**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 28 FEBRUARY 2021**

---

**1. GENERAL INFORMATION**

Summit Design Limited is a private company limited by shares and incorporated in England and Wales. The address of the company's registered office is 57 London Road, High Wycombe, Buckinghamshire, HP11 1BS. The principal place of business is Ground Floor Office, Unit 3 The Courtyard, Furlong Road, Bourne End, Buckinghamshire, SL8 5AU. The registered number is 02792233.

The principal activity of the company is that of air conditioning and heating installation.

The presentation currency of these financial statements is Sterling (£), being the currency of the primary economic market in which the entity operates (its functional currency). All amounts in these financial statements have been rounded to the nearest pound unless stated otherwise.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated.

**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (effective September 2015) and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

In light of the rapid global spread of the Coronavirus "COVID-19" in early 2020, the director has given due consideration to expected future cashflows and considers there to be little impact on the company's ability to act as a going concern.

The director has reviewed and assessed the potential impact on the company over the next twelve months including the company's capital resources and considers that the company has adequate resources in place to continue in operation for at least twelve months from the date of approval of the financial statements.

**Turnover**

Turnover is measured at the fair value of consideration received or receivable for goods and services net of value added tax.

**Tangible fixed assets**

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

The company assesses at each reporting date whether tangible fixed assets are impaired.

Depreciation is provided at the following annual rates in order to write off the cost less estimated residual value of each asset over its estimate useful life:

Leasehold improvements	- straight line - 20%
Plant and machinery	- reducing balance - 25% and reducing balance - 15%
Motor vehicles	- straight line - 25%

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since the last annual reporting date in the pattern by which the company expects to consume an asset's future economic benefits.

2. ACCOUNTING POLICIES - continued

**Stocks**

Stocks are valued at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing stock to its present location and condition.

Provision is made for damaged, obsolete and slow-moving stock where appropriate.

**Taxation**

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

**Deferred tax**

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. Differences between accumulated depreciation and tax allowances for the cost of a fixed asset, if and when all conditions for retaining the tax allowances have been met, are not provided for. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax balances are not discounted.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Hire purchase and leasing commitments**

Assets acquired and held under finance lease or hire purchase contracts are capitalised in the balance sheet. Those held under finance leases are depreciated over the shorter of the lease term and the estimated useful life of the asset. Those held under hire purchase contracts are depreciated over the estimated useful life of the asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding lease liability using the effective interest method. The related obligation, exclusive of finance charges allocated to future periods, is recognised as a liability with the finance element charged to the profit and loss account over the relevant period.

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

**Pension**

The company operates a defined contribution pension scheme for the benefit of its employees. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

FOR THE YEAR ENDED 28 FEBRUARY 2021

## 2. ACCOUNTING POLICIES - continued

**Financial instruments**

The company has applied the provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instrument Issues" of FRS 102 (effective September 2015) to its financial statements.

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.
