3 million and lower volumes in X-Ray Film. Gross profit for the second quarter of 2017 was unchanged from \$216 million for the same period in 2016. Excluding the \$5 million impact of unfavourable foreign exchange translation, gross profit increased by \$5 million primarily due to favourable product mix and productivity within Dental Digital, partially offset by higher commodity costs.

During the first half of 2017, revenues decreased by 2%, or \$15 million, to \$925 million. Cost of sales for the six months ended June 30, 2017 was relatively unchanged at \$540 million compared to the same period in 2016. The decrease in revenues was primarily driven by unfavourable foreign exchange translation of \$14 million and lower volume in Computed Radiography and X-Ray Film, partially offset by higher volume in Contract Manufacturing. Gross profit for the first half of 2017 decreased by \$16 million compared to the same period in 2016. Excluding the \$9 million impact of unfavourable foreign exchange translation, gross profit decreased by \$7 million primarily driven by higher commodity costs and unfavourable product mix in Medical Film, partially offset by favourable product mix and productivity in Dental Digital.

Health and Human Services

During the three months ended June 30, 2017, ResCare reported revenues of \$448 million, unchanged compared to the same period in 2016. Lower revenues from exiting the skilled line of business in the HomeCare segment were offset by acquisitions within the HomeCare and Residential Services segments.

Cost of sales decreased by 1%, or \$4 million, during the second quarter of 2017 compared to the same period in 2016. The decrease in cost of sales was primarily due to exiting the skilled line of business in the HomeCare segment.

During the first half of 2017, revenues decreased by 2%, or \$15 million, to \$886 million and cost of sales decreased by 3%, or \$19 million, to \$669 million. Lower revenues from exiting the skilled line of business in the HomeCare segment were partially offset by acquisitions within the HomeCare and Residential Services segments.

Insurance Services

The insurance services segment consists of the operations of York. The insurance services segment previously included USI, which has been recorded in the other segment as a discontinued operation.

York reported revenues of \$191 million during the three months ended June 30, 2017, an increase of 1%, or \$2 million, compared to the second quarter of 2016. The increase in revenues during the three months ended June 30, 2017 was primarily from acquisitions. For the first six months of 2017, York reported revenues of \$379 million, an increase of 3%, or \$12 million, compared to the same period in 2016. The increase in revenues during the six months ended June 30, 2017 was primarily due to organic growth. York records its costs of services in operating costs.

Packaging Products and Services

The packaging products and services segment consists of the operations of sgsco and SIG.

Table 2 provides revenues and cost of sales by operating company in the packaging products and services segment for the three and six months ended June 30, 2017 and 2016.

sgsco

sgsco reported revenues of \$128 million during the second quarter of 2017, a decrease of \$5 million, or 4%, compared to the second quarter of 2016. This decrease was primarily due to organic sales declines with unfavourable foreign currency fluctuations, partially offsetting the incremental sales from an acquisition.

Cost of sales of \$87 million increased by \$4 million, or 5%, compared to the same period in 2016 primarily due to incremental cost of sales from acquisitions, as well as non-recurring business transformation expenses, partially offset by favourable foreign currency fluctuations.

For the six months ended June 30, 2017, revenues decreased by 2%, or \$6 million, to \$250 million compared to the same period in 2016. Cost of sales of \$169 million increased by 3%, or \$5 million, during the first half of 2017 compared to the first half of 2016. The same factors that contributed to the decrease in revenues and the increase in cost of sales for the second quarter of 2017 drove the change in revenues and cost of sales for the six months ended June 30, 2017.

SIG

SIG's functional currency is the euro. The reported revenues and cost of sales of SIG in U.S. dollars may not reflect the true nature of the operating results of the company due to the translation of those amounts and the associated fluctuation of the euro and U.S. dollar exchange rate. The discussion of SIG's revenues and cost of sales is in euros in order to reduce the impact of foreign currency translation on revenues and cost of sales. SIG has global operations and exposure to currency risk on the portion of its business that is not based on euros. Fluctuations in the value of the euro relative to other currencies can have an impact on SIG's reported results.

During the quarter ended June 30, 2017, SIG reported revenues of €403 million, a decrease of 2%, or €8 million, compared to the same period in 2016. The decrease in revenues was primarily due to lower sleeve sales, partially offset by favourable foreign currency fluctuations.

Cost of sales for the three months ended June 30, 2017 decreased by 5%, or €15 million, to €258 million compared to the same period in 2016. The decrease in cost of sales was primarily due to lower sleeve sales partially offset by unfavourable foreign currency fluctuations.

During the first half of 2017, revenues at SIG decreased by 2%, or €17 million, to €756 million compared to the first half of 2016. Cost of sales for the first six months of 2017 was €488 million, a decrease of 5%, or €25 million, compared to the same period in 2016. The same factors that contributed to the decrease in revenues and cost of sales for the second quarter of 2017 drove the decrease in revenues and cost of sales for the six months ended June 30, 2017.

Business and Information Services

The business and information services segment consists of the operations of Clarivate Analytics and Emerald Expositions. Clarivate Analytics was acquired by the Onex Partners IV Group in October 2016. The results of Emerald Expositions were previously included within the other segment. Table 3 provides revenues and cost of sales by operating company in the business and information services segment for the three and six months ended June 30, 2017 and 2016.

(a) Clarivate Analytics was acquired in October 2016 by the Onex Partners IV Group. There are no comparative results for the six months ended June 30, 2016.

Clarivate Analytics

During the second quarter of 2017, Clarivate Analytics reported revenues of \$225 million and cost of sales of \$104 million. For the six months ended June 30, 2017, Clarivate Analytics reported revenues of \$435 million and cost of sales of \$205 million. Since Clarivate Analytics was acquired in October 2016, there are no comparative results for the three and six months ended June 30, 2016.

Emerald Expositions

During the second quarter of 2017, Emerald Expositions reported revenues of \$74 million, an increase of \$9 million, or 14%, compared to the second quarter of 2016. The revenue increase was due to a combination of organic growth and acquisitions.

Cost of sales of \$21 million during the three months ended June 30, 2017 increased by 11%, or \$2 million, from the second quarter in 2016. The increase was primarily attributable to organic growth and acquisitions. Gross profit increased by \$7 million, or 15%, to \$53 million compared to the same period in 2016 primarily due to the growth in revenues.

For the six months ended June 30, 2017, Emerald Expositions reported revenues of \$210 million, an increase of 9%, or \$17 million, compared to the same period in 2016. For the six months ended June 30, 2017, cost of sales was \$58 million, an increase of 14%, or \$7 million, compared to the same period in 2016. The same factors that contributed to the increase in revenues and cost of sales for the second quarter of 2017 drove the increase in revenues and cost of sales for the six months ended June 30, 2017.

Food Retail and Restaurants

The food retail and restaurants segment consists of the operations of Jack's and Save-A-Lot. The results of Jack's were previously included within the other segment. Save-A-Lot was acquired by the Onex Partners IV Group in December 2016. Table 4 provides revenues and cost of sales by operating company in the food retail and restaurants segment for the three and six months ended June 30, 2017 and 2016.

(a) Save-A-Lot was acquired in December 2016 by the Onex Partners IV Group. There are no comparative results for the six months ended June 30, 2016.

Jack's

During the three months ended June 30, 2017, Jack's reported revenues of \$108 million, an increase of \$15 million, or 16%, compared to the same period in 2016.

Cost of sales for the second quarter of 2017 increased by \$17 million, or 23%, compared to the second quarter of 2016. Revenues and cost of sales increased during the second quarter of 2017 primarily due to same store sales growth, new restaurant sales and the addition of a new customer within the distribution business.

During the first half of 2017, revenues at Jack's increased by 13%, or \$23 million, to \$202 million compared to the first half of 2016. Cost of sales for the first six months of 2017 was \$168 million, an increase of 17%, or \$24 million, compared to the same period in 2016. The same factors that contributed to the increase in revenues and cost of sales for the second quarter of 2017 drove the increase in revenues and cost of sales for the six months ended June 30, 2017.

Save-A-Lot

During the three months ended June 30, 2017, Save-A-Lot reported revenues of \$1.1 billion and cost of sales of \$912 million. During the first half of 2017, Save-A-Lot reported revenues of \$2.1 billion and cost of sales of \$1.8 billion. Since Save-A-Lot was acquired in December 2016, there are no comparative results for the three and six months ended June 30, 2016.

Credit Strategies

The credit strategies segment consists of (i) Onex Credit Manager, (ii) Onex Credit Collateralized Loan Obligations, (iii) Onex Credit Funds and (iv) Onex Credit direct lending platform.

Gross revenues earned by Onex Credit Manager during the three months ended June 30, 2017 were \$10 million, unchanged compared to the same period in 2016. For the three months ended June 30, 2017, gross revenues included \$1 million earned on investments in Onex Credit Funds held by Onex, the parent company, unchanged from the same period in 2016. Credit strategies segment revenue for the second quarter of 2017, net of management and incentive fees from credit strategies which are eliminated upon consolidation, was \$1 million, unchanged from the second quarter of 2016. Costs of the credit strategies segment are recorded in operating expenses.

Gross revenues earned by Onex Credit Manager during the six months ended June 30, 2017 increased by \$1 million to \$20 million compared to \$19 million during the same period in 2016. The increase in revenues was primarily due to the growth in the CLO platform. For the six months ended June 30, 2017, gross revenues included \$1 million earned on investments in Onex Credit Funds held by Onex, the parent company, compared to \$2 million during the same period in 2016. Credit strategies segment revenue for the first half of 2017, net of management and incentive fees from credit strategies which are eliminated upon consolidation, was \$2 million, unchanged compared to the same period in 2016.

Other Businesses

The other businesses segment consists of the revenues and cost of sales of the ONCAP companies – EnGlobe, Cicis (up to August 2016), Pinnacle Renewable Energy Group, PURE Canadian Gaming, Hopkins, Davis-Standard, Bradshaw, Chatters and Tecta (since August 2016) – Survitec, Schumacher, WireCo (since September 2016), Parkdean Resorts (since March 2017), Flushing Town Center, Meridian Aviation and the parent company.

Table 5 provides revenues and cost of sales by operating company in the other businesses segment for the three and six months ended June 30, 2017 and 2016.

(d) 2017 and 2016 other includes Flushing Town Center, Meridian Aviation and the parent company.

ONCAP companies

The ONCAP companies reported a 19%, or \$79 million, increase in revenues for the three months ended June 30, 2017 compared to the same period in 2016, and cost of sales increased by 17%, or \$49 million.

For the six months ended June 30, 2017, revenues reported by the ONCAP companies increased by \$147 million, or 19%, compared to the same period in 2016, while cost of sales increased by \$88 million, or 16%.

The increase in revenues and cost of sales was primarily driven by the acquisition of Tecta in August 2016, partially offset by the sale of Cicis in August 2016.

Survitec

Survitec's functional currency is the pound sterling. The reported revenues and cost of sales of Survitec in U.S. dollars may not reflect the true nature of the operating results of the company due to the translation of those amounts and the associated fluctuation of the pound sterling and U.S. dollar exchange rate. The discussion of Survitec's revenues and cost of sales is in pounds sterling in order to reduce the impact of foreign currency translation on revenues and cost of sales. Survitec has global operations and exposure to currency risk on the portion of its business that is not based on the pound sterling. Fluctuation in the value of the pound sterling relative to other currencies can have an impact on Survitec's reported results.

During the three months ended June 30, 2017, Survitec reported revenues of £99 million, an increase of 60%, or £37 million, compared to the same period in 2016. Cost of sales increased by 47%, or £16 million, to £50 million during the second quarter of 2017 compared to the second quarter of 2016. The increase in revenues and cost of sales was primarily due to additional revenues from an acquisition completed by Survitec during 2016.

During the six months ended June 30, 2017, Survitec reported revenues of £197 million, an increase of £62 million, or 46%, compared to the first six months of 2016. Cost of sales for the first half of 2017 increased by 41%, or £29 million, to £99 million compared to the first half of 2016. The same factors that contributed to the increase in revenues and cost of sales for the second quarter of 2017 drove the increase in revenues and cost of sales for the six months ended June 30, 2017.

Schumacher

During the second quarter of 2017, Schumacher reported revenues of \$348 million, an increase of \$53 million, or 18%, compared to the same quarter in 2016. Cost of sales for the three months ended June 30, 2017 increased by \$49 million, or 20%, compared to the same period in 2016. The increase in revenues and cost of sales was primarily due to an acquisition completed by Schumacher in 2016.

During the six months ended June 30, 2017, Schumacher reported revenues of \$698 million, an increase of \$131 million, or 23%, compared to the same period in 2016. Cost of sales for the first half of 2017 increased by \$127 million, or 28%, compared to the same period in 2016. The same factors that contributed to the increase in revenues and cost of sales for the second quarter of 2017 drove the increase in revenues and cost of sales for the six months ended June 30, 2017.

WireCo

WireCo reported revenues of \$168 million and cost of sales of \$125 million for the three months ended June 30, 2017. Revenues and cost of sales for the first half of 2017 were \$333 million and \$252 million, respectively. Since WireCo was acquired in September 2016, there are no comparative results for the three and six months ended June 30, 2016.

Parkdean Resorts

Parkdean Resorts' functional currency is the pound sterling. The reported revenues and cost of sales of Parkdean Resorts in U.S. dollars may not reflect the true nature of the operating results of the company due to the translation of those amounts and the associated fluctuation of the pound sterling and U.S. dollar exchange rate. The discussion of Parkdean Resorts' revenues and cost of sales is in pounds sterling in order to reduce the impact of foreign currency translation on revenues and cost of sales.

Parkdean Resorts reported revenues of £129 million and cost of sales of £60 million for the three months ended June 30, 2017. For the six months ended June 30, 2017, Parkdean Resorts reported revenues of £151 million and cost of sales of £72 million, which represent the results for the period from the March 2017 acquisition of Parkdean Resorts to June 30, 2017. Since Parkdean Resorts was acquired in March 2017, there are no comparative results for the three and six months ended June 30, 2016.

Interest expense of operating companies

New investments are structured with the acquired company having sufficient equity to enable it to self-finance a significant portion of its acquisition cost with a prudent amount of debt. The level of debt is commensurate with the operating company's available cash flow, including consideration of funds required to pursue growth opportunities. It is the responsibility of the acquired operating company to service its own debt obligations.

Consolidated interest expense for the three months ended June 30, 2017 was \$304 million, up \$99 million, or 48%, from the same period in 2016. The increase was primarily due to the inclusion of interest expense for: (i) Clarivate Analytics, Save-A-Lot and WireCo, which were acquired in the second half of 2016; (ii) Parkdean Resorts, which was acquired in March 2017; and (iii) the additional debt from CLOs.

Consolidated interest expense for the six months ended June 30, 2017 was \$581 million, up \$179 million, or 45%, from the same period in 2016. The increase was primarily due to the same factors contributing to the increase in consolidated interest expense for the second quarter of 2017.

Increase in value of investments in joint ventures and associates at fair value, net

Investments in joint ventures and associates are defined under IFRS as those investments in operating businesses over which Onex has joint control or significant influence, but not control. Certain of these investments are designated, upon initial recognition, at fair value in the unaudited interim consolidated balance sheets. Both realized and unrealized gains and losses are recognized in the unaudited interim consolidated statements of earnings as a result of increases or decreases in the fair value of investments in joint ventures and associates. Investments deemed to be investments in joint ventures or associates and measured at fair value through earnings primarily comprise AIT, BBAM, ITG, JELD-WEN (since May 2017) and Mavis Discount Tire.

During the three months ended June 30, 2017, Onex recorded an increase in the fair value of investments in joint ventures and associates of \$95 million compared to \$17 million for the same period in 2016. The increase was primarily due to an increase in the public share price of JELD-WEN (since May 2017) and continued free cash generation at certain of the investments.

Of the total fair value increase recorded during the second quarter of 2017, \$69 million (2016 – \$14 million) is attributable to the limited partners in the Onex Partners and ONCAP Funds, which contributes to the Limited Partners' Interests charge discussed on page 40 of this interim MD&A. Onex' share of the total fair value increase was \$26 million (2016 – \$3 million).

During the six months ended June 30, 2017, Onex recorded an increase in fair value of investments in joint ventures and associates of \$120 million compared to \$37 million for the same period in 2016. The same factors that contributed to the increase for the second quarter of 2017 drove the increase for the six months ended June 30, 2017.

Of the total fair value increase recorded during the six months ended June 30, 2017, \$89 million (2016 – \$29 million) is attributable to the limited partners in the Onex Partners and ONCAP Funds, which contributes to the Limited Partners' Interests charge discussed on page 40 of this interim MD&A. Onex' share of the total fair value increase was \$31 million (2016 – \$8 million).

Stock-based compensation expense

Onex recorded a consolidated stock-based compensation expense of \$116 million during the second quarter of 2017 compared to \$16 million in the same period in 2016. Stock option and MIP equity interests of Onex, the parent company, comprised \$97 million (2016 – \$3 million) of the expense.

The expense recorded by Onex, the parent company, on its stock options during the second quarter of 2017 was primarily due to the 9% increase in the market value of Onex' shares to C\$103.81 at June 30, 2017 from C\$95.45 at March 31, 2017. This compares to no change during the same period in 2016.

During the first half of 2017, Onex recorded a consolidated stock-based compensation expense of \$178 million compared to \$33 million for the same period in 2016. Onex, the parent company, contributed \$161 million (2016 – \$6 million) of the expense.

The expense recorded by Onex, the parent company, on its stock options during the first half of 2017 was primarily due to the 14% increase in the market value of Onex' shares since December 31, 2016. This compares to a 7% decrease in the market value during the same period in 2016.

Table 6 details the change in stock-based compensation of Onex, the parent company, and Onex' operating companies for the three and six months ended June 30, 2017 and 2016.

Carried interest charge due to Onex and ONCAP management

The General Partners of the Onex Partners and ONCAP Funds are entitled to a carried interest of 20% on the realized net gains of the limited partners in each fund, in accordance with the limited partnership agreements. Onex is allocated 40% of the carried interest realized in the Onex Partners Funds. Onex management is allocated 60% of the carried interest realized in the Onex Partners Funds and ONCAP management is entitled to that portion of the carried interest realized in the ONCAP Funds that equates to a 12% carried interest on both limited partner and Onex capital. Once the ONCAP IV investors achieve a return of two times their aggregate capital contributions, carried interest participation increases from 20% to 25% of the realized net gains of the limited partners in ONCAP IV, equating to a 15% carried interest for ONCAP management on both limited partner and Onex capital. Onex' share of the carried interest change is recorded as an offset in the Limited Partners' Interests amount in the unaudited interim consolidated statements of earnings.

The carried interest due to management of Onex and ONCAP represents the share of the overall net gains in each of the Onex Partners and ONCAP Funds attributable to the management of Onex and ONCAP. The carried interest is estimated based on the current fair values of the underlying investments in the funds and the overall net gains in each respective fund determined in accordance with the limited partnership agreements. During the three and six months ended June 30, 2017, a charge of \$26 million (2016 – recovery of \$1 million) and \$83 million (2016 – \$10 million), respectively, was recorded in the unaudited interim consolidated statements of earnings for management's share of carried interest primarily due to an increase in the fair value of certain of the investments in the Onex Partners and ONCAP Funds. The ultimate amount of carried interest realized by Onex will be based on the overall performance of each fund.

Transition, integration and other

Transition, integration and other expenses typically provide for the costs of establishing and transitioning an operating company from a prior parent company upon acquisition and to integrate new acquisitions at the operating companies. The costs may be incurred over several years as the establishment and transition of activities progress.

Transition, integration and other expenses for the three and six months ended June 30, 2017 were primarily due

to Clarivate Analytics and Carestream Health. Transition, integration and other expenses for the three and six months ended June 30, 2016 were primarily due to the transition of business activities at Carestream Health and the integration of an acquisition at Survitec.

Losses on investments and long-term debt in Credit Strategies

Losses on investments and long-term debt in credit strategies during the first six months of 2017 were driven by unrealized losses on long-term debt recorded at fair value in the CLOs, partially offset by realized and unrealized gains on investments.

Restructuring

Restructuring expenses typically provide for the costs of facility consolidations and workforce reductions incurred at the operating companies.

The operating companies with restructuring activities at December 31, 2016 continue to implement their restructuring activities. During the first six months of 2017, Save-A-Lot recognized restructuring charges related to the closure of facilities and the associated lease abandonment costs.

Transaction costs

Transaction costs are incurred by Onex and its operating companies to complete business acquisitions, and typically include advisory, legal and other professional and consulting costs. Transaction costs for the six months ended June 30, 2017 were primarily due to the acquisition of Parkdean Resorts, in addition to acquisitions completed by the operating companies.

Derivatives losses

Derivatives losses for the three and six months ended June 30, 2017 and 2016 were primarily related to embedded derivatives associated with debt agreements and foreign exchange hedges.

Foreign exchange gain

Foreign exchange gains during the first half of 2017 were primarily due to gains recognized by SIG. Foreign exchange gains during the first half of 2016 were primarily due to gains recognized by SIG, partially offset by losses recognized by Survitec.

Impairment of goodwill, intangible assets and long-lived assets, net

Table 8 provides a breakdown of the net impairment of goodwill, intangible assets and long-lived assets by operating company for the three and six months ended June 30, 2017 and 2016.

Impairment of Goodwill, Intangible Assets and Long-Lived Assets, Net

York

During 2016, York recorded a non-cash goodwill impairment charge of \$226 million, measured in accordance with IAS 36, *Impairment of Assets*, primarily due to a decrease in projected future earnings from its claims management business. Note 10 to the unaudited interim consolidated financial statements provides additional information on the impairment calculation.

Limited Partners' Interests charge

The Limited Partners' Interests charge in Onex' unaudited interim consolidated statements of earnings primarily represents the change in the fair value of the underlying investments in the Onex Partners and ONCAP Funds and credit strategies that is allocated to the limited partners and recorded as Limited Partners' Interests liability in Onex' unaudited interim consolidated balance sheets. The Limited Partners' Interests charge for the Onex Partners and ONCAP Funds includes the fair value changes of consolidated operating companies, investments in joint ventures and associates and other investments that are held in the Onex Partners and ONCAP Funds. The Limited Partners' Interests charge for the credit strategies includes the fair value changes of the Onex Credit direct lending platform and the underlying investments in the Onex Credit Funds consolidated by Onex.

During the three and six months ended June 30, 2017, Onex recorded a charge of \$354 million (2016 – \$29 million) and \$863 million (2016 – \$182 million), respectively, for Limited Partners' Interests for the Onex Partners and ONCAP Funds. The net increase in the fair value of certain of the investments held in the Onex Partners and ONCAP Funds contributed to the Limited Partners' Interests charge for the Onex Partners and ONCAP Funds recorded in the three and six months ended June 30, 2017 and 2016.

The Limited Partners' Interests charge for the Onex Partners and ONCAP Funds is net of an increase of \$41 million (2016 – decrease of \$2 million) and \$135 million (2016 – \$14 million) in carried interest for the three and six months ended June 30, 2017, respectively. Onex' share of the change in carried interest for the second quarter of 2017 was \$15 million (2016 – nil). For the first half of 2017, Onex' share of the change in carried interest was \$52 million (2016 – \$5 million). The change in the amount of carried interest that has been netted against the Limited Partners' Interests for the Onex Partners and ONCAP Funds increased during the first half of 2017 due to a greater net increase in the fair value of certain of the investments in the Onex Partners and ONCAP Funds. The ultimate amount of carried interest realized will be dependent on the actual realizations for each fund in accordance with the limited partnership agreements.

During the three and six months ended June 30, 2017, Onex recorded a charge of \$3 million (2016 – \$15 million) and \$13 million (2016 – \$21 million), respectively, for Limited Partners' Interests for the credit strategies.

Loss from continuing operations

Onex recorded a loss from continuing operations of \$505 million during the second quarter of 2017 compared to \$179 million in the same period of 2016. The loss from continuing operations attributable to equity holders of Onex Corporation was \$516 million (\$5.04 per share) compared to \$183 million (\$1.76 per share) in the second quarter of 2016.

For the six months ended June 30, 2017, Onex recorded a loss from continuing operations of \$1.3 billion compared to \$310 million in the same period of 2016. The loss from continuing operations attributable to equity holders of Onex Corporation was \$1.3 billion (\$12.77 per share) compared to \$331 million (\$3.18 per share) during the same period in 2016. Note 16 to the unaudited interim

consolidated financial statements shows the earnings (loss) from continuing operations by industry segment for the three and six months ended June 30, 2017 and 2016.

Included in the loss from continuing operations for the second quarter of 2017 was a loss of \$411 million recorded in the other segment compared to \$47 million recorded during the same period in 2016. The loss from continuing operations recorded in the other segment for the six months ended June 30, 2017 was \$1.1 billion compared to \$261 million during the same period in 2016. Table 9 shows the major components of the loss from continuing operations recorded in the other segment for the three and six months ended June 30, 2017 and 2016.

Earnings from discontinued operations

Onex recorded after-tax earnings from discontinued operations of \$3.2 billion during the second quarter of 2017 compared to \$546 million in the same period in 2016. The after-tax earnings from discontinued operations attributable to equity holders of Onex Corporation were \$3.2 billion (\$31.65 per share) during the second quarter of 2017 compared to \$505 million (\$4.88 per share) in the second quarter of 2016. The earnings from discontinued operations for the three months ended June 30, 2017 represent the results of operations of JELD-WEN and USI and were primarily driven by gains recognized from the loss of control over JELD-WEN and the sale of USI. Earnings from discontinued operations for the three months ended June 30, 2016 represent the results of operations of JELD-WEN, KraussMaffei and USI, and include a portion of the gain from the sale of Sitel Worldwide.

Onex recorded after-tax earnings from discontinued operations of \$3.0 billion during the first half of 2017 compared to \$502 million during the same period in 2016. The after-tax earnings from discontinued operations attributable to equity holders of Onex Corporation were \$3.1 billion (\$30.37 per share) during the six months ended June 30, 2017 compared to \$466 million (\$4.48 per share) in the same period in 2016. Earnings from discontinued operations for the six months ended June 30, 2017 represent the results of operations of JELD-WEN and USI. Earnings from discontinued operations for the six months ended June 30, 2016 represent the results of operations of JELD-WEN, KraussMaffei and USI, and include a portion of the gain from the sale of Sitel Worldwide.

JELD-WEN

In May 2017, the Onex Partners III Group sold approximately 15.7 million shares of JELD-WEN common stock in a secondary public offering, as described on page 25 of this interim MD&A. As a result of this sale, the Onex Partners III Group no longer controls JELD-WEN. The operations of JELD-WEN have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows and prior periods have been restated to report the results of JELD-WEN as discontinued on a comparative basis.

USI

In May 2017, the Onex Partners III Group sold its entire investment in USI, as described on page 26 of this interim MD&A. The operations of USI have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows and prior periods have been restated to report the results of USI as discontinued on a comparative basis.

KraussMaffei

In April 2016, the Onex Partners III Group sold its entire investment in KraussMaffei, as described in note 4 to the unaudited interim consolidated financial statements. The operations of KraussMaffei have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows for the three and six months ended June 30, 2016.

Consolidated net earnings

Onex recorded consolidated net earnings of \$2.7 billion during the second quarter of 2017 compared to \$367 million in the same period in 2016. The net earnings attributable to equity holders of Onex Corporation were \$2.7 billion (\$26.61 per share) during the second quarter of 2017 compared to \$322 million (\$3.12 per share) in the second quarter of 2016.

Onex recorded consolidated net earnings of \$1.7 billion during the first half of 2017 compared to \$192 million in the same period in 2016. The net earnings attributable to equity holders of Onex Corporation were \$1.8 billion (\$17.60 per share) during the first six months of 2017 compared to \$135 million (\$1.30 per share) in the same period of 2016.

Note 16 to the unaudited interim consolidated financial statements shows the consolidated net earnings (loss) by industry segment and the amounts attributable to the equity holders of Onex Corporation and non-controlling interests for the three and six months ended June 30, 2017 and 2016.

Other comprehensive earnings

Other comprehensive earnings represent the unrealized gains or losses, all net of income taxes, related to cash flow hedges, remeasurements for post-employment benefit plans and foreign exchange gains or losses on foreign self-sustaining operations. During the three months ended June 30, 2017, Onex reported other comprehensive earnings of \$235 million compared to \$34 million in the same period last year. The earnings recorded during the second quarter of 2017 were largely due to favourable currency translation adjustments on foreign operations of \$62 million (2016 – \$7 million) and other comprehensive earnings from discontinued operations of \$155 million (2016 – \$33 million).

For the six months ended June 30, 2017, Onex reported other comprehensive earnings of \$340 million compared to \$112 million during the same period in 2016. The earnings recorded during the first half of 2017 were largely due to favourable currency translation adjustments of \$143 million (2016 – \$57 million) and other comprehensive earnings from discontinued operations of \$174 million (2016 – \$48 million).

Onex' quarterly consolidated financial results do not follow any specific trends due to the acquisitions or dispositions of businesses by Onex, the parent company, and the varying business activities and cycles at Onex' operating companies and credit strategies.

CONSOLIDATED FINANCIAL POSITION

Consolidated assets

Consolidated assets totalled \$41.9 billion at June 30, 2017 compared to \$42.9 billion at December 31, 2016. Onex' consolidated assets at June 30, 2017 decreased from December 31, 2016 primarily due to the sale of USI, the loss of control by the Company of JELD-WEN and the redemption of CLO-3. The decrease was partially offset by the acquisition of Parkdean Resorts and the net investment activity at the CLO platform.

Table 11 shows consolidated assets by industry segment as at June 30, 2017 and December 31, 2016. The industry segment percentages of consolidated assets held by continuing operations are also shown.

(a) The insurance services segment now consists solely of York. The insurance services segment previously included USI, which has been recorded in the other segment as a discontinued operation.

(b) The packaging products and services segment consists of sgsco and SIG.

(c) The business and information services segment consists of Clarivate Analytics and Emerald Expositions.

(d) The food retail and restaurants segment consists of Jack's and Save-A-Lot.

(e) The credit strategies segment consists of (i) Onex Credit Manager, (ii) Onex Credit Collateralized Loan Obligations, (iii) Onex Credit Funds and (iv) Onex Credit direct lending platform.

(f) 2017 other includes Flushing Town Center, Meridian Aviation, Survitec, Schumacher, WireCo, Parkdean Resorts, the operating companies of ONCAP II, III and IV and the parent company. 2016 other includes Flushing Town Center, Meridian Aviation, Survitec, Schumacher, WireCo, the operating companies of ONCAP II, III and IV and the parent company. In addition, 2017 and 2016 other includes investments in AIT, BBAM, Genesis Healthcare, JELD-WEN (since May 2017), Incline Aviation Fund, ITG and Mavis Discount Tire.

(g) At December 31, 2016, the assets of JELD-WEN and USI are included in the other segment and have been presented as discontinued operations.

Consolidated long-term debt, without recourse to Onex Corporation

It has been Onex' policy to preserve a financially strong parent company that has funds available for new acquisitions and to support the growth of its operating companies. This policy means that all debt financing is within the operating companies and each company is required to support its own debt without recourse to Onex Corporation or other Onex operating companies.

The financing arrangements of each operating company typically contain certain restrictive covenants, which may include limitations or prohibitions on additional indebtedness, payment of cash dividends, redemption of capital, capital spending, making of investments, and acquisitions and sales of assets. The financing arrangements may also require the redemption of indebtedness in the event of a change of control of the operating company. In addition, the operating companies that have outstanding debt must meet certain financial covenants. Changes in business conditions relevant to an operating company, including those resulting from changes in financial markets and economic conditions generally, may result in non-compliance with certain covenants by that operating company.

Consolidated long-term debt does not include the debt of operating businesses that are included in investments in joint ventures and associates, as investments in those businesses are accounted for at fair value and are not consolidated. In addition, when operating companies are reported as discontinued operations or as held for sale, their long-term debt is excluded from consolidated long-term debt on a prospective basis. Prior periods are not restated.

Total consolidated long-term debt (consisting of the current and long-term portions of long-term debt, net of financing charges) was \$20.5 billion at June 30, 2017 compared to \$22.9 billion at December 31, 2016.

The following describes significant changes to the consolidated long-term debt of the operating companies from the information provided in the 2016 audited annual consolidated financial statements.

ONCAP IV (Other segment)

In January 2017, ONCAP IV entered into a \$100 million credit facility. The credit facility is available to finance ONCAP IV capital calls, bridge investments in ONCAP IV operating companies and finance other uses permitted by ONCAP IV's limited partnership agreement. The credit facility includes a deemed credit risk maximum of \$35 million available to ONCAP IV and its operating companies for foreign exchange transactions, including foreign exchange options, forwards and swaps. Amounts under the credit facility are available in Canadian and U.S. dollars. Borrowings drawn on the credit facility bear interest at a base rate plus a margin of 1.00% or bankers' acceptance rate (subject to a floor of 0.00%) plus a margin of 3.75%. The base rate and bankers' acceptance rate vary based on the currency of the borrowings. Borrowings under the credit facility are due and payable upon demand; however, ONCAP IV has 15 business days to complete a capital call to the limited partners of ONCAP IV. Onex Corporation, the parent company, is only obligated to fund borrowings under the credit facility based on its proportionate share as a limited partner in ONCAP IV.

At June 30, 2017, no amounts were outstanding under the credit facility.

JELD-WEN (Other segment)

In February 2017, JELD-WEN repaid \$375 million under its combined term loan from a portion of its net proceeds from the sale of treasury shares in its initial public offering, as described on page 24 of this interim MD&A.

In March 2017, JELD-WEN amended its existing credit facility to reduce the rate at which borrowings under its combined term loan bear interest to LIBOR (subject to a floor of 1.00%) plus a margin of up to 3.00%, depending on the company's leverage ratio. The amendment resulted in a total interest rate reduction of 50 basis points.

JELD-WEN's long-term debt is no longer recognized in the unaudited interim consolidated balance sheet as the Company no longer controls JELD-WEN, as described on page 25 of this interim MD&A.

Parkdean Resorts (Other segment)

The Onex Partners IV Group acquired Parkdean Resorts in March 2017, as described on page 25 of this interim MD&A. In March 2017, Parkdean Resorts entered into a senior secured credit facility consisting of a £575 million first lien term loan, a £150 million second lien term loan and a £100 million revolving credit facility. Borrowings under the first lien term loan bear interest at LIBOR (subject to a floor of 0.00%) plus a margin of up to 4.25%, depending on the company's leverage ratio. The first lien term loan matures in March 2024. Borrowings under the second lien term loan bear interest at LIBOR (subject to a floor of 1.00%) plus a margin of 8.50%. The second lien term loan matures in March 2025. Borrowings under the revolving credit facility bear interest at LIBOR (subject to a floor of 0.00%) plus a margin of up to 3.25%, depending on the company's leverage ratio. The revolving credit facility matures in March 2023.

At June 30, 2017, £575 million (\$747 million) was outstanding under the first lien term loan, £150 million (\$195 million) was outstanding under the second lien term loan and no amounts were outstanding under the revolving credit facility.

In March 2017, Parkdean Resorts entered into a £75 million (\$92 million) loan note with the Onex Partners IV Group. The loan note bears interest at 4.75% and matures in September 2017. At June 30, 2017, £75 million (\$97 million) of the loan note was outstanding.

Emerald Expositions (Business and Information Services segment)

In April 2017, Emerald Expositions repaid \$159 million under its term loan from the net proceeds from the sale of treasury shares in its initial public offering, as described on page 26 of this interim MD&A.

In May 2017, Emerald Expositions amended and restated its existing credit facility to increase the size of its revolving credit facility by \$50 million. In addition, the rate at which the company borrows under its new term loan and revolving credit facility was reduced to LIBOR plus a margin of up to 3.00%, depending on the company's leverage ratio. The maturity dates for the term loan and revolving credit facility were extended to May 2024 and May 2022, respectively. The amended and restated credit facility resulted in a current interest rate reduction of 75 basis points and 150 basis points on the company's term loan and revolving credit facility, respectively.

At June 30, 2017, \$565 million was outstanding under the term loan and no amounts were outstanding under the revolving credit facility.

Jack's (Food Retail and Restaurant segment)

In April 2017, Jack's amended its existing credit facility to increase the size of its term loan to \$275 million. In addition, the rate at which the company borrows under the term loan was reduced to LIBOR (subject to a floor of 1.00%) plus a margin of up to 4.25%, depending on the company's leverage ratio, and the maturity date was extended to April 2024. The rate at which the company borrows under the revolving credit facility was reduced to LIBOR plus a margin of up to 4.25%, depending on the company's leverage ratio, and the maturity date was extended to April 2022. The amendment resulted in a current interest rate reduction of 50 basis points on the company's term loan and revolving credit facility. The proceeds from the incremental borrowing, along with cash on hand, were used to fund a distribution of \$85 million to shareholders, as described on page 25 of this interim MD&A. At June 30, 2017, \$274 million was outstanding under the term loan.

EURO CLO-1 (Credit Strategies segment)

In May 2017, Onex closed EURO CLO-1, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured notes and subordinated notes, as described on page 27 of this interim MD&A. The secured notes were offered in an aggregate principal amount of €361 million (\$393 million) and are due in June 2030. The floating rate secured notes bear interest at a rate of EURIBOR plus a margin of 0.9% to 7.15%. The secured notes are payable beginning in December 2017. The secured notes and preference shares of EURO CLO-1 were designated at fair value through net earnings.

The secured notes are subject to redemption and prepayment provisions, including mandatory redemption, if certain coverage tests are not met by EURO CLO-1. Optional redemption of the secured notes is available beginning in June 2019. Optional refinancing of certain secured obligations is available subject to certain customary terms and conditions being met by EURO CLO-1.

The secured notes of EURO CLO-1 are secured by, and only have recourse to, the assets of EURO CLO-1.

OCLP-1 (Credit Strategies segment)

In June 2017, OCLP-1 entered into a \$138 million revolving credit facility. The revolving credit facility is available to finance capital and for other uses permitted by the OCLP-1 partnership agreement. Borrowings drawn on the revolving credit facility bear interest at LIBOR (subject to a floor of 0.00%) plus a margin of 1.65%. The revolving credit facility matures in June 2020, subject to an option to extend the maturity for up to 364 days upon satisfaction of certain conditions. The revolving credit facility is secured by, among other things, the right to make capital calls upon the committed capital of OCLP-1. Onex Corporation, the parent company, is only obligated to fund capital calls based on its proportionate share as a limited partner in OCLP-1.

At June 30, 2017, \$2 million was outstanding under the revolving credit facility.

CLO-3 (Credit Strategies segment)

In June 2017, Onex redeemed its third CLO denominated in U.S. dollars, CLO-3, as described on page 27 of this interim MD&A. Upon the redemption of CLO-3, all secured notes were repaid, including accrued interest, and the equity was settled for the residual proceeds in the CLO.

Table 12 details the aggregate debt maturities as at June 30, 2017 for Onex' operating businesses for each of the years up to 2021 and in total thereafter. As the table includes debt of investments in joint ventures and associates and excludes debt of the CLOs, the Onex Credit direct lending platform and any warehouse facilities, the total amount does not correspond to total reported consolidated debt. As the following table illustrates, significant maturities occur in 2019 and thereafter.

(a) Debt amounts are presented gross of financing charges and exclude amounts invested by Onex, the parent company, in debt of the operating businesses. Additionally, debt amounts exclude debt of the credit strategies segment, debt of Incline Aviation Fund and debt amounts of discontinued operations.

(b) Debt amounts of JELD-WEN have been presented in investments in joint ventures and associates due to the loss of control over the investment by the Company following the secondary offering completed in May 2017.

CLO-13 (Credit Strategies segment)

In July 2017, Onex closed CLO-13, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured and subordinated notes and preference shares, as described on page 27 of this interim MD&A. The secured notes were offered in an aggregate principal amount of \$552 million and are due in July 2030. The floating rate secured notes bear interest at a rate of LIBOR plus a margin of 1.26% to 6.63%. The secured notes are payable beginning in January 2018. The secured notes and preference shares of CLO-13 were designated at fair value through net earnings.

The secured notes are subject to redemption and prepayment provisions, including mandatory redemption, if certain coverage tests are not met by CLO-13. Optional redemption of the secured notes is available beginning in July 2019. Optional repricing of certain secured obligations is available subject to certain customary terms and conditions being met by CLO-13.

The secured notes of CLO-13 are secured by, and only have recourse to, the assets of CLO-13.

Limited Partners' Interests

Limited Partners' Interests liability represents the fair value of limited partners' invested capital in the Onex Partners and ONCAP Funds and credit strategies and is affected primarily by the change in the fair value of the underlying investments in the Onex Partners and ONCAP Funds and credit strategies, the impact of the carried interest, as well as any contributions by and distributions to limited partners in those funds.

Table 13 shows the change in Limited Partners' Interests from December 31, 2015 to June 30, 2017.

(b) At December 31, 2016, the current portion of the Limited Partners' Interests was \$89 million. The current portion consisted primarily of the limited partners' share of (i) the distribution received from Hopkins; (ii) the return of capital to the limited partners of ONCAP III related to the syndication of a portion of the investment in Tecta to the ONCAP IV Group; and (iii) the remaining proceeds from the sale of KraussMaffei to be distributed during 2017.

(c) At June 30, 2017, the current portion of the Limited Partners' Interests was \$40 million. The current portion consisted primarily of residual escrow balances from the sale of certain investments, as well as a distribution received from BBAM.

The Limited Partners' Interests charge is discussed in detail on page 40 of this interim MD&A.

Contributions by limited partners

The Limited Partners' Interests liability for the Onex Partners and ONCAP Funds increased by \$459 million for contributions made by the limited partners in the first half of 2017, which related primarily to the acquisition of Parkdean Resorts.

During the year ended December 31, 2016, the Limited Partners' Interests liability for the Onex Partners and ONCAP Funds increased by \$1.6 billion for contributions made during the period primarily for the acquisitions of Clarivate Analytics, Save-A-Lot, WireCo and Tecta.

Distributions to limited partners

The Limited Partners' Interests liability for the Onex Partners and ONCAP Funds was reduced by \$1.8 billion of distributions in the first half of 2017 primarily from the net proceeds from the sale of USI, the sale of shares in JELD-WEN's public offerings and the sale of shares in Emerald Expositions' initial public offering.

During the year ended December 31, 2016, the Limited Partners' Interests liability for the Onex Partners and ONCAP Funds was reduced by distributions of \$1.0 billion primarily from the proceeds from the sale of KraussMaffei, repayments by Jack's on its promissory note and distributions from JELD-WEN, AIT and BBAM.

Dividend policy

In May 2017, Onex announced that it had increased its quarterly dividend by 9% to C\$0.075 per SVS beginning with the dividend declared by the Board of Directors payable in July 2017.

Table 15 presents Onex' dividend paid per share for the last twelve months ended June 30 during the past five years. The table reflects the increase in the dividend per share over this time.

Shares outstanding

At June 30, 2017, Onex had 100,000 Multiple Voting Shares outstanding, which have a nominal paid-in value reflected in Onex' unaudited interim consolidated financial statements. Onex also had 101,973,393 SVS issued and outstanding. Note 8 to the unaudited interim consolidated financial statements provides additional information on Onex' share capital. There was no change in the Multiple Voting Shares outstanding during the first six months of 2017.

Table 16 shows the change in the number of SVS outstanding from December 31, 2016 to July 31, 2017.

Shares repurchased and cancelled

The private transaction represents the repurchase of SVS that were held indirectly by Mr. Gerald W. Schwartz, Onex' controlling shareholder, as described on page 57 of this interim MD&A.

The Bids enable Onex to repurchase up to 10% of its public float of SVS during the period of the relevant Bid. Onex believes that it is advantageous for Onex and its shareholders to continue to repurchase Onex' SVS from time to time when the SVS are trading at prices that reflect a significant discount to their value as perceived by Onex.

On April 18, 2017, Onex renewed its NCIB following the expiry of its previous NCIB on April 17, 2017. Under the new NCIB, Onex is permitted to purchase up to 10% of its public float of SVS, or 8,391,231 SVS. Onex may purchase up to 26,619 SVS during any trading day, being 25% of its average daily trading volume for the six months ended March 31, 2017. Onex may also purchase SVS from time to time under the Toronto Stock Exchange's block purchase exemption, if available, or by way of private agreement pursuant to an issuer bid exemption order, if sought and received, under the new NCIB. The new NCIB commenced on April 18, 2017 and will conclude on the earlier of the date on which purchases under the NCIB have been completed and April 17, 2018. A copy of the Notice of Intention to make the NCIB filed with the Toronto Stock Exchange is available at no charge to shareholders by contacting Onex.

Under the previous NCIB that expired on April 17, 2017, Onex repurchased 1,244,535 SVS at a total cost of \$75 million (C\$98 million) or an average purchase price of \$60.53 (C\$78.69) per share. In addition, during the same period, Onex repurchased 750,000 SVS in a private transaction at a total cost of \$53 million (C\$71 million) or an average purchase price of \$71.24 (C\$94.98) per share.

Issuance of shares – Dividend Reinvestment Plan

Onex' Dividend Reinvestment Plan enables Canadian shareholders to reinvest cash dividends to acquire new SVS of Onex at a market-related price at the time of reinvestment. During the period from January 1, 2017 to July 31, 2017, Onex issued 5,643 SVS at an average cost of C\$95.64 per SVS, creating a cash savings of less than \$1 million (C\$1 million).

Investments in operating companies by shareholders other than Onex

Onex recorded an increase in equity of \$750 million during the six months ended June 30, 2017 primarily due to the investment by public shareholders in Emerald Expositions and JELD-WEN on the issuance of new common shares in the initial public offerings of the companies.

Sale of interests in operating company under continuing control

Onex reported an increase in equity of \$259 million during the first half of 2017 due to the sale of shares by the Onex Partners III Group in the initial public offerings of JELD-WEN and Emerald Expositions, as described on pages 24 and 26 of this interim MD&A.

Non-controlling interests derecognized on sale of investments in operating companies

Onex recorded a decrease in equity of \$213 million during the six months ended June 30, 2017 related to non-controlling interests in JELD-WEN and USI. Under IFRS, non-controlling interests represent the ownership interests of shareholders, other than Onex and its third-party limited partners in the Onex Partners and ONCAP Funds, in Onex' controlled operating companies.

Prior to the May 2017 sale of shares in JELD-WEN, the non-controlling interests balance included the ownership interests of JELD-WEN's public shareholders. In May 2017, the Onex Partners III Group sold shares of JELD-WEN in a secondary public offering, which resulted in a loss of control of the investment. The non-controlling interests attributable to JELD-WEN have been derecognized from equity since the operations of JELD-WEN are no longer consolidated.

Prior to the sale of USI in May 2017, the non-controlling interests balance included the ownership interests of management and employees of USI not recognized as financial liabilities. As a result of the sale, the non-controlling interests attributable to USI have been derecognized from equity.

Stock Option Plan

At June 30, 2017, Onex had 12,398,276 options outstanding to acquire SVS, of which 6,186,241 options were vested and exercisable. During the second quarter of 2017, 156,524 options were surrendered at a weighted average exercise price of C\$32.23 for aggregate cash consideration of \$8 million (C\$11 million) and 77,600 options expired. During the first six months of 2017, 430,407 options were surrendered at a weighted average exercise price of C\$30.28 for aggregate cash consideration of \$21 million (C\$28 million) and 114,500 options expired.

Director Deferred Share Unit Plan

During the second quarter of 2017, an annual grant of 27,720 DSUs was issued to directors having an aggregate value, at the date of grant, of \$2 million (C\$3 million) in lieu of that amount of cash compensation for directors' fees. At June 30, 2017, there were 698,596 Director DSUs outstanding. Onex has economically hedged 581,491 of the outstanding Director DSUs with a counterparty financial institution.

Management Deferred Share Unit Plan

In early 2017, Onex issued 28,670 Management DSUs ("MDSUs") to management having an aggregate value, at the date of grant, of \$2 million (C\$3 million) in lieu of that amount of cash compensation for Onex' 2016 fiscal year. At June 30, 2017, there were 664,913 (December 31, 2016 – 635,326) MDSUs outstanding.

Forward agreements were entered into with a counterparty financial institution to economically hedge Onex' exposure to changes in the value of all outstanding MDSUs.

Management of capital

Onex considers the capital it manages to be the amounts it has invested in cash and cash equivalents, near-cash investments, short- and long-term investments managed by third-party investment managers, and the investments made in the operating businesses, credit strategies and other investments. Onex also manages capital from other investors in the Onex Partners and ONCAP Funds and credit strategies. Onex' objectives in managing capital have not changed since December 31, 2016.

At June 30, 2017, Onex, the parent company, had \$740 million of cash and cash equivalents on hand and \$1.3 billion of near-cash items at fair value. Near-cash items include short- and long-term investments managed

by third-party investment managers, as described below, \$179 million invested in a segregated unlevered fund managed by Onex Credit and \$93 million in management fees receivable from limited partners of its private equity platforms. During the first quarter of 2017, Onex, the parent company, redeemed \$200 million from the Onex Credit segregated unlevered fund for cash management purposes.

Onex, the parent company, has a conservative cash management policy driven towards maintaining liquidity and preserving principal in all its short-term investments.

At June 30, 2017, the fair value of investments, including cash yet to be deployed, managed by third-party investment managers was \$987 million. The investments are managed in a mix of short-term and long-term portfolios. Short-term investments consist of liquid investments and include money market instruments and commercial paper with original maturities of three months to one year. Long-term investments consist of securities and include money market instruments, federal and municipal debt instruments, corporate obligations and structured products with maturities of one to five years. The short- and long-term investments have current Standard & Poor's ratings ranging from BBB to AAA. The portfolio concentration limits range from a maximum of 10% for BBB investments to 100% for AAA investments. The investments are managed to maintain an overall weighted average duration of two years or less.

At June 30, 2017, Onex had access to \$2.2 billion of uncalled committed limited partner capital for investments through Onex Partners IV (\$1.3 billion), ONCAP IV (\$688 million) and OCLP-1 (\$190 million).

Non-controlling interests

Non-controlling interests in equity in Onex' unaudited interim consolidated balance sheets as at June 30, 2017 primarily represent the ownership interests of shareholders, other than Onex and its limited partners in the funds, in Onex' controlled operating companies. The non-controlling interests balance at June 30, 2017 of \$2.0 billion increased from \$1.8 billion at December 31, 2016. The increase was primarily due to the rollover equity investment in Parkdean Resorts by the company's management team and the sale and issuance of treasury shares in Emerald Expositions on its initial public offering, partially offset by the derecognition of non-controlling interest from the loss of control over JELD-WEN.

LIQUIDITY AND CAPITAL RESOURCES

Major cash flow components

This section should be read in conjunction with the unaudited interim consolidated statements of cash flows and the corresponding notes thereto. Table 17 summarizes the major consolidated cash flow components for the six months ended June 30, 2017 and 2016.

Increase in other operating activities	27	29
Cash from operating activities of discontinued operations	10	149
Cash from operating activities	\$ 610	\$ 569

Cash generated from operations includes the net loss from continuing operations before interest and income taxes, adjusted for cash taxes paid and items not affecting cash and cash equivalents. The significant changes in non-cash working capital items for the six months ended June 30, 2017 were:

- a \$144 million decrease in accounts receivable primarily at Carestream Health, Celestica, Clarivate Analytics and SIG, partially offset by an increase in accounts receivable at WireCo; and
- a \$173 million decrease in accounts payable, accrued liabilities and other current liabilities primarily at Carestream Health, Celestica, Flushing Town Center, Parkdean Resorts and SIG.

Cash from operating activities for the six months ended June 30, 2017 also included \$10 million (2016 – \$149 million) of cash flows from the operating activities of discontinued operations. Discontinued operations for the six months ended June 30, 2017 represent the operations of JELD-WEN and USI. Discontinued operations for the six months ended June 30, 2016 represent the operations of JELD-WEN, KraussMaffei and USI.

Cash used in financing activities

Cash used in financing activities totalled \$1.7 billion for the first six months of 2017 compared to \$780 million for the same period in 2016. Cash used in financing activities for the six months ended June 30, 2017 included:

- \$1.8 billion of distributions primarily to the limited partners of the Onex Partners and ONCAP Funds, as discussed under the Limited Partners' Interests on page 48 of this interim MD&A;
- \$504 million of cash interest paid; and
- \$187 million of net repayments of long-term debt primarily due to the term loan repayments by Emerald Expositions and Flushing Town Center, partially offset by the issuance of debt primarily due to the warehouse facility of CLO-13 and the closing of EURO CLO-1.

Partially offsetting these were:

- \$459 million of contributions received from the limited partners of the Onex Partners and ONCAP Funds, as discussed under the Limited Partners' Interests on page 48 of this interim MD&A;
- \$259 million of proceeds from the Onex Partners III Group's sale of a portion of its shares in Emerald Expositions and JELD-WEN's initial public offering;
- \$196 million from the issuance of share capital primarily due to Emerald Expositions' issuance of new shares in its initial public offering, as discussed on page 26 of this interim MD&A; and
- \$26 million from financing activities of discontinued operations.

For the six months ended June 30, 2016, cash used in financing activities of \$780 million included:

- \$693 million of distributions primarily to the limited partners of the Onex Partners and ONCAP Funds;
- \$356 million of cash interest paid;
- \$149 million of cash used by Onex, the parent company, for purchases of its shares; and
- \$100 million used in financing activities of discontinued operations.

Partially offsetting these was:

- \$543 million of net new long-term debt primarily from the closing of CLO-11 and increases in outstanding debt at Flushing Town Center and Schumacher. This was partially offset by debt repayments made by Carestream Health, Emerald Expositions, Jack's and ResCare.

Cash from (used in) investing activities

Cash from investing activities totalled \$1.3 billion for the six months ended June 30, 2017 compared to cash used in investing activities of \$202 million during the same period in 2016. Cash from investing activities during the six months ended June 30, 2017 primarily consisted of:

- \$2.4 billion from the sale of companies and businesses no longer controlled representing the sale of USI and the sale of common stock of JELD-WEN in its secondary offering; and
- \$181 million of cash interest received primarily by the CLOs.

Partially offsetting these were:

- \$621 million used to fund acquisitions primarily related to the Onex Partners IV Group's investment in Parkdean Resorts;
- \$311 million used for the purchase of property, plant and equipment primarily at Carestream Health, Celestica, Pinnacle Renewable Energy Group, Save-A-Lot, SIG and Survitec;
- \$148 million of net purchases of investments and securities primarily by Onex, the parent company, from third-party investment managers; and
- \$240 million used in investing activities of discontinued operations.

Cash used in investing activities totalled \$202 million for the six months ended June 30, 2016 and consisted primarily of:

- \$624 million of net purchases of investments and securities by the credit strategies;
- \$207 million used for the purchase of property, plant and equipment;
- \$144 million used for acquisitions by the operating companies primarily due to Schumacher's acquisition of ECI; and
- \$193 million of cash used in investing activities of discontinued operations.

Partially offsetting these were:

- \$815 million from the sale of companies and businesses no longer controlled primarily from the sale of KraussMaffei; and
- \$154 million of cash interest received primarily by the CLOs.

Consolidated cash resources

At June 30, 2017, consolidated cash held by continuing operations increased to \$2.7 billion from \$2.4 billion at December 31, 2016. The major component at June 30, 2017 was \$740 million of cash on hand at Onex, the parent company (December 31, 2016 – \$679 million). In addition to cash at the parent company, Onex had \$1.3 billion of near-cash items at June 30, 2017 (December 31, 2016 – \$907 million). Near-cash items at June 30, 2017 include short- and long-term investments managed by third-party investment managers, as described on page 51 of this interim MD&A, \$179 million (December 31, 2016 – \$376 million) invested in a segregated unlevered fund managed by Onex Credit and \$93 million (December 31, 2016 – \$48 million) in management fees receivable from limited partners of its private equity platforms. During the first quarter of 2017, Onex redeemed \$200 million from the Onex Credit segregated unlevered fund for cash management purposes.

ADDITIONAL USES OF CASH

Onex' commitment to the Funds

Onex, the parent company, is the largest limited partner in each of the Onex Partners and ONCAP Funds. Table 20 presents the commitment and the uncalled committed capital of Onex, the parent company, in these funds at June 30, 2017.

Commitment and Uncalled Committed Capital of Onex, the Parent Company, at June 30, 2017

(b) Uncalled committed capital for Onex Partners I and II and ONCAP II is available only for possible future funding of partnership expenses.

(c) Represents Onex' committed capital to Onex Partners V from the first closing in July 2017.

(d) Onex' commitment has been reduced for the annual commitment for Onex management's participation.

ADDITIONAL SOURCES OF CASH

Private equity funds

Onex' private equity funds provide capital for Onex-sponsored acquisitions that are not related to Onex' operating companies that existed prior to the formation of the funds. The funds provide a substantial pool of committed capital, which enables Onex to be flexible and timely in responding to investment opportunities.

Table 21 provides a summary of the remaining commitments available from limited partners at June 30, 2017. The remaining commitments for Onex Partners IV, Onex Partners V and ONCAP IV will be used for future Onex-sponsored acquisitions. The remaining commitments from limited partners of Onex Partners I and II are for future funding of partnership expenses. The remaining commitments from limited partners of ONCAP II are for possible future funding of management fees and partnership expenses. The remaining commitments from limited partners of Onex Partners III and ONCAP III are for possible future funding of remaining businesses and future funding of management fees and partnership expenses.

(a) Includes committed amounts from the management of Onex and ONCAP and directors, calculated based on the assumption that all of the remaining limited partners' commitments are invested.

(b) Represents committed capital for Onex Partners V from the first closing in July 2017, including Onex management's minimum 2% commitment.

The committed amounts from the limited partners are not included in Onex' consolidated cash and cash equivalents and are funded as capital is called.

Carried interest participation

The General Partners of the Onex Partners and ONCAP Funds, which are controlled by Onex, are entitled to carried interest, as described on page 39 of this interim MD&A.

Table 22 shows the amount of net carried interest received by Onex, the parent company, by year since 2012 and up to June 30, 2017.

During the first six months of 2017, Onex, the parent company, received carried interest totalling \$94 million from the sale of USI and partial sales of Emerald Expositions and JELD-WEN. Onex has the potential to receive \$155 million of carried interest on its businesses in the Onex Partners Funds based on their fair values as determined at June 30, 2017.

During the year ended December 31, 2016, Onex, the parent company, received carried interest of \$14 million primarily related to the sale of KraussMaffei.

During the six months ended June 30, 2017, management of Onex and ONCAP received carried interest totalling \$144 million, which was comprised of amounts received on the following transactions: (i) \$98 million from the sale of USI; (ii) \$38 million from the sale of shares of JELD-WEN in the company's initial and secondary public offerings; (iii) \$4 million from the sale of shares of Emerald Expositions in the company's initial public offering; and (iv) \$4 million in connection with the distribution received from Hopkins. Management of Onex and ONCAP have the potential to receive \$305 million of carried interest on businesses in the Onex Partners and ONCAP Funds based on their values as determined at June 30, 2017.

During the year ended December 31, 2016, management of Onex and ONCAP received carried interest totalling \$24 million primarily related to the sale of KraussMaffei.

Management fees

Onex receives management fees on limited partner capital through its private equity platforms, Onex Partners and ONCAP Funds, from Onex Credit Funds, CLOs, the Onex Credit direct lending platform and directly from certain of its operating businesses. As Onex consolidates the Onex Partners and ONCAP Funds, CLOs, the Onex Credit direct lending platform and certain Onex Credit Funds, the management fees received in respect of limited partner capital represent related party transactions.

During the initial fee period of the Onex Partners and ONCAP Funds, Onex receives a management fee based on limited partners' committed capital to each fund. At June 30, 2017, the management fees of Onex Partners IV and ONCAP IV are determined based on limited partners' committed capital.

Following the termination of the initial fee period, Onex becomes entitled to a management fee based on limited partners' net funded commitments. At June 30, 2017, the management fees of Onex Partners III and ONCAP II and III are determined based on their limited partners' net funded commitments. As realizations occur in these funds, the management fees calculated based on limited partners' net funded commitments will decline.

Onex has elected to defer cash receipt of management fees from limited partners of its private equity funds until the later stages of each fund's life. At June 30, 2017, \$93 million (December 31, 2016 – \$48 million) of management fees were receivable from the limited partners of the private equity funds.

Onex Credit earns management fees on \$6.7 billion of fund investor capital as of June 30, 2017, which is invested in a variety of investment strategies focused on event-driven, long/short, long-only, par, stressed and distressed opportunities as well as its CLOs. The management fees range from 0.50% to 2.00% on the capital invested in Onex Credit Funds, up to 0.50% on the capital invested in its CLOs.

Incentive fees

Onex Credit is entitled to incentive fees on \$6.6 billion of fund investor capital it manages as of June 30, 2017, where applicable. Incentive fees range between 5% and 20%. Certain incentive fees (including incentive fees on CLOs and the Onex Credit direct lending platform) are subject to a hurdle or minimum preferred return to investors.

RELATED PARTY TRANSACTIONS

Tax loss transaction

In March 2017, Onex entered into the sale of an entity, whose sole assets were certain tax losses, to a company controlled by Mr. Gerald W. Schwartz, who is Onex' controlling shareholder. As a result of this transaction, Onex recorded a gain of \$5 million in other expenses (income) in the first quarter of 2017. Note 14 to the unaudited interim consolidated financial statements provides further details on the transaction. In connection with this transaction, an independent accounting firm retained by Onex' Audit and Corporate Governance committee provided an opinion that the value received by Onex for the tax losses was fair from a financial point of view. The transaction was unanimously approved by Onex' Audit and Corporate Governance Committee, all the members of which are independent directors.

Incline Aviation Fund

In February 2017, Mr. Gerald W. Schwartz assumed \$25 million of Onex' commitment to Incline Aviation Fund, reducing the amount committed by Onex to \$50 million. At June 30, 2017, Onex' uncalled commitment to Incline Aviation Fund was \$43 million.

In addition to Mr. Schwartz's commitment, as of June 30, 2017, management of Onex had committed approximately \$16 million to Incline Aviation Fund.

Repurchase of shares

In March 2017, Onex repurchased in a private transaction 750,000 of its SVS that were held indirectly by Mr. Gerald W. Schwartz. The private transaction was approved by the disinterested directors of the Board of Directors of the Company. The shares were repurchased at C\$94.98 per SVS, or a total cost of \$53 million (C\$71 million), which represents a slight discount to the trading price of Onex shares at that date.

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Chief Executive Officer and the Chief Financial Officer have designed, or caused to be designed under their supervision, internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. The Chief Executive Officer and the Chief Financial Officer have also designed, or caused to be designed under their supervision, disclosure controls and procedures to provide reasonable assurance that information required to be disclosed by the Company in its corporate filings has been recorded, processed, summarized and reported within the time periods specified in securities legislation.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that its objectives are met. Due to inherent limitations in all such systems, no evaluations of controls can provide absolute assurance that all control issues, if any, within a company have been detected. Accordingly, our internal controls over financial reporting and disclosure controls and procedures are effective in providing reasonable, not absolute, assurance that the objectives of our control systems have been met.

Limitation on scope of design

Management has limited the scope of the design of internal controls over financial reporting and disclosure controls and procedures to exclude the controls, policies and procedures of Clarivate Analytics (acquired in October 2016) and Save-A-Lot (acquired in December 2016), the operating results of which are included in the June 30, 2017 unaudited interim consolidated financial statements of Onex. The scope limitation is in accordance with Section 3.3 of National Instrument 52-109, *Certification of Disclosure in Issuer's Annual and Interim Filings*, which allows an issuer to limit its design of internal controls over financial reporting and disclosure controls and procedures to exclude the controls, policies and procedures of a company acquired not more than 365 days before the end of the financial period to which the certificate relates.

Table 23 shows a summary of the financial information for Clarivate Analytics and Save-A-Lot, which is included in the June 30, 2017 unaudited interim consolidated financial statements of Onex.

GLOSSARY

The following is a list of commonly used terms in Onex' interim MD&A and unaudited interim consolidated financial statements and their corresponding definitions.

Adjusted EBITDA is a non-GAAP measure and is based on the local accounting standards of the individual operating companies. The metric is based on earnings before interest, taxes, depreciation and amortization as well as other adjustments. Other adjustments can include non-cash costs of stock-based compensation and retention plans, transition and restructuring expenses including severance payments, the impact of derivative instruments that no longer qualify for hedge accounting, the impacts of purchase accounting and other similar amounts.

Assets under management is the sum of the fair value of invested assets and uncalled committed capital that Onex manages on behalf of fund investors, including Onex' own capital.

Carried interest is an allocation of part of a fund investor's profits to Onex and its management team after realizing a preferred return.

CLO warehouse is a leveraged portfolio of credit investments that Onex establishes in anticipation of raising a new CLO. The leverage is typically provided by a financial institution that serves as the placement agent for the relevant CLO. The leverage provided by a financial institution may be in the form of a total return swap that transfers the credit and market risk of specified securities. Onex provides capital to support the CLO warehouse.

Co-investment is a direct investment made by limited partners alongside the fund.

Collateralized Loan Obligation ("CLO") is a structured investment fund that invests in non-investment grade debt. Interests in these funds are sold in rated tranches that have rights to the CLO's collateral and payment streams in descending order of priority. The yield to investors in each tranche decreases as the level of priority increases.

Committed capital is the amount contractually committed by limited partners that a fund may call for investments or to pay management fees and other expenses.

Deferred Share Units ("DSUs") are synthetic investments made by Directors and senior management of Onex, where the gain or loss mirrors the performance of the SVS. DSUs may be issued to Directors in lieu of director fees and to senior management in lieu of a portion of their annual short-term incentive compensation.

Discontinued operation is a component of Onex that has either been disposed of or is currently classified as held for sale, and represents either a major line of business or geographical area of operations, a single coordinated plan to dispose of a separate line of business or geographical area of operations, or a subsidiary acquired exclusively with a view to near-term resale.

Economic ownership is the percentage by which Onex economically participates in an operating company investment.

Fee-generating capital is the assets under management on which the Company receives management fees and/or carried interest or incentive fees.

Fund investor capital is the invested and committed uncalled capital of third-party investors.

General partner is a partner that determines most of the actions of a partnership and can legally bind the partnership. The general partners of Onex-sponsored funds are Onex-controlled subsidiaries.

Gross internal rate of return ("Gross IRR") is the annualized percentage return achieved on an investment or fund, taking time into consideration. This measure does not reflect a limited partner's return since it is calculated without deducting carried interest, management fees, taxes and expenses.

Gross multiple of capital ("Gross MOC") is an investment's or fund's total value divided by the capital that has been invested. This measure does not reflect a limited partner's multiple of capital since it is calculated without deducting carried interest, management fees, taxes and expenses.

Hurdle or **preferred return** is the minimum return required from an investment or fund before payments under the MIP, carried interest or incentive fees.

Incentive fees are performance fees generated on fund investors' capital managed by Onex Credit. Certain incentive fees are subject to a hurdle or preferred return to investors in accordance with the terms of the relevant agreements.

International Financial Reporting Standards ("IFRS") is a set of standards adopted by Onex to determine accounting policies for the consolidated financial statements that were formulated by the International Accounting Standards Board, and allows for comparability and consistency across businesses. As a publicly listed entity in Canada, Onex is required to report under IFRS.

Joint ventures are a type of business arrangement in which two or more parties agree to share control over key decisions in order to reach a common objective, typically profit generation or cost reduction. Joint ventures held by Onex through its private equity funds are recorded at fair value.

Leveraged loans refer to the non-investment grade senior secured debt of relatively highly leveraged borrowers. A leveraged loan is typically issued by a company in connection with it being acquired by a private equity or corporate investor.

Limited partner is an investor whose liability is generally limited to the extent of their share of the partnership.

Limited Partners' Interests charge primarily represents the change in the fair value of the underlying investments in the Onex Partners, ONCAP and credit strategies funds, net of carried interest, which is allocated to the limited partners and recorded as Limited Partners' Interests liability.

Limited Partners' Interests liability represents the fair value of limited partners' invested capital in the Onex Partners, ONCAP and credit strategies funds and is affected primarily by the change in the fair value of the underlying investments in those funds, the impact of the carried interest, as well as any contributions by and distributions to the limited partners in those funds.

LTM adjusted EBITDA is adjusted EBITDA of a business over the last twelve months.

Management investment plan ("MIP") is a plan that requires members of Onex' management to invest in each of the operating businesses acquired or invested in by Onex. Management's required cash investment is 1.5% of Onex' interest in each acquisition or investment. Management is allocated 7.5% of Onex' realized gain from an operating business investment, subject to Onex realizing the full return of its investment plus a net 15% internal rate of return on the investment. The plan also has vesting requirements, certain limitations and voting requirements.

Multiple Voting Shares of Onex are the controlling class of shares which entitle Mr. Gerald W. Schwartz to elect 60% of Onex' Directors and to 60% of the total shareholder vote on most matters. The shares have no entitlement to distribution on wind-up or dissolution above their nominal paid-in value and do not participate in dividends or earnings.

Near-cash are investment holdings in readily marketable investments that can be converted to cash in an orderly market. In addition, near-cash includes management fees receivable from the limited partners of Onex' private equity funds.

Net internal rate of return ("Net IRR") is the annualized percentage return earned by the limited partners of a fund, after the deduction of carried interest, management fees, taxes and expenses, taking time into consideration.

Net multiple of capital ("Net MOC") is the investment distributions and unrealized value, net of carried interest and taxes, to limited partners subject to carried interest and management fees in the funds, divided by the limited partners' total contributions for investments, fees and expenses.

Non-controlling interests represent the ownership interests in Onex' controlled operating companies by shareholders other than Onex and the limited partners in the Onex Partners and ONCAP Funds.

Normal Course Issuer Bid(s) ("NCIB" or the "Bids") is an annual program(s) approved by the Board of Directors that enables Onex to repurchase SVS for cancellation.

ONEX is the share symbol for Onex Corporation on the Toronto Stock Exchange.

Onex capital is the aggregate fair value of Onex Corporation's investments, cash and near-cash assets, less debt (which is nil). The fair value of Onex Corporation's investments includes the unrealized carried interest less the MIP liability based on the current fair values of the investments.

Onex capital per share is Onex capital divided by the number of fully diluted shares.

Onex Credit Funds are the funds managed by Onex Credit, which include two closed-end funds listed on the Toronto Stock Exchange (TSX: OCS-UN and OSL-UN). Onex controls and consolidates certain funds managed by Onex Credit in which Onex, the parent company, holds an investment.

Onex Credit direct lending platform provides credit to middle-market, upper middle-market and larger private equity and corporate borrowers predominantly in the United States and, selectively, in Canada and Europe. The strategy invests the majority of its capital in senior secured loans of companies primarily in less cyclical and less capital-intensive industries, with a focus on capital preservation. The credit lending platform employs a buy-and-hold approach to investing, with a goal of owning a diversified pool of investments.

Private equity platform refers to our investing and asset management activities carried on through the Onex Partners and ONCAP Funds.

Subordinate Voting Shares ("SVS") are the non-controlling share capital of Onex. SVS shareholders are entitled to elect 40% of Onex' Directors and to 40% of the total shareholder vote on most matters. These shares are the only class of stock that economically participates in Onex Corporation. The SVS trade on the Toronto Stock Exchange.

(a) Dividends declared per Subordinate Voting Share were C\$0.14375 for the six months ended June 30, 2017 (2016 – C\$0.13125). In 2017, shares issued under the dividend reinvestment plan amounted to less than \$1 (2016 – less than \$1). There are no tax effects for Onex on the declaration or payment of dividends.

(b) Accumulated Other Comprehensive Earnings (Loss) as at December 31, 2015 consisted of currency translation adjustments of negative \$466, unrealized losses on the effective portion of cash flow hedges of \$35 and unrealized gains on available-for-sale financial assets of \$2. Accumulated Other Comprehensive Earnings (Loss) as at December 31, 2015 included \$175 of net losses related to discontinued operations. Income taxes did not have a significant effect on these items.

(c) Repurchase of shares of operating companies during the first six months of 2016 consisted primarily of shares repurchased by Celestica.

(d) Accumulated Other Comprehensive Earnings (Loss) as at June 30, 2016 consisted of currency translation adjustments of negative \$357, unrealized losses on the effective portion of cash flow hedges of \$45 and unrealized gains on available-for-sale financial assets of \$1. Accumulated Other Comprehensive Earnings (Loss) as at June 30, 2016 included \$121 of net losses related to discontinued operations. Income taxes did not have a significant effect on these items.

(e) Accumulated Other Comprehensive Earnings (Loss) as at December 31, 2016 consisted of currency translation adjustments of negative \$473, unrealized losses on the effective portion of cash flow hedges of \$38 and unrealized gains on available-for-sale financial assets of \$2. Accumulated Other Comprehensive Earnings (Loss) as at December 31, 2016 included \$153 of net losses related to discontinued operations. Income taxes did not have a significant effect on these items.

(f) Investments in operating companies by shareholders other than Onex included the issuance of new shares by JELD-WEN and Emerald Expositions in their initial public offerings and a transfer of the historical accounting carrying values associated with those ownership interests.

(g) Sale of interests in operating companies under continuing control represents the proceeds received in excess of the historical accounting carrying value of the investments sold in the initial public offerings of JELD-WEN and Emerald Expositions, as described in notes 2(a) and 2(e), respectively.

(h) Accumulated Other Comprehensive Earnings (Loss) as at June 30, 2017 consisted of currency translation adjustments of negative \$192, unrealized losses on the effective portion of cash flow hedges of \$32 and unrealized gains on available-for-sale financial assets of \$2. Income taxes did not have a significant effect on these items.

These unaudited interim consolidated financial statements should be read in conjunction with the 2016 audited annual consolidated financial statements.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) (in millions of U.S. dollars except per share data)

Onex Corporation and its subsidiaries (collectively, the “Company”) is a diversified company with operations in a range of industries including electronics manufacturing services, healthcare imaging, health and human services, insurance services, packaging products and services, business and information services, food retail and restaurants, aerospace automation, tooling and components, aircraft leasing and management, building products, holiday parks, hospital management services, survival equipment and industrial products, and in various middle-market private equity opportunities. Additionally, the Company has investments in credit strategies and real estate. Throughout these statements, the term “Onex” refers to Onex Corporation, the ultimate parent company.

Onex Corporation is a Canadian corporation domiciled in Canada and is listed on the Toronto Stock Exchange under the symbol ONEX. Onex Corporation’s shares are traded in Canadian dollars. The registered address for Onex Corporation is 161 Bay Street, Toronto, Ontario. Mr. Gerald W. Schwartz controls Onex Corporation by indirectly holding all of the outstanding Multiple Voting Shares of the corporation and also indirectly holds 12% of the outstanding Subordinate Voting Shares of the corporation as at June 30, 2017.

All amounts are in millions of U.S. dollars unless otherwise noted.

The unaudited interim consolidated financial statements were authorized for issue by the Audit and Corporate Governance Committee on August 9, 2017.

1. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

STATEMENT OF COMPLIANCE

The unaudited interim consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*, using accounting policies consistent with International Financial Reporting Standards (“IFRS”) and its interpretations adopted by the International Accounting Standards Board (“IASB”). Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed. These unaudited interim consolidated financial statements were prepared on a going concern basis, under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, and financial assets and financial liabilities (including derivative instruments) at fair value through total comprehensive earnings.

The U.S. dollar is Onex’ functional currency. As such, the financial statements have been reported on a U.S. dollar basis.

CONSOLIDATION

The unaudited interim consolidated financial statements represent the accounts of Onex and its subsidiaries, including its controlled operating companies. Onex also controls and consolidates the operations of Onex Partners LP (“Onex Partners I”), Onex Partners II LP (“Onex Partners II”), Onex Partners III LP (“Onex Partners III”) and Onex Partners IV LP (“Onex Partners IV”), referred to collectively as “Onex Partners”, and ONCAP II L.P., ONCAP III LP and ONCAP IV LP,

referred to collectively as “ONCAP” (as described in note 31 to the 2016 audited annual consolidated financial statements). In addition, Onex controls and consolidates the operations of the Onex Credit asset management platform, certain funds managed by Onex Credit (“Onex Credit Funds”) in which Onex, the parent company, holds investments, collateralized loan obligations (“CLOs”) of Onex Credit and the Onex Credit direct lending platform, referred to collectively as “Onex Credit” or “credit strategies”.

The results of operations of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All significant intercompany balances and transactions have been eliminated.

Certain investments in operating companies over which the Company has joint control or significant influence, but not control, are designated, upon initial recognition, at fair value through earnings. As a result, these investments are recorded at fair value in the unaudited interim consolidated balance sheets, with changes in fair value recognized in the unaudited interim consolidated statements of earnings.

References to the Onex management team include the management of Onex, ONCAP and Onex Credit. References to management without the use of team include only the relevant group. References to the Onex Partners Groups represent Onex, the limited partners of the relevant Onex Partners Fund, the Onex management team and, where applicable, certain other limited partners as investors. References to the ONCAP Groups represent Onex, the limited partners of the relevant ONCAP Fund, the Onex management team and, where applicable, certain other limited partners as investors.

(a) Onex exerts joint control or significant influence over these investments, which are designated at fair value through earnings, through its right to appoint members to the boards of directors of these entities. Onex has significant influence over JELD-WEN following the loss of control in the second quarter of 2017.

(b) Emerald Expositions completed an initial public offering in April 2017, as described in note 2(e).

(c) The economic ownership and voting interests of JELD-WEN at December 31, 2016 are presented on an as-converted basis as the Company's investment was in common and convertible preferred shares. In January 2017, JELD-WEN completed an initial public offering in which all convertible preferred shares were converted to common stock, as described in note 2(a). The allocation of net earnings (loss) and comprehensive earnings (loss) attributable to equity holders of Onex Corporation and non-controlling interests at December 31, 2016 was calculated using an as-converted economic ownership of 88% to reflect certain JELD-WEN shares that were recorded as liabilities at fair value prior to the secondary offering. JELD-WEN completed a secondary offering in May 2017, as described in note 2(a), and is recorded as a discontinued operation.

(d) The allocation of net earnings (loss) and comprehensive earnings (loss) attributable to equity holders of Onex Corporation and non-controlling interests at December 31, 2016 was calculated using an economic ownership of 99% to reflect certain USI shares that were previously recorded as liabilities at fair value. USI was sold in May 2017 and is recorded as a discontinued operation, as described in note 2(f).

(e) Parkdean Resorts was acquired in March 2017, as described in note 2(b).

(f) Represents Onex' blended economic ownership in the ONCAP II investments.

The ownership percentages are before the effect of any potential dilution relating to the Management Investment Plan (the "MIP"), as described in note 31(d) to the 2016 audited annual consolidated financial statements. The allocation of net earnings and comprehensive earnings attributable to equity holders of Onex Corporation and non-controlling interests is calculated using the economic ownership of Onex and the limited partners.

The voting interests include shares that Onex has the right to vote through contractual arrangements or through multiple voting rights attached to particular shares. In certain circumstances, the voting arrangements give Onex the right to elect the majority of the boards of directors of the companies. Onex may also control a company through contractual rights.

SIGNIFICANT ACCOUNTING POLICIES

The disclosures contained in these unaudited interim consolidated financial statements do not include all the requirements of IFRS for annual financial statements. The unaudited interim consolidated financial statements should be read in conjunction with the audited annual consolidated financial statements for the year ended December 31, 2016.

The unaudited interim consolidated financial statements are based on accounting policies, as described in note 1 to the 2016 audited annual consolidated financial statements.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Standards, amendments and interpretations not yet adopted or effective

IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, *Revenue from Contracts with Customers*, which provides a comprehensive five-step revenue recognition model for all contracts with customers. IFRS 15 requires management to exercise significant judgement and make estimates that affect revenue recognition. IFRS 15 is effective for annual periods beginning on or after January 1, 2018, with earlier application permitted. The Company is in the process of executing its implementation plan and intends to adopt IFRS 15 on January 1, 2018 on a retrospective basis subject to permitted and elected practical expedients. Currently, the consolidated financial results of the Company are not expected to be materially impacted as a result of adopting this standard.

IFRS 9 – Financial Instruments

In July 2014, the IASB issued a final version of IFRS 9, *Financial Instruments*, which replaces IAS 39, *Financial Instruments: Recognition and Measurement*, and supersedes all previous versions of the standard. The standard introduces a new model for the classification and measurement of financial assets and liabilities, a single expected credit loss model for the measurement of the impairment of financial assets and a new model for hedge accounting that is aligned with a company's risk management activities. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with earlier application permitted. The Company intends to adopt IFRS 9 on January 1, 2018 on a retrospective basis, and does not intend to restate prior period comparative information, with any changes to the carrying amounts of assets and liabilities upon adoption being recognized in retained earnings at January 1, 2018. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

IFRS 16 – Leases

In January 2016, the IASB issued IFRS 16, *Leases*, which replaces IAS 17, *Leases*. The standard provides an updated definition of a lease contract, including guidance on the combination and separation of contracts. The standard requires lessees to recognize a right-of-use asset and a lease liability for substantially all lease contracts. The accounting for lessors is substantially unchanged from IAS 17. IFRS 16 is effective for annual periods beginning on or after January 1, 2019, with earlier application permitted if IFRS 15 is also applied. The Company intends to adopt IFRS 16 on January 1, 2019 on a modified retrospective basis. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

2. SIGNIFICANT TRANSACTIONS

a) Initial and secondary public offerings by JELD-WEN

In January 2017, JELD-WEN completed an initial public offering of 28.75 million shares of its common stock (NYSE: JELD), including the exercise of the over-allotment option. The offering was priced at \$23.00 per share for gross proceeds of \$661. As part of the offering, JELD-WEN issued approximately 22.3 million treasury shares. The net proceeds from treasury shares were used to repay \$375 of JELD-WEN's combined term loan, with the balance for working capital and other general corporate purposes. The Onex Partners III Group sold approximately 6.5 million shares in the transaction for net proceeds of \$140. Onex' portion of the net proceeds was \$40, including \$6 of carried interest.

As a result of this transaction, the Onex Partners III Group's economic ownership was reduced to 60% and Onex' economic ownership was reduced to 15%. Since the sale of shares by the Onex Partners III Group did not result in a loss of control of JELD-WEN, the transaction was recorded as a transfer from the equity holders of Onex Corporation to non-controlling interests in the unaudited interim consolidated financial statements, with the cash proceeds received in excess of the historical accounting carrying value of \$133 being recorded directly to retained earnings.

The new shares issued by JELD-WEN in the initial public offering resulted in the dilution of the Company's ownership interest in JELD-WEN. As a result, the Company recorded a transfer from the non-controlling interests in the unaudited interim consolidated statements of equity. This reflects Onex' share of the increase in the book value of the net assets of JELD-WEN due to the issuance of additional common shares at a value above the Company's historical accounting carrying value of JELD-WEN.

In May 2017, JELD-WEN completed a secondary offering of 16.1 million shares of its common stock, including the exercise of the over-allotment option. The offering was priced at \$30.75 per share for gross proceeds of \$495. No treasury shares were issued as part of the offering. The Onex Partners III Group sold approximately 15.7 million shares in the transaction for net proceeds of \$466. Onex' portion of the net proceeds was \$135, including \$20 of carried interest.

A gain of \$1,514 was recorded within discontinued operations during the second quarter, based on the excess of the net proceeds and the interest retained at fair value over the historical accounting carrying value of the investment. The gain on the sale is entirely attributable to the equity holders of Onex Corporation, as the interests of the Limited Partners were recorded as a financial liability at fair value. The portion of the gain associated with measuring the interest retained in JELD-WEN at fair value was \$1,136. The portion of the gain associated with the shares sold in the secondary offering was \$378.

Amounts received on account of the carried interest related to these transactions totalled \$64. Onex was allocated 40% of the carried interest, with 60% allocated to management. Onex' share of the carried interest received was \$26 and was included in the net proceeds to Onex. Management's share of the carried interest was \$38. No amounts were paid on account of the MIP for these transactions as the required realized investment return hurdle for Onex was not met on realizations to date.

The Onex Partners III Group continues to hold approximately 47.1 million shares of JELD-WEN's common stock for a 45% economic and voting interest. Onex continues to hold approximately 11.7 million shares for an 11% economic interest. The secondary offering resulted in a loss of control of JELD-WEN by the Company. The remaining interest held by the Company has been recorded as a long-term investment at fair value (note 5), with realized and unrealized gains and losses recognized in the unaudited interim consolidated statements of earnings. Non-controlling interests of the Company decreased by \$212 as a result of no longer consolidating JELD-WEN.

The operations of JELD-WEN up to May 2017 are presented as discontinued in the June 30, 2017 unaudited interim consolidated financial statements of earnings and cash flows and the prior period has been restated to report the results of JELD-WEN as discontinued on a comparative basis. JELD-WEN has been reclassified from the building products segment to the other segment.

b) Acquisition of Parkdean Resorts

In March 2017, the Onex Partners IV Group acquired Parkdean Resorts, a leading operator of caravan holiday parks in the United Kingdom, for £1,350. Excluding the impact of foreign exchange hedges, the Onex Partners IV Group's investment was \$612 (£500), comprised of \$417 from Onex Partners IV and \$195 as a co-investment from Onex and certain limited partners, for an initial economic interest of 91%. Onex' share of the investment was \$166, comprised of \$123 through Onex Partners IV and \$43 as a co-investment, for an initial economic interest of 25%. The investment in Parkdean Resorts consists of equity of \$520 (£425) and a loan note of \$92 (£75), of which Onex' share is \$141 and \$25, respectively. The remainder of the purchase price was financed through a rollover of equity by management shareholders and debt financing, without recourse to Onex Corporation. Parkdean Resorts is included within the other segment.

c) Distribution from Jack's

In April 2017, Jack's amended its existing credit facility to increase the size of its term loan to \$275, as described in note 6(e). The proceeds from the incremental borrowing, along with cash on hand, were used to fund a distribution of \$85 to shareholders. The share of the distribution for the Onex Partners IV Group was \$81, of which Onex' share was \$23.

d) Pending sale of Dental Digital business by Carestream Health

In April 2017, Carestream Health entered into an agreement to sell its Dental Digital business for an enterprise value of approximately \$800. Net cash proceeds from the sale will be used to repay a portion of the company's term loan. The transaction is expected to close in the third quarter of 2017 and is subject to customary closing conditions and regulatory approvals. At June 30, 2017, included in other current assets and other current liabilities are assets held for sale totalling \$212, including \$2 of cash and cash equivalents, and liabilities held for sale totalling \$102, respectively.

e) Initial public offering by Emerald Expositions

In April 2017, Emerald Expositions completed an initial public offering of approximately 17.8 million shares of its common stock (NYSE: EEX), including the exercise of the over-allotment option. The offering was priced at \$17.00 per share for gross proceeds of \$303. As part of the offering, Emerald Expositions issued approximately 10.3 million treasury shares. The net proceeds from the treasury shares were used to repay \$159 of Emerald Expositions' term loan. The Onex Partners III Group sold approximately 7.5 million shares in the transaction for net proceeds of \$119. Onex' portion of the net proceeds was \$32, including \$3 of carried interest.

Amounts received on account of the carried interest related to this transaction totalled \$7. Onex was allocated 40% of the carried interest, with 60% allocated to management. Onex' share of the carried interest received was \$3 and was included in the net proceeds to Onex. Management's share of the carried interest was \$4. No amounts were paid on account of the MIP for this transaction as the required realized investment return hurdle for Onex was not met on this realization.

The Onex Partners III Group continues to hold approximately 53.8 million shares of Emerald Expositions' common stock for a 75% economic and voting interest. Onex continues to hold approximately 13.0 million shares for an 18% economic interest. Since the sale of shares by the Onex Partners III Group did not result in a loss of control of Emerald Expositions, the transaction was recorded as a transfer from equity holders of Onex Corporation to non-controlling interests holders in the unaudited interim consolidated financial statements, with the cash proceeds received in excess of the historical accounting carrying value of \$52 being recorded directly to retained earnings.

The issuance of new shares by Emerald Expositions as part of the initial public offering resulted in the dilution of the Company's ownership interest in Emerald Expositions. The Company recorded a transfer from the non-controlling interests in the unaudited interim consolidated statements of equity. This reflects Onex' share of the increase in the book value of the net assets of Emerald Expositions due to the issuance of additional common shares at a value above the Company's historical accounting carrying value of Emerald Expositions.

f) Sale of USI

In May 2017, the Onex Partners III Group sold its entire investment in USI for an enterprise value of \$4,316. The Onex Partners III Group received net proceeds of \$1,889, resulting in a gain of \$1,797 based on the excess of the net proceeds over the historical accounting carrying value of the investment. Onex' portion of the net proceeds was \$563, including carried interest of \$65 and after the reduction for amounts on account of the MIP. The gain on the sale is entirely attributable to the equity holders of Onex Corporation, as the interests of the Limited Partners were recorded as a financial liability at fair value.

Amounts received on account of the carried interest related to this transaction totalled \$163. Onex was allocated 40% of the carried interest, with 60% allocated to management. Onex' share of the carried interest received was \$65 and was included in the net proceeds to Onex. Management's share of the carried interest was \$98. Amounts paid on account of the MIP totalled \$30 for this transaction and have been deducted from the net proceeds to Onex.

The operations of USI up to the date of sale have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows and the three and six months ended June 30, 2016 have been restated to report the results of USI as discontinued on a comparative basis, as described in note 4(a). The operations of USI have been reclassified from the insurance services segment to the other segment. Non-controlling interests of the Company decreased by \$1 as a result of no longer consolidating USI.

g) Distributions from operating businesses

During the six months ended June 30, 2017, the Company received distributions from certain operating businesses of \$138, of which \$41 was Onex' portion. This includes the distribution from Jack's, as described in note 2(c). Significant distributions received by the Company are described below.

In January 2017, PURE Canadian Gaming Corp. ("Pure Canadian Gaming") distributed C\$15 to shareholders. The ONCAP II and III Group's portion of the distribution to shareholders was C\$15 (\$11), of which Onex' portion was C\$6 (\$5).

During the six months ended June 30, 2017, BBAM distributed \$35 to the Onex Partners III Group, of which Onex' share was \$9. The distribution was funded by the company's free cash flow.

h) Onex Partners V

In July 2017, Onex completed the first closing for Onex Partners V, reaching aggregate commitments of \$5,187, including Onex' commitment of \$2,000, as described in note 14(e).

i) Credit Strategies

ij) Closing of CLO-13

In February 2017, Onex established a warehouse facility in connection with its thirteenth CLO denominated in U.S. dollars ("CLO-13"). Onex invested \$70 to support the warehouse facility and a financial institution provided borrowing capacity of up to \$450 backed by the underlying collateral.

In July 2017, Onex closed CLO-13, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured and subordinated notes and preference shares in a private placement transaction for an aggregate principal amount of \$610.

On closing, Onex received \$70 plus interest for the investment that supported the warehouse facility and invested \$40 for 100% of the most subordinated capital of CLO-13. Reinvestment can be made in collateral by the CLO up to July 2022, or earlier, subject to certain provisions.

ii) Extension of CLO-4

In April 2017, Onex amended CLO-4, which extended the reinvestment period of the CLO by four years to April 2021 and increased the size by \$105 to \$600. Onex invested an additional \$13 in the most subordinated capital of CLO-4 on closing.

iii) Closing of EURO CLO-1

In May 2017, Onex closed EURO CLO-1, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured and subordinated notes in a private placement transaction for an aggregate principal amount of €361 (\$393).

On closing, Onex received €55 (\$60) plus interest for the investment that supported the warehouse facility and invested €38 (\$42) for 100% of the most subordinated capital of the CLO. Reinvestment can be made in collateral by the CLO up to June 2021, or earlier, subject to certain provisions.

iv) Warehouse facility of CLO-14

In May 2017, Onex established a warehouse facility in connection with its fourteenth CLO denominated in U.S. dollars ("CLO-14"). Onex invested \$40 to support the warehouse facility's total return swap and a financial institution provided borrowing capacity of up to \$160 backed by the underlying collateral.

v) Onex Credit direct lending platform

In May 2017, Onex completed the first closing of the first fund in the Onex Credit direct lending platform (“OCLP-1”), reaching aggregate commitments of approximately \$290, including Onex’ commitment of \$100, as described in note 14. The target aggregate committed capital to the fund is \$500, including Onex’ commitment of \$100. The duration of the commitment period for OCLP-1 will be up to three years from the date of final closing, subject to extensions of up to an additional two years.

vi) Redemption of CLO-3

In June 2017, the Company redeemed its third CLO denominated in U.S. dollars. CLO-3 was established in March 2013 and its reinvestment period ended in January 2017. Upon the redemption of CLO-3, all secured notes were repaid, including accrued interest, and the equity was settled for the residual proceeds in the CLO. Onex received \$8 for its remaining investment in the equity of CLO-3. In aggregate, Onex received \$28 of proceeds and distributions related to CLO-3 compared to its original investment of \$24.

In addition, Onex expects to receive a final distribution of \$3 during the second half of 2017.

At redemption, CLO-3 transferred \$13, \$109 and \$48 in assets for fair value consideration to CLO-4, CLO-13 and CLO-14, respectively. The fair values used for the transfer were reviewed by a third party.

vii) Warehouse facility of EURO CLO-2

In June 2017, Onex established a warehouse facility in connection with its second CLO denominated in euros (“EURO CLO-2”). Onex invested €10 (\$11) to support the warehouse facility and a financial institution provided borrowing capacity of up to €40 (\$46) backed by the underlying collateral.

viii) Distributions

During the six months ended June 30, 2017, Onex received \$32 of distributions from its CLO investments.

3. ACQUISITIONS

During the first six months of 2017, nine acquisitions were completed by Onex and its subsidiaries, excluding acquisitions completed by discontinued operations. Details of the purchase price and allocation to the assets and liabilities acquired, net of debt financing, are as follows:

	Parkdean Resorts ^(a)	Other ^(b)	Total
Cash and cash equivalents	\$ 61	\$ 1	\$ 62
Other current assets	59	2	61
Intangible assets with limited life	42	22	64

	570	83	653
Non-controlling interests in net assets	(50)	-	(50)
Interests in net assets acquired	\$ 520	\$ 83	\$ 603

(1) Included in current liabilities of Parkdean Resorts is \$92 of acquisition financing, of which Onex’ share is \$25.

(2) Excluded from non-current liabilities of Parkdean Resorts is \$570 of preference shares issued upon acquisition, which are classified as long-term financial liabilities. The Onex Partners IV Group’s share of the preference shares is \$520, of which Onex’ share is \$141.

a) In March 2017, the Company acquired Parkdean Resorts, as described in note 2(b).

b) Other includes acquisitions made by Chatters Canada (“Chatters”), Clarivate Analytics, Emerald Expositions, Hopkins Manufacturing Corporation (“Hopkins”), sgsco and York for total consideration of \$83, of which \$12 was non-cash consideration.

Included in the acquisitions above are gross receivables due from customers of \$17, of which all contractual cash flows are expected to be recovered. The fair value of these receivables at the dates of acquisition was determined to be \$17.

Revenue and net losses from the date of acquisition for these acquisitions to June 30, 2017 were \$195 and \$15, respectively.

The Company estimates it would have reported consolidated revenues of approximately \$11,900 and net earnings of approximately \$1,700 for the six months ended June 30, 2017 if acquisitions completed during 2017 had been acquired on January 1, 2017.

Goodwill of the acquisitions was attributable primarily to the skills and competence of the acquired workforce, non-contractual established customer bases and technological knowledge of the acquired companies. Goodwill of the acquisitions that is expected to be deductible for tax purposes is \$42.

4. DISCONTINUED OPERATIONS

a) USI

The operations of USI have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows and the three and six months ended June 30, 2016 have been restated to report the results of USI as discontinued on a comparative basis, as described in note 2(f).

b) JELD-WEN

The operations of JELD-WEN have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows and the three and six months ended June 30, 2016 have been restated to report the results of JELD-WEN as discontinued on a comparative basis, as described in note 2(a).

c) KraussMaffei

In April 2016, the Company sold its entire investment in KraussMaffei for a cash enterprise value of €925 (\$1,000). Net proceeds

from the sale were €717 (\$821), which included proceeds to the management of KraussMaffei. The Onex Partners III Group received net proceeds of €669 (\$753). Onex' portion of the net proceeds was \$195, including carried interest and after the reduction for amounts on account of the MIP.

The operations of KraussMaffei have been presented as discontinued in the unaudited interim consolidated statements of earnings and cash flows for the three and six months ended June 30, 2016.

d) Sitel Worldwide

In June 2016, the Company signed an agreement to settle the earn-out component from the sale of Sitel Worldwide that occurred in September 2015. A gain of \$23 was recorded within discontinued operations during the second quarter of 2016, of which Onex' share was \$21. The gain reflected the present value of the expected future payments under the agreement.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The following table shows the summarized assets and liabilities of discontinued operations. The balances as at December 31, 2016 represent only those of USI and JELD-WEN, as KraussMaffei was sold in April 2016 and Sitel Worldwide was sold in September 2015. There were no assets or liabilities of discontinued operations at June 30, 2017, as USI was sold in May 2017 and the Company ceased to consolidate JELD-WEN after losing control in May 2017.

a) Long-term investments held by credit strategies

CLO-13

In February 2017, Onex established a warehouse facility in connection with CLO-13, which closed in July 2017, as described in note 2(i). At June 30, 2017, the asset portfolio of CLO-13 included \$464 of corporate loans and notes.

EURO CLO-1

In May 2017, Onex closed EURO CLO-1, as described in note 2(i). At June 30, 2017, the asset portfolio of EURO CLO-1 included \$363 of corporate loans and notes.

CLO-14

In May 2017, Onex established a warehouse facility in connection with its fourteenth CLO denominated in U.S. dollars, as described in note 2(i). During the second quarter of 2017, Onex purchased a total of \$40 of subordinated notes to support the warehouse facility's TRS. Onex consolidated the warehouse facility for CLO-14, and at June 30, 2017, the collateral for the TRS was recorded in other current assets.

EURO CLO-2

In June 2017, Onex established a warehouse facility in connection with EURO CLO-2, as described in note 2(i). At June 30, 2017, the asset portfolio of EURO CLO-2 included \$8 of corporate loans and notes.

OCLP-1

During the second quarter of 2017, Onex completed the first closing for OCLP-1, as described in note 2(i). At June 30, 2017, the asset portfolio of OCLP-1 included \$71 of corporate loans and notes.

b) Investments in joint ventures and associates – at fair value through earnings

Certain investments in joint ventures and associates over which the Company has joint control or significant influence, but not control, are designated, upon initial recognition, at fair value. The fair value of these investments in joint ventures and associates is assessed at each reporting date with changes to the values being recorded through earnings.

Investments in joint ventures and associates designated at fair value through earnings primarily include investments in AIT, BBAM, Ingersoll Tool Group (“ITG”), JELD-WEN (since May 2017) and Mavis Tire Supply LLC (“Mavis Discount Tire”). With the exception of JELD-WEN, the fair value measurements for these investments include significant unobservable inputs (Level 3 of the fair value hierarchy). The fair value measurement for the investment in JELD-WEN includes significant other observable inputs (Level 2 of the fair value hierarchy), as a marketability factor is applied to JELD-WEN’s share price. The joint ventures and associates typically have financing arrangements that restrict their ability to transfer cash and other assets to the Company.

Details of changes in investments recognized at fair value included in long-term investments are as follows:

Balance – December 31, 2015	\$ 733
Purchase of investments	35
Distributions received	(39)
Increase in fair value of investments, net	37
Balance – June 30, 2016	766

Distributions received	(46)
Increase in fair value of investments, net	120
Balance – June 30, 2017	\$ 2,228

JELD-WEN

In May 2017, the Onex Partners III Group sold approximately 15.7 million shares of JELD-WEN in a secondary public offering, which resulted in a loss of control of JELD-WEN by the Company, as described in note 2(a). The remaining interest in JELD-WEN held by the Company has been recorded as a long-term investment at fair value, with changes in fair value recorded through earnings.

c) Onex Corporation investments in managed accounts

Long-term investments consisted of securities that include money market instruments, federal and municipal debt instruments, corporate obligations and structured products with maturities of one year to five years. Short-term investments consisted of liquid investments that include money market instruments and commercial paper with original maturities of three months to one year. The investments are managed to maintain an overall weighted average duration of two years or less. At June 30, 2017, the fair value of investments managed by third-party investment managers was \$620 (December 31, 2016 – \$472), of which \$260 (December 31, 2016 – \$147) was included in short-term investments and \$360 (December 31, 2016 – \$325) was included in long-term investments.

d) Investments in joint ventures and associates – equity-accounted

Certain investments in joint ventures and associates over which the Company has joint control or significant influence, but not control, are initially recognized at cost, and the carrying amount of the investment is adjusted to recognize the Company's share of the profit or loss in the investment, from the date that joint control or significant influence commences until the date that joint control or significant influence ceases. The Company's share of the profit or loss is recognized in other income (expense) and any distributions received reduce the carrying amount of the investment.

At June 30, 2017 and December 31, 2016, the balances consisted primarily of investments in joint ventures and associates held by Meridian Aviation and SIG.

6. LONG-TERM DEBT OF OPERATING COMPANIES, WITHOUT RECOURSE TO ONEX CORPORATION

The following describes the significant changes to Onex Corporation's long-term debt from the information provided in the 2016 audited annual consolidated financial statements, in chronological order.

a) ONCAP IV

In January 2017, ONCAP IV entered into a \$100 credit facility. The credit facility is available to finance ONCAP IV capital calls, bridge investments in ONCAP IV operating companies and finance other uses permitted by ONCAP IV's limited partnership agreement. The credit facility includes a deemed credit risk maximum of \$35 available to ONCAP IV and its operating companies for foreign exchange transactions, including foreign exchange options, forwards and swaps. Amounts under the credit facility are available in Canadian and U.S. dollars. Borrowings drawn on the credit facility bear interest at a base rate plus a margin of 1.00% or bankers' acceptance rate (subject to a floor of 0.00%) plus a margin of 3.75%. The base rate and bankers' acceptance rate vary based on the currency of the borrowings. Borrowings under the credit facility are due and payable upon demand; however, ONCAP IV has 15 business days to complete a capital call to the limited partners of ONCAP IV. Onex Corporation, the parent company, is only obligated to fund borrowings under the credit facility based on its proportionate share as a limited partner in ONCAP IV.

At June 30, 2017, no amounts were outstanding under the credit facility.

b) JELD-WEN

In February 2017, JELD-WEN repaid \$375 under its combined term loan from a portion of its net proceeds from the sale of shares in its initial public offering, as described in note 2(a).

In March 2017, JELD-WEN amended its existing credit facility to reduce the rate at which borrowings under its combined term loan bear interest to LIBOR (subject to a floor of 1.00%) plus a margin of up to 3.00%, depending on the company's leverage ratio. The amendment resulted in a total interest rate reduction of 50 basis points.

JELD-WEN's long-term debt is no longer recognized in the unaudited interim consolidated balance sheet as the Company no longer controls JELD-WEN, as described in note 2(a).

c) Parkdean Resorts

The Onex Partners IV Group acquired Parkdean Resorts in March 2017, as described in note 2(b). In March 2017, Parkdean Resorts entered into a senior secured credit facility consisting of a £575 first lien term loan, a £150 second lien term loan and a £100 revolving credit facility. Borrowings under the first lien term loan bear interest at LIBOR (subject to a floor of 0.00%) plus a margin of up to 4.25%, depending on the company's leverage ratio. The first lien term loan matures in March 2024. Borrowings under the second lien term loan bear interest at LIBOR (subject to a floor of 1.00%) plus a margin of 8.50%. The second lien term loan matures in March 2025. Borrowings under the revolving credit facility bear interest at LIBOR (subject to a floor of 0.00%) plus a margin of up to 3.25%, depending on the company's leverage ratio. The revolving credit facility matures in March 2023. Substantially all of Parkdean Resorts' assets are pledged as collateral under the senior secured credit facility.

At June 30, 2017, £575 (\$747) was outstanding under the first lien term loan, £150 (\$195) was outstanding under the second lien term loan and no amounts were outstanding under the revolving credit facility.

In March 2017, Parkdean Resorts entered into a £75 (\$92) loan note with the Onex Partners IV Group, as described in note 2(b). The loan note bears interest at 4.75% and matures in September 2017. At June 30, 2017, £75 (\$97) of the loan note was outstanding.

d) Emerald Expositions

In April 2017, Emerald Expositions repaid \$159 under its term loan from the net proceeds from the sale of treasury shares in its initial public offering, as described in note 2(e).

In May 2017, Emerald Expositions amended and restated its existing credit facility to increase the size of its revolving credit facility by \$50. In addition, the rate at which the company borrows under its new term loan and revolving credit facility was reduced to LIBOR plus a margin of up to 3.00%, depending on the company's leverage ratio. The maturity dates for the new term loan and revolving credit facility were extended to May 2024 and May 2022, respectively. The amended and restated credit facility resulted in a current interest rate reduction of 75 basis points and 150 basis points on the company's term loan and revolving credit facility, respectively.

At June 30, 2017, \$565 was outstanding under the term loan and no amounts were outstanding under the revolving credit facility.

e) Jack's

In April 2017, Jack's amended its existing credit facility to increase the size of its term loan to \$275. In addition, the rate at which the company borrows under the term loan was reduced to LIBOR (subject to a floor of 1.00%) plus a margin of up to 4.25%, depending on the company's leverage ratio, and the maturity date was extended to April 2024. The rate at which the company borrows under the revolving credit facility was reduced to LIBOR plus a margin of up to 4.25%, depending on the company's leverage ratio, and the maturity date was extended to April 2022. The amendment resulted in a current interest rate reduction of 50 basis points on the company's term loan and revolving credit facility. The proceeds from the incremental borrowing, along with cash on hand, were used to fund a distribution of \$85 to shareholders, as described in note 2(c). At June 30, 2017, \$274 was outstanding under the term loan.

f) EURO CLO-1

In May 2017, Onex closed EURO CLO-1, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured notes and subordinated notes, as described in note 2(i). The secured notes were offered in an aggregate principal amount of €361 (\$393) and are due in June 2030. The floating rate secured notes bear interest at a rate of EURIBOR plus a margin of 0.9% to 7.15%. The secured notes are payable beginning in December 2017. The secured notes and preference shares of EURO CLO-1 were designated at fair value through net earnings.

The secured notes are subject to redemption and prepayment provisions, including mandatory redemption, if certain coverage tests are not met by EURO CLO-1. Optional redemption of the secured notes is available beginning in June 2019. Optional refinancing of certain secured obligations is available subject to certain customary terms and conditions being met by EURO CLO-1.

The secured notes of EURO CLO-1 are secured by, and only have recourse to, the assets of EURO CLO-1.

g) OCLP-1

In June 2017, OCLP-1 entered into a \$138 revolving credit facility. The revolving credit facility is available to finance capital and for other uses permitted by the OCLP-1 partnership agreement. Borrowings drawn on the revolving credit facility bear interest at LIBOR (subject to a floor of 0.00%) plus a margin of 1.65%. The revolving credit facility matures in June 2020, subject to an option to extend the maturity for up to 364 days upon satisfaction of certain conditions. The revolving credit facility is secured by, among other things, the right to make capital calls upon the committed capital of OCLP-1. Onex Corporation, the parent company, is only obligated to fund capital calls based on its proportionate share as a limited partner in OCLP-1.

At June 30, 2017, \$2 was outstanding under the revolving credit facility.

h) CLO-3

In June 2017, Onex redeemed its third CLO denominated in U.S. dollars, CLO-3, as described in note 2(i). Upon the redemption of CLO-3, all secured notes were repaid, including accrued interest, and the equity was settled for the residual proceeds in the CLO.

i) CLO-13

In July 2017, Onex closed CLO-13, which was funded through the issuance of collateralized loan instruments in a series of tranches of secured and subordinated notes and preference shares, as described in note 2(i). The secured notes were offered in an aggregate principal amount of \$552 and are due in July 2030. The floating rate

secured notes bear interest at a rate of LIBOR plus a margin of 1.26% to 6.63%. The secured notes are payable beginning in January 2018. The secured notes and preference shares of CLO-13 were designated at fair value through net earnings.

The secured notes are subject to redemption and prepayment provisions, including mandatory redemption, if certain coverage tests are not met by CLO-13. Optional redemption of the secured notes is available beginning in July 2019. Optional repricing of certain secured obligations is available subject to certain customary terms and conditions being met by CLO-13.

The secured notes of CLO-13 are secured by, and only have recourse to, the assets of CLO-13.

7. LIMITED PARTNERS' INTERESTS

(i) Includes amounts distributed to certain limited partners and others.

(ii) Includes amounts received for a purchase price adjustment.

d) At June 30, 2017, the current portion of the Limited Partners' Interests was \$40, and consisted primarily of residual escrow balances from the sale of certain investments, as well as a distribution received from BBAM.

At December 31, 2016, the current portion of the Limited Partners' Interests was \$89, and consisted primarily of the limited partners' share of (i) the distribution received from Hopkins; (ii) the return of capital to the limited partners of the ONCAP III Group related to the syndication of a portion of the investment in Tecta to the ONCAP IV Group; and (iii) the remaining KraussMaffei proceeds to be distributed during 2017.

8. SHARE CAPITAL

a) At June 30, 2017, the issued and outstanding share capital consisted of 100,000 Multiple Voting Shares (December 31, 2016 – 100,000) and 101,973,393 SVS (December 31, 2016 – 102,787,628). The Multiple Voting Shares have a nominal paid-in value in these unaudited interim consolidated financial statements.

There were no issued and outstanding Senior and Junior Preferred shares at June 30, 2017 or December 31, 2016.

The Company increased its quarterly dividend by 9% to C\$0.075 per SVS beginning with the dividend declared by the Board of Directors in May 2017.

b) During the first six months of 2017, under the Dividend Reinvestment Plan, the Company issued 3,813 SVS (2016 – 4,225) at an average cost of C\$92.48 per share (2016 – C\$80.35). In the first six months of 2017 and 2016, no SVS were issued upon the exercise of stock options.

Onex renewed its Normal Course Issuer Bid in April 2017 for one year, permitting the Company to purchase on the Toronto Stock Exchange up to 10% of the public float of its SVS. The 10% limit represents approximately 8.4 million shares.

During the first six months of 2017, the Company repurchased and cancelled 818,048 of its SVS at a cost of \$58 (C\$78). The excess of the purchase cost of these shares over the average paid-in amount was \$56 (C\$74), which was charged to retained earnings. The shares repurchased were comprised of: (i) 68,048 SVS repurchased under the Normal Course Issuer Bids for a total cost of \$5 (C\$7) or an average cost per share of \$71.03 (C\$94.87); and (ii) 750,000 SVS repurchased in a private transaction for a total cost of \$53 (C\$71) or an average cost per share of \$71.24 (C\$94.98).

During the first six months of 2016, the Company repurchased and cancelled under its previous Normal Course Issuer Bid 2,543,729 of its SVS at a cost of \$149 (C\$204). The excess of the purchase cost of these shares over the average paid-in amount was \$142 (C\$194), which was charged to retained earnings.

c) During the first six months of 2017, the total cash consideration paid on 430,407 options (2016 – 111,100) surrendered was \$21 (C\$28) (2016 – \$4 (C\$6)). This amount represents the difference between the market value of the SVS at the time of surrender and the exercise price, both as determined under Onex' Stock Option plan, as described in note 19(e) to the 2016 audited annual consolidated financial statements.

In addition, 114,500 options (2016 – 52,100) expired during the first six months of 2017. At June 30, 2017, the Company had 12,398,276 options (December 31, 2016 – 12,943,183) outstanding to acquire SVS, of which 6,186,241 options were vested and exercisable. The exercisable options at June 30, 2017 had a weighted average exercise price of C\$48.50.

d) The Directors have chosen to receive their Directors' fees in Deferred Share Units ("DSUs") in lieu of cash. During the second quarter of 2017, an annual grant of 27,720 DSUs (2016 – 27,712) was issued to Directors. During the first six months of 2017 and 2016, no DSUs were redeemed. At June 30, 2017, 698,596 Director DSUs were outstanding (December 31, 2016 – 665,871).

Certain members of Onex management have chosen in prior years to apply a portion of their annual compensation earned to acquire DSUs based on the market value of Onex shares at the time. In early 2017, 28,670 DSUs (2016 – 44,333) were issued to certain members of Onex management in lieu of a portion of cash compensation for the prior fiscal year. At June 30, 2017, 664,913 Management DSUs were outstanding (December 31, 2016 – 635,326).

The Company has entered into forward agreements with a counterparty financial institution to hedge the Company's exposure to changes in the market value of Onex' SVS associated with substantially all of the outstanding Director DSUs and all of the outstanding Management DSUs, as described in note 1 to the 2016 audited annual consolidated financial statements.

a) Carried interest charge reflects the change in the amount of carried interest due to Onex and ONCAP management through the Onex Partners and ONCAP Funds. Unrealized carried interest is calculated based on the current fair values of the Funds' investments and the overall unrealized gains in each respective Fund in accordance with the limited partnership agreements. The unrealized carried interest liability is recorded in other non-current liabilities and reduces the Limited Partners' Interests, as described in note 7. The liability will ultimately be settled upon the realization of the limited partners' share of the underlying investments in each respective Onex Partners and ONCAP Fund.

During the six months ended June 30, 2017, a charge of \$83 (2016 – \$10) was recorded in the unaudited interim consolidated statements of earnings for an increase in management's share of the carried interest primarily due to an increase in the fair value of certain of the investments in the Onex Partners and ONCAP Funds.

b) Transition, integration and other expenses typically provide for the costs of establishing and transitioning from a prior parent company the activities of an operating company upon acquisition and to integrate new acquisitions at the operating companies. The costs may be incurred over several years as the establishment and transition of activities progress.

Transition, integration and other expenses for the first six months of 2017 were primarily due to Clarivate Analytics and Carestream Health. Transition, integration and other expenses for the first six months of 2016 were primarily due to the transition of business activities at Carestream Health and the integration of an acquisition at Survitec.

c) Losses on investments and long-term debt in CLOs and Onex Credit Funds were driven by unrealized losses on long-term debt recorded at fair value in the CLOs, partially offset by realized and unrealized gains on investments.

d) Restructuring expenses typically provide for the costs of facility consolidations and workforce reductions incurred at the operating companies.

The operating companies with restructuring activities at December 31, 2016 continue to implement their restructuring activities. During the first six months of 2017, Save-A-Lot recognized restructuring charges related to the closure of facilities and the associated lease abandonment costs.

The closing balance of restructuring provisions, including amounts from acquisitions, consisted of the following at:

	June 30, 2017	December 31, 2016
Employee termination costs	\$ 27	\$ 40
Lease and other contractual obligations	33	7
Facility exit costs and other	3	3

a) During 2016, York recorded a non-cash goodwill impairment charge of \$226, measured in accordance with IAS 36, *Impairment of Assets*, primarily due to a decrease in projected future earnings from its claims management business. The impairment was calculated on a fair value less costs to sell basis using the discounted

e) Transaction costs are incurred by Onex and its operating companies to complete business acquisitions, and typically include advisory, legal and other professional and consulting costs. Transaction costs for the six months ended June 30, 2017 were primarily due to the acquisition of Parkdean Resorts, in addition to acquisitions completed by the operating companies.

f) Includes realized and unrealized (gains) losses on other Onex Partners investments in which Onex has no or limited remaining strategic or operating influence. During 2017 and 2016, the other Onex Partners investments primarily consisted of FLY Leasing Limited and Genesis Healthcare.

g) Derivatives losses primarily related to embedded derivatives associated with debt agreements and foreign exchange hedges.

h) During the first six months of 2017, a net recovery of \$18 (2016 – \$7) was recognized in relation to the change in estimated fair value of contingent consideration related to acquisitions completed by the Company. The fair value of contingent consideration liabilities is typically based on the estimated future financial performance of the acquired business. Financial targets used in the estimation process include certain defined financial targets and realized internal rates of return.

The total estimated fair value of contingent consideration liabilities at June 30, 2017 was \$43 (December 31, 2016 – \$127).

i) For the six months ended June 30, 2017 and 2016, foreign exchange gains were primarily due to gains recognized by SIG. The foreign exchange gains for the six months ended June 30, 2016 were partially offset by losses recognized by Survitec.

13. FAIR VALUE MEASUREMENTS

Fair values of financial instruments

The estimated fair values of financial instruments as at June 30, 2017 and December 31, 2016 are based on relevant market prices and information available at those dates. The carrying values of cash and cash equivalents, short-term investments, accounts receivable, accounts payable and accrued liabilities approximate the fair values of these financial instruments due to the short maturity of these instruments. The fair value of consolidated long-term debt at June 30, 2017 was \$20,820 (December 31, 2016 – \$23,176) compared to a carrying value of \$20,474 (December 31, 2016 – \$22,863). The fair value of consolidated long-term debt measured at amortized cost is substantially a Level 2 measurement in the fair value hierarchy and is calculated by discounting the expected future cash flows using an observable discount rate for instruments of similar maturity and credit risk. For certain operating companies, an adjustment is made by management for that operating company's own credit risk, resulting in a Level 3 measurement in the fair value hierarchy.

Financial instruments measured at fair value are allocated within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. Transfers between the three levels of the fair value hierarchy are recognized on the date of the event or change in circumstances that caused the transfer. During the first quarter of 2017, the liability for JELD-WEN's employee stock ownership plan was transferred from a Level 3 measurement to a Level 1 measurement as a result of JELD-WEN's initial public offering. The Company ceased to consolidate JELD-WEN, including the liability for JELD-WEN's employee stock ownership plan, after losing control of JELD-WEN in May 2017, as described in note 2(a). There were no significant transfers between the three levels of the fair value hierarchy during the second quarter of 2017. The three levels of the fair value hierarchy are as follows:

- Quoted prices in active markets for identical assets ("Level 1");
- Significant other observable inputs ("Level 2"); and
- Significant other unobservable inputs ("Level 3").

The allocation of financial assets in the fair value hierarchy, excluding cash and cash equivalents, at June 30, 2017 was as follows:

Financial assets and liabilities measured at fair value with significant unobservable inputs (Level 3) are recognized in the unaudited interim consolidated statements of earnings in the following line items: (i) interest expense of operating companies; (ii) increase in value of investments in joint ventures and associates at fair value, net; (iii) other income (expense); and (iv) Limited Partners' Interests recovery (charge).

The valuation of investments in debt securities measured at fair value with significant other observable inputs (Level 2) is generally determined by obtaining quoted market prices or dealer quotes for identical or similar instruments in inactive markets, or other inputs that are observable or can be corroborated by observable market data.

The valuation of financial assets and liabilities measured at fair value with significant unobservable inputs (Level 3) is determined quarterly utilizing company-specific considerations and available market data of comparable public companies. The valuation of investments in the Onex Partners and ONCAP Funds is reviewed and approved by the General Partner of the respective Fund each quarter. The General Partners of the Onex Partners and ONCAP Funds are indirectly controlled by Onex Corporation.

The fair value measurement of the Limited Partners' Interests for the credit strategies is primarily driven by the underlying fair value of the investments in the credit strategies. The investment strategies of the credit strategies are focused on a variety of event-driven, long/short, long-only, par, stressed and distressed opportunities.

The fair value measurements for investments in joint ventures and associates, Limited Partners' Interests for the Onex Partners and ONCAP Funds and unrealized carried interest are primarily driven by the underlying fair value of the investments in the Onex Partners and ONCAP Funds. A change to reasonably possible alternative estimates and assumptions used in the valuation of non-public investments in the Onex Partners and ONCAP Funds may have a significant impact on the fair values calculated for these financial assets and liabilities. A change in the valuation of the underlying investments may have multiple impacts on Onex' consolidated financial statements and those impacts are dependent

on the method of accounting used for that investment, the Fund(s) within which that investment is held and the progress of that investment in meeting the MIP exercise hurdles. For example, an increase in the fair value of an investment in an associate would have the following impacts on Onex' consolidated financial statements:

- i) an increase in the unrealized value of investments in joint ventures and associates at fair value in the consolidated statements of earnings, with a corresponding increase in long-term investments in the consolidated balance sheets;
- ii) a charge would be recorded for the limited partners' share of the fair value increase of the investment in associate on the Limited Partners' Interests line in the consolidated statements of earnings, with a corresponding increase to the Limited Partners' Interests in the consolidated balance sheets;
- iii) a change in the calculation of unrealized carried interest in the respective Fund that holds the investment in associate, resulting in a recovery being recorded in the Limited Partners' Interests line in the consolidated statements of earnings, with a corresponding decrease to the Limited Partners' Interests in the consolidated balance sheets;
- iv) a charge would be recorded for the change in unrealized carried interest due to Onex and ONCAP management on the other income (expense) line in the consolidated statements of earnings, with a corresponding increase to other non-current liabilities in the consolidated balance sheets; and
- v) a change in the fair value of the vested investment rights held under the MIP, resulting in a charge being recorded on the stock-based compensation line in the consolidated statements of earnings, with a corresponding increase to other non-current liabilities in the consolidated balance sheets.

Valuation methodologies may include observations of the trading multiples of public companies considered comparable to the private companies being valued and discounted cash flows. The following table presents the significant unobservable inputs used to value the Company's private securities that impact the valuation of (i) investments in joint ventures and associates; (ii) unrealized carried interest liability due to Onex and ONCAP management; (iii) stock-based compensation liability for the MIP; and (iv) Limited Partners' Interests.

Valuation Technique	Significant Unobservable Inputs	Inputs at June 30, 2017	Inputs at December 31, 2016
Market comparable companies	Adjusted EBITDA multiple	7.1x – 13.4x	7.5x – 13.0x
Discounted cash flow	Weighted average cost of capital	9.6% – 18.0%	9.8% – 18.0%
	Exit multiple	6.0x – 10.5x	6.0x – 11.0x

In addition, at June 30, 2017 and December 31, 2016, the Company had an investment that was valued using market comparable transactions.

Generally, adjusted EBITDA represents earnings before interest, taxes, depreciation and amortization as well as other adjustments. Other adjustments can include non-cash costs of stock-based compensation and retention plans, transition and restructuring expenses including severance payments, the impact of derivative instruments that no longer qualify for hedge accounting, the impacts of purchase accounting and other similar amounts. Adjusted EBITDA is a measurement that is not defined under IFRS.

The long-term debt issued by the CLOs is recognized at fair value using third-party pricing models without adjustment by the Company. The valuation methodology is based on a projection of the future cash flows expected to be realized from the underlying collateral of the CLOs.

14. COMMITMENTS AND RELATED PARTY TRANSACTIONS

a) Tax loss transaction with a related party

In March 2017, Onex entered into the sale of an entity, whose sole assets were certain tax losses, to a company controlled by Mr. Gerald W. Schwartz, who is Onex' controlling shareholder. Onex has significant non-capital and capital losses available; however, Onex does not expect to generate sufficient taxable income to fully utilize these losses in the foreseeable future. As such, no benefit has been recognized in the unaudited interim consolidated financial statements for these losses. In connection with this transaction, an independent accounting firm retained by Onex' Audit and Corporate Governance Committee provided an opinion that the amount received by Onex for the tax losses was fair from a financial point of view. Onex' Audit and Corporate Governance Committee, all the members of which are independent Directors, unanimously approved the transaction. Onex received \$5 in cash for tax losses of \$48, of which the entire \$5 was recorded as a gain and included in other income (expense) in the unaudited interim consolidated statements of earnings.

b) Incline Aviation Fund

At December 31, 2016, Onex had a commitment of \$75 to Incline Aviation Fund. In February 2017, Mr. Gerald W. Schwartz assumed \$25 of Onex' commitment to Incline Aviation Fund, reducing the amount committed by Onex to \$50. At June 30, 2017, Onex' uncalled commitment to Incline Aviation Fund was \$43.

c) Private share repurchase

In March 2017, Onex repurchased in a private transaction 750,000 of its SVS that were held indirectly by Mr. Gerald W. Schwartz. The private transaction was approved by the disinterested directors of the Board of Directors of the Company. The shares were repurchased at a cash cost of \$71.24 (\$C94.98) per share or a total cost of \$53 (C\$71), which represents a slight discount to the trading price of Onex shares at that date.

d) OCLP-1

In May 2017, Onex completed the first closing for OCLP-1 with funding commitments totalling approximately \$290, including Onex' commitment of \$100. Onex controls the General Partner and Manager of the Onex Credit direct lending platform.

e) Onex Partners V

In July 2017, Onex completed the first closing for Onex Partners V, reaching aggregate commitments of \$5,187, including Onex' commitment of \$2,000, Onex management's minimum 2% commitment and \$3,084 of third-party capital.

15. SUBSEQUENT EVENTS

a) Onex Partners V

In July 2017, Onex completed the first closing for Onex Partners V, reaching aggregate commitments of \$5,187, including Onex' commitment of \$2,000, as described in note 14(e).

b) CLO-13

In July 2017, Onex closed CLO-13, as described in note 2(i).

16. INFORMATION BY INDUSTRY SEGMENT

In May 2017, the Onex Partners III Group sold its entire investment in USI, as described in note 2(f). The results of operations of USI, which were previously included in the insurance services segment, are presented in the other segment as a discontinued operation. In addition, in May 2017, the Onex Partners III Group sold approximately 15.7 million shares of JELD-WEN, resulting in a loss of control by the Company, as described in note 2(a). The results of operations of JELD-WEN up to the sale in May 2017, which were previously included in the building products segment, are presented in the other segment as a discontinued operation. The remaining interest in JELD-WEN held by the Company has been recorded as a long-term investment at fair value through earnings at June 30, 2017. Comparative results have been restated to reflect these changes.
