Eraneos reports moderate growth in 2024 and strengthens international positioning

10 Apr 2025

Zurich, April 10, 2025 – Eraneos, the European consulting group for strategy, transformation and technology, achieved moderate growth in the 2024 financial year despite a challenging market environment. The firm reported revenues of EUR 263 million. representina a

This reflects successful client development, intensified international collaboration, and strategic expansion efforts.

Eraneos continued to solidify its position as a challenger in the consulting industry in 2024. Despite economic uncertainties, the firm successfully expanded its reach and impact – driven by deep expertise, a “boutique at scale” approach, a clear focus on fast-evolving domains such as Data & AI, and the continuous development of client relationships.

Client focus and international expansion as growth drivers

To provide even more targeted support for value-generating transformations, Eraneos further aligned its service portfolio in 2024 along the key stages of successful transformation – from strategy through to execution. A continued priority is fostering close collaboration and active knowledge-sharing across the international Eraneos network, ensuring deep business insight and access to top tech talent for every project.

Another milestone was the establishment of a new office in the United Kingdom, further strengthening the group’s international footprint and expanding its cybersecurity offering. In Switzerland, the integration of boutique

“2024 was a year of focus and further development for Eraneos. We demonstrated that we can grow even under challenging conditions – with a clear value proposition, strong international collaboration, and the trust of our clients,” summarizes Oliver Vaterlaus, CEO Eraneos Group.

Outlook 2025

In 2025, Eraneos continues on its growth trajectory. The acquisition of Danish strategy consultancy Hildebrandt & Brandt in February 2025 underscores the group’s commitment to international expansion and the strengthening of core competencies such as Strategy, Data & AI, and Cybersecurity. With further growth initiatives underway, Eraneos is set to increase its scale, continue building momentum, and deliver even more comprehensive support to internationally operating clients.
