Monty UK Global Limited

**Strategic Report
For the Year Ended 31 December 2021**

The directors present their strategic report for the year ended 31 December 2021.

Principal activities and review of the business

The company is a communication mediator providing SMS, Voice and all other general services worldwide.

The key financial and other performance indicators during the year were as follows:

	2021	2020	Change
	£	£	%
Turnover	102,453,103	84,000,554	22
Company operating profit – continuing operations	3,429,759	1,531,813	124
Profit after tax	2,639,342	1,207,396	119
Net profit before tax margin %	3.3	1.8	83
Equity shareholders' funds	5,764,399	3,125,057	84
Current assets as % of current liabilities ('quick ratio')	1.357	1.171	16
Average number of employees	13	10	30

Monty UK Global Limited's turnover increased 22% on prior year, with a net profit before tax margin of 3% (2020: 2%). The increase in turnover is due to the additional new revenue contracts won during the year, combined with an increase in set prices to customers as a result of the elevated market prices placed by operators that notably increased direct costs. Moreover, the noticeable increase in SMS traffic during the ongoing COVID-19 pandemic has continuously affected SMS sales positively during the year.

However, this increase is offset by 7 contract novations to Monty International FZ-LLC Dubai during the 2nd and 3rd quarter of 2021 due to the loan financing obtained by the Dubai entity that would facilitate payment to vendors. The value of these contracts amounts to nearly GBP 3.5 million monthly revenue. The consequential inter group sales and costs are charged in accordance with the group transfer pricing policy. Accordingly, both sales and net profit margin have increased in line with company forecasts.

Nevertheless, operating profits increased by 124% (2020: 23%) in line with the increase in profit after tax by 119% (2020: 21%). This increase in operating profit was partially driven by the positive gain on exchange for the year (2020: negative loss on exchange) see note 5. We continue to attempt to minimise the impact of foreign currency exchange rate movement by purchasing and selling our services in the same currencies where possible and improving our payment terms where possible to minimize loss in value that results from late payment.

Principal risks and uncertainties

Relationships

Monty UK Global Limited benefits from a close relationship with the overall Monty Mobile group. Any loss of this relationship could have a direct and detrimental effect on the company's existence.

Foreign exchange

The company has significant currency sales transactions in Euro and US Dollars and as such is exposed to movement in exchange rates. To minimise this risk the company endeavors to purchase services in the same currency where possible and lessen payment terms to maximise on receipt value date.

Environment

The company recognises that its business has an impact on the local and global environment. Monty UK Global Limited operates in accordance with group policies.

Employees

The company is committed to the continuous development of its employees by offering adequate training courses and thus enhancing our work practices and retaining our talent.

Strategic Report (continued)
For the Year Ended 31 December 2021

Financial instruments

The company's principal financial assets are bank balances and trade debtors. The company's credit risk is primarily attributable to its trade debtors. The amounts presented in the balance sheet are net of provisions for doubtful debts. The company has a growing number of customers and as such has a need to ensure that credit terms are kept.

Climate risk

The management of the company have concluded that there are no material climate risks applicable to the entity.

Brexit risk

The management of the company have concluded that there are no material Brexit risks applicable to the entity.

War in Ukraine

The management of the company have concluded that there are no material risks in relation to the war in Ukraine applicable to the entity.

COVID-19 pandemic

The coronavirus had contradictory impacts on the company, positive on the SMS revenue stream affected by the increased use of Internet during the quarantine period from one side, and a negative impact resulting from delaying a number of new services (Value Added Services) from the other side. As discussed in the review of the business above, the positive impacts on the business outweighed the negative and resulted in a net increase in turnover.

The key assumptions used by management for the going concern assessment and to monitor the different risks associated with the coronavirus included but were not limited to the below. These were assessed and challenged internally:

- 1) Risk of a significant drop in demand of the services offered.
- 2) Risk of single point of failure in the supply chain.
- 3) Restricted ability to operate due to changes in public policy.
- 4) Geographical implications of the company's operations.
- 5) Remote working.
- 6) Contractual obligations and fulfillment of important commercial relationships.

The company concluded that the above risks did not significantly affect the company's operations and financial performance. The company continues to operate normally without any disruption, even though the coronavirus slightly affected its forecasted figures. In fact, the company is meeting its day-to-day working capital requirements, and will be able to meet medium and long term commitments based on the budgeted figures prepared to 30 September 2023 (see further discussion in the Directors' Report on page 4).

Monty UK Global Limited

**Strategic Report (continued)
For the Year Ended 31 December 2021**

Section 172 of the Companies Act 2006**Stakeholder engagement**

In compliance with section 172 of the Companies Act 2006, the directors recognise the importance of engagement with all stakeholders and the impact this has on the Company's long-term success. The Company has built and maintained relationships with investors, advisors, suppliers and all other stakeholders. The directors recognise the importance of these and take active steps to develop and strengthen them through dialogue and engagement. These relationships are monitored at board level. The following stakeholder groups, according to section 172(1) Companies Act 2006 were identified as relevant to the Company.

Decision making

The Company recognises the importance of good governance in the success of the Company. The Board determines the strategic objectives and strategies of the Company to best support the delivery of long-term value providing overall strategic direction. The Company has robust systems of financial controls and risk management, the Board takes decisions that affect the success of the Company in the long term after a disciplined review. The Board undertakes its decisions by ensuring safety, efficiency, smart technology adoption and sustainability.

Employees

The Company recognises the importance of engaging with all employees to ensure that they are fully aligned with the objectives and values of the business. The Company engages with its workforce in a variety of ways, including Directors' delivery of strategic information directly to the workforce, availability of training opportunities to help employees develop their skill set; regular informal discussions with employees, besides formal feedback taken via the annual review process each year with a specific focus on employee wellbeing. Good communication between the Board and employees has ensured that, where appropriate, the workforce is kept abreast of strategic matters.

Customers and suppliers

Relationships with suppliers and customers are integral to the successful delivery of the Company's strategic plan. Regular reviews are conducted for key customer accounts, and as a responsible business, our supplier payments are made within the respective credit terms. We always seek new channels with new customers and suppliers to expand our business and improve our relationship with our existing customers and suppliers. Understanding the needs of our customers and suppliers enables us to achieve our objectives. The Company implements adequate security measures to maintain the privacy of its customers and suppliers.

Shareholders

The Board consistently engages with the ultimate controlling party to ensure that all key decisions and actions that are taken are aligned with the goals and objectives of the ultimate controlling party.

Community and Environment

Our operations contribute positively to wider society enabling us to create stronger communities and have a positive environmental and cultural impact. We work to reduce the environmental impact of our operations doing our part to curb the most harmful impacts of global climate change. Our engagement in the community and environment aligns our focus with that of our customers and suppliers, enabling us to achieve our strategic objectives.

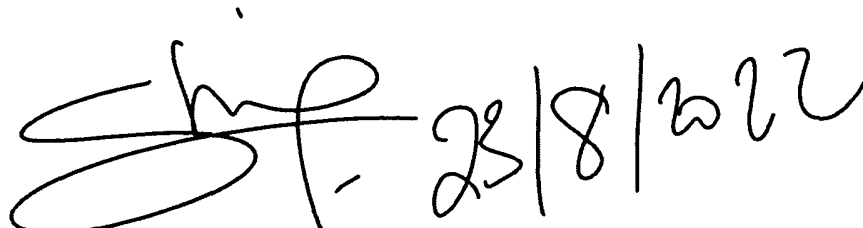

Company and high standards of Conduct

The Company adopts high ethical standards and follows a strict policy of maintaining integrity.

This report was approved on

and signed by.

Serge Khalil
Director

Monty UK Global Limited

**Directors' Report
For the Year Ended 31 December 2021**

The directors present their report and the financial statements for the year ended 31 December 2021.

Principal activity

The company's principal activity during the year continued to be providing wholesale SMS messaging services.

Results and dividends

The profit for the year, after taxation, amounted to £2,639,342 (2020 - £1,207,396).

The directors do not recommend the payment of a dividend (2020 - £Nil).

Directors

The directors who served during the year and thereafter were:

Mountasser M Hachem
Serge Khalil

Going concern

The company's business activities, the factors likely to affect its future development and position, and the principal risks and uncertainties faced by the company, are set out in the Strategic Report. The directors have considered the company's forecasts and funding available to it for a period to 30 September 2023.

The company is meeting its day-to-day cash commitments and payments as shown in its year-end financial statements reflected by the profitability of the company, its cash position, and the absence of commitments and covenants. The business model of the company is not sensitive to the business and operational disruptions resulting from the coronavirus. On the contrary, the coronavirus is having a net positive impact on the company's main revenue stream (SMS services).

The current budget takes into account the COVID-19 impact and was developed by management to capture probable scenarios for a period to 30 September 2023. This includes downside scenario modelling and reverse stress testing. The projected figures along with the actual figures to date, shows an increase in the company's gross profit by around 30% in 2022 compared to 2021 and by another 24% in 2023 compared to 2022. The positive cash position of £3,623,529 at the 31 December 2021 year end is sufficient to support the day to day operations of the company. The company is expected to remain profitable and cash generative for the entire Going Concern period to 30 September 2023. This is true for downside scenarios modelled.

Moreover, no material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and Monty International FZ-LLC Dubai to meet its obligations in respect of the Dubai external loan financing; thus, management are satisfied the guarantee provided by the company will not impact on the going concern assessment in this respect.

On the basis of the assessment of the company's financial position, the directors have a reasonable expectation that the company will be able to continue in operational existence for the foreseeable future, up to 30 September 2023. Thus, the directors continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Monty UK Global Limited

**Directors' Report (continued)
For the Year Ended 31 December 2021**

Research and development

During the reporting period, the aim of the company's technology teams had been to finalize the development project relating to e-sims. Accordingly, the development project has been completed and is ready for sale. The company has signed an agreement for the sale of the e-sims which confirms future revenue stream. The total research and development expenditure is disclosed in note 5 of the financial statements with development costs reaching the criteria for asset recognition being capitalized where appropriate (see note 11 of the financial statements).

Environmental matters

Large UK companies are required to report under the Streamlined Energy and Carbon Reporting (SECR) requirements except where exempt due to emissions being below 40,000 kWh per year. The company and other group entities that have UK emissions falling within the disclosure requirement of the scheme fall below this exemption threshold and therefore no such disclosure is made.

Disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' Report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware, and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Post balance sheet events

There have been no significant events affecting the company since the year end.

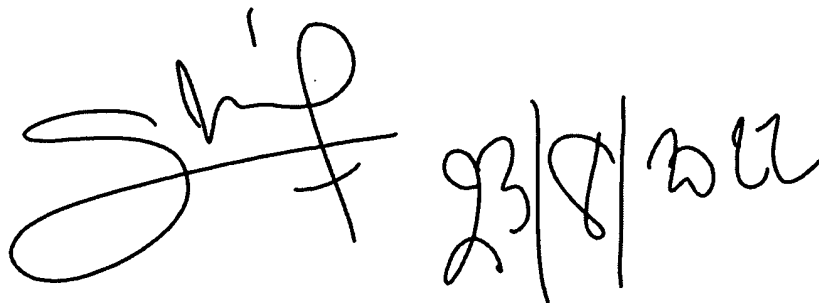

Auditors

The auditors, Ernst & Young LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006.

This report was approved by the board on

and signed on its behalf.

Serge Khalil
Director

Monty UK Global Limited

**Directors' Responsibilities Statement
For the Year Ended 31 December 2021**

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards, have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Monty UK Global Limited

Independent Auditors' Report to the Members of Monty UK Global Limited

Opinion

We have audited the financial statements of Monty UK Global Limited for the year ended 31 December 2021 which comprise the Statement of Comprehensive Income, the Balance Sheet, the Statement of Changes in Equity, the Statement of Cash Flows and the related notes 1 to 27, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including Financial Reporting Standard 101 'Reduced Disclosure Framework' (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2021 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period to 30 September 2023.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Monty UK Global Limited

Independent Auditors' Report to the Members of Monty UK Global Limited (continued)

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 6, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Monty UK Global Limited

Independent Auditors' Report to the Members of Monty UK Global Limited (continued)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are the Financial Reporting Standard 101, the Companies Act 2006, the Proceeds of Crime Act 2002, the Bribery Act 2010, relevant employment legislation and UK General Data Protection Regulation.
- We understood how Monty UK Global Limited is complying with those frameworks by performing enquiries regarding the processes and procedures in place as well as carrying out walkthroughs of those processes and procedures as appropriate. We considered the oversight of those charged with governance and the culture of honesty and ethical behaviour including the emphasis placed on fraud prevention. We consider these factors to reduce opportunities for fraud to take place as they could persuade individuals not to commit fraud because of the likelihood of detection and punishment.
- We assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by identifying significant classes of transactions and significant accounts and considering how these classes of transactions and accounts may be subject to management override and fraud.
- Based on this understanding we designed our audit procedures to identify noncompliance with such laws and regulations. Our procedures involved testing of transactions in the financial statements with characteristics that may indicate a higher risk of fraud. We identified revenue as an area that was particularly susceptible to misstatement through management override. Our response to this risk was to carry out detailed testing over revenue, receivables and cash. We also carried out detailed testing of unusual items identified during our work.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <http://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Monty UK Global Limited

Independent Auditors' Report to the Members of Monty UK Global Limited (continued)

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

1. General information

Monty UK Global Limited is a private company limited by shares and incorporated in England and Wales. The registered office is Bridge House, 181 Queen Victoria Street, London, England, EC4V 4EG.

2. Accounting policies**2.1 Basis of preparation of financial statements**

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the company's accounting policies (see note 3).

The company's functional currency is the EUR.

The financial statements are presented in GBP due to the company's offices being held in the UK and reporting to relevant UK authorities being in GBP.

Transactions in foreign currencies are initially recorded in the functional currency by applying the spot exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in the foreign currencies are retranslated at the functional currency rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the date of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. The company does not apply hedge accounting of foreign exchange risks in its company financial statements.

The financial statements comply with IFRS only if they comply with all the requirements of each applicable standard and each applicable interpretation of those standards including the translation method.

The following principal accounting policies have been applied:

2.2 Financial reporting standard 101 - reduced disclosure exemptions

The company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of IFRS 7 Financial Instruments: Disclosures
- the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement
- the requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers
- the requirements of paragraph 52, the second sentence of paragraph 89, and paragraphs 90, 91 and 93 of IFRS 16 Leases. The requirements of paragraph 58 of IFRS 16, provided that the disclosure of details in indebtedness relating to amounts payable after 5 years required by company law is presented separately for lease liabilities and other liabilities, and in total
- the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements
- the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

2. Accounting policies (continued)**2.3 Going concern**

The company's business activities, the factors likely to affect its future development and position, and the principal risks and uncertainties faced by the company, are set out in the Strategic Report. The directors have considered the company's forecasts and funding available to it for a period to 30 September 2023.

The company is meeting its day-to-day cash commitments and payments as shown in its year-end financial statements reflected by the profitability of the company, its cash position, and the absence of commitments and covenants. The business model of the company is not sensitive to the business and operational disruptions resulting from the coronavirus. On the contrary, the coronavirus is having a net positive impact on the company's main revenue stream (SMS services).

The current budget takes into account the COVID-19 impact and was developed by management to capture probable scenarios for a period to 30 September 2023. This includes downside scenario modelling and reverse stress testing. The projected figures along with the actual figures to date, shows an increase in the company's gross profit by around 30% in 2022 compared to 2021 and by another 24% in 2023 compared to 2022. The positive cash position of £3,623,529 at the 31 December 2021 year end is sufficient to support the day to day operations of the company. The company is expected to remain profitable and cash generative for the entire Going Concern period to 30 September 2023. This is true for downside scenarios modelled.

Moreover, no material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and Monty International FZ-LLC Dubai to meet its obligations in respect of the Dubai external loan financing; thus, management are satisfied the guarantee provided by the company will not impact on the going concern assessment in this respect.

On the basis of the assessment of the company's financial position, the directors have a reasonable expectation that the company will be able to continue in operational existence for the foreseeable future, up to 30 September 2023. Thus, the directors continue to adopt the going concern basis of accounting in preparing the annual financial statements.

2.4 Impact of new international reporting standards, amendments and interpretations

There were not any new or revised accounting standards applicable from 1 January 2022 that had any material impact on the company.

2.5 Turnover

The company recognises revenue from sale of services based on the usage of Short Message Services (SMS). Revenue from contracts with customers is recognised when the company's services are rendered and company's performance obligations to customers are satisfied based on the specific terms of the contract with customers (e.g. SMS usage or installation of hardware) at an amount that reflects the consideration to which the company is entitled in exchange for those goods or services (excluding VAT and other sales taxes). The company has concluded that it is the principal in its revenue arrangements because it controls the goods or services before transferring them to the customer.

Monty UK Global Limited**Notes to the Financial Statements
For the Year Ended 31 December 2021****2. Accounting policies (continued)****2.6 Government grants**

Government grants are recognised when it is reasonable to expect that the grants will be received and that all related conditions will be met, usually on submission of a valid claim for payment. Government grants in respect of capital expenditure are credited to a deferred income account and are released as income by equal annual amounts over the expected useful lives of the relevant assets. Grants of a revenue nature are credited to income so as to match them with the expenditure to which they relate.

The value of the government grant is disclosed in note 5. There are no unfulfilled conditions or other contingencies attaching to the grant. The company has not taken advantage of any other forms of government assistance which directly benefited the entity in the period.

2.7 Leases**The company as a lessee**

The company assesses whether a contract is or contains a lease, at inception of a contract. The company recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the company uses its incremental borrowing rate. The incremental borrowing rate is based on the rate applicable to working capital loans and overdrafts available to the company.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives; The lease liability is included in 'Creditors' on the Balance Sheet.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are included in the 'Intangible Assets', 'Tangible Fixed Assets' and 'Investment Property' lines, as applicable, in the Balance Sheet.

The company applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in note 2.14.

Monty UK Global Limited**Notes to the Financial Statements
For the Year Ended 31 December 2021****2. Accounting policies (continued)****2.8 Interest income**

Interest income is recognised in profit or loss using the effective interest method.

2.9 Finance costs

Finance costs are charged to Statement of Comprehensive Income over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.10 Borrowing costs

All borrowing costs are recognised in Statement of Comprehensive Income in the year in which they are incurred.

2.11 Pensions**Defined contribution pension plan**

The company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the company in independently administered funds.

2.12 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Balance Sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the Balance Sheet date.

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

2. Accounting policies (continued)

2.13 Intangible assets

Intangible assets are initially recognised at cost. After recognition, under the cost model, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

The estimated useful lives range as follows:

Development costs	- over 3 years
License	- over 12.5 years
Software	- over 5 years

2.14 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Assets purchased 2017 and before	-
Furniture and Fixtures	- over 3 years
Servers	- over 4 years
Computer equipment	- over 3 years
Assets purchased 2018 and after	-
Furniture and Fixtures	- over 5 years
Servers	- over 5 years
Computer equipment	- over 5 years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.15 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

Third party debtors and creditors are recognised gross when there is both a payable and receivable. Related party debtors and creditors are presented net (on the basis that there is an intention and right to settle net and that the risk profile of related party customer/supplier balances differs from third party balances).

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

2. Accounting policies (continued)**2.16 Cash and cash equivalents**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Statement of Cash Flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the company's cash management.

2.17 Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Third party debtors and creditors are recognised gross when there is both a payable and receivable. Related party debtors and creditors are presented net (on the basis that there is an intention and right to settle net and that the risk profile of related party customer/supplier balances differs from third party balances).

2.18 Provisions for liabilities

Provisions are made where an event has taken place that gives the company a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to Statement of Comprehensive Income in the year that the company becomes aware of the obligation, and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet.

2.19 Financial instruments

The company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The company's accounting policies in respect of financial instruments transactions are explained below:

Financial assets and financial liabilities are initially measured at fair value.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets.

**Notes to the Financial Statements
For the Year Ended 31 December 2021****2. Accounting policies (continued)****2.19 Financial instruments (continued)****Fair value through profit or loss**

All of the company's financial assets other than those which meet the criteria to be measured at amortised cost are subsequently measured at fair value at the end of each reporting period, with any fair value gains or losses being recognised in Statement of Comprehensive Income to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset.

Debt instruments at amortised cost

Debt instruments are subsequently measured at amortised cost where they are financial assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling the financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Amortised cost is calculated using the effective interest method and represents the amount measured at initial recognition less repayments of principal plus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount, adjusted for any loss allowance.

Impairment of financial assets

The company recognises a loss allowance for expected credit losses (ECLs) on investments in debt instruments that are measured at amortised or at fair value through Other Comprehensive Income (FVOCI). The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

For trade receivables and contract assets, the company applies a simplified approach in calculating ECLs. Therefore, the company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment (see note 14).

Financial liabilities**Fair value through profit or loss**

Financial liabilities are classified as at fair value through profit or loss, when the financial liability is held for trading, or is designated as at fair value through profit or loss. This designation may be made if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise, or the financial liability forms part of a group of financial instruments which is managed and its performance is evaluated on a fair value basis, or the financial liability forms part of a contract containing one or more embedded derivatives, and IFRS 9 permits the entire combined contract to be designated as at fair value through profit or loss. Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship.

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

2. Accounting policies (continued)

2.19 Financial instruments (continued)

Financial liabilities (continued)

At amortised cost

Financial liabilities which are neither contingent consideration of an acquirer in a business combination, held for trading, nor designated as at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. This is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate a shorter period, to the amortised cost of a financial liability.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the financial year.

Provision for expected credit losses of trade receivables

The company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by credit insurance). Due to low loss rates, a consistent rate across aging groups was considered appropriate for ECL estimation for the year. The provision matrix is initially based on the company's historical observed default rates. The company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults in the telecommunication sector, the historical default rates are adjusted.

At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

4. Turnover

An analysis of turnover by class of business is as follows:

	2021 £	2020 £
SMS	102,408,532	83,940,508
Other	44,571	60,046
	<u>102,453,103</u>	<u>84,000,554</u>

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

4. Turnover (continued)

Analysis of turnover by country of destination:

	2021 £	2020 £
United Kingdom	15,772,122	16,813,353
Rest of Europe	36,319,414	19,072,788
USA	34,534,518	37,786,397
Rest of the world	15,827,049	10,328,016
	102,453,103	84,000,554

5. Operating profit

The operating profit is stated after charging / (crediting):

	2021 £	2020 £
Expected credit loss	212,782	-
Depreciation of tangible fixed assets	83,600	43,058
Depreciation of right of use assets	119,604	52,255
Amortisation of intangible assets	119,195	15
Exchange differences	(184,063)	274,648
Defined contribution pension cost	5,518	4,906
Government grant	-	(10,000)
Membership and Subscriptions	211,789	26,050
Research and development costs	12,300	405,981
	1,000,000	1,000,000

6. Auditors' remuneration

The company paid the following amounts to its auditors in respect of the audit of the financial statements and for other services provided to the company.

	2021 £	2020 £
Fees for the audit of the financial statements	50,000	33,500
Fees for the audit of the parent company's group financial statements	74,500	-
Taxation services	13,600	5,550
Taxation services for the parent company's group financial statements	6,850	-
Other services	47,250	2,900
Tax advisory	38,500	65,000
Finance advisory	112,500	125,000
	342,200	231,950

Fees for the taxation services and audit of the group financial statements are borne on behalf of Monty Mobile Limited UK the company's parent company.

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

7. Employees

Staff costs, including directors' remuneration, were as follows:

	2021 £	2020 £
Wages and salaries	396,043	331,029
Social security costs	16,849	18,064
Defined contribution pension cost	5,518	4,906
	418,410	353,999

The average monthly number of employees, including the directors, during the year was as follows:

	2021 No.	2020 No.
Employees	13	10

8. Directors' remuneration

	2021 £	2020 £
Director's emoluments	83,006	56,080
Remuneration of parent company non-executive board members	59,488	75,655
	142,494	131,735

One director participated in the defined contribution pension scheme during the year ended 31 December 2021 (2020 – on director).

9. Interest payable and similar costs

	2021 £	2020 £
Bank interest and charges	68,151	27,010

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

10. Taxation

	2021 £	2020 £
Corporation tax		
Current tax on profits for the year	667,434	278,760
Adjustments in respect of prior periods	10,875	(1,666)
Total current tax	678,309	277,094
Deferred tax		
Current year	28,284	20,192
Effects of changes in tax rates	15,673	121
Total deferred tax (see note 19)	43,957	20,313
Taxation on profit	722,266	297,407

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2020 - higher than) the standard rate of corporation tax in the UK of 19% (2020 - 19%). The differences are explained below:

	2021 £	2020 £
Profit before tax	3,361,608	1,504,803
Profit multiplied by standard rate of corporation tax in the UK of 19% (2020 - 19%)	638,706	285,912
Effects of:		
Tax rate changes	15,673	121
Expenses not deductible	57,012	13,040
Adjustments in respect of prior periods	10,875	(1,666)
Total tax charge for the year	722,266	297,407

Factors that may affect future tax charges

The corporation tax rate for the current year remains the same as the prior year i.e. 19%. The Finance Act 2021 was substantively enacted on the 24 May 2021 and has increased the corporation tax rate from 19% to 25% with effect from 1 April 2023. The deferred taxation balances have been measured using the rates expected to apply in the reporting periods when the timing differences reverse.

Monty UK Global Limited

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

22. Pension commitments

The company operates a defined contributions pension scheme. The assets of the scheme are held separately from those of the company in an independently administered fund. The pension cost charge represents contributions payable by the company to the fund. Contributions totaling £1,187 (2020 - £1,187) were payable to the fund at the balance sheet date and are included in creditors.

23. Corporate Guarantees

The company is a guarantor for a USD 5,700,000 loan facility held by Monty International FZ-LLC Dubai with Citibank UAE. A corporate guarantee duly notarized and attested for the total facility amount is held by the company.

24. Contingent Liabilities and Capital Commitments

From time to time we are subject to claims, investigations, legal and administrative cases and proceedings by governmental agencies or private parties. A provision is included in the financial statements where potential outflows are probable and can be estimated reliably. Where the amounts cannot be estimated reliably, disclosure is included relating to these contingent liabilities. The company had no capital commitments and contingent liabilities as at 31 December 2021 and 31 December 2020.

**Notes to the Financial Statements
For the Year Ended 31 December 2021**

26. Related party transactions (continued)

Included in administrative expenses is £1,898,453 (2020: £2,199,915) relating to management fees charged by Monty Mobile International Ltd.

Included in administrative expenses is £59,488 (2020: £75,655) relating to remuneration of the parent company non-executive board members.

Included in administrative expenses is £3,479 (2020: £NIL) relating to the provision for expected credit losses on related party balances. Due to low loss rates, a consistent rate across aging groups was considered appropriate for ECL estimation.

Included in other creditors is £329,283 (2020: £329,283) relating to a loan from the ultimate beneficiary owner Mr M M Hachem.

The above entities are related by virtue of common control by Mr M M Hachem and Monty Mobile Limited UK. All amounts due from and to related entities are interest free and repayable on demand.

27. Post balance sheet events

There have been no significant events affecting the company since the year end.

28. Controlling party

A Group reconstruction took effect on 26 April 2021, accordingly 100% of the share capital of the company were transferred to Monty Mobile Limited UK. The ultimate controlling party remains Mr M M Hachem.
