Top 50 Electronics Distributors 2023 - #29 Direct Components

July 18, 2023

About Direct Components

Based in Tampa, Florida, Direct Components is one of the fastest growing independent distributors in the world. Making connections between OEMs, CMs, EMS companies, and distributors, DCI has helped solve complex sourcing challenges within the components industry since 1998. As an independent stocking distributor, DCI excels at sourcing hard to find components, ensuring quality, and prioritizing the integrity of our parts and services. For more information visit www.directics.com

What makes Direct Components stand out?

- OVER 1 million components in-house
- Deep relationships with clients to ensure peak problem-solving efficiency
- Extensive global network of approved suppliers
- Expertise in hard-to-find and obsolete parts
- Access to topline manufacturers like Texas Instruments, NXP, ST Micro, and Altera
- ISO9001, ANSI/ESD and AS9120 certified
