Chairman's statement
for the year ended 30 June 2019

Biwater's vision of bringing water to life continues, as the Group focusses its resources and capabilities on perhaps the most fundamental of humanitarian problems: the toll taken on public health, and the manifest downstream detrimental effects in the areas of education and economic productivity, as a consequence of lack of access to clean drinking water and sanitation.

Today Biwater continues to provide high quality, dependable and environment-appropriate infrastructure to our clients in both the public and private sectors, in developing markets and developed ones too, offering accompanying structured finance solutions where required, to ensure long-term affordability in both capital and operating costs.

Our 2019 financial statements reflect in large part a year of thorough preparation for the volume of work about to commence on sizeable signed, externally financed contracts in the Group's key markets, which will return the group to profitability and pave the way for sustained growth in shareholder value in the years to come.

First among these is the US\$ 272 million Tamale Water Supply Scheme in northern Ghana, where financial close and contract effectiveness have been reached on the development phase of this project bringing 135,000 m³/day of clean drinking water to the West African region's fastest growing city. We then expect this to be followed soon after by the US\$ 201 million Cameroon Urban and Semi-urban Water Supply Scheme, restoring WHO-standard water supplies to 13 towns across the central belt of the country. This project is achieving the long-anticipated completion of the rigorous maturation processes required to meet government approval for internal investment and external long-term financing. All that remains is the final presidential decree and approval of the standard loan documentation.

Though economic factors and national elections in Iraq have delayed full implementation of Biwater's landmark 600,000 m³/day water supply and wastewater treatment project in Kurdistan, the development phase of the project has been completed, and emergency early works are in progress to meet short-term demands for clean drinking water. It is agreed the remainder of the project is to be recast into two phases, and we remain in close contact with authorities and funders to progress the first of these.

Alongside its strategic partners, the Biwater Group continues to focus on securing very large infrastructure projects in regions such as Iraq, where our current proposals to improve water provision to stressed areas such as Basra, are being discussed with the Government.

Throughout the year, Biwater's USA arm has maintained and grown its presence in the high-tech reverse osmosis and ultrafiltration sector of the domestic market, bidding and winning a series of important projects and looking well placed for the future. Likewise, ongoing operations in Nicaragua and a growing list of successful project implementations in Morocco by our subsidiary there, have continued to make valuable contributions to the Group's figures and to its worldwide reputation.

As I write this, an entirely unprecedented set of circumstances - the world-wide coronavirus pandemic and Covid-19 outbreak - has this company, like hundreds of thousands of others around the world, in its grip, both commercially and from the point of view of the welfare of all its staff. Biwater is fortunate to have made considerable investment recently in its IT systems, which came into full operation in January 2020, enabling maximum productivity to be maintained under the circumstances, both on and off sites. I deeply commend all of the Group's employees for their adaptability and hard work, now and throughout the year under review, and wish them and their families, our partners, our suppliers and our clients, everything of the best for robust health and a swift return to business as usual in the months to come.

Sir Adrian White CBE
Chairman

Strategic report
for the year ended 30 June 2019

The Directors present the Strategic report together with the audited consolidated financial statements for the year ended 30 June 2019.

Business Overview

The Group continues its activities based upon its core capabilities, providing world-class water and wastewater treatment solutions, including membrane technology, ultra-filtration and desalination, with suitable financing to nations across the globe in the most sustainable, ethical and ecological way possible.

The temporary decline in turnover and loss for the year are a consequence of the delayed commencements on our large signed contracts. Net assets have also dropped as we await the significant cash flows to commence on these projects.

Ongoing support from Export Credit Agencies (ECAs) from around the world – in particular UK Export Finance (UKEF), with strong political support from UK Government's Department for International Trade - has assisted in major contract awards to date and continues to support in the development of significant new international sales opportunities. An example of this being the \$272m contract for the Tamale Water Supply Scheme in Ghana, with its 100% externally financed, UKEF-supported solution. This project reached its first financial close in December 2019 and has become effective as of March 2020. Biwater will now be commencing this project, with the initial design and environmental phase of works from April 2020, before constructing the new water treatment plant which will provide 135,000 m³/ per day of drinking water.

Our \$201m contract in Cameroon for the design, construction, refurbishment and extension of water treatment, production, storage and distribution infrastructure, spanning 13 locations across the country, is a further example of an ECA-supported project which the Biwater Group is able to offer. This project, which has suffered delays in commencement of construction activities, has now concluded its design and environmental works phase, and following further budget approvals in territory for 2020 and the final presidential decree, will then be delivered over the next three years.

Our contract in the Kurdistan Region of Iraq, to deliver a large 600,000 m³/day water treatment plant in Erbil and wastewater treatment facilities in Sulaimani, has been delayed, impacted by the Government elections across Iraq. The development phase of this \$1.2bn contract and all necessary deliverables has been completed by Biwater. In agreement with the Kurdistan Regional Government, the contract has been divided into two phases to deliver an initial 300,000 m³/day water treatment plant in Erbil, and following announcements of additional funding from the UK in 2019 we await the conclusions to the budget and oil sharing agreements between Federal Iraq and the semi-autonomous Kurdistan Region, before progressing to financial close on this landmark project. In the interim, addressing the urgent humanitarian water needs across the region in the intervening period, Biwater has been carrying out emergency early works to increase clean water provision in the region.

Biwater Inc. in Los Angeles, California has had a successful year delivering on its contracts to provide ultrafiltration and reverse osmosis systems in its domestic market, including the Groundwater Reliability Improvement Project (GRIP) water treatment plant and Perris II, Cherry Point and Westside projects. Biwater Inc.'s management has been highly successful in nurturing the potential of the business, having bid and won a significant number of projects in 2019. Considering its current size, the contribution from Biwater Inc. to group revenue has been impressive, and recent bidding success has driven the region in an upwards trajectory. The business has relocated to significantly larger premises in order to support expansion. The new workshop, three times the size of the previous one, will enable the business to expand its technology fabrication and assembly offerings, in terms of both volume and scope, and support this unit's desire to increase its market share both domestically and, in time, internationally.

Strategic report
for the year ended 30 June 2019 (continued)

Outlook

The Group continues to be successful in winning new contracts around the world with our innovation and total solutions approach, including where needed the sourcing of the low-cost, long tenor funding, combined with Biwater's history and credentials of delivering projects in over 90 countries, giving Biwater the competitive edge to secure new contract awards.

These factors, together with a growing need for Biwater's wide range of capabilities and services in increasingly water-stressed regions, and a widespread lack of investment in water treatment infrastructure, is culminating in a growing pipeline of opportunities, as well as a growth in our secured order book.

The Group now has existing and future contract work of over £1.3 billion from signed contracts which, pending financial close, as in the \$272m Ghana contract for example, will significantly affect the financial results of the Group in the future, and increase our capabilities and presence across our core territories.

The Covid-19 pandemic in 2020 has impacted the global economy, although with Biwater's customer base being largely public sector, with client Governments' Ministries of Finance supporting the larger, vital, externally-financed water infrastructure projects we undertake, in what is expected to be a continuing low interest rate environment, Biwater can look forward with confidence to undiminished demand for its services. Further information is included later in this Strategic report and also in the 'Going concern' section of note 1 to the financial statements which highlights a material uncertainty relating to the potential requirement for further funding.

The impact from Brexit on the Group is a positive one, given the UK Government's increased focus on international trade and the nature of our export-driven business model, which is at the moment, delivering specialist water and wastewater treatment services wholly outside Europe.

Markets and trends

Delivery of drinking water and the provision of sanitation are ever-increasing needs in a world struggling to meet population growth and environmental challenges. Combining this with the world's improved awareness of the importance of managing water resources and the impact of global warming, we consider that investment in the infrastructure and management systems that Biwater provides will continue to grow significantly.

Innovations in the industry will be driven by investments in research and development. To ensure that we continue to harness the latest technologies and deliver the best results for our clients, the Group will continue to invest in its people and the important research, pilot testing and development activities that will shape our future.

Objectives and strategy

Biwater's business is total capability in the design, finance, construction and operation of water and wastewater infrastructure, including packaged plants, mainly in developing territories and emerging markets or wherever poor sanitation and lack of clean safe drinking water exists.

Our strategy worldwide is driven by an engineering and financial solutions philosophy with design capabilities based in the UK and internationally (Malaysia, USA and Turkey) and a strong desalination and membrane technology centre of excellence in California (Biwater Inc.)

We target projects that are funded either by commercial lending, multilateral financing institutions and/or Export Credit Agencies. This affords us the flexibility to engineer both technical and financial solutions, together with the additional opportunity to enter into operation and maintenance and concession contracts over extended periods. In this way, we seek security of recurring cash flows, as well as ongoing profit over operating and concession periods.

Strategic report
for the year ended 30 June 2019 *(continued)*

Objectives and strategy *(continued)*

Given this strategy and pipeline of opportunities, the Biwater Group will be focusing on the territories and markets where this approach and our strong differentiation, as a total solution provider, is in the greatest need.

Key performance indicators

	2019 £m	2018 £m
Revenue: <i>As the prime measure of our economic output, revenue growth is key to measuring shareholder return and the success of our expansion strategies</i>	21.2	35.6
(Loss)/profit before taxation: <i>(Loss)/profit before taxation provides an indication of the quality of turnover growth</i>	(10.7)	1.9
(Loss)/profit after taxation: <i>(Loss)/profit after taxation provides an overall indication of the performance of the Group in managing its operational and fiscal risks in all its market places</i>	(10.3)	1.9
Net assets before pension liability: <i>This provides a measure of the net change in shareholder value in the year</i>	23.2	33.8
Net cash at bank including restricted balances: <i>The movement on the net cash at bank balance provides an indication of our financial flexibility and strength</i>	1.9	7.9

Risk management

The management of the business and the execution of the Group's strategy are subject to a number of risks. Strategies are in place to mitigate these risks, which includes having plans to deal with emergencies or loss of key assets.

The Board and the Group Risk Director set the strategic objectives and agree an acceptable risk profile, delegating authority to the Executive Committee (consisting of subsidiary Directors and other senior managers) to regularly review operational and strategic risk with early identification, analysis, evaluation and its removal or mitigation.

These strategic objectives include embedding our enterprise risk management philosophy into many of the organisation's policies and procedures, affecting pre-sale and post-sale activities.

The Group also maintains a risk management process which includes the maintenance of risk registers which are reviewed by the Executive Committee.

Principal risks and uncertainties

The Group maintains risk management processes which include undertaking due diligence prior to project initiation and continued risk assessment via a risk register from the point of tender finalisation and throughout the life of a contract. The risk register assesses probability of risk occurrence, the potential financial impact of a risk should it crystallise and the potential reputational impact of the risk.

Strategic report
for the year ended 30 June 2019 (continued)

Principal risks and uncertainties (continued)

The Board recognises that no risk management process can fully eliminate risk, but believes that it has an effective framework for risk management that will recognise, minimise and mitigate the effect of risk crystallisation should it occur. The significant risk areas within the business are:

1. Contract performance, client, economic and financing security risks

The Group is subject to counterpart risk in overseas territories, many of which are in emerging markets. If unable to manage the risks associated with operations in emerging markets, the business and the results of operations could be adversely affected. Risks associated with doing business in these markets include:

- An unfavourable political or economic environment, including rates, duties, exchange controls, expropriation, import controls and other trade barriers
- Unexpected legal or regulatory changes and the associated cost of compliance
- The potential reliance on long-term licences from governments and contracts with public-sector clients
- The possible exposure of new contracts in these difficult market conditions to unforeseeable costs and higher risk associated with working in emerging markets

These risks are mitigated by a range of internal review procedures which enable the contract terms to be scrutinised and assessed during the tendering or negotiation process. During the implementation phase, attention is paid to monitoring contract performance and delivering client milestones in accordance with the Group obligations to each project.

The Group's contract control system allows a systematic and regular review to be undertaken, and highlights contractual, financial and operational risks and opportunities.

2. Large contract credit risk

A significant proportion of the Group's revenue comes from a small number of large contracts. The impact of loss, expiry, suspension, cancellation or termination of any one of these large contracts, for any reason, could have a material adverse effect on the Group's future results and financial condition. A variety of contract structures including those set out by the International Federation of consulting Engineers (FIDIC), are used to mitigate risk on construction programmes which may be shared by both client and contractor. The Group has a well-balanced spread of contracts over many regions of the world and an order backlog which provides long-term visibility.

Credit risk is significantly reduced through the use of Export Credit Agency guaranteed, external finance, directly drawn down by Biwater to fund project delivery.

3. Foreign currency risk

Most of the Group's business is transacted in US Dollars or Euros. The Group seeks to mitigate currency risk by ensuring that revenue and the related procurement are in the same underlying currency. Where considered appropriate, forward cover or similar instruments are applied to cover anticipated currency fluctuations.

The Group is however still exposed to movements in exchange rates.

4. Interest rate risk

During the year under review, the Group was principally debt free apart from a small overdraft facility in one of the French subsidiaries. The interest charge and risk on these facilities is not material.

Strategic report
for the year ended 30 June 2019 (continued)

Principal risks and uncertainties (continued)

5. Retirement benefits risk

Prior to 1 April 2003, the employees of Biwater Holdings Limited and Biwater International Limited participated in a funded scheme known as the Biwater Retirement and Security Scheme (BRASS). Membership of the defined benefit main section of our pension scheme was closed to employees with effect from April 2003, with no further accrual of annual benefit. The future pension liability for existing members to the date of closure remain and are included in the IAS19 disclosure. When in deficit, the funds are reported as unsecured creditors of the Group. The risk is that the scheme's assets do not match its liabilities. The scheme's assets comprise largely of bonds and other diversified funds, the values of which are affected by the performance of the stock market. The valuation of the scheme's liabilities is directly affected by a number of factors, including discount rates, the rate of inflation and longevity of scheme members. Currently the scheme assets do not match the scheme liabilities as detailed in the employee benefits note set out in the financial statements.

In common with many defined benefit schemes, the BRASS scheme was exposed to actuarial losses resulting from the Government quantitative easing policies impacting on investment returns and discount rates. The IAS19 deficit at 30 June 2019, net of a deferred tax asset, was £13.6m (2018: £14.0m). This deficit has reduced significantly over the last three years.

During the 12-month period under review aggregate employer cash contributions to the defined benefit sections of BRASS amounted to £2.7m (2018: £2.3m).

6. Covid-19 pandemic

At Biwater, the health and well-being of our employees, clients, suppliers and the communities we operate in is our most important priority. We are continuing to monitor this situation daily and are aligning our actions with the recommendations from the World Health Organisation and local governments in all the countries we operate in.

For cases where we are or have been mandated to close offices at the request of local governments, we are ready and able to implement our business continuity plans to provide uninterrupted service to our clients.

Our ability to work from home allows our business to remain operational. For decades our global team have collaborated while working remotely, and our workforce is therefore accustomed to working virtually.

In locations where government policy permits, our offices and worksites are open to support employees for business-critical roles and activities. In addition, following local guidance, our Biwater teams are continuing to provide operation and maintenance support for our client's water and wastewater treatment plants around the world, which deliver essential services to the countries they operate in.

In these instances, measures are in place to enable appropriate social distancing, and we have implemented strict health and safety guidelines within our offices, treatment plants and worksites, and have also applied proactive measures for any staff members who may feel ill or may be otherwise at risk.

In some countries, lock down restrictions and border closures may temporarily impede progress on worksites, and we will continue to monitor the situation on a case by case basis.

These measures will continue to remain in place until the World Health Organisation and local governments advise otherwise. We remain fully committed to deliver on the work that has been entrusted to us from our clients and the communities in which we serve.

Strategic report
for the year ended 30 June 2019 (continued)

Principal risks and uncertainties (continued)

6. Covid-19 pandemic (continued)

To mitigate the financial impact of Covid-19 and protect our cash position during this period of disruption, we are implementing a number of prudent actions including:

- Making reductions to our cost base and deferring capital expenditure
- Taking advantage of the opportunity to defer PAYE and other payments
- Our employees and directors have agreed a 20% reduction in salaries

To safeguard jobs across the Group we will make use of the Government's job retention scheme, and will 'furlough' the affected workforce, ensuring immediate remobilisation when conditions improve.

Biwater's customer base is largely public sector, and whilst some countries economy is oil based, which is suffering a short term price decline, our client Governments' Ministries of Finance are supporting the larger, vital, externally-financed water infrastructure projects we undertake, in what is expected to be a continuing low interest rate environment.

Biwater's order book and pipeline of opportunities remains strong, and we therefore look forward with confidence to undiminished demand for its services.

On behalf of the Board

P B Stevens
Director

3 September 2020

Directors' report
for the year ended 30 June 2019

The Directors present their report together with the audited consolidated financial statements for the year ended 30 June 2019.

Principal activities

The principal activities of the Group are the provision of services to the water and wastewater industry worldwide. Further details of the nature of business of the principal group undertakings are given in note 26 to the consolidated financial statements. The Group operates out of a number of branches and subsidiaries worldwide in order to bid locally for, and manage, its contracts.

Results for the year

Revenue for 2019 was £21.2m, down on the prior year principally due to the completion of activities in certain territories and the delay in commencement on signed contracts progressing towards financial close.

The Group reports a loss on ordinary activities before taxation of £10.7m compared to a profit of £1.9m in the prior year.

The Directors do not recommend the payment of a dividend (2018: £nil).

The Group continues to be substantially debt free and had net cash at bank of £1.9m at 30 June 2019 (2018: £7.9m).

Net assets stand at £23.2m excluding the Group's pension liability (2018: £33.8m). Bond guarantee levels have been significantly reduced to £5.4m (2018: £11.3m).

Despite making a £2.2m provision for potential future costs relating to the equalisation of guaranteed minimum pensions for men and women, the gross pension liability reduced by £0.4m in the year, due to contributions and a healthy asset performance from a diverse, well matched portfolio. The Group's deficit recovery plan continues ahead of target and has a long-dated recovery period agreement in place, which has 21 years remaining.

Derivatives and other financial instruments

The Group holds cash and short-term deposits to fund its operations and has various other financial instruments such as trade debtors and trade creditors arising directly from its operations. The accounting policy for financial instruments is detailed in note 1. The Group utilised no derivative financial instruments at 30 June 2019.

Employee involvement

The welfare of employees and others who might be affected by the Group's activities is taken very seriously.

The Group provides regular and continued information of its activities on the Biwater staff website. A review of the Group's financial position is included annually and there are regular features on different aspects of the Group to help develop employee awareness of the market conditions and the Group's results. Good employee communication is given a high priority in order to involve employees in the affairs of the business.

A code of ethics applies to all employees. It is designed to promote honest and ethical conduct. Our policy provides for the reporting of alleged violations of our Code of Conduct without fear of reprisal against the reporting individual.

Directors' report
for the year ended 30 June 2019 (continued)

Directors and their interests

Directors holding office during the year and up to the date of signing are listed below:

Sir Adrian White
Mr AG White
Mr RB White (resigned 19 August 2020)
Mr JJ Jones
Mr PB Stevens
Mr JS Lamb
Ms JL Wick (appointed 13 January 2020)

With the exception of Sir Adrian White (see note 25 to the consolidated financial statements), no Director has, or has had, a disclosable interest in the shares of Biwater Holdings Limited or other group companies.

During the year, none of the Directors had any material interest in any contracts in relation to the Group's business.

Directors' indemnities

The Company maintains liability insurance for its Directors and officers. Following shareholder approval in July 2005, the Company has also provided an indemnity for its Directors and secretary, which is a qualifying third party indemnity provision for the purposes of the Companies Act 2006.

Future developments and financial risk management

Details of future developments and the Group's financial risk management objectives and policies are set out in the Strategic report.

Statement of Directors' responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements

The Directors are responsible for preparing the Strategic report, the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under this law the Directors have elected to prepare the Group financial statements in accordance with International Financial Reporting Standards (as adopted by the European Union) and the Company financial statements in accordance with Financial Reporting Standard 101 UK Generally Accepted Accounting Practice (UK Accounting Standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Company and of the profit or loss of the Group for that period.

In preparing these financial statements the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company and the Group will continue in business.

Directors' report
for the year ended 30 June 2019 (continued)

Statement of Directors' responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements (continued)

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Accounting reference date

The Group and the Company's accounting reference date is the 29th June. In accordance with Section 390A of the Companies Act 2006, the Directors have drawn up the Group and Company financial statements to the 30th June.

Auditors

The auditors, BDO LLP, have indicated their willingness to continue in office.

Statement as to disclosure of information to the auditors

So far as each Director is aware, there is no relevant audit information (as defined by Section 418 of the Companies Act 2006) of which the Group's and company's auditors are unaware and each Director has taken all the steps that he ought to have taken in his duty as a Director in order to make himself aware of any relevant audit information and to establish that the Group's and company's auditors are aware of that information.

Approved by the Board and signed on its behalf by

P B Stevens
Director

3 September 2020

**Independent auditor's report
for the year ended 30 June 2019**

INDEPENDENT AUDITOR'S REPORT TO MEMBERS OF BIWATER HOLDINGS LIMITED

Opinion

We have audited the financial statements of Biwater Holdings Limited ("the Parent Company") and its subsidiaries ("the Group") for the year ended 30 June 2019 which comprise the consolidated statement of profit or loss, the consolidated statement of total comprehensive income, the consolidated statement of financial position, the consolidated statement of cash flows, the consolidated statement of changes in equity, the company balance sheet, the company statement of changes in equity, and the notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in the preparation of the Group financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union. The financial reporting framework that has been applied in the preparation of the Parent Company financial statements is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the Parent Company's affairs as at 30 June 2019 and of the Group's loss and the Parent Company's loss for the year then ended;
- the Group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the Parent Company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Group and the Parent Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty related to going concern

We draw attention to note 1 to the financial statements which indicates the directors considerations over going concern, including the potential impacts of Covid-19 on the group and parent company and the contract receipts which may result in the Group requiring additional funding. As stated in note 1, these events or conditions, along with other matters as set out in note 1, indicate that a material uncertainty exists that may cast significant doubt on the group's and the parent company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

**Independent auditor's report
for the year ended 30 June 2019 (continued)**

Other information

The Directors are responsible for the other information. The other information comprises the information included in the Report and consolidated financial statements, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and Directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Group and the Parent Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report and Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion;

- adequate accounting records have not been kept by the Parent Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the Parent Company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of Directors

As explained more fully in the Statement of Directors' responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

**Independent auditor's report
for the year ended 30 June 2019 (continued)**

In preparing the financial statements, the Directors are responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Parent Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the Parent Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Parent Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Parent Company and the Parent Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

James Fearon (Senior Statutory Auditor)

Notes forming part of the consolidated financial statements for the year ended 30 June 2019

1 Accounting policies

Biwater Holdings Limited is a company incorporated in England under the Companies Act. The address of the registered office is given on the contents page and the nature of the Group's operations and its principal activities are set out in the Strategic report.

The information set out in this report covers the year to 30 June 2019, with comparative figures relating to the year to 30 June 2018 and includes the results of the Company and its subsidiaries, together referred to as the Group.

Basis of preparation and statement of compliance

The principal accounting policies adopted in the preparation of the consolidated financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated.

The consolidated financial statements are presented in Sterling, which is also the Group's functional currency.

Amounts are rounded to the nearest million, to one decimal place, unless otherwise stated.

These financial statements have been prepared in accordance with International Financial Reporting Standards, International Accounting Standards and Interpretations (collectively IFRSs), as adopted by the European Union ('adopted IFRS') and those parts of the Companies Act 2006 applicable to companies reporting under adopted IFRS.

Judgements and key areas of estimation uncertainty

The preparation of financial statements in compliance with adopted IFRS requires the use of certain critical accounting estimates. It also requires Group management to exercise judgment in applying the Group's accounting policies. The areas where significant judgments and estimates have been made in preparing the financial statements and their effect are disclosed in note 2.

Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis, except for the following items (refer to individual accounting policies for details):

- Revalued property
- Net defined benefit liability

Changes in accounting policies

a) New standards, interpretations and amendments effective from 1 July 2018

IFRS 15: *Revenue from Contracts with Customers* ('IFRS 15') and IFRS 9: *Financial Instruments* ('IFRS 9') became effective for the first time for the period beginning on 1 July 2018.

IFRS 15 is relevant across all industries and for most types of revenue transaction and outlines a single comprehensive model of accounting for revenue arising from contracts with customers. The new standard focuses on the identification of performance obligations and distinguishes between performance obligations that are satisfied "at a point in time" and those which are satisfied "over time". The core principle underlying the new model is that an entity should recognise revenue in a manner that depicts the pattern of transfer of control of goods and services to customers.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Changes in accounting policies (continued)

a) New standards, interpretations and amendments effective from 1 July 2018 (continued)

In accordance with the transitional provisions in IFRS 15, the Group has adopted the cumulative effect method of implementation. Implementation of the standard had no material impact at the date of initial application, being 1 July 2019. The accounting policy for revenue recognition set out below has been updated to align the Group's policy with the requirements of IFRS 15 regarding the recognition of revenue and profit, particularly on long-term contracts. Additionally, further information has been provided in the notes to the financial statements regarding the disaggregation of revenue and movements during the year on contract assets and liabilities (see note 4).

IFRS 9 has three core components: Classification and Measurement, Impairment and Hedge Accounting. The Classification and Measurement and the Hedge Accounting components have no impact on the Group.

The Impairment component of IFRS 9 requires the Group to use an expected credit loss approach in assessing the recoverability of trade receivables and other financial assets, meaning that it is no longer necessary for a loss event to occur before a provision is recognised. Instead, a forward-looking basis is used, taking into account the risk profile of an asset and assessing potential future economic conditions.

Implementation of the standard has given rise to an additional impairment allowance of £0.7m at 1 July 2018, the implementation date for the standard. In accordance with the transitional arrangements in IFRS 9, this has been charged as an adjustment to the opening reserves at 1 July 2018 and comparative figures have not been amended.

IFRS 9 has not resulted in any change to the cash flows associated with the Group's financial assets.

b) New standards, interpretations and amendments not yet effective

The following new standards, interpretations and amendments, which are not yet effective and have not been adopted early in these financial statements, will, or may, have an effect on the Group's future financial statements:

IFRS 16: *Leases* ('IFRS 16') will come in to force on 1 July 2019. The standard requires lease agreements to be recognised in the balance sheet by the inclusion of a 'right of use' asset and a loan obligation for the future payments required under each lease. Lease costs will be recognised in the form of depreciation of the right of use asset and interest cost on the lease liability. Lease liabilities are discounted to present value using the interest rate implicit in the lease. In the consolidated statement of cash flows, lease payments will be reflected as cash flows from financing activities reflecting the payment of lease liabilities and related interest.

Under current accounting, only finance leases are accounted for in this way, whilst operating leases are not included in the balance sheet and rental costs are recognised on a straight line basis as operating costs in the consolidated statement of profit or loss and as operating cash flows in the consolidated statement of cash flows.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Changes in accounting policies (continued)

b) New standards, interpretations and amendments not yet effective (continued)

The Group are still assessing the impact IFRS 16 will have on the financial statements. The Group has a number of property operating leases, the most significant of which is the lease on the Group's head office in Dorking, which has 12 years to run after 30 June 2019 when IFRS 16 comes in to force. Total future payments under all leases are £8.3 million before discounting, of which the Dorking property amounts to £7.2m.

Basis of consolidation

Where the Company has control over an investee, it is classified as a subsidiary. The Company controls an investee if all three of the following elements are present: power over the investee, exposure to variable returns from the investee, and the ability of the investor to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

The consolidated financial statements present the results of the Company and all its subsidiaries ('the Group') as if they formed a single entity. Intercompany transactions and balances between group companies are therefore eliminated in full.

The consolidated financial statements incorporate the results of business combinations using the acquisition method. In the statement of financial position, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the consolidated statement of comprehensive income from the date on which control is obtained. They are deconsolidated from the date on which control ceases.

If a subsidiary has a non-coterminous year end its results are adjusted to reflect the Group's financial year.

Going concern

In determining the appropriate basis of preparation of these financial statements, the Directors are required to consider whether the Group and the Company can continue in operational existence for the foreseeable future.

Based on the latest trading expectations and associated cash flow forecasts of the Group headed by Biwater Holdings Limited, the Directors have considered the cash requirements of the Group and the Company and believe that the Group and the Company will be able to continue in operations and meet its liabilities as they fall due for at least the next twelve months following approval of these financial statements. As such the financial statements have been prepared on a going concern basis.

The Directors recognise that inherent within international contracting are uncertainties around the timing and receipt of significant contract sums. The Directors have forecast future expected receipts in respect of a number of signed international long-term contracts over the forecast period of 12 months from the date of signing these financial statements using their considerable experience of the industry; although the timing of financial close of these signed contracts and therefore the ability to draw down related contracted amounts is uncertain. In May 2020, one such signed contract has achieved financial close on its external financing which sets contract activity in motion and permits improved accuracy in the forecasting of future contracted receipts.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Going concern (continued)

Covid-19 has certainly had a dramatic effect across the world and while for Biwater this has not so far delayed any new construction activity, its impact in the medium term on our ability to deliver activities in overseas territories, where open borders and free movement of people are essential to complete our construction obligations, remains to be seen. At the time of writing we are seeing restrictions beginning to be lifted, and we look forward to this continuing. The Directors recognise that inherent within international contracting are uncertainties around the timing and receipt of significant contract sums and that these are compounded by Covid-19 and the potential impacts if activities remain significantly restricted beyond Q4 2020. If a number of significant receipts on signed contracts are not achieved as forecast, the Group may require additional funding.

The Board and the main shareholder are confident that in light of its recent debt funding arrangements, corporate banking support and products available to assist UK exporters' working capital needs, such additional funding would be available. The board and the main shareholder already have signed indicative heads of terms with a reputable lender for a credit approved £2.0 million banking facility. In addition, the board are considering other options which would bring additional funding into the Group should the need arise. In view of the above and Covid-19, the timing of contract receipts is considered to be a material uncertainty which may cast significant doubt over the Group's and Company's ability to continue as a going concern. The financial statements do not include the adjustments that would result if the Group and Company was unable to continue as a going concern.

Revenue

The Group recognises revenue when control over the service or product is transferred to the customer and revenue is measured at the fair value of the consideration received or receivable, excluding sales tax, rebates and discounts.

The majority of the Group's revenue arises under long-term contracts. The work specified with a contract may incorporate design, feasibility, procurement, construction and advisory services. Often these are integrated and the customer procures one complete package, but where a contract comprises distinct performance obligations, each is accounted for separately. The scope of works will often be subject to change during the course of a contract, such changes being considered on a case by case basis to determine whether they are a new separate performance obligation and accounted for as such, or part of the original works and dealt with on a cumulative catch up basis. Where the consideration is variable, revenue is only recognised when it is highly probable not to suffer a significant reversal in the future.

Long-term contract revenue is recognised over time in accordance with the stage of completion of the contractual obligations to the client. The stage of completion is usually based on the proportion of costs incurred compared to the total expected costs to complete the contract, where this also represents the timing of a right to receive consideration, and provided the outcome of the contract can be assessed with reasonable certainty.

Where the outcome of a long-term construction contract cannot be assessed with reasonable certainty, revenue is recognised only to the extent of contract costs incurred where these are reasonably expected to be recoverable.

Where it is probable that contract costs will exceed contract revenue, the expected loss is recognised as an expense immediately.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Revenue (continued)

Revenue for other services is recognised in the year in which the service is rendered, provided the amount of revenue can be measured reliably and it is probable that the Group will receive any consideration.

Goodwill

Goodwill represents the difference between the fair value of the consideration for a business combination and the total acquisition date fair value of the identifiable assets, liabilities and contingent liabilities acquired.

Goodwill is stated at cost less any accumulated impairment losses and is allocated to each cash-generating unit expected to benefit from the synergies of the business combination.

The profit or loss on the disposal of a previously acquired business includes the attributable amount of any purchased goodwill relating to that business.

Impairment of assets

Goodwill is not amortised but is tested annually for impairment at the financial year end. Assets that are subject to amortisation or depreciation are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, the asset is written down accordingly. The recoverable amount is the higher of an asset's value in use and fair value less costs to sell.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the smallest group of assets to which it belongs for which there are separately identifiable cash flows - its cash generating units ('CGUs').

Impairment charges are included in profit or loss, except to the extent they reverse gains previously recognised in other comprehensive income. An impairment loss recognised for goodwill is not reversed.

Exceptional items

Exchange gains and losses made in respect of the revaluation of intercompany balances are treated as exceptional items and shown separately in the statement of profit or loss because the Directors believe this disclosure is necessary to assist in the understanding of the financial performance of the Group. Material items of a non-recurring nature may be treated as exceptional for the same reason.

Transactions entered into by Group entities in a currency other than the currency of the primary economic environment in which they operate (their "functional currency") are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the reporting date. Exchange differences arising on the retranslation of unsettled monetary assets and liabilities are recognised immediately in profit or loss, except for foreign currency borrowings qualifying as a hedge of a net investment in a foreign operation, in which case exchange differences are recognised in other comprehensive income and accumulated in the foreign exchange reserve along with the exchange differences arising on the retranslation of the foreign operation.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Foreign currency

Exchange gains and losses arising on the retranslation of monetary financial assets are treated as a separate component of the change in fair value and recognised in profit or loss. Exchange gains and losses on non-monetary other comprehensive income ('OCI') financial assets form part of the overall gain or loss in OCI recognised in respect of that financial instrument.

On consolidation, the results of overseas operations are translated into Sterling at rates approximating to those ruling when the transactions took place. All assets and liabilities of overseas operations, including goodwill arising on the acquisition of those operations, are translated at the rate ruling at the reporting date. Exchange differences arising on translating the opening net assets at opening rate and the results of overseas operations at actual rate are recognised in other comprehensive income and accumulated in the foreign exchange reserve.

Exchange differences recognised profit or loss in Group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the overseas operation concerned are reclassified to OCI and accumulated in the foreign exchange reserve on consolidation. On disposal of a foreign operation, the cumulative exchange differences recognised in the foreign exchange reserve relating to that operation up to the date of disposal are transferred to the consolidated statement of comprehensive income as part of the profit or loss on disposal.

Leased assets

Where substantially all of the risks and rewards incidental to ownership of a leased asset have been transferred to the Group (a "finance lease"), the asset is treated as if it had been purchased outright. The amount initially recognised as an asset is the lower of the fair value of the leased property and the present value of the minimum lease payments payable over the term of the lease. The corresponding lease commitment is shown as a liability. Lease payments are analysed between capital and interest. The interest element is charged to the consolidated statement of profit or loss over the period of the lease and is calculated so that it represents a constant proportion of the lease liability. The capital element reduces the balance owed to the lessor.

Where substantially all of the risks and rewards incidental to ownership are not transferred to the Group (an "operating lease"), the total rentals payable under the lease are charged to the consolidated statement of comprehensive income on a straight-line basis over the lease term.

Financial instruments

IFRS 9: *Financial Instruments* has replaced IAS 39: *Financial Instruments: Recognition and Measurement*. The only significant impact of the adoption of this new standard in the current year is that the categorisation of the group's financial assets and the method by which the group calculates impairment losses on those assets have changed, as explained below.

a) Financial assets classified as 'amortised cost'

Financial assets are categorised based on the purpose for which they were acquired. All of the group's financial assets are currently categorised as and measured at 'amortised cost'. They comprise trade and other receivables, restricted cash and cash and cash equivalents in the consolidated statement of financial position.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Financial instruments (continued)

Recognition and measurement

These assets arise principally from the provision of goods to customers (e.g. trade receivables), but also incorporate other types of financial assets where the objective is to hold the assets in order to collect contractual cash flows and the contractual cash flows are solely payments of principal and interest. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue, and are subsequently carried at amortised cost (using the effective interest rate method where the time value of money is significant), less provision for impairment.

Impairment (including effect of change in accounting policy)

Impairment provisions for trade receivables and contract assets are recognised based on the simplified approach within IFRS 9 using a provision matrix in the determination of lifetime expected credit losses. During this process the probability of the non-payment of the trade receivables is assessed. The resultant probability percentage is then multiplied by the amount of the expected credit loss arising from default to determine the lifetime expected credit loss. On confirmation that any trade receivable will not be collectable, the gross carrying value of the asset is written off against the associated provision.

If, in a subsequent period, the amount of an impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed. Any subsequent reversal of an impairment loss is recognised in the consolidated income statement to the extent that the carrying value of the relevant asset does not exceed its amortised cost at the reversal date.

Cash and cash equivalents

Cash and cash equivalents in the consolidated statement of financial position comprise cash at bank and short-term deposits with an original maturity of three months or less. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any outstanding bank overdrafts. For the purpose of the consolidated statement of financial position, cash deposits and overdrafts are presented separately.

Restricted cash

Collateralised and restricted cash balances are held as surety for the provision of overdraft and guarantee facilities from banks and under contractual arrangements with clients, and are disclosed separately from cash and cash equivalents in the consolidated statement of financial position.

b) Financial liabilities classified as 'other financial liabilities'

Financial liabilities are classified into one of two categories, depending on the purpose for which the liability was acquired. The group has no financial liabilities classified as 'fair value through profit or loss' with all its financial liabilities currently being categorised as 'other financial liabilities'.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Financial instruments (continued)

The group's accounting policies for each significant type of financial liability within this category are as follows:

Bank and other long-term interest bearing borrowings

These borrowings are initially recognised at fair value net of any transaction costs directly attributable to the issue of the relevant financial instrument. Such interest bearing liabilities are subsequently measured at amortised cost using the effective interest rate method, which ensures that the interest expense over the period to repayment is at a constant rate on the balance of the liability carried in the consolidated statement of financial position. For the purpose of each financial liability, interest expense includes any initial transaction costs as well as any interest or coupon payable while the liability is outstanding.

Trade payables and other short-term monetary liabilities

Trade payables and other short-term monetary liabilities are initially recognised at fair value and are subsequently carried at amortised cost using the effective interest method.

c) Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset when a group entity has a legally enforceable right to offset the recognised amounts and intends either to settle these on a net basis or to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and also in the event of default, insolvency or winding up of the group entity or the relevant counterparty.

Employee benefits

Contributions to the Group's defined contribution pension scheme are charged to the consolidated statement of profit or loss in the year to which they relate.

The Group operates a closed defined benefit scheme known as the Biwater Retirement and Security Scheme ('BRASS').

The difference between the fair value of the assets held in the BRASS scheme and the scheme's liabilities measured on an actuarial basis using the projected unit method are recognised in the consolidated statement of financial position as a pension liability. The pension scheme liability is recorded net of any related deferred tax balance, with the recognition of any deferred tax asset following the principles described in the deferred tax accounting policy.

Changes in the defined benefit scheme liability arising from factors other than cash contributions by the Group are charged to the consolidated statement of profit or loss (current service cost, current interest cost and expected returns on assets) or the consolidated statement of total comprehensive income (actuarial gains and losses).

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Deferred taxation

Deferred tax assets and liabilities are recognised where the carrying amount of an asset or liability in the consolidated statement of financial position differs from its tax base, except for differences arising on:

- The initial recognition of goodwill;
- The initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting or taxable profit; and
- Investments in subsidiaries and jointly controlled entities where the Group is able to control the timing of the reversal of the difference and it is probable that the difference will not reverse in the foreseeable future

Recognition of deferred tax assets is restricted to those instances where it is probable that taxable profit will be available against which the difference can be utilised. The amount of any asset or liability is determined using tax rates that have been enacted or substantively enacted by the reporting date and are expected to apply when the deferred tax liabilities/(assets) are settled/(recovered).

Deferred tax assets and liabilities are offset when the Group has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority on either:

- The same taxable group company; or
- Different group entities which intend either to settle current tax assets and liabilities on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be settled or recovered

Property, plant and equipment

Items of property, plant and equipment are initially recognised at cost.

Freehold land and buildings are subsequently carried at fair value, based on periodic valuations by a professionally qualified valuer. Changes in fair value are recognised in other comprehensive income and accumulated in the revaluation reserve except to the extent that any decrease in value in excess of the credit balance on the revaluation reserve, or reversal of such a transaction, is recognised in profit or loss.

Freehold land is not depreciated. Depreciation is provided on items of plant and equipment so as to write off their carrying value over their expected useful economic lives. It is provided at the following rates:

Freehold buildings	-	4% per annum straight line
Plant and equipment	-	8% - 50% per annum straight line
Fixtures and fittings (including motor vehicles)	-	20% - 33% per annum straight line

Assets under construction are recognised at cost and are not depreciated. On completion, the asset is transferred to the appropriate category of property, plant or equipment.

Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

1 Accounting policies (continued)

Pre-award costs

Costs in respect of prospective contracts are written off to the consolidated statement of profit or loss in the year in which they are incurred. Where contracts are awarded within a financial year, the pre-award costs incurred after it became virtually certain that the contract would be awarded in that year are included in amounts recoverable on contracts.

Research and development

Expenditure on research and development activities is written off to the consolidated statement of profit or loss in the year in which it is incurred.

Provisions

When appropriate, the Group recognises provisions for liabilities of uncertain timing or amount including those for warranty claims and legal disputes if there is a likelihood that the dispute may lead to a cost to the Group. Provisions are measured at the best estimate of the expenditure required to settle the obligation at the reporting date, discounted at a pre-tax rate reflecting current market assessments of the time value of money and risks specific to the liability.

Cash flow restatement

The consolidated statement of cashflows for the year ended 30 June 2017 incorrectly included a short term trading loan of £1.5m within the cash and cash equivalents figure in the cash flow statement on the basis this was repayable within less than 3 months. This should instead have been included as a financing cash inflow for the year ended 30 June 2017. The opening cash and cash equivalents figure in the comparative cash flow statement has therefore increased to £10.5m from £9.0m with a corresponding financing outflow of £1.5m on repayment of the short term trading loan. As the opening balance sheet at 1 July 2017 has not been impacted this has not been presented.

2 Critical accounting estimates and judgements

The Group prepares its financial statements in accordance with adopted IFRS. In applying many accounting principles, it is necessary to make accounting estimates and judgements. These accounting estimates and judgements are often subjective and may be affected by changing circumstances or changes in the Group's analysis. Changes in these accounting estimates and judgements have the potential to materially affect the results of the Group. The accounting policies that would most likely produce materially different results were there to be a change in the underlying accounting estimates and judgements are discussed below. These policies have been applied consistently.

Recognition of profits and losses on long term contracts

A significant proportion of the Group's revenue and margin comes from a small number of large contracts which span several accounting periods. Profit is estimated on a contract-by-contract basis based on the percentage completion of the contract and the final expected outcome on the contract using the latest available information. No profit is taken on a contract until, in the judgement of the Directors, the outcome of that contract can be assessed with reasonable certainty. Losses are provided in full as soon as they are foreseen. The Directors hold regular meetings to assess the latest position on each significant contract and to review the estimated percentage completion and final outcome calculations.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

2 Critical accounting estimates and judgements (continued)

Loss allowances against trade and other receivables

The Directors make judgements regarding the level of loss allowance required against trade receivables and other contract assets. The Group's customers are principally based in emerging markets and the complex nature of the Group's long-term contracts can mean that collection of trade debtors is subject to local financing arrangements and to negotiations regarding the final completion of a contract. The Group's Directors are closely involved in these negotiations and exercise judgement based on historical experience and a detailed knowledge of the contractual terms. Further details of the estimates made are set out in note 13.

Pension benefits

The Group operates a closed defined benefit pension scheme. The pension cost and recorded liability in the Group's accounts are assessed in accordance with the advice of an independent qualified actuary. The estimates used in the calculations are determined by the Directors, based on discussions with the actuary. The key estimates used include future salary increases, future price inflation, mortality rates and the rate of interest used to discount liabilities. Changes in these estimates could have a significant impact on the reported profit and net assets of the Group.

Deferred tax

The amount of deferred tax recognised is dependent on judgements about the realisation or settlement of assets and liabilities. A deferred tax asset is recognised only to the extent that, in the view of the Directors, it is probable that future taxable profits will be available against which the asset can be utilised. The Directors exercise judgement over the likelihood and timing of future profitability, from which estimates are made to establish whether a deferred tax balance should be recognised. The key judgement made is over the likelihood and timing of specific future contract profits, and in exercising this judgement, the Directors have considered significant signed contracts which have already been awarded to the Group or are considered highly likely to be awarded to the Group.

3 Financial instruments - risk management

The Group is exposed through its operations to the following financial risks:

- Large contract credit risk;
- Foreign currency risk;
- Interest rate risk; and
- Liquidity risk

In common with all other businesses, the Group is exposed to risks that arise from its use of financial instruments. The Group's objectives, policies and processes for managing these financial risks are set out in the strategic report. Further quantitative information in respect of these risks is presented in this note and otherwise throughout these financial statements.

There have been no substantive changes in the Group's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

3 Financial instruments - risk management (continued)

(i) Principal financial instruments

The principal financial instruments used by the Group, from which financial instrument risk arises, are as follows:

- Trade and other receivables;
- Cash and bank balances;
- Trade and other payables; and
- Bank overdrafts and short term trading loans

(ii) Financial instruments by category

Financial assets – loans and receivables

	2019	2018
	£m	£m
Cash and bank balances including restricted cash	2.4	8.5
Trade and other receivables	21.0	30.1
	23.4	38.6
Total financial assets - at amortised cost	23.4	38.6

Financial liabilities

	2019	2018
	£m	£m
Trade and other payables	12.6	16.3
Bank overdrafts	0.5	0.6
	13.1	16.9
Total financial liabilities – at amortised cost	13.1	16.9

3 Financial instruments - risk management (continued)

(iii) Financial instruments not measured at fair value

Financial instruments not measured at fair value include cash and cash equivalents, trade and other receivables, trade and other payables, and borrowings.

Due to their short-term nature, the carrying value of cash and cash equivalents, trade and other receivables, trade and other payables and borrowings approximate to their fair values.

(iv) Financial instruments measured at fair value

There were no financial instruments measured at fair value.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

3 Financial instruments - risk management (continued)

(v) General objectives, policies and processes

The Board of Directors has overall responsibility for the determination of the Group's risk management objectives and policies. Details of these objectives, policies and processes are given in the Strategic report.

Large contract credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group is mainly exposed to credit risk from entering into long-term contracts with customers across various global jurisdictions. It is the Group policy, implemented locally, to assess the credit risk of new customers before entering into contracts. Details of the Group's management of this risk is set out in the Strategic report.

Credit risk also arises from cash and cash equivalents and deposits with banks.

Foreign currency risk

Foreign currency risk arises when individual group entities enter into transactions denominated in a currency other than their functional currency. The Group's policy is, where possible, to allow group entities to settle liabilities denominated in their functional currency with the cash generated from their own operations in that currency. Where group entities have liabilities denominated in a currency other than their functional currency (and have insufficient reserves of that currency to settle them), cash already denominated in that currency will, where possible, be transferred from elsewhere within the Group.

In order to manage currency risk, Board members receive a weekly cash report, analysed by major currency held. The Group's cash position is monitored at regular Board meetings.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

3 Financial instruments - risk management (continued)

Foreign currency risk (continued)

The Group's net exposure to foreign exchange risk was as follows:

	Functional currency of individual entity							O
	Sterling		US Dollar		Euro		2019	
	2019	2018	2019	2018	2019	2018		
£m	£m	£m	£m	£m	£m	£m		
Net financial assets/(liabilities)								
Sterling	1.5	1.2	-	-	(0.1)	-	-	-
US Dollar	(0.1)	8.0	0.6	3.3	-	(0.1)	-	-
Euro	2.5	2.5	-	-	0.4	0.9	2.7	2.7
Other	0.2	0.1	-	-	-	-	3.4	3.4
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total net exposure	4.1	11.8	0.6	3.3	0.3	0.8	6.1	6.1
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

The effect of a 5% strengthening of the Euro against Sterling at the reporting date on the Euro denominated net financial assets and other variables held constant, have resulted in an increase in profit for the year and increase in net assets of £0.1m (2018: £0.4m). A 5% rate would, on the same basis, have decreased profit and decreased net assets by £0.1m (2018: £0.4m).

Capital disclosure

The Group's objective when maintaining capital is to safeguard the entity's ability to continue as a going concern, secure the shareholders and benefits for other stakeholders. The Group's strategy is to preserve a strong cash base and to manage

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

4 Revenue from contracts with customers

Disaggregation of revenue

The Group has disaggregated revenue into various categories in the following table in order to provide additional information on the nature, amount, timing and uncertainties of revenue flows.

	Year ended June 2019	Year ended June 2018
	£m	£m
<i>Primary geographical markets</i>		
Europe & North Africa	7.0	8.0
Asia	0.1	12.5
Middle East	6.2	5.2
Africa	2.0	2.3
Americas	5.9	7.6
	21.2	35.6
<i>Timing of transfer of goods and services</i>		
Contract revenue – recognised over time	17.7	32.0
Operation and maintenance and other ancillary services – recognised at a point in time	3.5	3.6
	21.2	35.6

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

4 Revenue from contracts with customers (continued)

Significant changes in the contract asset (excluding trade receivables) and contract liability balances during the year are analysed as follows:

	30 June 2019		30 June 2018	
	Contract assets £m	Contract liabilities £m	Contract assets £m	Contract liabilities £m
At 1 July	9.7	(6.9)	8.7	(9.8)
Impact of adoption of IFRS 9	(0.5)	-	-	-
At 1 July after restatement	9.2	(6.9)	8.7	(9.8)
Reallocations from other receivables/(payables)	0.5	(1.6)	-	-
Transfers to trade receivables	(3.6)	0.8	(2.0)	-
Decrease/(increase) in impairment allowance	-	-	-	-
Disposal of subsidiary undertaking	-	-	(0.3)	0.1
Revenue booked in excess of cash received	2.7	-	3.5	-
Amount included that was recognised in revenue	-	4.1	-	8.7
Cash received in advance of performance	-	(0.2)	-	(6.0)
Exchange rate movement	0.2	-	(0.2)	0.1
At 30 June	9.0	(3.8)	9.7	(6.9)

Remaining performance obligations

At 30 June 2019, the Group had unsatisfied performance obligations resulting from long term contracts amounting to £1,256m (2018: £1,054m). Due mainly to the delays caused by the global COVID-19 pandemic, only approximately 1% of the transaction price allocated to the unsatisfied contracts at 30 June 2019 is expected to be recognised as revenue during the next reporting period. The remainder is expected to be recognised in the periods up to 30 June 2024.

5 Employee benefit expenses

	Year ended June 2019 £m	Year ended June 2018 £m
Employee benefit expenses (including Directors of the Group) comprise:		
Wages and salaries	9.8	11.9
Contributions to defined contribution pension scheme	0.4	0.2
Defined benefit pension scheme administrative costs	0.6	0.5
Social security contributions and similar taxes	0.7	0.7
Exceptional item – GMP equalisation charge (see below)	2.2	-
Total expense including exceptional item	13.7	13.3

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

5 Employee benefit expenses (continued)

In addition to the expenses above, an exceptional cost of £2.2m (2018: £nil) has been charged in relation to the equalisation of guaranteed minimum pensions ('GMP') between male and female employees. This arises as a result of a recent High Court verdict which set a precedent such that GMPs need to be equalised. The potential cost of this has been estimated by the scheme actuary.

The average number of employees (including Directors of the Group) during the year was as follows:

	Year ended June 2019 Number	Year ended June 2018 Number
United Kingdom	68	67
Africa	104	108
Far East	15	18
Middle East	4	2
Mainland Europe	4	14
Americas	83	84
	<hr/>	<hr/>
	278	293
	<hr/>	<hr/>

The remuneration of the Directors of the Company included above was as follows:

	Year ended June 2019 £000	Year ended June 2018 £000
Salaries	1,050	996
Other long-term benefits	9	8
Defined contribution pension scheme costs	76	68
	<hr/>	<hr/>
	1,135	1,072
	<hr/>	<hr/>

The highest paid director received aggregate emoluments of £328,000 (2018: £320,000). The highest paid director did not receive any benefits relating to pension schemes (2018: £nil).

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

5 Employee benefit expenses (continued)

Key management personnel compensation included in total employee benefit expenses were as follows:

	Year ended June 2019 £000	Year ended June 2018 £000
Salaries	1,990	2,233
Other long-term benefits	26	53
Defined contribution pension scheme costs	145	129
	<u>2,161</u>	<u>2,415</u>

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, including the Directors listed in the directors' report and members of the Group Executive Committee, which includes operating directors from each region.

6 (Loss)/profit from operations and exceptional items

(Loss)/profit from operations includes:

	Year ended June 2019 £m	Year ended June 2018 £m
Fees payable to the Company's auditor for the audit of the parent company and consolidated financial statements	0.1	0.1
Fees payable to the Company's auditor for the audit of the Company's subsidiaries	0.1	0.2
Pre-award costs expensed	0.6	1.1
Operating leases – property leases	0.9	0.7
Decrease in impairment allowances	(0.1)	(3.5)
	<u> </u>	<u> </u>

During the year to June 2018, doubtful debt provisions made in previous years amounting to £3.5m were released. These related to amounts due on contracts in the Philippines (£2.0m) and the Dominican Republic (£1.5m) which are now expected to be collected in full following favourable judgements received locally. The majority of the Dominican Republic debt has subsequently been collected, with the remaining balance expected to be collected in full. The Philippines debt remains outstanding at the date of these financial statements.

(Loss)/profit from operations before exceptional items is stated after (charging)/crediting exchange losses of £0.4m in respect of the retranslation of contract debtors and creditors at the period end from overseas contracts undertaken in non-functional currencies (2018: £0.3m gain).

Exceptional items in the year comprise a £2.2m charge relating to the equalisation of guaranteed minimum pensions (see note 5 above).

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

7 Finance income and expense

Recognised in profit or loss

	Year ended June 2019 £m	Year ended June 2018 £m
Finance income		
Interest received on bank deposits	0.1	-
	<u> </u>	<u> </u>
Total finance income	0.1	-

for the year ended 30 June 2019 (continued)**

9 Property, plant and equipment (continued)

In August 2018, the Group's Malaysian subsidiary exchanged contracts for the sale of its freehold property in Kuala Lumpur for a cash sale price of RM9.7m (£1.8m). The carrying value of the property at 30 June 2018 and at disposal was RM7.7m (£1.5m). The contract completed in December 2018. After expenses of sale, the net profit on disposal was £0.3m and this has been included in the consolidated statement of profit and loss.

The revaluation reserve of £1.3m relating to the above property has been transferred from revaluation reserve to realised retained profit during the year.

Freehold land with an historic cost of £nil (2018: £0.1m) has not been depreciated.

The net book value of assets under construction of £1.2m (2018: £1.2m) relates to the development of the Group's new integrated IT system which is expected to be fully operational within the next financial year.

10 Intangible assets - goodwill

	£m
Cost	
At 30 June 2018 and 30 June 2019	2.3
	<hr style="width: 100%;"/>
Accumulated amortisation and impairment	
At 30 June 2018 and 30 June 2019	1.0
	<hr style="width: 100%;"/>
Net book value	
At 30 June 2019	1.3
	<hr style="width: 100%;"/>
At 30 June 2018	1.3
	<hr style="width: 100%;"/>

The Group is required to test, on an annual basis, whether goodwill has suffered any impairment. The impairment review requires the estimation of future cash flows and the determination of a discount rate in order to calculate the present value of those future cash flows. The carrying amount of goodwill is allocated to one cash generating unit ('CGU') in the Americas. The recoverable amount for this CGU has been determined from the value in use calculations based on cash flow projections from approved budgets covering a five year period to 2024.

The operating margins have been based on past experience and future expectations in light of anticipated economic and market conditions. The Group has used a discount rate of 9%, which remains unchanged from the prior year.

No impairment was assessed as being required in the year (2018: £nil).

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

11 Subsidiaries

A full list of subsidiary undertakings is set out in note 27 to the consolidated financial statements. All subsidiary undertakings are included in these consolidated financial statements.

On 1 December 2017, the Group completed the sale of its Hong Kong based subsidiary, Biwater Man Lee Limited. Details of the fair value of assets and liabilities disposed of, sale consideration and profit on sale were as follows:

	Disposal fair value £m
Trade and other receivables	(1.8)
Cash at bank and in hand	(0.6)
	(2.4)
Total assets	(2.4)
Trade and other payables	2.4
Borrowings	3.1
	3.1
Fair value of net liabilities disposed of	3.1
Cash consideration	-
Expenses of sale	(0.6)
	2.5
Profit arising on disposal in the prior year	2.5

The cash flow on disposal was calculated as follows:

	Cash flow £m
Cash at bank disposed of	(0.6)
Overdraft disposed of	3.1
	2.5
Net cash inflow from borrowings disposed of	2.5
Expenses paid out prior to 30 June 2018	(0.1)
	2.4
Net cash inflow arising in the prior year	2.4

During the previous financial period up to the date of disposal, Biwater Man Lee Limited contributed £12.5m to the Group's turnover and £4.0m to the Group's profit before and after taxation. It also accounted for £2.3m of the Group's cash outflow from operations.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

Current portion	21.3	30.1
	<u> </u>	<u> </u>

Allowances for losses on trade and other contract receivables

The Group focusses its contract activities on Government backed, public sector clients, who demonstrate zero or very low credit risk status. Contracts with other customers will only be entered into after a satisfactory credit check to assess the customer's credit quality. Where possible our construction activities are externally financed and able to be drawn down and recovered directly from committed facilities with lending institutions.

To measure expected credit losses, trade receivables and contract assets have been grouped based on shared risk characteristics. **Group 1** comprises Government backed, public sector clients. Risk factors are assessed on a project-by-project basis to arrive at a measure of expected credit losses for this group. Such risk factors include political risk associated with the territory the contract is based in, government/country risk and consideration of the parties involved in the contract, including financing parties. **Group 2** comprises private sector businesses but where additional guarantees, security or bonds exist to reduce overall credit risk. **Group 3** comprises all other private company clients. Expected credit losses for group 3 are calculated based on the ageing of the receivables. Several contract receivables relating to contract variation claims in one specific territory have been excluded from the grouping and shown as an 'ungrouped' total. These contracts have significant provisions against them and are subject to negotiation with territory Federal Ministries.

Loss rates will be adjusted to reflect current and forward-looking information on factors that might affect the ability of customers to settle the receivables.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

13 Trade and other receivables (continued)

On this basis, the impairment allowance as at 30 June 2019 and 1 July 2018 (on adoption of IFRS 9) was determined as follows for both trade receivables and other contract assets:

30 June 2019						£m
Group 1 – expected loss rate 6.5%						
Trade receivables						4.3
Contract assets						7.7
Other contract receivables						0.4
Loss allowance						0.8
Group 2 - expected loss rate 2.0%						
Trade receivables						3.6
Contract assets						-
Loss allowance						0.1
Group 3						
	Up to 90 days past due	91 to 180 days past due	181 to 365 days past due	Over 1 year past due		Total
<i>Expected loss rate</i>	<i>0.0%</i>	<i>5.0%</i>	<i>10.0%</i>	<i>25.0%</i>		
	£m	£m	£m	£m		£m
Trade receivables	0.4	0.3	0.1	0.1		0.9
Contract assets	1.5	-	-	-		1.5
Loss allowance	-	0.0	0.0	0.0		0.1
Ungrouped items – expected loss rate 80.7%						
Trade receivables						2.2
Contract assets						0.3
Loss allowance						2.0
Totals						
Trade receivables						11.0
Contract assets						9.5
Other contract receivables						0.4
Total loss allowance						3.0

£2.5m of the total loss allowance of £3.0m at 30 June 2019 is allocated against trade receivables, and the remaining £0.5m loss allowance is allocated against contract assets.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

13 Trade and other receivables (continued)

1 July 2018						£m
Group 1 – expected loss rate 5.4%						
Trade receivables						9.4
Contract assets						8.7
Other contract receivables						0.9
Loss allowance						1.0
Group 2 - expected loss rate 2.0%						
Trade receivables						3.5
Contract assets						-
Loss allowance						0.1
Group 3	Up to 90 days past due	91 to 180 days past due	181 to 365 days past due	Over 1 year past due		Total
<i>Expected loss rate</i>	<i>0.0%</i>	<i>5.0%</i>	<i>10.0%</i>	<i>25.0%</i>		
	£m	£m	£m	£m		£m
Trade receivables	2.1	0.1	0.3	0.2		2.7
Contract assets	0.5	-	0.3	-		0.8
Loss allowance	-	-	0.1	0.0		0.1
Ungrouped items – expected loss rate 81.0%						
Trade receivables						2.1
Contract assets						0.2
Loss allowance						1.9
Totals						
Trade receivables						17.7
Contract assets						9.7
Other contract receivables						0.9
Total loss allowance						3.1

After implementation of IFRS 9, £2.6m of the total loss allowance of £3.1m at 1 July 2018 is allocated against trade receivables, and the remaining £0.6m loss allowance is allocated against contract assets.

Movements in the loss allowance for trade and other receivables are included in the consolidated statement of profit and loss.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

13 Trade and other receivables (continued)

Movements in the loss allowances for trade receivables and contract assets are as follows:

	2019	2018
	£m	£m
At 30 June	(1.6)	(5.3)
Impact of adoption of IFRS 9	(0.7)	-
Reclassification of provision from contract liabilities	(0.8)	-
	(3.1)	(5.3)
Decrease in impairment allowances during the year	0.1	3.5
Effect of movements in foreign currency exchange rates	-	0.2
	(3.0)	(1.6)

The increase in allowances on adoption of IFRS 9 of £0.7m is allocated to trade receivables (£0.2m) and contract assets (£0.5m).

14 Trade and other payables

	2019	2018
	£m	£m
Trade payables	3.6	3.4
Contract liabilities (see note 4)	3.8	6.9
Other payables	2.3	2.3
Accruals	2.9	3.7
	12.6	16.3
Total financial liabilities, excluding loans and borrowings, classified as financial liabilities measured at amortised cost		
Tax and social security payments	0.9	1.8
	13.5	18.1
Total trade and other payables		

The carrying value of trade and other payables classified as financial liabilities measured at amortised cost approximates to their fair values.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

15 Cash and borrowings

The book value and fair value of cash and bank balances are as follows:

	2019	2018
	£m	£m
Restricted access cash balances		
Held in escrow to support bonding facilities	0.4	4.1
Held on deposit as collateral for bank facilities	0.2	0.6
	0.6	4.7
Cash and cash equivalents		
Unrestricted bank and cash balances	1.8	3.8
	1.8	3.8

Cash is held as security in the normal course of business by certain banks in relation to contract bonding and overdraft facilities provided to subsidiary companies of the Group.

The book value and fair value of borrowings are as follows:

	2019	2018
	£m	£m
Current		
Overdrafts	0.5	0.6
	0.5	0.6

The Group's overdrafts are repayable on demand.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

16 Employee benefit liabilities

Liabilities for employee benefits comprise:

	2019	2018
	£m	£m
Defined benefit scheme (note 21)	13.6	14.0
Defined contribution scheme	0.1	0.1
	13.7	14.1
Categorised as:		
Current - accruals	0.1	0.1
Non-current	13.6	14.0
	13.7	14.1

Details of the key accounting estimates and assumptions in relation to the defined benefit scheme are set out in notes 2 and 21.

17 Deferred tax

The movement on the deferred tax account is as shown below:

	2019	2018
	£m	£m
Deferred tax asset at start of year	12.5	12.7
<i>Recognised in profit and loss:</i>		
Tax credit	0.3	0.7
<i>Recognised in other comprehensive income:</i>		
Tax relating to defined benefit pension scheme re-measurement	(0.3)	(0.9)
	12.5	12.5

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

17 Deferred tax (continued)

The deferred tax asset at 30 June is recognised in the consolidated statement of financial position as follows:

	2019	2018
	£m	£m
Recognised in non-current assets	9.7	9.4
Deducted from gross pension deficit provision (note 21)	2.8	3.1
	<hr/>	<hr/>
Deferred tax asset at 30 June	12.5	12.5
	<hr/>	<hr/>

Deferred tax assets have been recognised in respect of all tax losses and other temporary differences giving rise to deferred tax assets where the Directors believe it is probable that the relevant asset will be recovered. The composition of deferred tax assets recognised and unrecognised is as follows:

	30 June 2019		30 June 2018	
	Recognised	Unrecognised	Recognised	Unrecognised
	£m	£m	£m	£m
Employee benefit pension deficit	2.8	-	3.1	-
Accelerated capital allowances	0.8	0.2	0.8	0.1
Other temporary and deductible differences	-	9.2	-	8.8
Available losses	8.9	14.2	8.6	12.1
	<hr/>	<hr/>	<hr/>	<hr/>
	12.5	23.6	12.5	21.0
	<hr/>	<hr/>	<hr/>	<hr/>

A deferred tax asset increase of £nil (2018: decrease of £0.2m) was recognised in the year. A credit of £0.3m (2018: £0.7m) was recognised in the consolidated statement of profit or loss, offset by a charge of £0.3m (2018: £0.9m) recognised in other comprehensive income.

The unused tax losses and temporary differences can be carried forward indefinitely.

18 Share capital

	Authorised, issued and fully paid			
	2019 Number	2019 £m	2018 Number	2018 £m
Ordinary shares of 25p each	120,000,000	30.0	120,000,000	30.0
	<hr/>	<hr/>	<hr/>	<hr/>

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

19 Reserves

The following describes the nature and purpose of each reserve within equity:

Reserves	Description and purpose
<i>Revaluation reserve</i>	Gains/losses arising on the revaluation of the Group's freehold land and buildings.
<i>Capital redemption reserve</i>	Amounts transferred from share capital on redemption of issued shares.
<i>Foreign exchange reserve</i>	Gains/losses arising on retranslating the net assets of overseas operations into Sterling.
<i>Retained loss</i>	All other net gains and losses and transactions with owners (e.g. dividends) not recognised elsewhere.

20 Leases

Finance lease liabilities - lessee

The Group has no significant finance lease liabilities.

Operating leases - lessee

The Group occupies a number of leased properties. The terms of property leases vary from country to country, although they all tend to be tenant repairing with periodic rent reviews. The group also has a number of other lease obligations, principally for vehicles and office equipment.

The total future value of minimum lease payments is due as follows:

	2019	2018
	£m	£m
Not later than one year	0.7	0.2
Later than one year and not later than five years	2.9	2.3
Later than five years	4.7	4.9
	<hr/>	<hr/>
	8.3	7.4
	<hr/>	<hr/>

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

20 Leases (continued)

Operating leases - lessor

Sub-lease rental income receivable for the year to 30 June 2019 was £0.1m (2018: £0.1m).

The minimum rent receivable under non-cancellable operating leases is as follows:

	2019	2018
	£m	£m
Not later than one year	0.1	0.1
Later than one year but not later than five years	0.1	0.2
	0.2	0.3

21 Employee benefit pension schemes

Defined contribution scheme

The Group operates a defined contribution scheme for employees of Biwater Holdings Limited and Biwater International Limited, the assets of which are held separately from those of the Group in an independently administered fund. Each participating employer pays age-related contributions in respect of members of the scheme. These contributions are charged to the consolidated statement of profit or loss in the period in which they are made. The charge for the current year was £0.4m (2018: £0.2m).

Defined benefit scheme

The Group operates a defined benefit scheme for its UK employees known as the Biwater Retirement and Security Scheme ('BRASS'). The scheme is exposed to a number of risks, and these are discussed in the Strategic report.

The Main Section of BRASS is a multi-employer funded defined benefit scheme which offers both pensions in retirement and death benefits to members. The residual liability remains with Biwater Holdings Limited and its subsidiary, Biwater International Limited. Pension benefits are related to the member's final salary at retirement and their length of service. As the scheme is closed, no further pension benefits will accrue. Contributions to the scheme for the year beginning 1 July 2019 are expected to be £2.5m.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

21 Employee benefit pension schemes (continued)

Defined benefit scheme (continued)

An IAS 19 valuation of the scheme was carried out as at 30 June 2019 (and at June 2018) by a qualified independent actuary. The major assumptions used by the actuary in determining the present value of the pension obligation were (in nominal terms) as follows:

	2019	2018
Discount rate	2.20%	2.55%
Inflation assumption (RPI)	3.15%	3.10%
Rate of increase in salaries	3.15%	2.85%
RPI(3,5) pension increases	3.45%	3.45%
Cash commutation	Maximum allowable	Maximum allowable
Assumed life expectancies on retirement at age 65 are:		
Retiring today - males	21.6	21.8
Retiring today - females	23.8	23.7
Retiring in 20 years time - males	22.6	22.8
Retiring in 20 years time - females	25.0	24.9

The expected future lifetime of a male pensioner aged 65 is 21.6 years. For a future male pensioner retiring in 20 years, this increases to 22.6 years.

The assets in the scheme are analysed as follows:

	2019	2018
	£m	£m
Property	6.7	6.6
Corporate Bonds	8.4	7.6
Government Bonds	4.4	4.0
Cash	3.1	0.6
LDI	10.9	11.6
Diversified Growth Funds	12.2	12.9
Equity Linked Bond Funds	35.8	33.0
Fair value of scheme assets at the year end	81.5	76.3
The actual return on assets over the year was:	7.1	5.0

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

21 Employee benefit pension schemes (continued)

Defined benefit scheme (continued)

	2019	2018
	£m	£m
Present value of funded obligations	(98.2)	(93.4)
Fair value of scheme assets	81.5	76.3
	<hr/>	<hr/>
Deficit in funded scheme	(16.7)	(17.1)
Related deferred tax asset recognised	2.8	3.1
	<hr/>	<hr/>
Net liability in statement of financial position	(13.9)	(14.0)
	<hr/>	<hr/>

Prices for bonds and the component parts of other funds are quoted in active markets.

No property scheme assets are occupied by the Group.

Reconciliation of opening and closing balances of the present value of the defined benefit obligation:

	2019	2018
	£m	£m
Benefit obligation at beginning of year	93.4	96.3
Interest cost	2.3	2.4
Net re-measurement losses – financial	4.6	0.7
Net re-measurement gains – demographic	(0.4)	(0.7)
Net re-measurement losses - experience	0.1	-
Benefits paid	(4.0)	(5.3)
Past service cost	2.2	-
	<hr/>	<hr/>
Benefit obligation at end of year	98.2	93.4
	<hr/>	<hr/>

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

21 Employee benefit pension schemes (continued)

Defined benefit scheme (continued)

Reconciliation of opening and closing balances of the fair value of scheme assets:

	2019	2018
	£m	£m
Fair value of scheme assets at beginning of year	76.3	74.7
Interest income on scheme assets	1.9	1.9
Return on assets, excluding interest income	5.2	3.2
Contributions by employers	2.7	2.3
Benefits paid	(4.0)	(5.3)
Scheme administrative costs	(0.6)	(0.5)
	<hr/>	<hr/>
Fair value of scheme assets at end of year	81.5	76.3
	<hr/>	<hr/>

Amounts recognised in profit or loss:

	2019	2018
	£m	£m
Service cost – scheme administrative costs	0.6	0.5
Service cost – past service cost	2.2	-
Net interest on the net defined benefit liability	0.4	0.5
	<hr/>	<hr/>
Total expense	3.2	1.0
	<hr/>	<hr/>

Re-measurements of the net defined benefit liability recognised in other comprehensive income:

	2019	2018
	£m	£m
Net re-measurement – financial	4.6	0.7
Net re-measurement – demographic	(0.4)	(0.7)
Net re-measurement – experience	0.1	-
Return on assets, excluding interest income	(5.2)	(3.2)
	<hr/>	<hr/>
Total re-measurement of the net defined benefit liability – (credit)/charge	(0.9)	(3.2)
	<hr/>	<hr/>

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

21 Employee benefit pension schemes (continued)

Defined benefit scheme (continued)

Sensitivities regarding the discount rate, inflation and mortality assumptions used to measure the liabilities of the scheme are set out below:

Increase/(decrease) in scheme liabilities	2019 £m	2018 £m
Discount rate – increase by 0.25%	(3.3)	(3.2)
Rate of inflation (RPI) – increase by 0.25%	0.5	0.5
Assumed life expectancy at 65 – increase by 1 year	4.6	4.4
	_____	_____

22 Related party transactions

Details of directors' remuneration are given in note 5.

Sir Adrian White, the ultimate controlling party of the Group, is a director of the Company. His out of pocket expenses including travel were £9,000 (2018: £9,000) and he received a short term loan from the Company of £106,000 (2018: £106,000). At 30 June 2019 there was an outstanding balance payable to the Company of £444,000 (2018: £444,000). This was repaid in December 2019 and at the same time Sir Adrian made a loan to the company of £975,000.

During the financial year, Mr M Allouani, a Biwater subsidiary director, made a loan to Biwater Algeria. At 30 June 2019 the amount outstanding was £82,000. This loan remains outstanding at the date of signing these financial statements.

23 Contingent liabilities

A local contractor in the Dominican Republic who commenced legal proceedings in September 2007 against Biwater International limited ('BIL'), was awarded damages in May 2016 by the Constitutional Tribunal of the Dominican Republic amounting to \$9 million. BIL still remains resolute that it has no case to answer and no liability outstanding and that the courts of the Dominican Republic acted in error in permitting the case to proceed despite a clear intention of the parties for English Law and for English jurisdiction to prevail in the contract. The Group has no assets in the Dominican Republic against which this judgement could be enforced and to date no action or threat of action has been received by BIL in the United Kingdom in respect of this matter, where BIL considers that it could defend any such action.

Other contingent liabilities exist:

a) Under indemnities and guarantees to banks and underwriters for contract bonds in the normal course of business amounting to £5.4m (2018: £11.3m). Of this figure £0.4m (2018: £4.1m) is held as cash collateral and is reported in the cash balances of the Group.

b) Under claims made against the Group in the normal course of business arising from disputes on long-term contracts and in respect of contractual claims for liquidated damages. Consideration is given by the Directors to all such claims at each reporting date and provision is made if any liability is considered likely.

**Notes forming part of the consolidated financial statements
for the year ended 30 June 2019 (continued)**

24 Note supporting the consolidated statement of cash flows

Cash and cash equivalents for the purposes of the statement of cash flows comprises:

	2019	2018
	£m	£m
Unrestricted bank and cash balances (note 15)	1.8	3.8
Bank overdrafts (note 15)	(0.5)	(0.6)
	1.3	3.2
Cash and cash equivalents	1.3	3.2

25 Controlling interests

The ultimate controlling party of the Group is Sir Adrian White.

26 Post balance sheet events

On 13 January 2020 Biwater International Limited entered into a Note and Warrant purchase agreement with Aquarion Water S.a.r.l., a Luxembourg based company, for €10,500,000, providing funding over a three year term.

On 30 January 2020 the World Health Organisation declared a global pandemic as a result of the unfolding Covid-19 crisis. The impact of this on the Group is set out in note 1.

On 22 July 2020, Biwater International Limited signed heads of terms with Santander UK plc for a £2,000,000 one year overdraft facility. The facility has been credit approved by Santander and is expected to be available shortly after the date of signing these financial statements.

for the year ended 30 June 2019 (continued)**

The notes on pages 62 to 71 form part of these financial statements.

1 Company accounting policies

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The company previously applied the Financial Reporting Standard 101 Reduced Disclosure Framework ('FRS 101') and has transitioned to FRS 102 with the date of transition being 1 July 2017. There were no amendments required to equity at the transition date or at 30 June 2018 or to the profit and loss for the year ended 30 June 2018 as a result of the transition.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies, further details of which are included below.

The Company has taken advantage of the exemption allowed under section 408 of the Companies Act 2006 and has not presented its own Statement of Comprehensive Income in these financial statements.

Parent Company disclosure exemptions

In preparing the separate financial statements of the Parent Company, advantage has been taken of the following disclosure exemptions available in FRS 102:

- No Statement of Cash Flows has been presented for the Parent Company;
- Disclosures in respect of the Parent Company's financial instruments have not been presented as equivalent disclosures have been provided in respect of the Company as a whole; and
- No disclosures have been given for the aggregate remuneration of the key management personnel of the Parent Company as their remuneration is included in the totals for the Company as a whole.

The following principal accounting policies have been applied:

Investments

Investments in subsidiaries are measured at cost less accumulated impairment.

Leased assets

Where substantially all of the risks and rewards incidental to ownership of a leased asset have been transferred to the Company ('finance lease'), the asset is treated as if it had been purchased outright. The amount initially recognised as an asset is the lower of the fair value of the leased property and the present value of the minimum lease payments payable over the term of the lease. The corresponding lease commitment is shown as a liability. Lease payments are analysed between capital and interest. The interest element is charged to profit and loss over the period of the lease and is calculated so that it represents a constant proportion of the lease liability. The capital element reduces the balance owed to the lessor.

Where substantially all of the risks and rewards incidental to ownership are not transferred to the Company ('operating lease'), the total rentals payable under the lease are charged to profit and loss on a straight-line basis over the lease term.

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

1 Company accounting policies (continued)

Employee benefits

Contributions to the Company's defined contribution pension scheme are charged to the profit and loss account in the year to which they relate.

The Company also participates in a closed defined benefit scheme operated by the Group known as the Biwater Retirement and Security Scheme ('BRASS'). The difference between the Company's share of the fair value of the assets held in the Group's defined benefit pension scheme and the Company's share of the scheme's liabilities measured on an actuarial basis using the projected unit method are recognised in the balance sheet as a pension liability. The pension scheme liability is recorded net of any related deferred tax balance, with the recognition of any deferred tax asset following the principles described in the deferred tax accounting policy.

Changes in the defined benefit scheme liability arising from factors other than cash contributions by the Company are charged to the profit and loss account (current service cost, current interest cost and expected returns on assets) or other comprehensive income (actuarial gains and losses).

Property, plant and equipment

Items of property, plant and equipment are initially recognised at cost.

Depreciation is provided on items of plant and equipment so as to write off their carrying value over their expected useful economic lives. It is provided at the following rates:

Freehold buildings – 4% per annum straight line

Plant and equipment – 8% - 50% per annum straight line

Fixtures and fittings (including motor vehicles) – 20% - 33% per annum straight line

Assets under construction are recognised at cost and are not depreciated. On completion, the asset is transferred to the appropriate category of property, plant or equipment.

Impairment of fixed assets and investments

Non-current assets are assessed at each reporting date to determine whether there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Assets that have been previously impaired are reviewed at each reporting date to assess whether there is any indication that the impairment losses recognised in prior periods may no longer exist or may have decreased.

Foreign currency

Transactions entered into by the Company in a currency other than the currency of the primary economic environment in which it operates (the 'functional currency') are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated into Sterling at the rates ruling at the reporting date. Exchange differences arising on the retranslation of unsettled monetary assets and liabilities are recognised in profit or loss.

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

1 Company accounting policies (continued)

Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively. The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits;
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met; and
- Where they relate to timing differences in respect of interests in subsidiaries, associates, branches and joint ventures and the group can control the reversal of the timing differences and such reversal is not considered probable in the foreseeable future.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

Financial assets

Financial assets, other than investments and derivatives, are initially measured at transaction price (including transaction costs) and subsequently held at cost, less any impairment.

Financial liabilities and equity

Financial liabilities and equity are classified according to the substance of the financial instrument's contractual obligations, rather than the financial instrument's legal form. Financial liabilities, excluding convertible debt and derivatives, are initially measured at transaction price (after deducting transaction costs) and subsequently held at amortised cost.

Judgements in applying accounting policies and key sources of estimation uncertainty

Impairments

The most critical estimates, assumptions and judgements relate to the determination of carrying value of investments in subsidiaries and intercompany receivables. The directors consider whether there are any indicators of impairment based on the underlying net assets, profitability and future prospects of the entity. Where it is concluded there are indicators of impairment, the Company performs impairment tests based on fair value less costs to sell. The fair value less cost to sell calculation is based on a value in use model, which requires the estimation of future cash flows and discount rates.

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

1 Company accounting policies (continued)

Judgements in applying accounting policies and key sources of estimation uncertainty (continued)

Pension benefits

The Group operates a closed defined benefit pension scheme. The pension cost and recorded liability in the Company's accounts are assessed in accordance with the advice of an independent qualified actuary. The estimates used in the calculations are determined by the Directors, based on discussions with the actuary. The key estimates used include future salary increases, future price inflation, mortality rates and the rate of interest used to discount liabilities. Changes in these estimates could have a significant impact on the reported profit and net assets of the Group.

Deferred tax

The amount of deferred tax recognised is dependent on judgements about the realisation or settlement of assets and liabilities. A deferred tax asset is recognised only to the extent that, in the view of the Directors, it is probable that future taxable profits will be available against which the asset can be utilised. The Directors exercise judgement over the likelihood and timing of future profitability, from which estimates are made to establish whether a deferred tax balance should be recognised. The key judgement made is over the likelihood and timing of specific future contract profits, and in exercising this judgement, the Directors have considered significant signed contracts which have already been awarded to the Group or are considered highly likely to be awarded to the Group.

Going concern

In determining the appropriate basis of preparation of these financial statements, the Directors are required to consider whether the Company can continue in operational existence for the foreseeable future. Because of the interlinked activities between the Company and the wider Biwater group, the Company is dependent upon the going concern of the wider group to continue as a going concern.

Based on the latest trading expectations and associated cash flow forecasts of the Group headed by Biwater Holdings Limited, the Directors have considered the cash requirements of the Group and the Company and believe that the Group and the Company will be able to continue in operations and meet its liabilities as they fall due for at least the next twelve months following approval of these financial statements. As such the financial statements have been prepared on a going concern basis.

The Directors recognise that inherent within international contracting are uncertainties around the timing and receipt of significant contract sums. The Directors have forecast future expected receipts in respect of a number of signed international long-term contracts over the forecast period of 12 months from the date of signing these financial statements using their considerable experience of the industry; although the timing of financial close of these signed contracts and therefore the ability to draw down related contracted amounts is uncertain.

In May 2020, one such signed contract has achieved financial close on its external financing which sets contract activity in motion and permits improved accuracy in the forecasting of future contracted receipts.

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

1 Company accounting policies (continued)

Going concern (continued)

Covid-19 has certainly had a dramatic effect across the world and while for Biwater this has not so far delayed any new construction activity, its impact in the medium term on our ability to deliver activities in overseas territories, where open borders and free movement of people are essential to complete our construction obligations, remains to be seen. At the time of writing we are seeing restrictions beginning to be lifted, and we look forward to this continuing. However, the Directors recognise that inherent within international contracting are uncertainties around the timing and receipt of significant contract sums and that these are compounded by Covid-19 and the potential impacts if activities remain significantly restricted beyond Q4 2020. If a number of significant receipts on signed contracts are not achieved as forecast, the Group may also require additional funding.

The Board and the main shareholder are confident that in light of its recent debt funding arrangements, corporate banking support and products available to assist UK exporters' working capital needs, such additional funding would be available. The board and the main shareholder already have signed indicative heads of terms with a reputable lender for a credit approved £2.0 million banking facility. In addition, the board are considering other options which would bring additional funding into the Group should the need arise. In view of the above and Covid-19, the timing of contract receipts is considered to be a material uncertainty which may cast significant doubt over the Group's ability to continue as a going concern. Therefore, as the going concern of the Company is linked to the going concern of the Group, a material uncertainty exists which may cast doubt on the Company's ability to continue as a going concern. The financial statements do not include the adjustments that would result if the Group and Company was unable to continue as a going concern.

2 Auditor's remuneration

The auditor's remuneration for audit and other services provided to the Company is disclosed in the notes to the consolidated financial statements.

3 Employee benefit expenses

	Year ended June 2019	Year ended June 2018
	£m	£m
Employee benefit expenses (including Directors of the Company) comprise:		
Wages and salaries	0.6	0.6
Contributions to defined benefit pension scheme	0.1	0.1
Social security contributions	0.1	0.1
	0.8	0.8
	0.8	0.8

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

3 Employee benefit expenses (continued)

In addition to the employee benefit expenses above, an exceptional cost of £0.6m (2018: £nil) has been charged in relation to the equalisation of guaranteed minimum pensions ('GMP') between male and female employees. This arises as a result of a recent High Court verdict which set a precedent such that GMPs need to be equalised. The potential cost of this has been estimated by the scheme actuary.

The average number of employees (including Directors of the Company) during the year was 4, all of whom are based in the UK (2018: 4, all based in the UK).

The remuneration of the Directors of the Company included above was as follows:

	Year ended June 2019 £000	Year ended June 2018 £000
Salaries	1,050	996
Other long-term benefits	9	8
Defined contribution pension scheme costs	76	68
	<u>1,135</u>	<u>1,072</u>

The highest paid director received aggregate emoluments of £328,000 (2018: £320,000). The highest paid director did not receive any benefits relating to pension schemes (2018: £nil).

4 Tangible fixed assets

	Fixtures and fittings £m	Assets under construction £m	Total £m
Cost or valuation			
At 1 July 2017	2.2	1.2	3.4
Additions	0.2	-	0.2
	<u>2.4</u>	<u>1.2</u>	<u>3.6</u>
At 30 June 2018 and 30 June 2019	2.4	1.2	3.6
Accumulated depreciation			
At 1 July 2017, 30 June 2018 and 30 June 2019	2.2	-	2.2
	<u>2.2</u>	<u>-</u>	<u>2.2</u>
Net book value			
At 30 June 2019 and 30 June 2018	0.2	1.2	1.4
	<u>0.2</u>	<u>1.2</u>	<u>1.4</u>

The net book value of assets under construction of £1.2m (2018: £1.2m) relates to the development of the Group's new integrated IT system which was fully operational by December 2019.

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

5 Investments in group subsidiaries

	2019	2018
	£m	£m
Cost and net book value:		
At 1 July	110.7	106.8
Additions	-	3.9
Disposals	-	(5.7)
Release of existing provisions	-	5.7
	110.7	110.7
As at 30 June	110.7	110.7

The Directors have carried out an impairment review of the carrying value of the investments at 30 June 2019. This resulted in additional provisions of £nil (2018: £nil) to write down the carrying value of certain subsidiaries to their expected realisable values. It also resulted in the release of £nil (2018: £nil) to reduce an existing provision against a subsidiary company.

The Company's principal subsidiaries, which are directly owned, are:

Name	Country of incorporation and principal place of business	Proportion of ownership interest at 30 June	
		2019	2018
Biwater International Limited	United Kingdom	100%	100%
Biwater SA	France	82%	82%
Biwater Overseas Limited	United Kingdom	100%	100%
Biwater Construction Limited	United Kingdom	100%	100%

Full details of the Company's subsidiaries is set out in the notes to the consolidated financial statements.

6 Debtors: falling due within one year

	2019	2018
	£m	£m
Prepayments and accrued income	0.9	0.9
Corporation tax recoverable	0.6	0.6
	1.5	1.5

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

7 Debtors: falling due after more than one year

	2019	2018
	£m	£m
Amounts due from subsidiary undertakings (see note below)	18.3	17.7
Deferred tax (note 10)	4.8	4.7
	23.1	22.4
	23.1	22.4

Amounts due from subsidiary undertakings are repayable on demand but have been disclosed as falling due after more than one year on the basis it is not anticipated they will be repaid within twelve months.

8 Cash at bank and in hand

	2019	2018
	£m	£m
Cash held on deposit as collateral for bank facilities	-	0.7
Unrestricted bank and cash balances	0.1	0.1
	0.1	0.8
	0.1	0.8

Cash is held as collateral with British Arab Commercial Bank plc for bonding provided in the normal course of business.

9 Creditors: falling due within one year

	2019	2018
	£m	£m
Trade creditors	0.4	0.4
Taxation and social security	0.1	0.1
Accruals and deferred income	1.1	0.9
Amounts owed to subsidiary undertakings	120.7	118.0
	122.3	119.4
	122.3	119.4

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

10 Deferred tax

A deferred tax asset has been recognised in respect of all tax losses and other temporary differences giving rise to deferred tax assets where the Directors believe it is probable that the relevant asset will be recovered. Details of the deferred tax assets recognised and unrecognised are as follows:

	30 June 2019		30 June 2018	
	Recognised £m	Unrecognised £m	Recognised £m	Unrecognised £m
Accelerated capital allowances	0.3	-	0.3	-
Other temporary differences	-	6.4	-	6.0
Available losses	4.5	7.1	4.4	6.6
	4.8	13.5	4.7	12.6
Employee benefit pension deficit	0.8	-	0.9	-
	5.6	13.5	5.6	12.6

The recognised deferred tax is included in the balance sheet of the Company as follows:

	2019 £m	2018 £m
Included in debtors due after more than one year	4.7	4.7
Deducted from gross pension deficit provision (note 11)	0.9	0.9
	5.6	5.6

11 Pension liability provision

	2019 £m	2018 £m
Deficit in scheme	4.9	5.0
Related deferred tax asset (note 10)	(0.8)	(0.9)
	4.1	4.1

Further information relating to the Company's liabilities under pension arrangements is given in the notes to the consolidated financial statements.

**Parent company financial statements
for the year ended 30 June 2019 (continued)**

12 Leases

Operating lease - lessee

The Company occupies a tenant repairing leased property with periodic rent reviews.

The total future value of minimum lease payments is due as follows:

	2019	2018
	£m	£m
Not later than one year	0.5	0.2
Later than one year and not later than five years	2.3	2.3
Later than five years	4.7	4.9
	<hr/>	<hr/>
	7.5	7.4
	<hr/>	<hr/>

13 Contingent liabilities

Contingent liabilities exist under parent company guarantees given by the Company in respect of contractual arrangements entered into by group undertakings amounting to £5.8m (2018: £5.8m).

14 Post balance sheet events

On 30 January 2020 the World Health Organisation declared a global pandemic as a result of the unfolding Covid-19 crisis. The impact of this on the Group is set out in note 1 to the consolidated financial statements.
