Green Investment Group Limited

Strategic Report for the financial year ended 31 March 2023

In accordance with a resolution of the directors (the "Directors") of Green Investment Group Limited (the "Company"), the Directors submit herewith the Strategic Report of the Company as follows:

Principal activities

The principal activity of the Company during the financial year ended 31 March 2023 was to act as a holding company for Green Investment Group Investments Limited. In addition, the Company generates revenue by offering a wide range of advisory services to various companies in the green investment industry.

Review of operations

The profit for the financial year ended 31 March 2023 was £387,626,000 as compared to the loss of £22,256,000 in the previous year.

Net operating income for the year ended 31 March 2023 was £389,523,000 as compared to the operating loss of £19,042,000 in the previous year. The year-on-year change was mostly due to £400,000,000 in dividend income from its subsidiary, Green Investment Group Investments Limited, offset by legal, professional and transfer pricing expenses.

Total operating expenses for the financial year ended 31 March 2023 were £17,491,000, a decrease of 46% from £27,950,000 in the previous year. The year-on-year change was due to decreases in legal, consulting and professional fees associated with projects for which the Company provides advisory services as projects have completed.

As at 31 March 2023, the Company had net assets of £183,185,000 (2022: £175,560,000).

Principal risks and uncertainties

The Company is responsible for its own risk acceptance decisions. From the perspective of the Company, the principal risks are credit risk, liquidity risk, interest rate risk, foreign exchange risk, operational risk, group risk, conduct risk, strategic/business risk, environmental and social risk (including climate change), financial crime risk, technology and cyber risk and reputational risk. The principal risks of the Company are monitored by the relevant division of the Risk Management Group ("RMG") of the Macquarie Group (Macquarie Group comprising Macquarie Group Limited ("MGL"), the ultimate parent of the Company, and its subsidiaries). There are currently no plans to substantially change the nature of the business going forward.

The range of factors that may influence the Company's short-term outlook include:

- broader market volatility and weaker consumer sentiments driven by the recent banking concerns and ongoing macro-economic uncertainty, although the direct impact on the firm from banking concerns is broadly immaterial.
- global inflation and interest rates, and the impact of geopolitical events.
- potential tax or regulatory changes and tax uncertainties.
- completion of period-end reviews and the completion rate of transactions.
- the geographic composition of income and the impact of foreign exchange.

The risk presented by the Russia-Ukraine conflict is managed by the Company within the framework of the overall strategy and risk management structure of the Macquarie Group.

The continued impact and uncertainty surrounding the Russia-Ukraine conflict have been monitored throughout the year for the Company by RMG. There was no significant direct financial impact, and the Company has continued to operate effectively throughout the period.

Green Investment Group Limited

Strategic Report

for the financial year ended 31 March 2023 (continued)

Principal risks and uncertainties (continued)

The Directors have assessed the impact of the high interest rate and inflationary environment on the Company. The Directors have concluded that these did not have a material impact on the operations of the Company during the current financial period.

The Company is not subject to any other principal risks or uncertainties, over and above those stated.

Risk Management

Risk is an integral part of the Macquarie Group's businesses. The Company is exposed to a variety of financial risks that include the effects of credit, liquidity and market risk. Additional risks faced by the Company include operational, legal, compliance and documentation risk. The primary responsibility for management of these risks lies with the individual businesses giving rise to them. It is the responsibility of RMG to ensure appropriate assessment and management of these risks.

As an indirect subsidiary of MGL, the Company manages risk within the framework of the overall strategy and risk management structure of the Macquarie Group. RMG is independent of all other areas of the Macquarie Group, reporting directly to the Managing Director and the Board of MGL. The Head of RMG is a member of the Executive Committee of MGL. RMG authority is required for all material risk acceptance decisions. RMG identifies, quantifies and assesses all material risks and sets prudential limits. Where appropriate, these limits are approved by the Executive Committee and the Board of MGL. The risks to which the Company is exposed are managed on a globally consolidated basis for MGL as a whole, including all subsidiaries, in all locations. Macquarie Group's internal approach to risk ensures that risks in subsidiaries are subject to the same rigour and risk acceptance decisions.

Financial Risk Management

Credit Risk

Credit risk is the risk that a counterparty will fail to complete its contractual obligations when they fall due. Credit exposures, approvals and limits are controlled with the Macquarie Group's credit framework, as established by RMG.

Liquidity Risk

Liquidity risk is the risk of an entity encountering difficulty in meeting obligations with financial liabilities. Liquidity management is performed centrally by Group Treasury, with oversight from the Asset and Liability Committee ("ALCO"). The Directors have adopted the risk model used by the Macquarie Group, as approved by RMG. This model is incorporated into the Macquarie Group's risk management systems to enable the Company to manage this risk effectively.

Interest rate risk

The Company has both interest bearing assets and interest-bearing liabilities. Interest bearing assets include cash balances and receivables from other Macquarie Group undertakings and external parties, all of which earn a variable rate of interest. Interest bearing liabilities include payables to other Macquarie Group undertakings and external parties, which also incur a variable rate of interest.

Foreign exchange risk

The Company has foreign exchange exposures which include amounts receivable from and payable to other Macquarie Group undertakings and external parties which are denominated in non-functional currencies. Any material non-functional currency exposures are managed by applying Macquarie Group's Group-wide process of minimising exposure at an individual Company level.

Green Investment Group Limited

Strategic Report for the financial year ended 31 March 2023 (continued)

Risk management (continued)

Non-Financial Risk Management

Operational risk

The Company operates within a global framework which is applied consistently across all business lines within the Macquarie Group for the identification, monitoring, management and reporting of operational risk. Operational risk management occurs largely as part of the normal day to day running of each business with the framework, policies and oversight being managed at a central level by RMG. The framework can be tailored to the risk profile of each business, but each business must comply with certain mandatory aspects.

Group risk

The risk that the actions and activities of one part of the Macquarie Group may compromise the financial, operational and reputational position of the Company. Management of financial group risk is embedded across underlying governance documents and committees relating to financial exposures. Management of reputation risk is embedded throughout the risk management framework and considered in the assessment of all risk types. Intragroup outsourcing is governed in accordance with the internal Macquarie Group's policies.

Conduct risk

The risk of behaviour, action or omission by individuals on behalf of the Company or taken collectively in representing the Company that may have a negative outcome for the Company's clients, counterparties, the communities and markets in which it operates, or the Company. The Company's approach to conduct risk management is integrated in its risk management framework.

Regulatory & compliance risk

The risk of failure to comply with laws, regulations, rule statements of regulatory policy, and codes of conduct applicable to the Company's financial services and other regulated activities. Frameworks have been established to manage the identification, escalation, management and reporting of regulatory and compliance risks across the Macquarie Group. These frameworks include policies, guidelines and standards which have been implemented to guide compliance.

Strategic / Business risk

The risk of the Company's business model being inadequate in the medium to long term. 'Strategic and Business' risk is managed and controlled through the annual strategy and business planning process. The Company Board ("Board") has regular oversight of business risk in the Company.

Environmental & social risk (including climate change)

The risk of reputational or financial impacts due to failure to identify or manage material environmental or social issues arising from or with respect to the Company's investment, financing, client activities or supply chain. Under the Macquarie Group Code of Conduct all staff share responsibility for identifying and managing environmental and social issues as part of normal business practice. Staff are supported by the RMG environmental and social risks ("ESR") team, as well as through access to the environmental and social risk training.

Financial crime risk

The risk of knowingly or unknowingly perpetuating or helping parties to commit or to further potentially illegal activity through the Company. Financial crime risk encompasses the risks of money laundering, terrorism financing, bribery and corruption, and sanctions. The RMG Financial Crime Risk team ("FCR") manages and oversees financial crime risk, engages with regulators and maintains and monitors the effectiveness of global financial crime risk frameworks, programs and policies for the Macquarie Group.

Green Investment Group Limited

Strategic Report for the financial year ended 31 March 2023 (continued)

Risk management (continued)

Non-Financial Risk Management (continued)

Technology & cyber risk

The risk of loss resulting from failure, inadequacy or misuse of technology and technology resources owned, managed or supplied by the Company including technology outsourced and/or managed on behalf of the Company. The RMG Operational Risk & Governance team is responsible for the independent oversight of technology risk.

Reputational Risk

The risk of damage to Macquarie Group's reputation from the perspective of our clients, shareholders, regulators, staff or the communities and markets in which we operate. Reputational risks are managed by risk management frameworks applied to all Operating and Central Service Groups.

Section 172 (1) Statement

The directors of the Company consider, both individually and collectively, that they have acted in the way that would most likely promote the success of the Company for the benefit of its members as a whole (having regard to relevant stakeholders and matters set out in section 172(1)(a-f) of the Companies Act 2006) in the decisions taken during the year ended 31 March 2023. To the extent necessary for an understanding of the development, performance and position of the Company, an explanation of how the Directors considered these matters is set out in the Directors' report on pages 8 to 10.

The following sets out the requirements of section 172 (1) and notes how the Directors have discharged their duties. In doing so they have had regard to matters including those in respect of the Company's stakeholders, who are principally group shareholders, industry groups and trade associations, internal and external customers.

a) Likely consequences of any decision in the long term:

The Company is a wholly owned subsidiary of MGL and the Macquarie Group and therefore complies with the policies and practices, ethical and business standards that are set by the Macquarie Group Limited Board and are described in the Macquarie Group Annual Report. The following statement should therefore be read in conjunction with the Macquarie Group Limited Annual Report.

Any decision taken is aligned to the wider Macquarie Group and made in accordance with Macquarie's Code of Conduct (the "Code") – and based on the three principles of – Opportunity, Accountability and Integrity. Macquarie's purpose of 'empowering people to innovate and invest for a better future' is deeply embedded in Macquarie's culture and is underpinned by these longstanding operating principles. Before a proposal is brought to the Board for approval, it will have gone through a series of internal approvals, in accordance with the Macquarie Group's risk management framework. Macquarie adopts a conservative approach to risk management which is underpinned by a sound risk culture. Macquarie's robust risk management framework and risk culture are embedded across all Macquarie Group's operations.

To facilitate good decision making, Directors meet as required with documentation circulated in advance. Where relevant this may include diligence on financial impacts, as well as non-financial factors to allow them to fully understand the performance and position of the Company, along with the matters that are to be discussed.

Green Investment Group Limited

Strategic Report for the financial year ended 31 March 2023 (continued)

Section 172 (1) Statement (continued)

a) Likely consequences of any decision in the long term (continued) :

The principal activity of the Company during the year was to act as a holding company for investments which give effect to the green objective (the "Green Objective") as set out in the Company's Articles of Association. Key decisions which the Board met to consider during the year included:

- a) Approval of the statutory financial statements of the Company;
- b) Approval of the payment of a dividend to the Company's sole shareholder;
- c) Approval of the incorporation of a new subsidiary of the Company;
- d) Entry into various licensing arrangements pertaining to the GIG brand;
- e) Authorisation of certain investment proposals to be made by certain subsidiaries of the Company during the financial year, with due regard to the Green Objective; and
- f) Authorisation of certain divestment proposals to be made by certain subsidiaries of the Company during the financial year, with due regard to the Green Objective.

In connection with the fulfilment of the Green Objective, all prospective Green Investment Group ("GIG") investments are subject to a detailed green rating assessment, which scrutinises an investment's alignment with the Green Objective and GIG's Green Investment Principles by measuring the contribution to GIG's Green Purposes and its alignment with the GIG Green Investment Policy. The findings of this process are presented as a Green Opinion within the documentation for consideration as part of the investment decision making process.

New investments made under the GIG or affiliated brands continued to be made by the Company's direct and indirect subsidiaries and licensees during the financial year ended 31st March 2023, and each such GIG investment is subject to a specific review to determine the likelihood of the investment aligning with the Green Objective and GIG's Green Investment Principles. GIG investments made outside of Europe may be made by other Macquarie Group entities using the GIG name and brand for trading and marketing purposes. However, those entities are only permitted to do this in return for a contractual undertaking that any activities will be compliant with the Company and GIG's Investment Principles and Green Investment Policy.

Further details on GIG's Green Investment Principles, Green Investment Policy and Green Purposes can be found at: <https://www.greeninvestmentgroup.com/who-we-are/measuring-our-impact.html>

b) Interests of the Company's workforce:

Though the Company itself does not have any direct employees (the Company utilises the services of employees employed by the Macquarie Group via a range of internal shared services agreements) the workforce's culture, values, behaviours, performance, and engagement drive how it serves its customers and interacts with suppliers.

c) Business relationships with suppliers, customers and others:

The Board is cognisant of the stakeholders of the Company and the importance of strong relationships, coupled with appropriate levels of communication and engagement. The Board oversees how the Company deals with its various business relationships, including by way of regular Board reporting with respect to business performance and risk management.

The Company and GIG are committed to being active citizens in the global green community. GIG participates in over 40 membership organisations around the world, in which its team members hold a number of key positions.

Green Investment Group Limited

Strategic Report

for the financial year ended 31 March 2023 (continued)

Section 172 (1) Statement (continued)

Suppliers: Macquarie Group is committed to ensuring high standards of environmental, social and governance performance across its supply chain. This commitment is driven by our business principles. Macquarie Group has put in place a Supplier Governance Policy to manage the risks associated with suppliers who provide the Macquarie Group with high inherent risk goods or services, and also 'Principles for Suppliers' to help uphold our core values with the aim of having supplier relationships that create long-term and sustainable value for our clients, shareholders and community.

Through GIG's workplace health and safety programme, we seek to support our development teams in applying responsible criteria to their supplier selection and procurement activities.

Customers: As a holding company for other Macquarie Group entities, the Company's customers are predominantly internal to the Macquarie Group subsidiaries and affiliates, however the Company also had external customers during the financial year. Along with the publicly available disclosures on the Macquarie website and through the GIG Progress Report, Macquarie looks to the Company's workforce (including the Directors) to keep customers informed about the depth, breadth and scale of our capabilities in line with local rules and regulations on financial promotions while offering our products in a highly regulated financial services environment in EMEA. Macquarie Group's publicly available EMEA Terms of Business embed our commitment to the principle of treating customers fairly into all of the Company's business.

d) Community and the environment

The Board and Management recognise the importance of sound Environmental, Social and Governance ("ESG") practices as part of their responsibility to their clients, shareholders, communities, staff and the environment in which the Company operates. ESG considerations are embedded in both our operational and investment decision-making, along with the asset management frameworks that inform how our portfolio companies assess and improve their performance.

As a subsidiary of the Macquarie Group, the Company has committed to the Group's ESG approach, which is structured around focus areas considered to be material to our business. Assessing and managing Macquarie Group wide ESG risks is a key business priority and an important component of Macquarie's broader risk management framework, to which the Company is subject.

Clear dialogue with stakeholders is important to building strong relationships, understanding external dynamics, earning and maintaining trust, enhancing business performance and evolving our ESG approach. The Macquarie Group regularly engage with a broad range of stakeholders including clients, shareholders, investors, analysts, governments, regulators, the workforce, suppliers and the wider community.

Macquarie Group recognises that failure to manage ESG and Work Health and Safety ("WHS") risks could affect communities, the environment and other external parties, and expose the organisation to commercial, reputational and regulatory impacts. GIG's approach to environmental and social responsibility is governed by Macquarie Asset Management ('MAM') Environmental, Social and Governance (ESG) framework, which is aligned to the Macquarie Group Environmental and Social Risk (ESR) policy. This policy establishes the processes for identifying, assessing, managing, mitigating and reporting material environmental and social risks.

Alongside Macquarie's investment commitments and work with clients to deliver practical solutions, Macquarie and GIG play an active role in the mobilisation of private capital through our participation in global initiatives.

Green Investment Group Limited

Strategic Report for the financial year ended 31 March 2023 (continued)

Section 172 (1) Statement (continued)

d) Community and the environment (continued)

GIG's mission is to accelerate the transition to net zero. To support this mission, GIG operates as part of MAM. The combined teams aim to significantly enhance Macquarie's capacity to mobilise institutional capital for the transition and provide greater scale of decarbonisation solution for clients, portfolio companies, communities and the environment.

The Board acknowledges the work of the Macquarie Group Foundation (the "Foundation"), which is the philanthropic arm of Macquarie. The Foundation encourages Macquarie's employees to give back to the communities in which they live and work by contributing service, financial support and leadership to the community organisations they feel passionately about.

e) Reputation for high standards

The reputations of the Company, GIG and the Company's Directors are fundamental to the long-term success of the Company and significant effort is expended to ensure that performance and processes attain and wherever possible exceed expectations. The Macquarie Group and the Company are committed to maintaining high ethical standards – adhering to laws and regulations, conducting business in a responsible way and treating all stakeholders with honesty and integrity. These principles are further reflected in the Code.

f) Need to act fairly as between members of the Company

The Company is a separate legal entity and is therefore making this statement as such, but in practical terms, the Company is part of a wider group and in addition to promoting the success of the Company as a whole, the duties of the directors of the Company are exercised in a way that is most likely to promote the success of the Company for the Macquarie Group as a whole, while having regard to factors outlined in section 172(1) Companies Act 2006.

On behalf of the Board

Philipp Rasi De Mel
Director

19 December 2023

Green Investment Group Limited

Directors' Report for the financial year ended 31 March 2023

In accordance with a resolution of the Directors of the Company, the Directors submit herewith the audited financial statements of the Company and report as follows:

Directors and Secretaries

The Directors who each held office as a Director of the Company throughout the year and until the date of this report, unless disclosed otherwise, were:

M Dooley	
E Northam	
P Rasi De Mel	(appointed 9 August 2022)
P Knott	(resigned 9 August 2022)

The Secretary who held office as a Secretary of the Company throughout the year and until the date of this report, unless disclosed otherwise, was:

H Everitt

Results

The profit for the financial year ended 31 March 2023 was £387,626,000 as compared to the loss of £22,256,000 in the previous financial year.

Dividends

Interim dividends of £380,000,000 (2022: £nil) were paid during the current financial year. No final dividend has been proposed.

State of affairs

There were no significant changes in the state of affairs of the Company that occurred during the current financial year under review not otherwise disclosed in the Strategic/Directors' Report.

Going concern

The Company has an excess of current assets over current liabilities as at 31 March 2023 of £48,590,000. The Company is currently profitable and the Directors expect the current business will continue for the foreseeable future.

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future (which has been taken as at least 12 months from the date of approval of the financial statements). No material uncertainties that cast significant doubt about the ability of the Company to continue as a going concern have been identified by the Directors. The Company therefore continues to adopt the going concern basis in preparing its financial statements.

Events after the reporting period

At the date of this report, the Directors are not aware of any matter or circumstance which has arisen that has significantly affected or may significantly affect the operations of the Company, the results of those operations or the state of affairs of the Company in the financial years subsequent to 31 March 2023 not otherwise disclosed in this report.

Green Investment Group Limited

Directors' Report for the financial year ended 31 March 2023 (continued)

Likely developments, business strategies and prospects

Russia-Ukraine conflict

The risk presented by the Russia-Ukraine conflict is managed by the Company within the framework of the overall strategy and risk management structure of the Macquarie Group.

The continued impact and uncertainty surrounding the Russia-Ukraine conflict have been monitored throughout the year for the Company by RMG. There was no significant direct financial impact and the Company has continued to operate effectively throughout the period.

Global inflation and high interest rates

The Directors have assessed the impact of the high interest rate and high inflationary environment on the Company. The Directors have concluded that these did not have a material impact on the operations of the Company during the current financial period.

The Directors believe that no other significant changes are expected other than those already disclosed in this report and the Strategic Report.

The principal activities, review of operations and the financial risk management objectives and policies of the Company and the exposure of the Company to credit risk, liquidity risk, interest rate risk, foreign exchange risk, operational risk, group risk, conduct risk, strategic/business risk, environmental and social (including climate change), financial crime risk, technology and cyber risk and reputational risk are contained within the Strategic Report.

Indemnification and insurance of Directors

As permitted by the Company's Articles of Association, the Directors have the benefit of an indemnity which is a qualifying third party indemnity provision as defined by Section 234 of the Companies Act 2006. The indemnity was in force throughout the last financial year and also at the date of approval of the financial statements. The ultimate parent purchased and maintained throughout the financial year directors' liability insurance in respect of the Company and its Directors.

Statement of Directors' responsibilities in respect of the financial statements

The Directors are responsible for preparing the Strategic Report, Directors' Report and Financial Statements in accordance with applicable law and regulation.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

Under company law, Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

Green Investment Group Limited

Directors' Report for the financial year ended 31 March 2023 (continued)

Statement of Directors' responsibilities in respect of the financial statements (continued)

The Directors are responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Streamlined energy and carbon reporting ("SECR") requirement

The Company consumed less than 40MWh for the financial year ended 31 March 2023 and for this reason the Company is not required to disclose energy and carbon information in this report.

Directors' confirmation

In the case of each Director in office at the date of the Directors' Report is approved:

- so far as the Director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the Director has taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

Independent auditors

Pursuant to section 487(2) of the Companies Act 2006, the auditors of the Company are deemed re-appointed for each financial year unless the Directors or the members of the Company resolve to terminate their appointment. The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office, and, as at the date of these financial statements, the Directors are not aware of any resolution to terminate the appointment of the auditors.

On behalf of the Board,

Philipp Rasi De Mel

Director

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023

Note 1. Company information

The Company is a private company limited by shares and is incorporated and domiciled in the United Kingdom and registered in Scotland. The address of its registered office is Atria One, 144 Morrison Street, Edinburgh, EH3 8EX, United Kingdom.

The principal activity of the Company during the financial year ended 31 March 2023 was to act as a holding company for Green Investment Group Investments Limited. In addition, the Company generates revenue by offering a wide range of advisory services to various companies in the green investment industry.

Note 2. Basis of preparation

The financial statements have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' ("FRS 101") and have been prepared in accordance with the provisions of the Companies Act 2006.

The financial statements contain information about the Company as an individual Company and do not contain consolidated financial information as a parent of a group. The Company is exempt under section 401 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included in full consolidation in the consolidated financial statements of its ultimate parent MGL, a Company incorporated in Australia. These financial statements are separate financial statements.

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the financial years presented, unless otherwise stated.

(i) Going concern

As at 31 March 2023, the Company had net assets of £184,183,000 (2022: £175,559,000). The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future (which has been taken as at least 12 months from the date of approval of the financial statements). No material uncertainties that cast significant doubt about the ability of the Company to continue as a going concern have been identified by the Directors. The Company therefore continues to adopt the going concern basis in preparing its financial statements.

(ii) Basis of measurement

The financial statements have been prepared in accordance with the Companies Act 2006 and under the historical cost convention.

(iii) Disclosure exemptions

FRS 101 sets out a reduced disclosure framework for a 'qualifying entity' as defined in FRS 101 which addresses the financial reporting requirements and disclosure exemptions in the financial statements of qualifying entities that otherwise apply the recognition, measurement and disclosure requirements of UK adopted International Financial Reporting Standards ("IFRS").

In accordance with FRS 101, the Company has availed of an exemption from the following paragraphs of IFRS:

- The requirements of IFRS 7 'Financial Instruments: Disclosures'.
- The requirements of IAS 7 'Statement of Cash Flows'.
- The requirements of paragraphs 10(d), 10(f), 16, 38A to 38D, 40A to 40D and 111 of IAS 1 'Presentation of Financial Statements' (additional comparatives).
- The requirements of paragraphs 30 and 31 of IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' (disclosure of information when an entity has not applied a new IFRS that has been issued but is not yet effective).
- The requirements of paragraph 17 of IAS 24 'Related Party Disclosures' (key management compensation).
- The requirements of IAS 24 to disclose related party transactions entered into between two or more members of a group where both parties to the transaction are wholly owned within the group.
- The requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d) to 134(f) and 135(c) to 135(e) of IAS 36 'Impairment of Assets'.
- The requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers.
- The requirements of paragraphs 38 of International Accounting Standards ("IAS") 1 'Presentation of Financial Statements' to present comparative information in respect of: -Paragraph 79(a)(iv) of IAS 1 (reconciliation of shares outstanding)

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 2. Basis of preparation (continued)

(iv) Critical accounting estimates and significant judgements

The preparation of the financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the accounting policies. The notes to the financial statements set out areas involving a higher degree of judgement or complexity, or areas where assumptions are significant to the Company and the financial statements such as:

- judgement in timing and amount of impairment of investments in subsidiaries, including the reversal thereof (Notes 3(ix), 7);
- judgement in recognition and measurement of certain revenue streams including advisory fees from Macquarie-managed funds and other capital market investments and transactions.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events.

Management believes that the estimates used in preparing this financial report are reasonable. Actual results in the future may differ from those reported and it is therefore reasonably possible, on the basis of existing knowledge, that outcomes within the next financial year that are different from management's assumptions and estimates could require an adjustment to the carrying amounts of the reported assets and liabilities in future reporting periods.

(v) New Accounting Standards and amendments to Accounting Standards that are either effective in the current financial year or have been early adopted

The amendments to existing accounting standards that are effective for the annual reporting period beginning on 1 April 2022 did not result in a material impact to the Company's financial statements.

Note 3. Significant accounting policies

(i) Foreign Currency Translation

Functional and presentation currency

The functional currency of the Company is determined as the currency of the primary economic environment in which the Company operates. The Company's financial statements are presented in 'Pounds Sterling' (£), which is also the Company's functional currency.

Transactions and balances

At initial recognition, a foreign currency transaction is translated into the entity's functional currency using the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of each reporting period:

- foreign currency monetary assets and liabilities are translated using the closing exchange rate;
- non-monetary items (including equity) measured in terms of historical cost in a foreign currency remain translated using the spot exchange rate at the date of the transaction; and
- non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date that the fair value was measured.

Foreign exchange gains and losses arising from the settlement or translation of monetary items, or non-monetary items measured at fair value are recognised in other operating expense (see note 4).

For the detailed policy on *Financial instruments* refer to Note 3(iv).

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 3. Significant accounting policies (continued)

(ii) Revenue and expense recognition

Net interest income / expense

Interest income and interest expense (with the exception of borrowing costs that are capitalised on a qualifying asset, which is not measured at fair value) are recognised using the effective interest rate ("EIR") method for financial assets, and financial liabilities carried at amortised cost, and debt financial assets classified as at fair value through other comprehensive income ("OCI"). The EIR method calculates the amortised cost of a financial instrument at a rate that discounts estimated future cash receipts or payments through the expected life of the financial instrument to the net carrying amount of the financial asset or liability.

The calculation of the EIR does not include ECL, except for financial assets which on initial recognition are classified as purchased or originated credit impaired (POCI). Interest income on these assets is determined using a credit adjusted EIR by discounting the estimated future cash receipts, including credit losses expected at initial recognition, through the expected life of the financial instrument to the net carrying amount of the financial asset.

When the estimates of payments or receipts of a financial instrument are subsequently revised, the carrying amount is adjusted to reflect the actual or revised cash flows with the re-measurement recognised as part of interest income (financial assets) or interest expense (financial liabilities).

Interest income on financial assets that are not credit impaired is determined by applying the financial asset's EIR to the financial asset's gross carrying amount. Interest income on financial assets that are subsequently classified as credit impaired (Stage 3), is recognised by applying the EIR to the amortised cost carrying value (being the gross carrying value after deducting the impairment loss).

Fee and commission income

Revenue earned by the Company from its contracts with customers primarily consists of the following categories of fee and commission income:

Mergers and acquisitions and advisory fees - The Company earns revenue through its role as advisor on corporate transactions. The revenue from these arrangements is recognised at a point in time, and when it has been established that the customer has received the benefit of the service such that the performance obligation is satisfied. For advisory services this is typically at the time of closing the transaction.

Where mandates contain rights to invoice upon reaching certain milestones, the Company assesses whether distinct services have been transferred at these milestones and accordingly recognises revenue. If not, the fee recognition will be deferred until such time as the performance obligation has been completed.

Other operating income/expenses

Other operating income/(expenses) comprises foreign exchange gains and losses, credit impairment charges and reversals, and net gains and loss on investments.

Dividends

Interim dividends from UK companies are recognised when the dividend proceeds are received by the Company. Final dividends from investments in UK companies and dividends from investments in overseas companies are recognised when the Company becomes entitled to the dividend.

Judgement is applied in determining whether distributions from subsidiaries, associates and joint ventures are to be recognised as dividend income or as a return of capital. Distributions that represent a return of capital are accounted for by the Company as a reduction to the cost of its investment and are otherwise recognised by the Company within investment income as part of other operating income/expenses when the recognition criteria are met.

Expenses

Expenses are recognised in the profit and loss account as and when the provision of services is received.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 3. Significant accounting policies (continued)

(ii) Revenue and expense recognition (continued)

Fee expense

Management fees and cost recoveries are charged to the Company in respect of services provided by other Macquarie Group entities as per the agreed cost sharing arrangement. Such expenses are recognised under Administrative expenses in the Company's profit and loss account on an accrual basis in accordance with the standard recovery methodology applied by the servicing entity.

(iii) Taxation

The balance sheet approach to tax effect accounting has been adopted whereby the income tax expense for the financial year is the tax payable on the current year's taxable income adjusted for changes in deferred tax assets and liabilities attributable to temporary differences between the tax basis of assets and liabilities and their carrying amounts in the financial statements, and unused tax losses.

Deferred tax assets are recognised when temporary differences arise between the tax basis of assets and liabilities and their respective carrying amounts which give rise to a future tax benefit, or when a benefit arises due to unused tax losses. In both cases, deferred tax assets are recognised only to the extent that it is probable that future taxable amounts will be available against which to utilise those temporary differences or tax losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

The Company exercises judgement in determining whether deferred tax assets, particularly in relation to tax losses, are probable of recovery.

Factors considered include the ability to offset tax losses, the nature of the tax loss, the length of time that tax losses are eligible for carry forward to offset against future taxable profits and whether future taxable profits are expected to be sufficient to allow recovery of deferred tax assets.

The Company undertakes transactions in the ordinary course of business where the income tax treatment requires the exercise of judgement. The Company estimates the amount expected to be paid to/(recovered from) tax authorities based on its understanding and interpretation of the law. Uncertain tax positions are presented as current or deferred tax assets or liabilities with reference to the nature of the underlying uncertainty.

Value-Added Tax (VAT)

Where VAT is not recoverable from tax authorities, it is either capitalised to the balance sheet as part of the cost of the related asset or is recognised as a part of other operating expenses in the profit and loss account. Where VAT is recoverable from or payable to tax authorities, the amount is recorded as a separate asset or liability in the balance sheet.

(iv) Financial instruments

Recognition of financial instruments

Financial instruments are recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial instrument is initially recognised at fair value and is adjusted for (in the case of instruments not classified at FVTPL) for transaction costs that are incremental and directly attributable to the acquisition or issuance of the financial instrument, and fees that are an integral part of the effective interest rate. Transaction costs and fees paid or received relating to financial instruments carried at FVTPL are recorded in the profit and loss account.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 3. Significant accounting policies (continued)

(iv) Financial instruments (continued)

De-recognition of financial instruments

Financial assets

Financial assets are de-recognised from the balance sheet when:

- the contractual rights to cash flows have expired; or
- the Company has transferred the financial asset such that it has transferred substantially all the risks and rewards of ownership of the financial asset.

A financial asset is transferred if, and only if, the Company:

- i) transfers the contractual rights to receive the cash flows of the financial asset; or
- ii) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the
 - not obligated to pay amounts to the eventual recipients unless it collects equivalent amounts from the original asset;
 - prohibited from selling or pledging the original asset other than as security to the eventual recipients; and
 - obligated to remit any cash flows it collects on behalf of the eventual recipients without material delay.

In transactions where the Company neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset, the asset is de-recognised if control over the asset is lost. Any interest in the transferred and de-recognised financial asset that is created or retained by the Company is recognised as a separate asset or liability.

Financial liabilities

Financial liabilities are de-recognised from the balance sheet when the Company's obligation has been discharged, cancelled or has expired.

Classification and subsequent measurement

Financial assets

Financial assets are classified based on the business model within which the asset is held and on the basis of the financial asset's contractual cash flow characteristics.

Business model assessment

The Company uses judgement in determining the business model at the level that reflects how groups of financial assets are managed and its intention with respect to its financial assets. In determining the business model, all relevant evidence that is available at the date of the assessment is used including:

- i) how the performance of the financial assets held within that business model is evaluated and reported to the Macquarie Group's Senior Management personnel and senior executives;
- ii) the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way in which those risks are managed; and
- iii) how managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

Solely payment of principal and interest (SPPI)

The contractual cash flows of a financial asset are assessed to determine whether these represent SPPI on the principal amount outstanding consistent with a basic lending arrangement. This includes an assessment of whether cash flows primarily reflect consideration for the time value of money, and credit risk of the principal outstanding. Interest may also include consideration for other basic lending risks and costs.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 3. Significant accounting policies (continued)

(iv) Financial instruments (continued)

Classification and subsequent measurement (continued)

Amortised cost

A financial asset is subsequently measured at amortised cost using the EIR method where:

- i) the contractual terms of the financial asset give rise on specified dates to cash flows that meet the SPPI requirements; and
- ii) the financial asset has not been classified as Designated as fair value through profit and loss "DFVTPL".

Interest income determined in accordance with the EIR method is recognised as part of interest and similar income.

Fair value through profit or loss ("FVTPL")

Financial assets that do not meet the criteria to be measured at amortised cost or fair value through other comprehensive income ("FVOCI") are subsequently measured at FVTPL.

For the purposes of the Company's financial statements, the FVTPL classification consists of the following:

- financial assets in a business model whose objective is achieved by managing the financial assets on a fair value basis in order to realise gains and losses as opposed to a business model in which the objective is to collect contractual cash flows
- financial assets that fail the SPPI test (FVTPL); and
- financial assets that have been designated to be measured at fair value through profit or loss to eliminate or significantly reduce an accounting mismatch (DFVTPL).

Equity financial assets that are not held for active trading are measured at FVTPL. Subsequent changes in fair value are recognised as investment income within other operating expenses.

Subsequent changes in the fair value of debt financial assets are measured at FVTPL are presented as follows:

- Changes in the fair value of debt financial investments and loans to associates and joint ventures that fail SPPI are recognised in investment income as part of other operating income/expenses;
- Changes in the fair value of all other FVTPL and DFVTPL financial assets are recognised as part of other income/(loss) within other operating income/expenses.

Where applicable, the interest component of financial assets is recognised as interest and similar income.

The Company does not reclassify financial liabilities after initial recognition:

Financial liabilities

Financial liabilities are subsequently measured at amortised cost, unless they are either HFT, or have been designated to be measured at FVTPL (DFVTPL). A financial liability may be DFVTPL if:

- such a designation eliminates or significantly reduces an accounting mismatch that would otherwise have arisen;
- a group of financial liabilities, or financial assets and financial liabilities, is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- the liability contains embedded derivatives which must otherwise be separated and carried at fair value.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount reported on the balance sheet, when there is a current legally enforceable right to offset the amounts and either there is an intention to settle on a net basis or realise the financial asset and settle the financial liability simultaneously.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 3. Significant accounting policies (continued)

(v) Investments

Investment in subsidiaries

Subsidiaries are all those entities (including structured entities) over which the Company has:

- the power to direct the relevant activities of the entity,
- exposure, or rights, to significant variable returns and
- the ability to utilise power to affect the entity's own returns.

The determination of control is based on current facts and circumstances and is continuously assessed. The Company has power over an entity when it has existing substantive rights that provide it with the current ability to direct the entity's relevant activities, being those activities that significantly affect the entity's returns. The Company also considers the entity's purpose and design. If the Company determines that it has power over an entity, the Company then evaluates its exposure, or rights, to variable returns by considering the magnitude and variability associated with its economic interests.

All variable returns are considered in making that assessment including, but not limited to, returns from debt or equity investments, guarantees, liquidity arrangements, variable fees and certain derivative contracts.

Subsidiaries held by the Company are carried in its financial statements at cost less impairment in accordance with *IAS 27 Separate Financial Statements*.

Investments in subsidiaries are assessed for impairment at each reporting date, refer to Note 3(x) *Impairment*.

(vi) Tangible assets

Tangible assets are stated at historical cost (which includes, where applicable, directly attributable borrowing costs and expenditure directly attributable to the acquisition of the asset) less accumulated depreciation and, where applicable, accumulated impairment losses.

Depreciation is the process to allocate the difference between cost and residual values over the estimated useful life. Where the residual value exceeds the carrying value, no depreciation is charged. Depreciation is calculated on a straight-line basis.

Useful lives, residual values and depreciation methods are reviewed annually and reassessed in the light of commercial and technological developments. Gains and losses on disposal are determined by comparing the proceeds with the asset's carrying amount and are recognised as part of other operating income/expenses in the profit and loss account.

The annual depreciation rate is between 10%-20% for furniture, fittings and computer equipments.

Useful lives, residual values and depreciation methods are reviewed annually and reassessed in the light of commercial and technological developments. Gains and losses on disposal are determined by comparing the proceeds with the asset's carrying amount and are recognised as part of other operating income/expenses in the profit and loss account.

The depreciation charge is recognised as part of administrative expenses.

(vii) Provision and contingent liabilities

Provisions are recognised when it is probable that an outflow of economic benefits will be required to settle a present legal or constructive obligation that has arisen as a result of past events and for which a reliable estimate can be made.

Contingent liabilities are either possible obligations whose existence will be confirmed only by uncertain future events, or they are present obligations where a transfer of economic resources is not probable or cannot be reliably measured. Contingent liabilities are not recognised on the balance sheet but are disclosed unless an outflow of economic resources is remote.

Contingent liabilities, which generally include letters of credit, performance-related contingents and guarantees are disclosed in Note 18 Contingent liabilities and commitments.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 3. Significant accounting policies (continued)

(viii) Dividends

Where a dividend is determined or resolved by the Company's Board of Directors, a liability to pay the dividend with a corresponding reduction in retained earnings, is recognised when a legal obligation arises.

(ix) Due to/from related entities

Transactions between the Company and other Macquarie Group entities principally arise from the provision of lending arrangements and acceptance of funds on deposit, intercompany services and transactions and the provision of financial guarantees, and are accounted for in accordance with Note 3(ii) *Revenue and expense recognition* and Note 3(iv) *Financial Instruments*. Financial assets and financial liabilities are presented net where the offsetting requirements are met (Note 3(iv)), such that the net amount is reported in the balance sheet.

(x) Impairment

Expected credit losses ("ECL")

The ECL requirements apply to financial assets measured at amortised cost and Fair value Other Comprehensive Income "FVOCI", lease receivables, amounts receivable from contracts with customers, loan commitments, certain letters of credit and financial guarantee contracts issued that are not DFVTPL. The Company applies a three-stage approach to measuring the ECL based on changes in the financial asset's underlying credit risk and includes forward-looking information ("FLI").

The calculation of ECL requires judgement and the choice of inputs, estimates and assumptions. Outcomes within the next financial period that are different from management's assumptions and estimates could result in changes to the timing and amount of ECL to be recognised.

The ECL is determined with reference to the following stages:

(i) Stage 1 – 12 month ECL

At initial recognition, and for financial assets for which there has not been a significant increase in credit risk ("SICR") since initial recognition, ECL is determined based on the probability of default ("PD") over the next 12 months and the lifetime losses associated with such PD, adjusted for FLI. Stage 1 also includes financial assets where the credit risk has improved and the instrument has been reclassified from stage 2.

Use of alternative criteria could result in significant changes to the timing and amount of ECL to be recognised. Lifetime ECL is generally determined based upon the contractual maturity adjusted, where appropriate, for prepayments, extension, call and similar options, of the financial asset. For revolving facilities, the Company exercises judgement based on the behavioural, rather than contractual characteristics of the facility type. Stage 2 may include financial assets where the credit risk has improved and has been reclassified from stage 3.

(ii) Stage 3 – Lifetime ECL credit-impaired

Financial assets are classified as Stage 3 where they are determined to be credit impaired, which generally matches the definition of default. This includes exposures that are at least 90 days past due and where the obligor is unlikely to pay without recourse against available collateral.

The ECL for credit impaired financial assets is generally measured as the difference between the contractual and expected cash flows from the individual exposure, discounted using the EIR for that exposure. For credit-impaired exposures that are modelled collectively for portfolios of exposure, ECL is measured as the product of the lifetime PD, the loss given default ("LGD") and the exposure at default ("EAD"), adjusted for FLI.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 3. Significant accounting policies (continued)

(x) Impairment (continued)

Presentation of loss allowances

The ECL allowances are presented in the balance sheet as follows:

- loan assets, amounts due from other Macquarie Group entities, other loans measured at amortised cost – as a deduction to the gross carrying amount.
- undrawn credit commitments and financial guarantees (not measured at FVTPL) – as a deduction to the gross carrying amount of internal debtors.
- contract receivables and other assets measured at amortised cost - as a deduction to the gross carrying amount.

When the Company concludes that there is no reasonable expectation of recovering cash flows from the financial asset, and all possible collateral has been realised, the financial asset is written off, either partially or in full, against the related provision. Recoveries of loans previously written off are recorded based on the cash received.

Impairment of investments in subsidiaries

Investments in subsidiaries in the Company's financial statements are reviewed annually for indicators of impairment or more frequently if events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment is recognised in other impairment charges/reversal, for the amount by which the investment's carrying amount exceeds its recoverable amount, being the higher of fair value less costs to sell and value in use. At each reporting date, investments in subsidiaries that have been impaired are reviewed for possible reversal of impairment. The amount of any reversal of impairment recognised must not cause the investment's carrying value to exceed its original cost.

(xi) Called up share capital

Ordinary shares and other similar instruments are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the issue proceeds.

(xii) Rounding of amounts

All amounts in the Strategic Report, Directors' Report and Financial Statements have been rounded off to the nearest thousand pound sterling (£'000) unless otherwise indicated.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 4. Profit/(loss) before taxation

	2023 £'000	2022 £'000
Turnover

Auditors' remuneration		
- Fees payable to the Company's auditors for the audit of the Company ⁽¹⁾	(66)	(33)
Depreciation charges	(24)	-
Other administrative expenses	(3,006)	(3,432)
Total administrative expenses	(16,227)	(27,694)
Other operating income/(expenses)		
Foreign exchange gains/(losses)	1,086	(287)
Credit impairment reversals/(charges)		
- Fees receivable	(2,351)	-
- Amounts owed by other Macquarie Group undertakings	29	(39)
- Off balance sheet exposure	(23)	-
Net gain on investments ⁽¹⁾	-	69
Other operating income	(5)	-
Total other operating income/(expenses)	(1,264)	(257)
Interest		
Interest receivable and similar income from: ⁽²⁾		
Other Macquarie Group undertakings	372	318
Total interest receivable and similar income	372	318
Interest payable and similar expenses to: ⁽³⁾		
Other Macquarie Group undertakings	(6,113)	(6,650)
Total interest payable and similar expenses	(6,113)	(6,650)

⁽¹⁾Fees payable to the Company's auditors for current year includes £3,800 (2022: £2,000) relating to previous year.

⁽²⁾Includes interest income calculated using effective interest method of £372,000 (2022: £318,000) on the financial assets in the Company that are measured at amortised cost.

⁽³⁾Includes interest expense of £6,113,000 (2022: £6,650,000) on the financial liabilities measured at amortised cost.

The Company had no employees during the current and previous financial year.

Note 5. Tax on profit/(loss)

(i) Tax income included in loss

Current tax

UK corporation tax at 19% (2022: 19%)	2,228	3,161
Adjustment in respect of previous periods	(1,550)	(72)
Total current tax	678	3,089

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 5. Tax on profit/(loss) (continued)

	2023	2022
	£000	£000
Deferred tax		
Origination and reversal of temporary differences	(51)	(33)
Adjustment in respect of previous periods	2,457	-
Effect of changes in tax rates	760	62
Total deferred tax	3,166	29
Tax on profit/(loss)	3,844	3,118

(ii) Reconciliation of effective tax rate

The income tax credit for the year is lower (2022: lower) than the standard rate of corporation tax in the UK of 19% (2022: 19%).

The differences are explained below:

Profit/(loss) before taxation	383,782	(25,374)
Current tax charge at 19% (2022: 19%)	(72,918)	4,821
Effect of:		
Adjustment to tax charge in respect of prior periods	907	(72)
Non-deductible expenses	(905)	(1,793)
Non-assessable income	76,000	100
Effect of rate change	760	62
Total tax on profit/(loss)	3,844	3,118

The UK Government announced that from 1 April 2023 the corporation tax rate would increase to 25% (rather than remaining at 19%, as previously enacted). This new law was substantively enacted on 24 May 2021. Deferred taxes at the balance sheet date have been measured using these enacted tax rates and reflected in these financial statements.

Note 6. Dividends paid

Interim dividend paid to ordinary share holders	380,000	-
Total dividends paid (Note 14)	380,000	-

Note 7. Tangible assets

	Cost	Accumulated depreciation & impairment	Carrying Value
	£'000	£'000	£'000
As at 31 March 2023			
Assets for own use			
Furniture, fittings and leasehold improvements	91	(19)	72
Computer and communication equipment	28	(5)	23
Total assets for own use	119	(24)	95

The majority of the above amounts have expected useful lives longer than 12 months after the balance date.

The movement in the carrying value of the Company's tangible assets was as follows:

	Furniture, fittings & leasehold improvements	Computer & Communication Equipment	Total
	£'000	£'000	£'000
Assets for own use			
Balance as at 1 April 2022	75	-	75
Acquisitions/additions	16	28	44
Depreciation expense	(19)	(5)	(24)
Balance as at 31 March 2023	72	23	95

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 8. Investments in subsidiaries

	2023	2022
	Investments at cost with no provisions for impairment ⁽¹⁾	Investments at cost with no provisions for impairment ⁽¹⁾
	£'000	£'000
Opening balance	269,000	269,000
Return of capital	(134,500)	-
Closing balance	134,500	269,000

⁽¹⁾ In accordance with the Company's accounting policies, the Company reviewed its investments in subsidiary for indicators of impairment. Where its investments had indicators of impairment, the investments' carrying value was compared to its recoverable value which was determined to be its fair value less costs to sell (valuation). The valuations have been calculated using a valuation technique whose most significant inputs include the subsidiary's maintainable earnings, growth rates and relevant earnings multiples. A range of valuations of the investments in the subsidiaries, including associated stress tests, were used that demonstrated that no impairment loss was required to be recognised by the Company during the year.

The material subsidiaries of the Company, based on contribution to the Company's profit after income tax, the size of the investment made by the Company or the nature of activities conducted by the subsidiary, are:

Name of subsidiary	Nature of business	Place of incorporation	2023 %ownership	2023 £'000	2022 %ownership	2022 £'000
Green Investment Group Investments Limited	Holding Company	UK ⁽¹⁾	100%	134,500	100%	269,000
NieuweWind HoldCo Limited ⁽³⁾	Holding Company	UK ⁽²⁾	0%	-	100%	-
Fleete Group Limited ⁽⁴⁾	Business support	UK ⁽²⁾	100%	-	0%	-
Total				134,500		269,000

⁽¹⁾The registered address is Atria One, 144 Morrison Street, Edinburgh, EH3 8EX

⁽²⁾The registered address is Ropemaker Place, 28 Ropemaker Street, London, United Kingdom, EC2Y 9HD

⁽³⁾The Company's investment in the listed subsidiary was £100 as at 31 March 2022. The listed subsidiary was dissolved on 27 September 2022.

⁽⁴⁾The Company's investment in the listed subsidiary was £1 as at 31 March 2023.

All material subsidiaries have a 31 March reporting date.

Note 9. Debtors

	2023	2022
	£'000	£'000
Amounts owed by other Group undertakings ⁽¹⁾	46,564	4,263
Income tax receivables	2,226	3,163
Other debtors	1,302	1,162
Total debtors	50,092	8,588

⁽¹⁾Amounts owed by other Macquarie Group undertakings are unsecured and have no fixed date of repayment.

At the reporting date, amounts owed from other Macquarie Group undertakings has ECL allowance of £23,000 (2022: £31,000) and Other debtors has ECL allowance of £2,351,848 (2022: £4,631) which is net presented against the gross carrying amount.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 10. Deferred tax assets

	Fixed assets '£'000	Tax losses '£'000	Other assets and liabilities '£'000	Total '£'000
Deferred tax assets:				
Balance as at 1 April 2021		229	-	229
Deferred tax credited to profit and loss account for the period	-	29	-	29
Balance as at 31 March 2022	-	258	-	258
Deferred tax (charged)/credited to profit and loss account for the period	-	(43)	3,233	3,190
Balance as at 31 March 2023	-	215	3,233	3,448

	Fixed assets	Tax losses	Other assets and liabilities	Total
Deferred tax liabilities:				
Balance as at 1 April 2021	-	-	-	-
Deferred tax charged to profit and loss account for the period	-	-	-	-
Balance as at 31 March 2022	-	-	-	-
Deferred tax charged to profit and loss account for the period	(24)	-	-	(24)
Balance as at 31 March 2023	(24)	-	-	(24)
Total balance as at 31 March 2023	(24)	215	3,233	3,424

The above amounts are expected to be recovered after 12 months of the balance date by the Company.

In applying judgement in recognising deferred tax assets, management has assessed all available information, including future business profit projections. Management's assessment of the likely availability of future taxable profits against which to recover deferred tax assets is based on the most recent financial forecasts approved by management, takes into consideration the reversal of existing taxable temporary differences and past business performance.

Note 11. Creditors: amounts falling due within one year

	2023 £'000	2022 £'000
Amounts owed to other Group undertakings ⁽¹⁾	(3,818)	(1,100)
Accruals and deferred income	(689)	(5,080)
VAT Payable	(418)	(158)
Other creditors	-	(69)
Total creditors: amounts falling due within one year	(4,925)	(6,407)

⁽¹⁾Amount due to other Macquarie Group undertakings are unsecured and have no fixed date of repayment.

Note 12. Creditors: amounts falling due after more than one year

Amounts owed to other Group undertakings	-	(95,881)
Provisions for liabilities	-	(73)
Total creditors: amounts falling due after more than one year	-	(95,954)

The Company has not had any defaults of principal, interest or other breaches with respect to its debt during the financial years reported.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 13. Called up share capital

	2023	2022	2023	2022
	Number of shares	Number of shares	£'000	£'000
Ordinary share capital				
Opening balance of fully paid ordinary shares at £1 per share	140,000,100	100	140,000	-
Issue of 140,000,000 ordinary shares on 27 January 2022 at £1 per share	-	140,000,000	-	140,000
Closing balance of fully paid ordinary shares at £1 per share	140,000,100	140,000,100	140,000	140,000

Note 14. Profit and loss account

	2023	2022
	£'000	£'000
Balance at the beginning of the financial year	35,559	57,815
Profit/(loss) for the financial year	387,626	(22,256)
Dividends paid on ordinary share capital (Note 6)	(380,000)	-
Balance at the end of the financial year	43,185	35,559

Note 15. Capital management strategy

The Company's capital management strategy is to maximise shareholder value through optimising the level and use of capital resources, whilst also providing the flexibility to take advantage of opportunities as they may arise.

The Company's capital management objectives are to maintain sufficient capital resources to:

- support the Company's business and operational requirements; and
- safeguard the Company's ability to continue as a going concern.

Periodic reviews of the Company's capital requirements are performed to ensure the Company is meeting its objectives. Capital is defined as share capital plus reserves, including profit and loss account.

Note 16. Related party information

As 100% of the voting rights of the Company are controlled within the group headed by MGL, incorporated in Australia, the Company has taken advantage of the exemption contained in FRS 101 and has therefore not disclosed transactions or balances with entities which form part of the Macquarie Group. The consolidated financial statements of MGL, within which the Company is included, can be obtained from the address given in Note 19.

The Master Loan Agreement (the "MLA") governs the funding arrangements between various subsidiaries and related body corporate entities which are under the common control of MGL and have acceded to the MLA. The Tripartite Outsourcing Major Services Agreement ("TOMSA") governs the provision of intra-group services between subsidiaries and related body corporate entities other than certain excluded entities.

Relationships with an entity which is not a party to the MLA have been presented on a gross basis.

The Company does not have any related party transactions or balances other than those with entities which form part of the Macquarie Group as mentioned above and the advisory fee income described below. All transactions with related entities were made on normal commercial terms and conditions and at market rates except where indicated.

Green Investment Group Limited

Notes to the financial statements for the financial year ended 31 March 2023 (continued)

Note 17. Directors' remuneration

Director emoluments paid by the Company for the financial year ended 31 March 2023 were £nil (2022: £nil).

During the financial years ended 31 March 2023 and 31 March 2022, all Directors were employed by and received all emoluments from other Macquarie Group undertakings. The Directors perform Directors' duties for multiple entities in the Macquarie Group, as well as their employment duties within Macquarie Group businesses. Consequently, allocating their employment compensation accurately across all these duties would not be meaningful.

Note 18. Contingent liabilities and commitments

The following contingent liabilities and commitments exclude derivatives:

	2023	2022
	£'000	£'000
Contingent liabilities ^{(1),(2)}		
Guarantees ⁽¹⁾	-	2,385
Total contingent liabilities ⁽²⁾	-	2,385
Commitments:		
Forward asset purchases	-	125,534
Total commitments	-	125,534
Total contingent liabilities and commitments	-	127,919

⁽¹⁾ The Company includes guarantees to counterparties with respect to their exposures to certain subsidiary entities of the consolidated entity. The amount disclosed in the table above is the component of the guarantee value equivalent to the fair value of the underlying risk position at the reporting date.

⁽²⁾ It is not practicable to ascertain the timing of any outflow and the possibility of any reimbursement related to these contingent liabilities.

Note 19. Ultimate parent undertaking

At 31 March 2023 the immediate parent undertaking of the Company is UK Green Investment Bank Limited.

The ultimate parent undertaking and controlling party of the Company is MGL. The largest group to consolidate these financial statements is MGL, a Company incorporated in Australia. The smallest group to consolidate these financial statements is Macquarie Financial Holdings Pty Limited ("MFHPL"), a Company incorporated in Australia. Copies of the consolidated financial statements for MGL and MFHPL can be obtained from the Company Secretary, Level 6, 50 Martin Place, Sydney, New South Wales, 2000 Australia.

Note 20. Events after the reporting date

There were no material events subsequent to 31 March 2023 and up until the authorisation of the financial statements for issue, that have not been reflected in the financial statements.

Independent auditors' report to the members of Green Investment Group Limited

Report on the audit of the financial statements

Opinion

In our opinion, Green Investment Group Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2023 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Strategic Report, Directors' Report and Financial Statements (the "Annual Report"), which comprise: the Balance sheet as at 31 March 2023; the Profit and loss account and the Statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the year ended 31 March 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Companies Act 2006 and UK tax legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to the potential for manual journal entries being recorded in order to manipulate financial performance, and applying management bias in the determination of accounting estimates and judgements. Audit procedures performed by the engagement team included:

- Inquiries of management and those charged with governance, including review of meeting minutes in so far as they relate to the financial statements, and consideration of known or suspected instances of non-compliance with laws and regulation and fraud;

- Identifying and testing journal entries meeting specific criteria including consideration of journals posted by unexpected users or terminated users, unusual revenue transactions, journals posted by seldom users, journals containing keywords, and any late adjustment journals;
- Evaluation of management's controls designed to prevent and detect irregularities;
- Review of financial statement disclosures and testing to supporting documentation including assessment of compliance with laws and regulations;
- Challenging assumptions and judgements made by management in their accounting estimates; and
- Incorporating unpredictability into the nature, timing and extent of audit procedures performed.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.
