ADDER TECHNOLOGY LIMITED

STRATEGIC REPORT

FOR THE YEAR ENDED 30 JUNE 2022

The directors present their strategic report for the year ended 30 June 2022.

Fair review of the business

The directors aim to present a balanced and comprehensive review of the development, performance and health of the group during the year, and of its position at the year end. The review is consistent with the size of the group and is written in the context of the perceived risks and uncertainties that the group faces.

A global market leader in connectivity solutions, Adder Technology enables the real-time control and management of distributed IT systems. With a presence in over 60 countries, Adder works with a network of distributors, resellers, and OEMs to connect millions of devices worldwide. Adder continues to strive to be a thought leader, driven to deliver excellence through innovation.

Whilst there have been significant challenges, Adder was nevertheless able to perform and deliver another very successful year, continuing to grow in both revenue and profit. We have continued to invest heavily in research and development, particularly of our Infinity high performance KVM system and technology. New endpoints have been developed and launched whilst significant innovation of the core Infinity system technology is allowing us to deliver new ground-breaking and highly innovative solutions to our customer base. This approach is allowing us to continue to win major projects against stiff competition in our marketplace. We also continued to add to our partnerships with additional distributors / resellers coming onboard. For the third year running, Adder has had Operations staff recognised in The Manufacturer Top 100 awards in the UK. Adder has also successfully put several members of the Operations team through Level 3 apprenticeships, utilising our UK apprenticeship levy fund. Finally, and very pleasing to see after Covid, Adder was once again 'on the road' to exhibit at various global trade shows, the first being NAB in USA in April 2022. It has been extremely positive to have these face-to-face interactions again with both old and new customers alike, which leads to building long term successful business relationships.

We believe that gross profit margin coupled with growing revenues are key metrics of success and underpin financial performance and strength of the group business. The group has performed strongly, with growth in revenue and profit despite challenging trading conditions. During the year turnover increased by 6.7% to £32.54 million whilst the gross profit margin changed from 69.3% in 2021 to 69.5% in 2022.

During this financial year, the impacts of Covid-19 lessened and although it still impacted our workforce, the severity decreased and is now at a manageable level. Considering that most of our staff are located in the UK, the BREXIT situation is also now in a steady state with minimal tangible impact to Adder's business. However, the business continues to monitor changes, for example, regulatory standards that are now independently controlled by the UK rather than the EU. As we've emerged from Covid-19 lockdowns, the business has continued to operate a hybrid working model with the ability of staff who can work effectively remotely to balance that with time in the office, which in general is working well.

Despite the above-mentioned impacts improving, other significant challenges have continued or arisen that the business has had to deal with. The most significant challenge has been severe supply chain disruption, particularly within the global semiconductor market. The business has continued to be extremely agile and adaptive to this situation, with a large amount of executive, engineering, and operational resource being channelled into ensuring we do our very best to meet our customers' delivery demands. During this period our sales order book grew to record levels, and a conscious strategic decision was made to drive demand for raw materials further into the future to secure supply of scarce components. This has inevitably led to rising inventory levels. The situation is now improving, with the order book gradually re-adjusting to more normal levels as lead-times reduce whilst the sales order intake remains strong.

The business has seen impact from rising input costs too, not only due to the semiconductor supply difficulties but also driven by high levels of inflation in most goods and services. In response to rising inflation, and therefore higher costs of living, the business has supported staff with two 6 monthly pay increases during the period too, instead of waiting for a whole year. Regrettably, it was found necessary to increase the price for many of our products to help cover these additional inflationary pressures.

The business is closely monitoring other global factors. Russia's invasion of Ukraine in February 2022 has meant all business connected to Russian end users has been paused for an indefinite period. This pause for the duration of the conflict has led to stopping sales to Russia and taking a small write-off of outstanding credit. With Adder's high dependence on semiconductors manufactured in Taiwan, the political unrest between China and Taiwan is also something we are acutely aware of but have no influence over.

ADDER TECHNOLOGY LIMITED

STRATEGIC REPORT (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2022

The results therefore display the group's ability to succeed in extremely challenging global and local economic conditions, benefitting from a proven business model built on agility and resilience. By developing, investing in, and growing a positive culture, Adder continues to strive for a united sense of purpose and ambition that reflects the diversity of the group's markets, as well as its agility to respond quickly to customer needs. Significant effort has been channelled into reviewing the vision for the business going forward, including looking at our technology and product roadmaps. We believe this work has placed us in a very solid position to drive forward in the coming years to maintain a strong growth trajectory. The group's commitment to research and development has continued, despite the challenges discussed, and will continue to do so in the future to ensure that the group remains at the leading edge.

The principal risks and uncertainties of the group are continually monitored by the directors, who seek to mitigate any such risks. The effective management of the semiconductor supply chain challenge is an example. The key business risks and threats to the group are primarily: macro-economic events, competition, reliable operation of our supply chains, and attracting and retaining a talented high calibre workforce. The group responds to these risks by continually developing the product range whilst maintaining a strong brand identity, efficient and agile management of unforeseen operating conditions, improving operational effectiveness and resilience, and a sharp focus on people as a competitive advantage.

The group operates on an international basis, continuing to serve its customers through strategically located sales and support centres. These provide localised services in the major time zones and languages. The group covers North America from offices covering East Coast (MA), Central (MO) and West Coast (CA), the Asia Pacific region from offices in Singapore, Shanghai, and Tokyo, EMEA from the group's headquarters in Cambridge, UK and offices in Germany, Spain, The Netherlands, France, and Belgium.

The group's growth is the product of a consistent strategy and vision together with the commitment, creativity, and integrity of a dedicated worldwide team. The group will continue to take the following strategic approach:

- Invest significantly in "breaking new ground" in the field of connectivity technology.
- Ensure the effective innovation of high-performance quality products.
- Continued investment in developing markets and revenue regions across the globe.
- Provide increasing levels of technical support and service to our customers.
- Continually invest in a high calibre, talented team of people.
- Invest in Continuous Improvement and Lean methodologies to pursue elimination of all 'waste' within the operation of the business, reducing complexity wherever possible.
- Remain agile so we can quickly adapt to changing environments, building in organisational resilience.

By focusing on these key strategies, the directors believe that the group can sustain long term organic growth. We expect that the group will continue to make further progress in the years ahead.

On behalf of the board

ADDER TECHNOLOGY LIMITED

DIRECTORS' REPORT

FOR THE YEAR ENDED 30 JUNE 2022

The directors present their report and financial statements for the year ended 30 June 2022.

Principal activities

The principal activities of the group continued to be those of design, development, manufacture and distribution of computer system connectivity solutions.

Results and dividends

The results for the year are set out on page 8.

Ordinary dividends were paid amounting to £1,800,000. The directors do not recommend payment of a final dividend.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

A C Dickens

N A Dickens

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company, and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the on the going concern basis unless it is inappropriate to presume that the group and company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Strategic report

The group has chosen in accordance with Companies Act 2006, s. 414C(11) to set out in the group's strategic report information required by Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008, Sch. 7. It has done so in respect of important events occurring since the year end date, research and development activities and branches of the company outside the UK.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the auditor of the company and group is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the auditor of the company and group is aware of that information.

ADDER TECHNOLOGY LIMITED

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF ADDER TECHNOLOGY LIMITED

Opinion

We have audited the financial statements of Adder Technology Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 30 June 2022 which comprise the group profit and loss account, the group statement of comprehensive income, the group balance sheet, the company balance sheet, the group statement of changes in equity, the company statement of changes in equity, the group statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 30 June 2022 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and parent company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the Strategic Report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

ADDER TECHNOLOGY LIMITED

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF ADDER TECHNOLOGY LIMITED

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and the parent company and their environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Directors' Responsibilities Statement set out on page 2, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Extent to which the audit was considered capable of detecting irregularities

We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and then design and perform audit procedures responsive to those risks, including obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. However, responsibility for the prevention and detection of fraud ultimately rests with both those charged with governance and management of the group and company.

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, our procedures included the following:

- obtaining an understanding of the legal and regulatory framework applicable to the company by considering the nature of the industry in which the group and company operates and enquiring of management; and
- identifying the key laws and regulations considered to have a direct impact on the financial statements including the UK Companies Act 2006, UK Generally Accepted Accounting Practice and UK tax legislation; and
- assessing how the company is complying with the applicable legal and regulatory framework by making further enquiries of management and observing the group's and company's control environment regarding compliance with regulations and fraud prevention; and

ADDER TECHNOLOGY LIMITED

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

TO THE MEMBERS OF ADDER TECHNOLOGY LIMITED

- assessing the susceptibility of the company's financial statements to material misstatement, including how fraud might occur, by considering the effectiveness of the group's and company's accounting systems and controls and how these were monitored by management. Where the risk of material misstatement was considered to be higher in certain areas, further audit procedures were designed to address this increased risk; and
- discussing amongst the engagement team how and where fraud might occur in the financial statements and any potential indicators of fraud

Audit response to risk of irregularities identified

Our procedures to respond to risks identified included the following:

- reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations; and
- enquiry of staff responsible for compliance to identify any instances of non-compliance with laws and regulations; and
- enquiry of management, those charged with governance and other relevant parties around actual and potential litigation claims; and
- performing audit work over the risk of management override of controls, including testing of journal entries and other adjustments for appropriateness, evaluating the business rationale of significant transactions outside the normal course of business and reviewing accounting estimates for bias; and
- performing audit work over revenue recognition including substantive tests of detail on a sample of revenue transactions; and
- communicating identified laws and regulations and potential fraud risks to all engagement team members and assessing whether there are any indications of fraud or non-compliance with laws and regulations throughout the audit.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities is available on the Financial Reporting Council's website at:

<https://www.frc.org.uk/auditors/audit-assurance/auditor-s-responsibilities-for-the-audit-of-the-fi/description-of-the-auditor%e2%80%99s-resp>

This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

ADDER TECHNOLOGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2022

1 Accounting policies

Company information

Adder Technology Limited ("the company") is a private limited company domiciled and incorporated in England and Wales. The address of the registered office and the place of business is given in the company information page of these financial statements.

The group consists of Adder Technology Limited and all of its subsidiaries ("the group").

1.1 Basis of preparation

These financial statements have been prepared in accordance with applicable accounting standards including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention, modified to include investment properties at fair value. The principal accounting policies adopted are set out below. These policies have been consistently applied to all years presented unless otherwise stated.

The company is a qualifying entity for the purposes of FRS 102, being a member of a group where the parent of that group prepares publicly available consolidated financial statements, including this company, which are intended to give a true and fair view of the assets, liabilities, financial position and profit or loss of the group. The company has taken advantage of the exemption from preparing a statement of cash flows on the basis that the group statement of cash flows, included in these financial statements, includes the company's cash flows.

1.2 Basis of consolidation

The consolidated financial statements incorporate those of Adder Technology Limited and all of its subsidiaries (ie entities that the group controls through its power to govern the financial and operating policies so as to obtain economic benefits). All financial statements are made up to 30 June 2022. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by other members of the group.

All intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Any subsidiary undertakings or associates sold or acquired during the year are included up to, or from, the dates of change of control or change of significant influence respectively.

Where control of a subsidiary is achieved in stages, the initial acquisition that gave the group control is accounted for as a business combination. Thereafter, where the group increases its controlling interest in the subsidiary, the transaction is treated as a transaction between equity holders. Any difference between the fair value of the consideration paid and the carrying amount of the non-controlling interest acquired is recognised directly in equity. No changes are made to the carrying value of assets, liabilities or provisions for contingent liabilities.

1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business (net of VAT) and by reference to the date that goods are despatched as this is the point that all risks and rewards are deemed to be transferred.

ADDER TECHNOLOGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2022

1 Accounting policies (Continued)

1.4 Research and development expenditure

Research and development expenditure is written off to the profit and loss account in the year in which it is incurred.

1.5 Intangible fixed assets - goodwill

Goodwill arising on the acquisition of subsidiary undertakings, representing the excess of the fair value of the consideration given over the fair value of identifiable assets and liabilities acquired, is capitalised and written off on a straight line basis over its useful economic life, which is 20 years. Provision is made for any impairment.

Software licences	20% per annum on cost
-------------------	-----------------------

1.6 Tangible fixed assets

Tangible fixed assets are measured at cost, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives on the following bases:

Freehold buildings	No depreciation or 2% per annum of cost
Leasehold alterations	Over the lease period
Fixtures, fittings & computer equipment	20% or 33.33% per annum of cost

The estimated residual value of certain freehold buildings is such that their depreciable amount is insignificant. Accordingly, no depreciation is charged on certain freehold buildings. No depreciation is provided in respect of freehold land.

1.7 Investment properties

Investment property, which is property held to earn rentals and/or for capital appreciation, is initially recognised at cost, which includes the purchase cost and any directly attributable expenditure. Subsequently it is measured at fair value at the reporting end date. Changes in fair value are recognised in profit or loss.

1.8 Fixed asset investments

In the parent company financial statements, investments in subsidiaries are initially measured at cost and subsequently measured at cost less any accumulated impairment losses.

1.9 Impairment of fixed assets

At each reporting period end date, the group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset, or the asset's cash generating unit, is estimated and compared to the carrying amount in order to determine the extent of the impairment loss (if any). Where the carrying amount exceeds its recoverable amount, an impairment loss is recognised in the profit and loss account unless the asset is carried at a revalued amount where the impairment loss is a revaluation decrease.

1.10 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct material costs. Provision is made for damaged, obsolete and slow-moving stock where appropriate.

1.11 Financial instruments

Financial instruments are recognised in the group's balance sheet when the group becomes party to the contractual provisions of the instrument.

ADDER TECHNOLOGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 30 JUNE 2022

1 Accounting policies (Continued)

Debtors and creditors with no stated interest rate and receivable or payable within one year are measured at transaction price. Any losses arising from impairment are recognised in the profit and loss account.

1.12 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. The group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

1.13 Employee benefits

When employees have rendered service to the company, short-term employee benefits to which the employees are entitled are recognised at the undiscounted amount expected to be paid in exchange for that service.

1.14 Retirement benefits

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

1.15 Leases

Rental income from operating leases is recognised on a straight line basis over the term of the relevant lease.

Rentals payable under operating leases are charged to the profit and loss account on a straight line basis over the term of the relevant lease.

1.16 Government grants

Government grants are recognised at the fair value of the asset received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

A grant that specifies performance conditions is recognised in income when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability.

ADDER TECHNOLOGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 30 JUNE 2022

1 Accounting policies (Continued)

1.17 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation are included in the profit and loss account for the period.

The trading results of overseas group undertakings are translated into sterling at the average exchange rates for the year. The assets and liabilities of overseas group undertakings are translated at the exchange rates ruling at the year end. Exchange adjustments arising from the retranslation of opening net investments and from the translation of the profits or losses at average rates are recognised in 'Other comprehensive income'.

2 Judgements and key sources of estimation uncertainty

In the application of the group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Key sources of estimation uncertainty

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows:

Stock provision

Provision is made for damaged, obsolete and slow moving stock where appropriate. This requires estimation of anticipated future sales.

3 Turnover and other revenue

An analysis of the group's turnover is as follows:

	2022	2021
	£	£

FOR THE YEAR ENDED 30 JUNE 2022

19	Deferred taxation	(Continued)	
		Assets	Assets
		2022	2021
		£	£
	Company		
	Accelerated capital allowances	(88,531)	(82,870)
	Tax losses	1,787,982	1,871,957
	Revaluations	(194,814)	-
	Other timing differences	27,018	23,740
		<u>1,531,655</u>	<u>1,812,827</u>
		<u>1,531,655</u>	<u>1,812,827</u>
		Group	Company
		2022	2022
		£	£
	Movements in the year:		
	Liability/(asset) at 1 July 2021	(1,813,821)	(1,812,827)
	Charge to profit or loss	86,282	86,358
	Charge to other comprehensive income	194,814	194,814
		<u>(1,532,725)</u>	<u>(1,531,655)</u>
		<u>(1,532,725)</u>	<u>(1,531,655)</u>
20	Retirement benefit schemes		
		2022	2021
		£	£
	Defined contribution scheme		
	Charge to profit or loss in respect of defined contribution scheme	1,036,044	874,625
		<u>1,036,044</u>	<u>874,625</u>
		<u>1,036,044</u>	<u>874,625</u>

A defined contribution pension scheme is operated for all qualifying employees. The assets of the scheme are held separately from those of the group in an independently administered fund.

21	Share capital	Group and company	
		2022	2021
		£	£
	Ordinary share capital		
	Issued and fully paid		
	100 Ordinary shares of £1 each	100	100
		<u>100</u>	<u>100</u>
		<u>100</u>	<u>100</u>

There is a single class of ordinary shares. There are no restrictions on the distribution of dividends and the repayment of capital.

22	Reserves		
	Revaluation reserve		
	The revaluation reserve comprises revaluation surpluses for certain freehold properties net of associated deferred tax on these surpluses.
