# SUSTAINABILITY

Presidio is committed to sustainability across all facets of our operations. Actively working towards a more sustainable future for businesses and communities, we've set the following goals:

- ▶ By 2025, we aim to reduce our e-waste generation through recycling and reuse efforts. Our target is to increase our e-waste landfill diversion rate from 50% to 75% between 2022 and 2025.
- ▶ Additionally, we aim to reduce our Scope 1 and Scope 2 emissions (e.g., emissions associated with fuel combustion in boilers, furnaces, vehicles) by 20% compared to the 2022 baseline by 2025. This will be achieved through a combination of strategies, including reducing our physical office space footprint and enhancing the energy efficiency of our buildings.
