**NOTES TO THE FINANCIAL STATEMENTS  
for the Year Ended 31st December 2024**

**1. STATUTORY INFORMATION**

Signum Solutions Limited is a private company limited by share capital, incorporated in England and Wales, registration number 04900744. The address of the registered office and principle place of business is The Innovation Centre Sci-Tech Daresbury, Keckwick Lane Daresbury, Warrington, WA4 4FS.

**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

**Turnover**

Turnover is measured as the fair value of the consideration received or receivable, excluding value added tax from business and domestic software support and maintenance.

**Tangible fixed assets**

Fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation on fixed assets is charged to the profit and loss so as to write off their value, over their estimated useful lives, using the following methods:

Fixtures and fittings	- 15% on reducing balance
Computer equipment	- 30% on cost

At each balance sheet date, the Company reviews the carrying amounts of its tangible fixed assets to determine whether there is any indication that any items of tangible fixed asset have suffered an impairment loss. If any such indication exists, the recoverable amount of an asset is estimated in order to determine the extent of the impairment loss, if any. Where it is not possible to estimate the recoverable amount of the asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment loss is recognised as an expense immediately.

**Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

The obligations for contributions to defined contribution scheme are recognised as an expense as incurred. The assets of the scheme are held separately from those of the Company in an independent administered fund.

**NOTES TO THE FINANCIAL STATEMENTS - continued
