Pictured: Confluence Park at FivePoint Valencia in Valencia, Calif. At the heart of a master-planned residential network of approximately 4,000 homes integrated via pedestrian trails and electric vehicle pathways lies **Confluence Park**, a central recreation node overflowing with cutting-edge twenty-first century amenities. As the focal point of this innovative net zero community, the design, by architect AO, draws local inspiration from Vasquez Rocks Natural Area Park, a local geological feature formed by ancient plate tectonics. The iconic landforms inspired the sloping roofs of the community building and poolside structures. Photo courtesy AO
