Subsidiaries

Oy Saimaa Terminals Ab

Steveco works at the ports of Lake Saimaa area through its subsidiary Oy Saimaa Terminals Ab and associated company Joensuun Laivaus Oy.

The service range of Saimaa Terminals comprises stevedoring and terminal services, warehousing, ship's clearance, forwarding services, and services for Russia and the other CIS countries.

Further information about Oy Saimaa Terminals Ab (<http://www.sterm.fi/>).

Suomen Satamatekniikka Oy

Steveco Oy's subsidiary Suomen Satamatekniikka Oy commenced operations in the spring of 2008. The company owns the cargo handling machinery used by the Steveco Group, but also rents machines to other clients through short-term and long-term contracts. Satamatekniikka also sells maintenance and repair services.

Satamatekniikka operates at Hietanen and Mussalo terminals in Kotka and at Vuosaari in Helsinki.

The total number of machinery is 375. The range of machinery covers fork lift trucks of under 10 tonnes, from 12 to 20 tonnes, and over 20 tonnes. The container handling machinery comprises straddle carriers, reach stackers, empty container movers and container movers. The crane machinery encompasses mobile, STS container and level luffing cranes. Moreover, the machinery includes terminal tractors, wheel loaders, translifters and other machinery (auxiliary machinery).
